☞ Table Clearings by Telegraph and Canadian Clearings on Page 34.

On subsequent pages of the "Chronicle" we print to-day our usual annual review of the events and incidents of the year, and also give elaborate tables of prices of stocks and bonds by months.

On account of the pressure on our columns occasioned by the large amount of extra matter, it has been found necessary to contract the space devoted to our various departments, notwithstanding the addition of a considerable number of pages to the usual size of the paper.

We would also direct attention to the tables of stock and bond prices contained in our "Bank and Quotation" Supplement, which accompanies to-day's issue of the paper. These tables show the highest and lowest prices for December and the calendar year of every stock and bond sold on the New York Stock Exchange, and also the aggregate amount of the dealings for the twelve months in each stock and bond.

CHRONICLE INDEX.

The index to Volume 83 of the "Chronicle"—which volume ended with the issue of December 29—will be sent to our subscribers with next Saturday's number, January 12.

THE FINANCIAL SITUATION.

The first business day of the new year took up and formed a junction with the chief disturbing features as they existed at the points where the last day of the old year left them. This, it may be said, was the case in considerable measure not only with regard to money, but with respect to the tone prevailing on the Exchange and the variations in values occurring after the usual fluctuations during that day. In those particulars the turn from the old to the new year showed no alteration in the outlook; on the contrary, the main setbacks operators had been struggling with during past months indicated very little let up.

There was another point of union on Wednesday between the old and the new, which in some of its aspects wore a much more promising look than the foregoing. Foreign exchange netted on Wednesday material advances. This was like in character to the development on Monday; but on that day it had been a decidedly new feature in the market. Indeed, exchange rates had previously and for a long time been ruling notably low; so low that last week it was stated that large purchases of long exchange bills for investment account were being made, as there was a decided profit in carrying them until maturity; moreover, the first of January interest payments owing by America to Europe reached, we may assume, this year abnormal figures, and consequently for that reason also a rise in the selling rate for exchange was a natural development, and as at the same time it put a rest for the present to the likelihood of gold imports from London, or rather, we might say, to the possibility of such a movement, it helped to produce the conspicuously bright and buoyant conditions which attended the first business day of the new year at London. The cable reported on that day money in London was abundant, rates were easy, discounts were weaker, consols rose 3/8, while Kaffirs and other British securities advanced. Very much the same reports came from Paris and Berlin, altogether affording a glowing picture compared with the outlook in New York.

When the foregoing situation in Europe is put beside the strained and mysterious state of the monetary situation here, and beside the marvelous prosperity the most of our industries are continuing to show, it is perhaps no surprise that many fix upon New York, and an unaccountable derangement there, as the centre and source of all the perplexity in the country. Secretary Shaw frequently reaches that conclusion. We notice that Mr. Stuyvesant Fish this week expressed a similar view. He says that the trouble we are having "is because New York, especially that part of it known as Wall Street, has absorbed and is absorbing more than its share of the loanable fund." Capital belongs to the capitalists of America, not to Wall Street, and if investors choose in the exercise of their free will to use it there, it would seem to be a legitimate transaction, not contraband. We know no place that is "absorbing more of the loanable fund than its share" except the Sub-Treasury, and that is Mr. Shaw's fault, in no degree the fault of the traders of New York.

But Mr. Fish adds: "The investing public are and remain out of the market not because of ventures in industrials, in electric railways or suburban real estate —the speculation in each of which was checked months ago—nor yet because of the more recently pricked bubble in mining shares, but simply because of the distrust which even those possessed of ample means have of the methods of corporate finance now in vogue in New York." That criticism might be accepted if applied to a few specified companies, but to make it applicable to the whole body of securities, or any considerable portion of the total dealt in at the New York Exchange, is clearly inaccurate. Then, too, what reason is there for saddling New York with the wrongdoings of every institution in the land? A comparatively few of them are creatures of this commonwealth. Hence if we should admit that corporations are highly sinful and act as deterrents to investors—which at the moment we are not ready to do—their shortcomings would be as rightly chargeable to the New England, the Middle Western and the Western States as to this centre.

Obvious reasons can be named why there has been a scare among investors and why they remain out of the market. The course of political events and Congressional action respecting corporations, urged on by our highest officials, tending materially to weaken the values of the whole body of securities, makes the situation plain enough without seeking farther for cause of the flight. This week, however, that hostility has been given fresh manifestation in the announcement from Washington that the Government will press an appeal against the decision of Judge Evans in the Federal Court at Louisville and that by Judge McCall of the United States District Court at Memphis, declaring the Employers' Liability Act unconstitutional. Justification for this statute was claimed by the Government to be found in the inter-State commerce provision of the United States Constitution, and though the Government was not directly interested as a party to these cases, yet it asked and received permission to intervene.

As stated above, two Federal Judges have this week declared the statute unconstitutional. This Act was intended to make it possible for railroad employees in case of injury, or their families in case of death, to recover substantial sums in damages from the roads,

even if the injury or death was the result of contributory negligence on the part of the employee; but of course the Federal Judges in their decisions do not go into the merits of the measure. They put their conclusions against the constitutionality of the law on the broad ground that it is beyond the power of Congress to enact a statute of that kind. The Act is simply an attempt to regulate the relations between carriers and their employees. The decision by Judge Evans was given in the case of the Administratrix of the estate of Morris S. Brooks against the Southern Pacific Railroad Company. Judge Evans holds the Act unconstitutional because it would regulate commerce wholly *within* the States. He says:

"A most patient consideration of the question in this instance has led to the conclusion—we think to the inevitable conclusion—that the Act of June 11 1906 only creates and imposes liability upon certain common carriers to their employees and in no way prescribes rules for carrying on traffic or commerce among the States, and consequently in no way regulates such commerce. If the operation of the Act could in any way affect commerce among the States, it would do so in a manner so remote, incidental and contingent as in no proper sense to afford a factor of any value in determining the question now in contention. Indeed, it may be said that it is obvious that Congress, in the Act referred to, had in contemplation no more than the creation of the liability mentioned, and it would be a most strange construction to hold that it included anything broader than that. Creating new liabilties growing out of the relations of master and servant on the one hand, and regulating commerce on the other, are two things so entirely different that confusion of the judicial mind upon them is hardly to be expected under normal conditions. In the opinion of the Court, the Act does not regulate commerce among the States."

The other decision was given by Judge McCall in the Federal Court at Memphis. The case was that of Damselle Howard against the Illinois Central Railroad Company. Judge McCall said he was unable to bring his mind to the conclusion that the liability of a common carrier to its employees for injuries is inter-State commerce or commerce of any character within the meaning of the commerce clause of the Constitution. In his opinion, Congress is not authorized under this clause to enact such legislation, "for the reason that the relation of inter-State common carriers engaged in inter-State trade or commerce to their employees and their liability to them in damages for injuries sustained in their employment as the result of the negligence of any of its officers, agents or employees, or by reason of any defects or insufficiency due to its negligence in its cars, engines, appliances, machinery, track, roadbed, ways or works, is not commerce within the meaning of the Constitution."

One of the favorable events of the week was the announcement by the Delaware & Hudson Co. that dividends during 1907 would be on a basis of 9% per annum as against the previous payments of 7% per year. On the other hand, quite a number of returns of railroad earnings for the month of November have been made public this week, and have shown decreases in net even where the gross were recording very considerable gains. The matter is of importance in its bearing upon the future in view of the increases in wages which are now being announced and the steady rise in the prices of materials and supplies. The Southern Pacific and the Union Pacific continue to form striking exceptions to the rule, the former reporting for the month $1,606,019 increase in gross with $1,219,714 increase in net, and the Union Pacific $537,061 gain in gross with $405,615 gain in net. Barring these, however, most of the roads have losses in net. The Canadian Pacific shows gross of $6,234,583 against $5,741,543, but net of $2,263,123 against $2,361,311; the Southern Railway gross of $4,724,443 against $4,597,838, with net of $1,119,255 against $1,371,035; the Atlantic Coast Line gross of $2,259,375 against $2,115,770 and net of $604,757 against $774,422; the Colorado & Southern gross of $1,158,503 against $1,063,681, with net of $328,458 against $353,704; the Norfolk & Western gross of $2,563,640 against $2,299,304, with net of $924,484 against $942,709; and the Illinois Central gross of $4,630,897 against $4,588,622, with net of $1,342,188 against $1,613,743.

Perhaps the most striking illustration of all is furnished by the Pennsylvania Railroad. On the lines directly operated East of Pittsburgh and Erie this large system shows $605,400 gain in gross with only $104,500 increase in net, while on the lines directly operated West of Pittsburgh a gain of $531,800 in gross is attended by a decrease of $107,200 in net. In other words, the combined Eastern and Western lines added $1,137,200 to their gross revenues but at the same time increased expenses by $1,139,900. This, it is well enough to say, is before the 10% increase recently made in the wages of its employees, but which did not become effective until Dec. 1. It is only proper to add, however, that for November the Pennsylvania is comparing with extraordinarily favorable results in the previous year—the November statement in 1905 for the combined lines having shown no less than $3,018,700 improvement in gross and $1,399,000 improvement in the net on top of large gains in the years immediately preceding. In the following we compare the gross and net earnings for the last six years on the lines East of Pittsburgh and Erie—the only portion of the system for which we have the data for such a comparison:

Lines East of Pittsb.	1906.	1905.	1904.	1903.	1902.	1901.
November.	$	$	$	$	$	$
Gross earn	13,121,717	12,516,317	10,453,525	9,799,925	9,465,825	8,774,325
Oper. exp.	8,767,803	8,266,903	7,102,473	6,776,473	6,719,773	5,356,673
Net earn..	4,353,914	4,249,414	3,351,052	3,023,452	2,746,052	3,417,652
Jan. 1 to Nov. 30.						
Gross earn	135,214,273	121,951,873	108,047,419	113,398,219	103,133,919	93,023,720
Oper .exp.	92,732,071	84,992,071	74,295,204	77,751,404	67,820,104	59,734,205
Net earn..	42,482,202	36,959,802	33,752,215	35,646,815	35,313,815	33,289,515

There was no change in official rates of discount by any of the European banks this week; compared with last week unofficial or open market rates were 1% lower at London and ¼ of 1% at Berlin and Frankfort and steady at Paris.

The market for money opened after the first of January about as it closed Monday. The payments last week of interest by the New York Central, the St. Paul and the Chicago & North Western railroad companies in advance of its maturity resulted in the distribution of a considerable sum of money, which was most likely promptly deposited in local banks by its recipients, and therefore it became available for loans. Speculation on the Stock Exchange was again this week, as was the case last week, restricted in vol-

ume, so that the demand for money was moderate.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 45% and at 2%, averaging about 15%; banks and trust companies loaned at 5% as the minimum. On Monday loans were at 45% and at 18% with the bulk of the business at 25%. On Wednesday transactions were at 20% and at 5% with the majorlty at 15%. On Thursday loans were at 14% and at 2% with the bulk of the business at 8%. On Friday transactions were at 6% and at 5% with the majority at 5½%. Time loans on good mixed Stock Exchange collateral were quoted at 7% for thirty to sixty days and 6½@7% for ninety days, 6@7% for four and 6@6½% for five to six months. Some transactions for considerable amounts were reported to have been made by institutions on choice collateral at 6% for six months. Commercial paper is still quoted nominally at 6@6½% for sixty to ninety day endorsed bills receivable, 6@6½% for prime and 6½@7% for good four to six months' single names; the business reported is for comparatively small amounts.

The Bank of England rate of discount remains unchanged at 6%. The cable reports discounts of sixty to ninety day bank bills in London 5%. The open market rate at Paris is 3@3½% and at Berlin and Frankfort it is 5⅛@5¼%. According to our special cable from London, the Bank of England gained £1,218,368 bullion during the week and held £30,282,846 at the close of the week. Our correspondent further advises us that the gain was due primarily to large purchases in the open market and important receipts from the interior of Great Britain. The details of the movement into and out of the Bank were as follows: Imports, £1,813,000 (of which £610,000 from Paris, £250,000 from Egypt, £5,000 U. S. coin and £948,000 bought in open market); exports, £1,210,000 (of which £1,000,000 to India, £200,000 to South America and £10,000 to Egypt), and receipts of £615,000 *net* from the interior of Great Britain.

The foreign exchange market was very active, with a most remarkable advance by Wednesday, especially in short, followed by a feverish fall and thereafter by a stronger tone; closing rates were at the highest of the week. The rise was in part due to purchases made for investment the previous week at the very low rates ruling and to efforts to cover exchange which had been speculatively sold in expectation of the maintenance of high rates for money, and consequently of low exchange, in the near future. This covering movement appears to have resulted in an overbought market, and, in the absence of a good demand for remittance by Thursday's steamer, the tone became unsettled; later, however, there was urgent buying for Saturday's mail. The demand for sight bills began to be active on Monday, when they were in request for remittance in settlement for American securities which had been returned from Europe as the result of the recent disturbance in our stock market. There was also a demand to remit January dividends and interest on investment properties held abroad. The disclosure of the fact, through this inquiry for exchange, that the market was insufficiently supplied, had much influence in stimulating the above-noted covering movement on Wednesday. The fall in discounts in London—which seemed to be due to the increased reserves of the Bank of England, through purchases of South African and French gold, and the return of money from the interior—directly influenced long sterling by making it preferable to short for remittance; the comparative scarcity of commodity bills was another factor. Cables advanced in sympathy with the movement in short and not so much because of the demand therefore.

Nominal quotations for sterling exchange are 4 80½@4 81½ for sixty day and 4 85½@4 86 for sight. On Saturday of last week the market was firm, with long strongest, and, compared with the previous day, there was an advance therein of 50 points to 4 7870@4 7875, while short and cables were 5 points lower, the former at 4 8270@4 8275 and the latter at 4 8405@4 8410. On Monday there was a strong market, long rising 25 points to 4 7875@4 79, short 80 points to 4 8350@4 8360 and cables 65 points to 4 8450@4 8475. On Wednesday the movement was excited and the tendency sharply upward, with an advance of 100 points in long to 4 7990@4 80, of 120 points in short to 4 8475@4 8480 and of 125 points in cables to 4 8575@4 8580. On Thursday the tone was feverish, with long 25 points higher at 4 80@4 8025, short 30 points lower at 4 8440@4 8450 and cables 35 points at 4 8540@4 8550. The market was quite strong on Friday at the best figures for the week and long rose 75 points, and short and cables 50 points.

The following shows daily posted rates for sterling exchange by some of the leading drawers:

		Fri., Dec. 29.	Mon., Dec. 31.	Tues., Jan. 1.	Wed., Jan. 2.	Thurs., Jan. 3.	Fri., Jan. 4.
Brown Brothers & Co	60 days	4 79	79		80½	80½	81½
	Sight	4 84	84		85	85	86
Baring & Co	60 days	4 79	79		80	80½	80½
	Sight	4 84	84		85	85½	85½
Bank British North America	60 days	4 79	79	H	80	80	80½
	Sight	4 84	84	O	85	85	85½
Bank of Montreal	60 days	4 79	79	L	79½	80½	81
	Sight	4 84	84	I	84½	85½	85½
Canadian Bank of Commerce	60 days	4 79	79	D	80	80	80½
	Sight	4 84	84	A	85	85	85½
Heidelbach, Ickelheimer & Co	60 days	4 79	79	Y	80½	80½	81½
	Sight	4 84	84		85	85	86

	Sight	4 84	84		85	85	86
Merchants' Bank of Canada	60 days	4 79	79		80	80½	80½
	Sight	4 84	84		85	85½	85½

The market closed on Friday at 4 8075@4 81 for long, 4 8490@4 85 for short and 4 8585@4 86 for cables. Commercial on banks 4 8010@4 8020 and documents for payment 4 79½@4 80¼. Cotton for payment 4 79½@4 79¾, cotton for acceptance 4 8010@4 8020 and grain for payment 4 80@4 80¼.

The following gives the week's movement of money to and from the interior by the New York banks:

Week ending January 4 1907.	*Received by N. Y. Banks.*	*Shipped by N. Y. Banks.*	*Net Interior Movement.*
Currency	$8,911,000	$5,054,000	Gain $3,857,000
Gold	1,643,000	847,000	Gain 796,000
Total gold and legal tenders	$10,554,000	$5,901,000	Gain $4,653,000

With Sub-Treasury operations the result is as follows:

Week ending January 4 1907.	*Into Banks.*	*Out of Banks.*	*Net Change in Bank Holdings.*
Banks' interior movement as above	$10,554,000	$5,901,000	Gain $4,653,000
Sub-Treasury operations	24,500,000	21,000,000	Gain 3,500,000
Total gold and legal tenders	$35,054,000	$26,901,000	Gain $8,153,000

The following table indicates the amount of bullon in the principal European banks:

Bank of	January 3 1907.			January 4 1906.		
	Gold.	Silver.	Total.	Gold.	Silver.	Total.
	£	£	£	£	£	£
England	30,282,846		30,282,846	28,748,593		28,748,593

THE NEW AMBASSADOR FROM ENGLAND.

We are inclined to regard the appointment of Mr. James Bryce as Ambassador from Great Britain to the United States as a matter of very considerable importance. For one thing, it marks the abandonment, so far as regards the United States, of Great Britain's traditional policy in the naming of diplomatic officers. Properly enough, the rigid practice of the English diplomatic service has hitherto been that of promotion through merit in the service. As a result of this, while by no means all who had mounted half way up the ladder could expect to reach the top rounds, nevertheless those desirable assignments could not be within the grasp of any who had not served in the smaller posts. This rule was elastic enough to have provided Great Britain with many diplomatic representatives of conspicuous ability; that, however, being largely due to the fact that Continental politics and diplomacy, during many years, have been such that the proper and natural education for an ambassadorship at one capital of Europe was service in the Embassy at another.

But what the British Government has not hitherto appeared to understand was that this rule hardly applied in the case of the United States. A perfectly equipped Ambassador at St. Petersburg or Vienna might be very illy equipped for Washington. The result has been that, although the British Ambassadors at Washington have uniformly been men of ability and experience, they have rarely been diplomats, with the power of impressing their personality upon the American people as well as the American Government, and they have too frequently followed in the routine lines of what may be called Continental diplomatic tradition.

Such a result was natural, in view of the traditions on which the diplomatic service of England was built up. The strange part of the matter is that England never seemed to recognize what opportunities she was losing by this adherence to the rule of diplomatic succession and promotion, or that she was overlooking such chances at the very moment when the United States was availing itself to the utmost of the advantages presented by the opposite plan of appointment. Precisely how the practice originated of sending intellectual men, authors or eminent lawyers—unskilled in the practice of diplomacy—to such a post as London, may not, perhaps, be altogether clear. Our traditions, to begin with, were against a diplomatic class and in favor of equal opportunity. Probably, also, national vanity—the national sensitiveness at a time when Sidney Smith asked "Who reads an American book?" and when comments by a critical foreign traveler wounded the feelings of Americans—had a considerable hand in the matter. Much as our people professed to dislike the English during a good part of our early history, nevertheless the ties of blood and language retained their usual strong influence, and at bottom it was always England's respect and good opinion of which we were honestly most covetous. This being so, it was natural that, when the choice of a representative to England was at stake, our Presidents should name, our Senate approve, and our people applaud, such men as were qualified by their personal talents and literary or professional achievements to make the most distinguished showing possible.

This is, at all events, a reasonable explanation of the long series of excellent appointments typified by such Ministers to England as Mr. C. F. Adams, Mr. Lowell, Mr. Phelps and Mr. Choate. The fact that we had in our own diplomatic service no such tradition as the English had long observed—so much so that our high diplomatic places were very largely the rewards of party politics—made it more easy still to select one position which should not be exposed to the hazards of unfit representation. However this may be, the good results of this sort of representation very soon showed themselves. It was manifest, many years ago, that American Ambassadors of the type which we have described were persona grata, not only at the Court of St. James but with the British people as a whole. Let it be noticed that this advantageous position enjoyed with the British people by our Ambassadors did not begin with the "American boom" and the "American invasion," which in the past decade have focused on the United States the attention and interest of foreign peoples. On the contrary, most of these real, though personal, achievements in diplomacy were scored in days when foreign opinion of the United States was tinged with mild condescension. The simple truth of the matter was that a man of social, literary and scholarly traits, with an established reputation, apart from routine politics, to precede and introduce him, was sure of a hearing with the British people, in the course of which he was invariably able to do the greatest possible service to the encouragement of good feeling toward our Government and people.

This is precisely the sort of service which the British Government entrusts to Mr. Bryce—a man so peculiarly qualified for the work that the chief comment made when his appointment was announced was that England had been curiously obtuse in not discovering long ago the chance presented by his appointment. At a time when the relations between great Powers are largely determined by the manner in which their people are brought to regard each other, England now sends to the United States an author of eminence, widely read by the people in general, and well known in this country for perhaps the most thorough, as well as sympathetic, analysis of our institutions written since the early treatise of De Tocqueville. Mr. Bryce's peculiar abilities, his repute as a scholarly speaker at public gatherings, and his broad knowledge of American institutions, all guarantee unusual opportunities for the advancement of good feeling toward his country in our own.

The time was propitious for such a nomination; it will be interesting to see whether the example thus set in a diplomatic service of the old school will or will not be widely followed. Precedents of old-time diplomacy have been of late so seriously shattered that it is not by any means a certainty that time-honored practices can any longer adequately serve the requirements of the day. Any one who reads, for instance, the Hohenlohe Memoirs and ponders a while on the picture of

European diplomacy twenty-five or thirty years ago, will rise with the feeling that the machinery of international relations in those days is almost as far away from the spirit of to-day as would be the diplomacy of the Metternichs and Talleyrands of half a century before.

RETROSPECT OF 1906.

The year 1906 adds one more to the long series of years of continued prosperity which have marked the recent industrial history of the United States. At no time during the twelve months was there any interruption to the unexampled activity which was the dominant characteristic throughout. There were some disturbing and untoward incidents—more particularly hostile agitation and hostile legislation against corporate interests—but business was under such impetus that even this undoubtedly threatening feature did not bring any setback. Merchants, manufacturers and others had more business than they could attend to, and hence the disposition was to let the future take care of itself, in the hope that the assaults on capital and wealth would prove less serious than feared, and that the common sense of the people would prompt a removal of the elements of harm before very serious damage developed.

The unparalleled activity experienced is well indicated by the series of investigations of complaints of car-shortage made by committees of the Inter-State Commerce Commission at various points in the West at the close of the year. These complaints related to grain, to coal, to live-stock, to lumber and to practically everything that the railroads are called upon to transport. Rail carriers were simply overwhelmed with tonnage. Notwithstanding the tremendous additions made in recent years to their equipment, their motive power, their track and terminal facilities—through the expenditure of hundreds of millions of dollars—they were literally unable to move with due expedition the enormous volume of freight pouring in upon them from all directions. The inevitable result was that they were constantly behind in their deliveries. An evidence of the condition of things existing was furnished in a speech made before the Merchants' Club at Chicago on Nov. 10 by President James J. Hill of the Great Northern Ry., in which he asserted that from 115,000 to 120,000 miles of additional track were urgently needed, and that to provide this additional mileage, with the necessary equipment and other requisites within a reasonable length of time, and to raise the capital for the purpose was practically beyond human ability to accomplish. "Why," said Mr. Hill, "there is not money enough nor rails enough in all the world to do this thing." The phenomenal situation existing in that regard was also reflected in Secretary Shaw's statement at a dinner in New York in December to the effect that "We who pray should ask God to save us from any increased prosperity."

If we look for the reasons for this phenomenal situation we find a rare combination of favorable circumstances. Among these, foremost place must be assigned to the constant and large additions to the country's population. For several successive years immigrants have been pouring into the country in a never-ending stream. The arrivals have been averaging over a million a year. Besides this, nature has been unusually lavish and bountiful. The harvests have been abundant beyond compare. It seems like a story from the Arabian Nights to state in figures what their yield has been. A corn crop close to 3,000 million bushels (2,927,416,091 bushels), exceeding by over 200 million bushels even the record total of the previous year; a wheat crop of 735,260,970 bushels, and an oats crop of 964,904,522 bushels—these serve to afford an indication of the way the country has been blessed through the fruitfulness of the soil.

The year was unmarked by labor disturbances of a very profound character. It is true there was trouble in the spring in the coal regions resulting in suspension of mining for a time, but the suspension never extended to all the mines in the country—and proved much less serious than had at one time been feared. In the bituminous regions, whence come the supplies of coal needed in manufacturing and in industrial pursuits generally, a compromise agreement was reached at the very start through an offer of a return to the wage schedule of 1903, and these terms were at once accepted by miners and operators in a large percentage of the fields, and gradually by all.

Generally speaking, there were no important labor troubles because a disposition existed on the part of the employer to grant increases in wages rather than incur a cessation of work. Thus twice during the year the cotton operatives in the New England States obtained enhanced pay—the first time in June and the second time in November.

In the railroad field, owing to the overwhelming volume of business offered for transportation, the tendency of wages was steadily upward. The Pennsylvania Railroad in November gave an advance of 10% in wages to all its vast number of employees receiving less than $200 a month, involving an addition of $12,000,000 a year to the company's pay-roll. This necessarily set the pace and many other railroads at once fell in line, while the remainder will doubtless have to follow early in the new year. Among the larger industrial corporations the policy was much the same, and important wage increases were made by such corporations as the United States Steel Corporation, the Standard Oil Co., &c.

There were some striking catastrophes during the year. Overtopping all others was the earthquake and fire at San Francisco in April, which rendered homeless a great part of the population of the city and involved a property loss of $350,000,000. The insurance loss was $235,000,000, of which it is estimated about 80% was, or will be, paid. Except in a year of unexampled prosperity, such an enormous loss must have been seriously felt in financial circles. As it was, the activities of many of the insurance companies were greatly crippled and their investment capacity for the time being much curtailed. Among the smaller calamities may be mentioned the hurricane which passed over the Gulf States in September, and besides doing considerable damage to the cotton fields worked great havoc at Pensacola and Mobile, destroying property valued at several million dollars.

The spirit of hostility which developed against corporations and corporate interests and against capital and wealth was one of the distinctive characteristics of the year. This hostility found expression in various ways—in the utterances of public officials, in legislative enactments and in indictments and prosecutions in the courts. So far as these prosecutions sought to enforce the laws and punish those who had been transgressing

them, only praise can be spoken of the endeavors. But, unfortunately, this does not seem to have always been the purpose in mind. Often it looked as if the object were to hold up to opprobrium men who had held a position of high esteem in the community and to make it appear that these men, because of their wealth, must be and were detestable creatures. In and out of the public halls there were frequent references to "capitalistic wealth" and "swollen fortunes."

As far as legislation is concerned, the event of greatest importance of course was the enactment of the Hepburn Rate Bill—a drastic measure giving the Inter-State Commerce Commission extraordinary powers of control over the railroads. Its capacity for mischief is infinite. But how it is to work in practice only the future can determine. Much depends upon the way it is enforced and whether its most drastic provisions are to be enforced at all. That the added powers given the Commission were not necessary for the effective regulation of the roads is evident from the numerous convictions which the Government was able to secure for violation of the prohibition against rebates and secret preferences and concessions—convictions and punishments obtained not under the new law but under the old law. Another important enactment of Congress was the meat-inspection bill—the outgrowth of the agitation against the beef-packing concerns. The efforts of the National Legislature in these and other ways were supplemented by similar activity on the part of the States. On account of the high price of ice, ice dealers in nearly every State were subjected to prosecution in the State courts and in not a few instances convicted and punished—in some cases, as a result of apparently innocent agreements among a few small dealers.

In not a few instances the continued prosperity of the railroads was reflected in enhanced returns to their shareholders. Perhaps the most striking increase in dividends was that of the Union Pacific Railroad, which in February raised the distribution on the common shares from a basis of 5% to 6% and in August to 10%. In August, also, the beginning of dividends on Southern Pacific common was announced —at the rate of 5% a year. In general, however, the advances were very modest and hardly in proportion to the prosperity experienced. The Atchison, which has been favored with very large earnings, increased only from 4 to 5% per annum, whereat much disappointment was felt; and the Norfolk & Western made a similar small addition. The Baltimore & Ohio in September increased from 5% per annum to 6%. Later in the year, the Pennsylvania RR. advanced from a basis of 6% to 7% and the New York Central from 5% to 6%. In this last instance the dividends of the controlled properties, the Michigan Central and the Lake Shore & Michigan Southern, &c., were also raised. The Lehigh Valley Railroad in December declared an extra dividend of 1% in addition to the regular semi-annual dividend of 2%. During 1906 also dividends were resumed on United States Steel common.

It might be supposed from this recital of events that the course of speculation on the Stock Exchange through the year must have been upward. Far from it. Of course, in the case of a number of important stocks, and notably Union Pacific, great improvement in market prices as registered on the Stock Exchange was established. Barring exceptions of this character, the highest prices, as a rule, were made in the earlier months. The tension in the money market obviously acted as a bar to speculation on any general or extensive scale, though it did not prevent stock market manipulation in particular instances, like Reading shares. Then, also, the new rate legislation inspired caution. Furthermore, the insurance enactments in this State circumscribed very materially the operations of the insurance companies, prohibiting further stock investments and also forbidding syndicate operations, which for so many years had been initiated on a very extensive scale by these very insurance companies. It is to be noted that all through 1906 it was found difficult to place new railroad or other corporate loans, and dealings over the counters of bankers were on an exceedingly small scale. Furthermore, a number of bond syndicates organized in previous years were terminated in 1906 with considerable amounts of the bonds still unsold. As it happened, too, the fire insurance companies, like the life companies, were out of the market in great part. On account of the San Francisco fire and the large losses they had to meet in connection therewith, they were obliged to realize upon the securities already in their possession instead of buying more.

In the money market there was more or less tension all through the year—at times extreme tension. And this state of things in the home market found its counterpart in the money markets of Europe, where conditions developed which have not been paralleled for a great many years past. Trade in Europe, and more particularly in Germany and Great Britain, was active, just as it has been in this country, and the urgency of our own demand for gold made resort to extraordinary measures necessary on the part of the leading European banks in order that the drain for the United States might not endanger their own reserves. As a matter of fact, the Bank of England's bullion holdings were more than once reduced to unusually small figures. In London it cannot be said there was any period of ease at all throughout the year. The Bank of England minimum at no time got lower than 3½% and in the autumn there came that series of events which led successively to a rise to 4, to 5, and finally to that unusual figure of 6%. At the time of this last advance the United States was taking gold in large volume for importation with the aid of Treasury advances. The Bank of Germany had a short time previously raised its rate to the same figure. The 6% rate sufficed to check further withdrawals for American account, but all through the remainder of the year there were fears lest an advance to 7% would have to be made. The Bank of Germany actually did adopt the 7% rate in December.

The pressure encountered here will be apparent when we say that at four different times during the year the Clearing House banks showed a deficiency in the 25% requirement of reserves to deposits—the first time in April, the second in September, the third in November and the fourth in December. With money in such urgent demand, Government receipts were exceeding the disbursements and the Secretary of the Treasury had to resort to all sorts of devices to get the moneys back into the channels of trade. He increased deposits in the banks on several occasions. He more than once offered special inducements for the banks to take out additional circulation. He anticipated interest payments. He at two separate

times during the year intervened actively to promote imports of gold.

There can be no doubt that the money market was all through the year more or less completely at the mercy of the Treasury Department. This led to a more active agitation than at any previous time for the reform of our currency system so as to make it responsive to the needs of trade and independent of the operations of the Treasury Department. Both the New York Chamber of Commerce and the American Bankers' Association took steps to encourage currency reform movements, as narrated in our monthly recitals of events. The Treasury sold $30,000,000 of Panama Canal bonds in July, which served to add still further to Treasury accumulations. Hence, notwithstanding that Government deposits in the national banks Dec. 31 1906 were $158,753,158 against only $64,764,367 Jan. 1 1906, the money holdings in Sub-Treasuries during the same period increased from $323,086,024 to $343,836,223. In the same twelve months, however, the amount of national bank circulation secured by bonds—in no small measure as the result of the Secretary's endeavor—was increased from $504,842,313 to $549,280,084.

The foreign exchange market naturally reflected the disturbed monetary state of affairs and was largely dependent upon and controlled by it. In January rates for exchange sharply advanced, suggesting the possibility of gold exports. In February rates declined and in March imports of gold were begun. The import movement reached large proportions in April and May—this being the period when there was such an urgent call upon this centre for funds in connection with the San Francisco earthquake and when the Secretary was seeking in every way possible to promote the influx of gold. The early part of June there was again a sharp rise in sterling, but the course was once more quickly reversed and there was talk then of renewed imports of gold, even without Treasury aid, which had been withdrawn. In August great weakness developed and in September the Secretary of the Treasury for the second time took advantage of the situation to promote a large import movement—with the result of upsetting the money markets of the whole world. The upshot was the action of the Bank of England in advancing its rate of discount in October to 6%, instantly reversing the course of exchange and bringing rates close to the export point. In November exchange see-sawed a good deal, but in December rates were again down to the gold-import point—with no attempt however, to engage any gold for import, owing to the fear that such action would further derange the European money markets and induce the Bank of England to advance its discount rate even beyond 6%. One of the features of the year was the immense volume of American finance bills floated in Europe, representing borrowings abroad. A demand for exchange to remit in payment of maturing finance bills was noted in nearly every month. After the rise in the Bank of England rate to 6% and the complete unsettlement which this caused, these American bills were sharply discriminated against, particularly in France, and the borrowings in many instances had to be transferred to this side.

Below we bring together some general statistics for 1906 and 1905, affording an interesting contrast between the two years. The data for 1906 are necessarily largely estimates, as the year has only just closed. The same table is incorporated in our annual "Financial Review" and there the 1906 figures will appear in their final corrected form.

GENERAL SUMMARY FOR TWO YEARS.

	1906.	1905.
Coin and currency in U. S. Dec. 31 ....$	3,225,954,768	2,992,758,207
Bank clearings in United States ....$	159,808,640,886	143,909,448,441
Business failures ....$	119,201,515	102,676,172
Sales at N. Y. Stock Exchange, shares	284,298,010	263,081,156
Grain and flour at Prod. Exch. ....bush	448,109,250	478,432,825
Imports of merchandise (11 mos.) ....$	1,186,159,812	1,078,001,751
Exports of merchandise (11 mos.) ....$	1,607,712,842	1,427,252,275
Net imports of gold (11 mos.) ....$	103,075,889	2,138,589
Gross earnings 90 roads (10 mos.) ....$	1,268,365,129	1,127,201,150
Railroad constructed ....miles (est.)	6,000	5,050
Wheat raised ....bush	735,260,970	692,979,489
Corn raised ....bush	2,927,416,091	2,707,993,540
Oats raised ....bush	964,904,522	953,216,197
Cotton raised ....bales	(?)	13,319,860
Pig iron produced (tons of 2,240 lbs.)	25,250,000	22,992,380
Lake Superior ore shipments (gross tons)	38,200,000	34,100,000
Copper production in U. S. ....lbs	950,000,000	901,907,843
Anthracite coal ....(tons of 2,240 lbs.)	56,500,000	61,410,201
b Petroleum (runs) production ....bbls	40,000,000	46,988,533
Immigration into U. S. (11 mos.) ....No.	1,144,476	993,718
Public land sales (yr. end'g June 30) acres	15,744,347	14,542,223

a Estimated. *b* These are the statistics of the pipe line companies handling the oils produced in the States of Pennsylvania, West Virginia, New York, Ohio, Indiana and Illinois. *h* Net exports.

JANUARY.—*Current Events.*—Trade and industry remained extremely active, with labor fully employed, and from all directions the accounts were most glowing—characteristics that continued throughout the year. The weather during Jan. was extremely mild—a favoring circumstance with the railroads and an advantage in many other respects. At times the temperature in this city rose above 60 degrees, while Jan. 20 to Jan. 23 a warm wave spread over the northern part of the country, and reports came of suffering from heat at some points, with maximum temperatures of 70 degrees and above at points like Pittsburgh, Cincinnati and St. Louis. Many different places in the North and West reported the warmest Jan. in twenty to thirty years. The strike of the compositors in the job and book trades for an 8-hour day extended to this city and to a number of other points not previously involved. There was discussion, too, of the possibility of trouble in both the bituminous and the anthracite coal fields with the expiration of the old wage contracts on April 1. Generally, however, there was freedom from labor troubles. The passage Jan. 29 by the House of Representatives of a resolution requesting the President to submit to the House any information which the Inter-State Commerce Commission might possess as to the existence of a combination in restraint of trade between the Penn. RR. and the various allied properties, like the B. & O., Nor. & West., Ches. & Ohio, &c., disturbed financial circles for the time being, and caused a severe tumble in prices on the Stock Exchange. As it happened, too, the Hepburn Railroad Rate Bill was reported unanimously to the House on the same day by the Committee on Inter-State and Foreign Commerce. An incident early in the month was a speech by Jacob H. Schiff at a meeting of the Chamber of Commerce Jan. 4 declaring the money market conditions which had prevailed the previous sixty days a disgrace to the country, and saying also that unless our currency system was reformed a panic would sooner or later result compared with which all previous panics would seem as child's play. On Feb. 1 the Committee on Finance and Currency of the Chamber of Commerce, to whom the whole matter had been referred, made a report condemning our currency system as inelastic and radically defective, but suggesting that to allow national banks to issue additional notes equal to 50% of the bond-secured circulation (subject to a tax of 5 or 6% until redeemed), as recommended by Secretary Shaw, might result in inflation. They recommended that the $3,000,000 a month limit on the deposit of lawful money for the retirement of national bank notes be removed, and also that the Secretary be allowed to deposit customs receipts with the banks the same as internal revenue receipts, and that the banks pay a low rate of interest, not less than 2%, on Government deposits. A committee of five was appointed to consider the subject, which made its report in October. Early in the month Secretary Shaw ordered the prepayment without rebate of the interest due Feb. 1 on Government bonds, the amount involved, however, being only about $1,800,000. Treasury money holdings Feb. 1 1906 were $319,953,762, against $323,086,024 Jan. 1, and Government deposits with the banks were $64,343,644, against $64,764,367. National bank circulation kept increasing, the amount secured by bonds rising from $504,842,313 to $506,365,749. At a meeting at New Orleans of the Southern Cotton Association it was again resolved (this having been the recommendation the previous year) that the acreage for the coming crop be reduced 25%, and planters were also urged to hold the remainder of their crop for 15c. a pound. There were two ginning reports from the U. S. Census during the month—the first, showing less cotton ginned than expected, served to strengthen the price, while the later report, revealing a somewhat larger total than had been looked for, had the opposite effect. Middling uplands in this market, which were 11.75c. Jan. 2, got up to 12.25c. by the 18th. The close Jan. 31 was at 11.35c. Print cloths at Fall River were advanced from 3¾c. to 3 13-16c. The Russian political situation for the time being improved, the Government apparently gaining the upper hand over the insurrectionists. The financial situation of

Russia, however, remained gloomy, and the Government had difficulty in meeting £20,000,000 of maturing treasury bills. Eventually German bankers agreed to take £16,000,000 of new bills, besides which 10 2-3 millions sterling of bills were placed in France. The terms were hard in both instances. The Moroccan Conference at Algeciras attracted wide attention. Fears of a possible clash between France and Germany gradually diminished, but were not entirely dispelled. In Great Britain Parliamentary elections occurred, at which the Liberal Party achieved an overwhelming victory; another feature of the elections was the large vote cast for the labor candidates. Christian IX., "Father-in-law of Europe" and King of Denmark, died suddenly Jan 29, at the age of 88. He was succeeded by his son, Frederick VIII. The strained relations between Venezuela and France resulted in the rupture of diplomatic intercourse between the two countries M. Fallieres was elected President of France to succeed M. Loubet. The House of Representatives at Washington on Jan. 16 passed the Philippine Tariff Bill by a vote of 258 to 72; it was still in the hands of the Senate Committee when Congress adjourned the following June. On Jan. 1 the Aliens Act passed at the previous session of Parliament, came into force in Great Britain, placing limits on the freedom of immigration into that country. Marshall Field, Chicago's great merchant, died Jan. 16, and business was quite generally suspended in Chicago on Jan. 19, on the afternoon of the day of the funeral. The suicide of Leland W. Prior led to the suspension of the brokerage house of Denison, Prior & Co. of Cleveland, and also to the discovery of some extensive forgeries of municipal bonds. (V. 82,p.173). The committee on Department Methods ordered by President Roosevelt on the complaint of the New England Cotton Manufacturers' Association to investigate the work of the forecasting of crops by the Department of Agriculture, and especially the cotton crop, made its report by Chairman Keep. This report recommended dispensing with large numbers of individual correspondents and advised that the determination of acreage planted be intrusted to the Census Bureau.

Railroad Events and Stock Exchange Matters.—The speculation for higher prices made further noteworthy progress during Jan. The first few days much disappointment was felt because easier monetary conditions did not at once develop. The remarks of Jacob H. Schiff at the Chamber of Commerce meeting Jan. 4 also exerted an adverse effect, the market suffering a decided setback for the time being. But as money rates declined the feeling quickly improved and great activity and buoyancy ensued. In many cases the advances were sensational, the more so as they followed such a long-continued rise in 1905. The latter part of the month the market became ragged and irregular, with enormous sales to realize profits, and a considerable portion of the previous advance was lost. With the tendency already downward the passage by the House of Representatives on Jan. 29 of the resolution referred to above regarding the relations between the Penn. RR. and certain allied trunk lines, caused a severe tumble in prices. Reading com. was very conspicuous both in the rise and the subsequent break. Opening Jan. 2 at 139, it reached 164x Jan. 23, then dropped to 134¼ Jan. 30 and closed at 141⅛ Jan. 31. Mil. & St. P. com. opened at 181⅝, declined to 179¾ Jan. 5, shot up to 193 Jan. 22 and closed at 186¾ Jan. 31. N. Y. Cent., which had sold at 156¼ Jan. 8, got down to 147⅞ Jan. 30, with the close Jan. 31 150⅞. Un. Pac. com., opening at 150½, got down to 148 Jan. 3 advanced to 160½ Jan. 24 and closed at 155½ Jan. 31. A number of the low-priced stocks were whirled rapidly upwards; Den. & Rio G. com. advanced from 38 Jan. 4 to 51⅞ Jan 26, closing Jan. 31 at 50⅛. The industrial properties, however, were really more prominent than the railroad shares, and the coal and copper mining stocks particularly made sensational advances. Col. Fuel & Iron com. from 55⅛ Jan. 4 advanced to 83⅝ Jan. 26; Fed. Min. & Smelt. com. sold up from 138 Jan. 4 to 199 Jan. 22; Int. Power from 58 Jan. 5 to 95 Jan. 29, and Tenn. Coal & Iron from 129 Jan.2 to 165 Jan. 12, a portion of the advance being in each case lost at the close. The sales on the N. Y. Stock Exchange for the month reached 38,512,548 shares. Some large new loan issues were brought out. The Penn. *Company* sold to a syndicate $20,000,000 of 4% bonds guar. by the Penn. RR. The Westinghouse Elec. & Mfg. Co. offered $15,000,000 convertible gold 5s to its shareholders. The Mo. Kan. & Tex. Ry. in a circular announced that shareholders would be asked to authorize $20,000,000 gen. mtg. 4½s, and that $10,000,000 would be offered to shareholders at 87½, payable in installments. Tenn. Coal, Iron & RR. approved an increase in capital stock from $23,000,000 to $30,000,000, and subsequently stockholders were offered $3,420,180 at par. Speyer & Co. on Feb 1 offered the unsold portion of $11,781,000 1st and ref. mtg. 4% bonds of the Chic. R. I. & Pac. Ry. Western Elec. Co. (Bell Telephone Mfg.) increased its authorized capital from $15,000,000 to $25,000,000. One of the events of the month was the promulgation of the plan for the union of traction and subway interests in N. Y. through the organization of the Interboro.-Metropolitan Co. for the taking over of the Interboro. Co., the Met. St. Ry. Co. and the Met. Securities Co. The U. S. Smelt. Ref. & Min. Co. was organized in Maine with authorized capital of $75,000,000, and took over the U. S. Mining Co. by an exchange of stock. The Corn Products Ref. Co. was organized and took over the control of the Corn Products Co. and the entire capital stock of the N. Y. Glucose Co., the Warner Sugar Co. of Waukegan, Ill., and the St. Louis Syrup & Preserving Co. The Pere Marquette RR. defaulted Jan. 1 in the interest due on the $3,500,000 of 4% coll. tr. bonds, and the Tol. Ry. & Term. Co. defaulted on its $3,500,000 4½% bonds. The Chic. Gt. West. Ry. resumed the payment of dividends on its pref. A stock. The Gen. Chem. Co. resumed on its com., declaring 2%. The Amalgamated Copper Co. and the Boston & Mont. Consol. Copper & Siver Mining Co., controlled by the same, also further increased their dividends. Swift & Co. enlarged its capital stock from $35,000,000 to $50,000,000, shareholders being allowed to take the new stock at par. Bankers made a public offering of the unsold portion of $4,635,000 1st and coll. tr. 5s of the Manila Elec. RR. & Lighting Corporation.

The Money Market.—There was a gradual return to normal conditions. The first few days, however, before the distribution of the large Jan. interest and div. payments, rates still ruled high—the range for call loans on the Stock Exchange Jan. 2 being 25@60%; Jan. 3, 8@50%; Jan. 4, 6%@22, and Jan. 5, 4@10%. On Jan. 31 the range was only 3¾@4. Rates for money on time at the close were 4¼@4½% per annum on 60-day loans, and 4½ for loans running three to six months. Commercial paper then was 4½@5 for 60 to 90-day endorsed bills receivable, 4¾@5¼ for prime and 5½@6 for good four to six months single names. There was a large return flow of currency from the interior, and both the money holdings and the surplus reserves of the Clearing House banks were heavily increased. Money holdings rose from $246,506,700 Jan. 6 to $277,608,000 Jan. 27. Surplus reserves, which were only $571,000 Jan. 6, were $12,708,650 Jan. 13, $16,764,575 Jan. 20 and $15,829,850 Jan. 27. Deposits increased from $983,742,800 to $1,047,112,600 and loans from $1,004,658,300 to $1,041,113,300.

Foreign Exchange, Silver, &c.—Except at the opening, when the tone was easy and rates lower, strength was the dominant feature of exchange during most of Jan. There was an urgent and a quite persistent demand for remittances in settlement for maturing finance bills, and also for sight drafts that had been speculatively sold. On occasions there was likewise a demand in settlement for stocks sold here for European account. With the advance in sterling rates, there was talk of the possibility of gold exports to Europe, but the Bank of France refused to allow interest on gold in transit, being disinclined for the time being to accumulate gold—the limit of its note circulation having been nearly reached—and this served to prevent an outflow. The fact that money rates, though having sharply declined, nevertheless ruled higher here than at Paris, also acted as a check upon shipments. The latter part of the month there was an export of $1,850,000 gold to Mexico on French account and an export of $500,000 to Argentina on London account. The shipments to Mexico were understood to represent payments for Mexican silver purchased on French account. Sterling was at its lowest point on Jan. 4, when 60-day bills were 4 8220@4 8230, sight bills 4 8540@4 8550 and cable transfers 4 8595@4 8605. The high point was Jan. 27, when the rates were 4 84@4 8410, 4 8730@4 8740 and 4 8805@4 8815. There was a slight shading off from these figures at the close. The Imperial Bank of Russia raised its rate of discount early in the month from 7 to 7½% and later to 8%, this showing the disturbed financial conditions in that country. Elsewhere on the Continent the tendency of rates was downward. The Bank of Germany Jan. 18 reduced from 6 to 5, and about the same time the Bank of Sweden reduced from 5½ to 5. At the close open market discounts at Berlin and Frankfort were only 3¼@3⅜. At Paris the open rate market Jan. 31 was only 2⅜. At London rates held up, and at one time the fear was expressed that the Bank of England might have to advance its official minimum from 4%. The Bank was able, however, largely to increase its bullion, adding £3,910,899 in the four weeks to Jan. 25, mainly as the result of the return flow from the interior of Great Britain. The London open market rate Jan. 31 was 3¾. Silver in London fluctuated between 29 11-16d. and 30¼d., with the close Jan. 31 30 3-16d.

FEBRUARY.—*Current Events.*—The House of Representatives Feb. 8 passed the Hepburn Railroad Rate Bill by an almost unanimous vote—346 to 7. In the Senate there was much opposition to granting the Inter-State Commerce Commission the power to fix rates without allowing to the railroads the right of appeal to the courts, and there was talk of a compromise which would obviate the objections on this point. On Feb. 23, however, with the aid mainly of Democratic votes, the Senate Committee on Inter-State Commerce reported the Hepburn bill to the Senate just as received from the House, and Senator Tillman, a Democrat, was placed in charge of the measure. In this State, long-existing hostility against the gas companies resulted in radical measures against the same. On the day the Hepburn bill was reported to the Senate, the State Commission on Gas and Electricity issued an order at Albany reducing the price of gas in the Borough of Manhattan, beginning May 1, to 80 cents per 1,000 cubic feet, as against $1. This was after Senator Stevens, the author of the Act creating the Gas Commission the previous year, had introduced a bill proposing to legislate the Commission out of existence again, because it had failed to cut down the price of gas. Following the action of the Commission, the Assembly at Albany Feb. 28 passed a bill by an absolutely unanimous vote re-

ducing the price of gas to 80 cents in all the different boroughs of the city excepting Richmond Borough and a few of the outlying districts in the other boroughs. This bill passed the Senate the next month (Mar. 8) by 44 to 3 and became a law with the signature of Gov. Higgins Apr. 2. Fears of a miners' strike in the bituminous regions continued all through the month, and there was also talk of a possible strike in the anthracite regions. Feb. 24 President Roosevelt addressed a letter to John Mitchell, President of the United Mine Workers, and also to Francis L. Robbins, President of the Pittsburgh Coal Co. and Chairman of the Bituminous Coal Operators' Committee, expressing solicitude over the possibility of a strike in the bituminous region and urging that a further effort be made to avert such a calamity. A special national convention of the miners was called for Mch. 15 in response to this appeal. There were also some further developments in connection with the troubles in the insurance world. Stuyvesant Fish resigned as a member of the Mutual Life Insurance Co.'s investigating committee and several of the counsel to the committee withdrew at the same time; later Mr. Fish also resigned as member of the Board of Trustees of the company and some other trustees likewise resigned. The Armstrong Committee of the State Legislature made its report with reference to the investigation of the insurance companies carried on by it the last half of 1905, and it contained radical recommendations bearing upon the future conduct of the business of the large life insurance companies. The weather during the month was mild. Grain prices were weak all around, the May option for wheat in this market declining from 91 cents to 87⅜ cents. Cotton was also weak most of the month, influenced by the large visible supply and a heavier movement of the crop than had been looked for. From 11.45c. Feb. 2, middling uplands at New York declined to 10.80. Feb. 26, with a recovery, however, to 11.05c. Feb. 28. A favorable event of some importance was the announcement Feb. 13 of a settlement of the prolonged litigation between the Amalgamated Copper interests and F. Augustus Heinze and the United Copper Co. (V. 82, p. 396). National Bank circulation secured by bonds increased from $506,365,749 to $509,173,566. Treasury money holdings increased from $319,953,762 to $331,066,575. Government deposits in the national banks were $65,333,465, against $64,343,644. New York City sold $20,000,000 corporate stock Feb. 15 and the feature was that the rate of interest was 4%, previous issues for over a score of years having borne only 3½% interest. The bonds sold on a basis of about 3.65%. The threatened disturbance of tariff relations on Mch. 1 between the United States and Germany was averted through the passage by the Reichstag of the German Government's proposal to extend reciprocal tariff rates to the United States until June 30 1907. This assured to the United States the benefits of the German minimum rates. In response, President Roosevelt issued his proclamation extending to Germany the benefits of reduction of duty allowed under Section 3 of the Dingley Act. The Bank of France received authority to increase its note issues to a maximum of 5,800,000,000 francs, the previous limit having been 5,000,000,000 francs. The United States Supreme Court on Feb. 19 held a coal contract of the Ches. & Ohio Ry. with the N. Y. N. H. & H. RR. Co., under which the New Haven Co. got supplies of coal at a figure which involved a reduction in the schedule rates on coal, to be in violation of the Inter-State Commerce law. An event of the month was the announcement by Kuhn, Loeb & Co. that the different members of the firm would withdraw from all railroad directorates in which they had held seats.

Railroad Events and Stock Exchange Matters.—A severe break in prices occurred on the Stock Exchange during February. The passage, as enumerated above, by the House of Representatives of the Hepburn rate bill, the action of the State Gas Commission in reducing the price of gas, the increasing firmness of the money market, the fears of a strike in the coal regions, the report of the Armstrong Insurance Investigating Committee, recommending that life insurance companies be obliged to dispose of their stock investments and be prohibited from making future investments in stocks, the decision of the U. S. Supreme Court with reference to a coal contract of the Ches. & Ohio Ry., and the uncertainty regarding the outcome of the Algeciras Conference, were all adverse features. The settlement between the Amalgamated Copper interests and the Heinze people and the increase in the semi-annual dividend of the Union Pacific RR. from 2½% to 3% were favorable developments, though in the Union Pacific case expectations had been that there would be a distribution of some large bonus to the shareholders. The early part of the month the market yielded only slowly. But with the accumulation of unfavorable events, accelerating weakness developed, the lowest figures as a rule being reached on the last day, and the tone then was quite despondent. Mil. & St. P. common declined from 188½ Feb. 1 to 176¾ Feb. 28; Gt. Nor. from 348 Feb. 9 to 305½ Feb. 28; N. Y. Cent. from 153⅛ Feb. 14 to 145½ Feb. 28; Penn. from 144¼ to 137⅝, and Un. Pac. from 158⅝ Feb. 2 to 148¾, ex-div., Feb. 23. Amal. Cop. sold off from 118¼ Feb. 13 to 107 Feb. 28, and the iron and coal shares also displayed great weakness, Am. Smelt. & Ref. com. going from 169 Feb. 1 to 153⅞ Feb. 28; Col. Fuel & Iron com. from 78¾ to 60; Nat. Lead com. from 90¼ to 70½; Sloss-Sheffield Steel & Iron com. from 93¾ to 80⅜; U. S. Steel followed the general course and the common fell off from 46⅛ Feb. 1 to 40⅜ Feb. 28. Consolidated Gas, on the reduction in the price of gas, tumbled from 181 Feb. 13 to 156x Feb. 28. St. L. & San. Fran. passed the dividend on its 2d pref. stock. Republic Iron & Steel Co., besides the regular 1¾% quarterly on the pref., declared 2% extra on account of accumulated unpaid dividends. Fed. Min. & Smelt. Co. in addition to 1½% quarterly on com. declared 2½% extra. New loan negotiations were again very numerous. Lake Shore & Mich. Sou. created a $50,000,000 new bond issue and disposed of $35,000,000. Chic. & Nor. West. stockholders were offered $16,267,400 new com. stock at par. Amer. Telep. & Teleg. Co. sold $100,000,000 4% convertible bonds to a notable syndicate of banking houses. Southern Ry. Co. announced that it would ask authority to create a new $200,000,000 mortgage, $15,000,000 to be issued at once. The Louisv. & Nashv. sold $10,000,000 of its Atl. Knoxv. & Cinc. Div. bonds. Hallgarten & Co. made a public offering of a portion of $17,000,000 4½% ref. bonds of the Col. & Sou. Ry. Kuhn, Loeb & Co. advertised $20,000,000 of Penn. Co. 4% bonds for sale. Del. & Hud. stockholders were given the right to take $14,000,000 4% 10-yr. debentures, to be convertible into stock within 5 years on the basis of $200 of debentures for $100 stock. Bell Telep. Co. of Phila. increased its stock from $16,000,000 to $30,000,000 and offered $4,000,000 of the new stock to shareholders at par. Atch. Top. & Santa Fe shareholders were offered at par $17,296,000 50-yr. 4% conv. bonds. Mex. Cent. Ry. negotiated a loan of $33,000,000 with a syndicate of bankers to be used in part to refund existing obligations. The People's Gas Light & Coke Co. of Chicago reached an agreement with the city authorities regarding the price of gas and reduced its dividend in accordance with previous announcement. The United Bank Note Corporation was incorporated to succeed the American Bank Note Co.

The Money Market.—Renewed firmness developed in money. This was largely the result of Treasury withdrawals. Surplus reserves of the banks Mch. 3 were down to $5,008,750, against $15,829,850 Jan. 27. Money holdings between the same dates were reduced from $277,608,000 to $262,395,000. Loans rose from $1,041,113,300 Jan. 27 to $1,061,997,200 Feb. 10 and then were reduced to $1,040,838,700 Mch. 3. Deposits increased from $1,047,112,600 Jan. 27 to $1,061,403,100 Feb. 3 and then fell to $1,029,545,000 Mch. 3. The range for call loans during the month was 2@8, though both extremes represented exceptional transactions and did not fairly reflect prevailing conditions; Feb. 28 the range was 4¾@6¾, with the bulk of the business at 6. Rates for time money also hardened, being at the close 5½@6 for sixty days, 5½@5¾ for ninety days and 5¼@5½ for four to six months. Paper was then quoted at 5@5½ for double names, 5½@5¾ for prime single names and 6 for good single names.

Foreign Exchange, Silver, &c.—Foreign exchange was almost continuously weak in February and rates were at their lowest on the closing day, Feb. 28. There was a liberal supply of bills against Amer. securities placed abroad by U. S. banking houses and there were also fairly large amounts of commercial drafts, chiefly against grain. There were likewise offerings of French finance bills encouraged by the high rates for money for three months in this market, as against the much lower discount rates at Paris. There were exports of $2,385,000 gold to Argentina and $2,000,000 gold was transferred to San Francisco for shipment to Japan. The Bank of Norway reduced its rate from 5½ to 5%. Sixty-day sterling fell from 4 8390@4 84 Feb. 1 to 4 8270@4 8280 Feb. 28; sight from 4 8725@4 8730 to 4 8595@4 86, and cable transfers from 4 8785@4 8795 to 4 8655@4 8660. Discounts at Paris hardened to 2¾, but at Berlin and Frankfort were somewhat easier at 3⅜@3½; at London the quotation Feb. 28 was 3⅝@3¾. Silver in London fluctuated between 30⅛d. and 30 13-16d. and closed at 30⅝d. The Bank of England still further increased its bullion holdings, having added no less than £8,733,633 for the nine weeks ending Mch. 1.

MARCH.—*Current Events.*—Coal miners and coal operators failed to reconcile their differences, but in the bituminous coal controversy an important favorable development occurred at the very close of the month. In their final conference with the soft-coal operators held at Indianapolis, March 29, the United Mine Workers reduced their demands and insisted only on the payment of the wage scale of 1903. At the time of the industrial set-back early in 1904 the bituminous miners had made a two-year contract with the operators to expire March 31 1906 on the basis of a reduction of 5% in wages (the operators had proposed at that time a reduction of 15%), or one-half the advance granted the miners the previous year—1903. It was the restoration of this 5% cut which was now demanded. Some of the operators, and notably Mr. F. L. Robbins of the Pittsburgh Coal Co. (who had retired as Chairman of the bituminous operators and been succeeded by John H. Winder), announced their willingness to enter into contracts on that basis, no matter what the action of the operators as a whole might be. A rule of the miners' organization would have prevented such an arrangement, making it necessary first to repeal this rule. When the final conference, on March 29, proved futile, President John Mitchell ordered a total suspension of mining in the anthracite regions beginning Monday morning, April 2, without waiting for the result of another conference between the

anthracite miners and operators which the miners had called for April 3. This was followed, however, the next day (March 30) by the adoption of a resolution at the convention of miners allowing the miners to make contracts with all bituminous operators who would pay the 1903 wages. As a consequence, the possibility of a total suspension of mining in the bituminous regions was at once removed. Some U. S. Supreme Court decisions attracted much attention because of their bearing on corporations and corporate interests. March 12 the Court decided that the franchises of most of the important lines of the Chicago Union Traction Co. had expired (instead of having a great many years to run, as had been contended), making it possible for the city authorities in taking over such lines to acquire possession without any compensation for such franchises. A severe break in the prices of the underlying securities occurred as a result, North Chicago St. RR. stock, for instance, dropping from 85 March 12 to 25 March 14. On the same day decisions were rendered in what were known as the tobacco and the paper cases. In the American Tobacco Co. case the Court held that the officers could not refuse to testify in inquiries or actions pending in the Federal Courts or decline to produce books, papers and contracts on the plea that to do this was to testify against themselves. The Court held that a witness could not be permitted to plead that some other person might be incriminated by his testimony or that the company in whose employ he was might suffer. Later in the month, Judge Humphrey in the U. S. Court at Chicago also rendered an important decision in the proceedings brought by the Federal Government against various beef packers and beef-packing concerns for violation of the Anti-Trust Law. The jury was instructed to acquit the packers as individuals on the ground that the information they had given Commissioner of Corporations Garfield had not been given voluntarily and therefore could not be used against them. The indictments against the corporations, it was decided, could be maintained. On March 31 the controversy between Germany and France regarding Moroccan affairs, which had been a disturbing feature for a full year, was at length settled. On that day, a complete accord was reached at the International Conference at Algeciras, which had been in session since the previous Jan. 16. The question of the distribution of the police at the various ports (the point concerning which the most serious differences had developed between the two countries) was settled on the basis of allowing France to police four ports, Spain two ports and France and Spain together Tangier and Casa Blanca, subject to an Inspector of Police. Early in the month the French Cabinet under M. Rouvier was unseated, owing to popular dissatisfaction with the methods of the authorities in taking inventories of church property—one of the steps in the process of separating Church and State. A new Cabinet was formed with M. Sarrien as Premier. Late March 2 the Secretary of the U. S. Treasury announced that he would deposit $10,000,000 additional Government cash in the banks at certain cities throughout the country. Cash in Sub-Treasuries was nevertheless only slightly reduced, being $330,596,598 March 31, against $331,066,575 Feb. 28. Government deposits in the banks increased to $76,350,723 from $65,333,465. National bank notes secured by bonds increased from $509,173,566 to $512,-221,551. Middling upland cotton advanced from 10.95 cts. Mch. 1 to 11.80 cts. Mch. 28, with the close Mch. 31 at 11.65 cts. The Statehood Bill was defeated in open Senate. As it came from the House, it not only provided for the admission of Oklahoma and Indian Territory as one State, but also the union of Arizona and New Mexico as one State, notwithstanding the violent protests of the American-born population of Arizona. The Senate struck out all reference to New Mexico and Arizona, leaving it to apply only to Oklahoma and Indian Territory. In the House, Speaker Cannon succeeded in having the amendments disagreed to (by a majority of only 19 votes) and the bill was sent to a Conference Committee of the two Houses.—See remarks for June for compromise agreement. In the Philippines an engagement took place Mch. 6 to Mch. 8 between the American troops under Gen. Leonard Wood and about 600 rebel Moros, or robbers, who had fortified themselves on Mount Dajo, in the Island of Jolo, and the whole force of Moros was exterminated. President Roosevelt sent a telegram congratulating the American troops upon their "brilliant feat of arms," but the fight was severely criticized in this country because of the slaughter of the women and children among the Moros. President Roosevelt signed a joint resolution instructing the Inter-State Commerce Commission to make examinations into the subject of railroad discriminations and monopolies in coal and oil, but sent a message to Congress criticizing the measure as not going far enough. A great mine disaster occurred in the Courrieres coal district of Pas-de-Calais, France, resulting in the loss of over 1,000 lives; it was followed by a strike involving over 40,000 miners, which lasted many weeks.

Railroad Events and Stock Exchange Matters.—The course of prices on the Stock Exchange in March was more or less irregular, with the fluctuations in special stocks decidedly erratic. The money situation, together with the prospects of a coal strike and the various happenings adverse to corporate interests, served to place a restraint on speculation. Still, the undertone remained firm throughout and the latter part of the month a recovery ensued, so that most stocks Mch. 31 showed moderate improvement over Mch. 1. The proposed increase of $100,000,000 in N. Y. Central stock at first caused a break in that property, but later all the Vanderbilt stocks manifested strength. Sharp breaks occurred in Consol. Gas and Chic. Un. Trac. as the result of the causes mentioned above. Chic. Un. Trac. pref. dropped from 47½ Mch. 12 to 16½ Mch. 15 and Consol. Gas further declined to 142¼ (against 181¼ Jan. 27). The State of Maryland sold its $550,000 stock of the Washington Branch RR. of the B. & O. RR. to the B. & O. for $2,500,000. The Col. & Sou. Ry. resumed dividends on its 1st pref. stock, declaring 2%. The U. S. Smelt. & Ref. Co. declared a first quar. div. of 1¾% on its pref. stock. Crucible Steel Co. of America, which Dec. 1905 had resumed dividends on its pref. stock, declaring 1%, increased the quarterly payment to 1½%. in Mch. Default was made in the payment of the interest due Mch. 1 on the 4½% coll. trust notes of the Cin. Ham. & Day. Ry. Atlantic Coast Line RR. shareholders approved increase of $10,000,000 in the authorized com. stock and $4,457,600 was offered to shareholders at par. The Bos. & Maine RR. sold $10,000,000 4% 20-yr. debentures, chiefly to refund maturing issues. Can. Pac. shareholders authorized $40,000,000 new stock and stockholders were offered $20,280,000 at par. Kan. City Sou. Ry. shareholders approved an issue of $10,000,000 4½% impt. bonds; also $5,100,000 5% coll. trust notes secured by $6,-000,000 of the bonds. Stockholders were allowed to subscribe for the notes at 95. The N. Y. Chic. & St. L. RR. created and sold $10,000,000 of 4% deb. bonds. N. Y. N. H. & H. RR. listed $9,000,000 additional stock.

The Money Market.—Money remained very firm and call loans at the Stock Exchange frequently reached 6, 7, 8 and 9%, the range for the month being 3@9%. Rates for time contracts, however, eased off towards the close, when the quotation was 4¾@5 for all periods from 60 days to six months. Quotations for commercial paper at the close were 5¼@5½ for double names, 5¼@5½ for prime and 6 for good single names. The payment of about $12,000,000, representing the balance due on the portion of the Japanese loan negotiated here the previous November, occurred Mch. 20. The money was promptly re-loaned, though, in the market. The money holdings of the Clearing-House banks Mch. 31 were only $256,203,900, against $265,700,400 Feb. 24, notwithstanding the increase of Government deposits in the banks, and surplus reserves were $5,131,275, against $5,125,725, though having in the interval been as high as $6,463,700. Loans were reduced from $1,049,301,800 Feb. 24 to $1,019,579,500 Mch. 10, but were $1,025,503,900 Mch. 31. Deposits Mch. 31 were $1,004,290,500, against $1,042,298,700 Feb. 24.

Foreign Exchange, Silver, &c.—The feature in the foreign exchange market was the beginning of gold imports. The first engagement (on the 13th, of $1,250,000) was supposed to have been a special transaction rather than an exchange operation, but it was followed by some other engagements. Altogether, $2,150,000 was taken during the month at Berlin (American gold coin) and $1,430,248 (gold bars) at London. Sterling rates ruled low throughout the month and the tone most of the time was weak, influenced by offerings of finance bills, the negotiation of sterling and franc loans and by a pressure of bills against American securities placed abroad. Rates were at their lowest Mch. 9, when 60-day bills were quoted at 4 82@4 8225, sight 4 8515@4 8525 and cable transfers 4 8575@4 8585, the latter dropping the next day still lower to 4 8550@4 8575. Later some recovery ensued, and thereafter rates see-sawed a good deal from week to week, but not within a wide range, the figures Mch.31 for the three classes of bills being 4 8250@4 8275, 4 8550@4 8560 and 4 8590@4 86. Money at London was easier and bank discounts Mch. 31 were only 3⅛@3¼. At Paris, rates stiffened, the open market quotation advancing to 3%. At Berlin and Frankfort also, there was firmness, open market discounts at one time being 4¼@4⅜ with the close 4. Silver in London ranged between 29d. and 30 7-16d. with the price Mch. 31 29 15-16d.

APRIL.—*Current Events.*—An unexpected disaster befell San Francisco by earthquake and fire. The earthquake occurred at 5:13 a. m. Apr. 18 and caused collapse of numerous buildings; fires broke out nearly everywhere, resulting in one of the most extensive conflagrations on record. The area burnt over comprised about 3,000 acres, containing 520 blocks and about 25,000 buildings, one-half of which were residences. The business section of the city, with all the bank buildings, was destroyed, and over 200,000 persons were rendered homeless. Congress appropriated $2,500,000 as a relief measure and extensive private contributions from all sources were received. The loss of life was smaller than might have been expected, being estimated at not to exceed 500. The property loss reached, roughly, $350,000,000, on which the insurance was $235,000,000, of which about 80% was paid. All the banks remained closed until May 3, when the commercial banks resumed in temporary quarters. The savings banks did not open until some time later. (See "Chronicle" of June 16 1906, p. 1353, for banking conditions after earthquake.) Numerous suburbs of San Francisco as well as many other places in California also suffered severely. Shocks were felt as far south in California as Los Angeles, though at this point no damage was done. The drain upon the banks

of this centre to meet the extraordinary demands for funds for shipment to California came at a time when the money market was already in a state of tension. Secretary Shaw took quite unusual measures, both before and after the earthquake, to ease the pressure upon the banks. On Saturday, Apr. 14, it was officially announced he had sanctioned a plan for facilitating gold imports and that this plan indeed had already been in operation for two days and had been availed of by the institutions that knew of it. For some time previously the banks had been allowed to count foreign gold in transit as part of their reserve; now the Secretary went a step further and made the money immediately available to the banks by allowing the importing institution additional Government deposits to the amount of the gold engaged for shipment. As security for the additional deposits, Mr. Shaw agreed to accept collateral other than Government bonds of the class in which New York Savings banks are allowed to invest. The deposit had to be returned upon the arrival of the gold. It was estimated that $32,870,000 gold had actually been engaged for import during the month; the arrivals of the metal at this point did not quite reach $12,000,000. The Secretary also extended every facility for furthering the immediate transfer of funds to San Francisco. Altogether, the transfers and direct shipments of funds to San Francisco and elsewhere incident to the disaster aggregated during the month $28,419,000, and further large transfers and shipments occurred the next month. The Treasury statement May 1 showed that Government deposits in the banks during April had been increased from $76,350,723 to $102,918,772. Treasury cash holdings were diminished from $330,596,598 to $303,986,761. National bank circulation increased from $512,221,551 to $514,423,519. There were other disturbing influences. The miners and operators in the anthracite regions failed to adjust their differences and a convention of the miners was finally called for May 3 to determine definitely whether a strike was actually to be declared. In the meantime anthracite mining remained entirely suspended. In the bituminous regions the situation was more assuring, many of the operators granting the wage scale of 1903 and the men returning to work. In many sections, however, the operators refused to yield, and strikes ensued. At Albany, the various bills for the regulation of life insurance companies in this State proposed by the Armstrong Investigating Committee became laws. They materially restrict the scope of the financial operations of these large concerns and also limit their investments. The New York Legislature also passed the law requiring trust companies to keep stated reserves against their deposits—for the trust companies in this city 5% in cash, 5% in U. S. Government and N. Y. State bonds and certain municipal bonds of the State, and 5% on deposit with other financial institutions. The accumulation of the cash reserve was to be gradual—only 2% being required at first, 3% by July 1, 4% by Oct. 1 and 5% by Jan. 1 1907. See article May 5, page 1013. Discussion of the railroad rate bill in the U. S. Senate continued throughout the month. April 2 the U. S. Supreme Court decided against the Michigan roads in the tax cases against the State of Michigan. Some remarks in the opinion of Justice Brewer to the effect that "in the nation no one of the three great departments can assume to be given the functions of another," &c., attracted wide attention, being taken to have a bearing on the railroad rate controversy in Congress, but the words were afterwards expunged from the opinion by Justice Brewer. Saturday, April 14, at the laying of the cornerstone of the office building of the House of Representatives, President Roosevelt delivered a speech which had been well announced beforehand, on "The Man with the Muck-rake." This created quite a sensation because the President incorporated therein an argument in favor of placing a limit on large fortunes. April 17 announcement was made by Attorney-General Moody that Chas. E. Hughes, had, together with Alexander Simpson Jr., of the Pennsylvania Bar, been retained as special counsel by the Attorney-General "to take under consideration all the facts now known or which can be ascertained relating to the transportation and sale of coal in Inter-State commerce." When Mr. Hughes was nominated for Governor, he relinquished the appointment and the place was given to George C. Todd of New York. The special counsel were expected to advise the Department in the matter of instituting prosecutions against the coal-carrying roads. On the same day, the President sent a special message to Congress dealing with the recent insurance disclosures and urging the enactment of a bill prepared as a result of a convention of insurance commissioners held in Chicago in February. Apr. 18 another special message was sent to Congress condemning in unmeasured terms the decision rendered Mch. 21 by Judge Humphrey in the U. S. District Court at Chicago holding that the evidence collected by Commissioner Garfield could not be used to convict the beef packers incriminated thereby. An election in Chicago Apr. 3 on the question of municipal ownership indicated considerable change in public sentiment since the election of the previous year. See "Chronicle" of Apr. 7, page 773. Early in the month one of the most terrible eruptions of Mount Vesuvius on record occurred, doing immense destruction but being attended by a relatively small loss of life. The British Budget was submitted Apr. 30 by Mr. Asquith, the Chancellor of the Exchequer, and it was announced that the Government plans contemplated a reduction of one penny per pound on tea, the taking off of 2½ pence from the duty on stripped tobacco and the entire repeal of the duty on coal, the last mentioned to become effective Nov. 1. No change was announced in the income tax or the duty on sugar. A Russian loan for $440,000,000 bearing 5% interest was floated at the equivalent of 88, with a commission of 3% to the underwriters. Germany and the United States did not participate—$240,000,000 was allotted to France, $66,000,000 to Great Britain, $23,000,000 to Austria, $11,000,000 to Holland and $100,000,000 to Russia. The loan proved a decided success. In Berlin a German imperial loan for 260,000,000 marks at 3½% and 300,000,000 marks Prussian 3½% consols were floated, the issue price in both instances being 100.10%. President Roosevelt and the Emperor of China exchanged telegrams of congratulation in commemoration of the opening of the last link between Manila and Shanghai of the Postal Telegraph Cable Co.'s cable connecting the United States and China. The Court of Appeals at Albany Apr. 17 unanimously sustained the constitutionality of the Stock Transfer Tax Law of the previous year imposing a tax of $2 per 100 shares on stock transfers. Gov. Higgins the same day signed the bill taxing the tangible property of non-residents in this State after he had previously vetoed the original bill to the same effect, but which he regarded as defectively drawn. The Governor also found objections to the bill which reached him substituting a recording tax of ½ of 1% for the annual tax of the same amount imposed on real estate mortgages the previous year. He accordingly vetoed the bill. Another bill, altered to conform with the Governor's views, passed the Legislature just before adjournment and this measure was signed by him the next month.

Railroad Events and Stock Exchange Matters.—The stock market the latter part of April was thoroughly disorganized. A series of adverse influences developed, the most of which have already been enumerated—the monetary tension, the strikes and suspension of mining in the coal fields, the action and utterances of the authorities at Washington with reference to railroads and other corporate interests, the earthquake and fire at San Francisco, together with sales of securities by the fire insurance companies to meet their heavy losses. The downward movement in prices became still more pronounced early the next month. As indicating the extent of the declines in April, Atchison dropped from 95⅜ to 87¾; Mil. & St. Paul com. from 179½ to 162½; Gt. Northern from 327½ to 282; North. Pac. from 223 to 193½; Reading com. from 140 to 120; N. Y. Cent. from 146½ to 132; Union Pac. from 159⅝ to 144¼; Tenn. Coal & Iron from 152 to 139; and U. S. Steel pref. from 109½ to 104⅝. The Amalgamated Copper Co. further increased its dividend, bringing the quarterly declaration up to 1¾%. The Mo. Kan. & Tex. declared the first dividend on its pref. Consol. Gas Co., owing to the reduction in the price of gas, reduced its quar. div. to 1% against 2% previously. An event of the month was the announcement that the syndicate organized the previous year by Kuhn, Loeb & Co. and J. P. Morgan & Co. to underwrite the $100,000,000 3½% convertible bonds of the Penn. RR., offered to the shareholders at par, had expired by limitation April 1; the syndicate, it was understood, sold about 60% of its holdings and distributed the rest among the participants. Balt. & Ohio shareholders were offered $27,750,000 new com. stock at par. The N. Y. N. H. & H. RR. sold $15,000,000 50-yr. 4% non-conv. debentures, and announced that it would exchange its stock for Consolidated Ry. Co. debentures on the basis of $100 stock for $200 of debentures.

The Money Market.—The money market was subjected to more or less pressure all through April. April 5 and April 6 call loans touched 30%, and Saturday April 7 the Clearing-House statement showed a deficiency of $2,560,625 below the 25% ratio to deposits. The reserve was restored the next week, but rates remained high until relief came through gold imports and the action of the Sec. of the Treas. in making the gold engaged for import immediately available through Government deposits. The large drain upon the banks the latter part of the month for funds for transmittal to San Francisco has already been referred to; but the engagements of gold for import were on a correspondingly large scale and it was not easy to determine the prospects of the money market. After the 12th call loans did not get above 6½% and the range April 30 was 3½@4¾%. For time money, before the relief extended by the Treasury Department, at one time a slight commission had to be paid in addition to the legal rate, making the charge 8% per annum for 30 days, 7½% for 60 days and 6½% for ninety days. But at the close quotations were 5½@6% for all periods from 60 days to six months. Commercial paper was then quoted at 5¼@5¾% for double names and prime single names, and 6% for good single names. Loans of the banks were reduced from $1,032,709,400 April 7 to $1,009,275,200 April 14, but were up again to $1,039,210,500 April 28. Deposits, from $1,003,441,300 April 7, dropped to $981,861,600 April 14, and then increased to $1,028,683,200 April 28. Money holdings, after having diminished from $256,203,900 Mch. 31 to $248,299,700 April 7, increased to $268,232,800 April 21 and were $267,538,200 April 28. The reserve April 7, as already stated, showed a deficiency of $2,560,625; by April 21 there was a surplus of $16,366,725; April 28 the surplus was $10,367,400.

Foreign Exchange, Silver, &c.—Exchange early in April was demoralized as a result of the monetary tension here and easier discount rates abroad, and also the negotiation of sterling and franc loans representing borrowings of foreign capital by stock operators. There was then an almost entire absence of demand for remittance. Between the 1st and 11th rates declined fully 2@2½ cts. per pound for the different classes of bills. On the 12th there was a sudden upward reaction of 1½@2 cts., which at first was not fully understood but later appeared to have been caused by the inauguration of Sec. Shaw's plan for facilitating gold imports and which was not publicly announced until two days later. The recovery then begun was continued for several days, when the market again weakened. The latter part of the month the course of rates was irregular with the market considerably unsettled, it fluctuating under the influence of the varied conditions prevailing from day to day. The lowest figures were reached on the 11th, when 60-day bills were quoted at 4 8050@4 81, sight at 4 8290 and cable transfers at 4 8370@4 8385. By the 16th rates were up again to 4 8290@4 83, 4 8560@4 8565, and 4 8605@4 8615 respectively. The close April 30 was at 4 8125@4 8135, 4 8430@4 8435 and 4 8490@4 8495. The Bank of England April 5 reduced its discount rate from 4% to 3½, but as the result of gold withdrawals for the United States and shipments to the interior of Great Britain, its bullion holdings for the five weeks ending April 26 were decreased £5,528,017, and May 3 the rate was again advanced. Open market discounts at London early in the month were down to 3%, but the close April 30 was at 3⅜, on which day the rate at Paris was 2½ and at Berlin and Frankfort 3½%. Silver continued strong and in London got up to 30 9-16d., with the close 30½d.

MAY.—*Current Events.*—The anthracite miners agreed to accept the terms offered by the operators, namely to continue the award made by the Anthracite Strike Commission in 1902 for another period of three years from April 1 1906. The agreement was reached May 7 and was approved by the miners in convention the next day. In the bituminous regions, the strikes continued in those districts where the operators had refused to concede the wage scale of 1903, but in Illinois an agreement was reached at the end of the month by which the miners returned to work early in June, getting the 1903 wages. The U. S. Senate May 18 passed the Hepburn Rate Bill by a vote of 71 to 3, after making very extensive amendments to the measure. One of these provided for what was called a "broad court review" of the acts of the Inter-State Commerce Commission. Other amendments provided for making pipe lines and express companies subject to the law and forbidding inter-State carriers to engage in the transportation of commodities of their own production. The debate in the Senate was a long and bitter one and marked by many sensational incidents. President Roosevelt intervened in favor of having certain features incorporated in the bill, more particularly to limit the authority of the courts, and to that end had opened negotiations with the Democratic members of the Senate through ex-Senator Wm. E. Chandler of New Hampshire. The Democrats were apparently willing to co-operate, but later the President declared himself satisfied with much less radical amendment on the court review question than that advocated by the Democrats, and this led to charges of bad faith on the part of Senator Tillman and others. There were sensational developments also in other directions. On May 4 the President sent to Congress the report of Commissioner of Corporations Garfield of the results of an investigation into the oil business, accompanied by a message in which the Standard Oil Co. was severely arraigned for having, as alleged, obtained secret rebates and other discriminations in its favor from the railroads. On May 25, the Senate attached a rider to the Agricultural Appropriation Bill providing for drastic Government inspection of the business and operations of the beef-packing concerns in the United States. For further facts see remarks for June. Certain disclosures at an investigation into railroad practices made by the Inter-State Commerce Commission also attracted great attention at this time. The testimony showed that some employees of the Pennsylvania RR. had received gifts of money and stock from patrons. President Cassatt was in Europe, but decided at once to return home. A strike on the Great Lakes ordered at midnight April 30 by the International Longshoremen and Marine Transport Workers' Association proved of short duration, the men resuming work May 10. There were rather numerous strikes in Europe, but the May Day demonstration in Paris, which had been looked forward to with much anxiety, since the labor unions had threatened a political and social revolution, passed off without very serious disturbances. The French parliamentary elections held early in the month also proved assuring. In Russia Count Witte resigned as Premier and M. Goremykin succeeded him. The new political system in that country was inaugurated with the opening on May 10 of the Douma, or Russian Parliament. A conflict between this body and the Czar was at once precipitated, the Douma insisting that the Government should proclaim general amnesty, and also that the Ministry should be made responsible to it instead of to the Czar. One of the minor incidents was the presentation of an ultimatum to Turkey by Great Britain requiring the withdrawal by the Sultan of his troops from Tabah and other points on the Sinai Peninsula, which Great Britain contended was unquestionably Egyptian territory. The Porte finally yielded. The San Francisco banks resumed regular business May 21 and it was announced that the legal holidays which the Governor of California had declared from day to day would terminate after Saturday, June 2. The monthly report of the Agricultural Bureau at Washington made the average of winter wheat May 1st 91, as against 89 April 1st, but subsequently heavy frosts were reported, with snow in several States. July wheat in Chicago advanced from 78 May 2 to 84½ May 21; later the weather improved and the close May 31 was at 82 cts. The low temperatures also retarded the growth of cotton, and middling upland in this market advanced from 11.75 cts. May 1 to 12 cts. May 16. By May 31, however, there was a decline to 11.45 cts., owing to improved weather and reports of increased acreage. Certain cotton mills in Connecticut and Massachusetts engaged in the manufacture of fine goods made voluntary advances in wages of 10%. This led to a renewal of agitation on the wage question at Fall River. Print cloths declined from 3¾ cts. to 3⅝ cts. Some further imports of gold were made, with the assistance of Government deposits in the banks, but May 31 it was announced that aid of this kind would be discontinued for the time being. Government deposits in the banks were reported $92,534,755 May 31, against $102,918,772 April 30. The Treasury money holdings were $316,673,515, against $303,986,761. National bank notes increased from $514,423,519 to $516,036,146. King Alfonso of Spain was married May 31 to Princess Ena of Battenberg, who took the title of Queen Victoria. On the return of the bridal party from church, a bomb was thrown at them, concealed in a bouquet, but the King and Queen escaped unhurt, though other members of the party and some bystanders were killed. The House and Senate at Washington passed the denatured alcohol bill, providing for the use of untaxed alcohol in the arts after Jan. 1 1907; the measure became a law the next month. The great Simplon Tunnel through the Simplon Mountain, 12¼ miles long, from the Swiss to the Italian sides, was formally opened with proper ceremonies on May 19. Gov. Higgins signed the Barnes Liability Bill, increasing the liability of railroads for injuries to employees. He also announced that for the first time since 1841 the State would be able to raise its necessary revenues without levying a direct tax for State purposes, the adoption of the Constitutional Amendment in Nov. 1905 having relieved the State from the requirement of imposing a direct annual tax for the canal debt, &c. At the municipal election in Denver, Col., the municipal ownership ticket was almost completely snowed under. The death of Carl Schurz occurred May 14. The N. Y. Legislature, acting in accordance with the Constitutional Amendment adopted the previous November, re-enacted the 8-hour law limiting to 8 hours a day the labor of employees employed on public works, whether done directly by the State or by contractors or sub-contractors (see V. 82, p. 1184). The Massachusetts Legislature passed a bill providing for a sliding scale of gas charges in Boston. See V. 82, p. 1270.

Railroad Events and Stock Exchange Matters.—The downward movement in prices continued with accelerating momentum the early part of May and the market at times had a panicky appearance. The announcement that the President intended sending a message to Congress with reference to the Standard Oil Co. was made to do duty in depressing values. The message came Friday, May 4. From that time on the whole tone of the market was changed and the recoveries were in proportion to the previous losses. The announcement that the anthracite coal strike was to be terminated was of course a highly favorable development, and the fizzling out of the strike on the Great Lakes was also an assuring event. The dealings for a time averaged over 1,000,000 shares a day. The latter part of the month, owing to the developments at Washington, the market again became somewhat unsettled, and transactions dwindled to small proportions; but the recessions in prices were not important in most cases. Mil. & St. Paul com. touched 155¼ May 2 and sold up to 171¾ May 31. Gt. North. sold up from 275 May 2 to 307⅜ May 31, and Ill. Cent. from 164 to 182; N. Y. Cent. was 130½ May 2, 142⅜ May 11 and 139 May 31; and Union Pac. com. 138½ May 2, 151¾ May 11 and 149⅝ May 31. Reading com., after selling down to 112 May 2, got up to 142⅛ May 29, with the close May 31, 140⅝. Similar wide fluctuations occurred in the industrial list, Amal. Copper touching 96 May 4, but being up to 111⅜ again May 17, and closing at 107¾. On May 15 an issue of Pennsylvania *Company* 4½% gold notes running until Nov. 1907, for $50,000,000, guar. by the Penn. RR., was disposed of through Kuhn, Loeb & Co., acting as brokers, at slightly below par—the net interest cost to the company being about 5% per annum. The Wis. Cent. Ry. shareholders authorized $8,500,000 Superior & Duluth Division & Terminal 30-yr. 4% bonds and $7,000,000 were offered t shareholders at 89. Hock. Val. RR. agreed to exchang its com. stock for the minority stock of the Kan. & Mich Ry. on the basis of 60 shares of Hock. Val. for 100 shares o K. & M. Brooklyn Union Gas Co. reduced its dividend to a basis of 4% per year, against 8½ and 9½ previously paid. The Nat. Lead Co. declared a quar. div. of 1% on its com. stock, being the first payment since 1900. Rep. Iron & Steel Co., in addition to the 1¾% quar. on the pref. stoc declared 2% on account of deferred dividends on the pe

Balt. & Ohio disposed of its interest in the Consol. Coal of Md.

The Money Market.—Money showed more or less tension early in May as a result of the liquidation in stocks and a continued drain of funds through Treasury transfers to San Francisco. On the 2d call loans touched 12%. Subsequently rates eased off and the range for the month was 1½@12, with the quotation May 31 2½@4. Rates on time also became more favorable to borrowers, May 31 being 4@4¼ for 30 to 60 days, 4¾@5 for 3 to 6 months and 5¼@5½ for seven months. Commercial paper then was 5@5½ for double names and for prime single names and 5½@6 for good single names. Surplus reserves of the banks were $5,899,525 May 5, $12,894,600 May 12 and $6,816,025 June 2. Money holdings, after having been reduced from $267,538,200 April 28 to $262,717,900 May 5, were $266,003,800 June 2. Loans were at their lowest May 12 at $1,025,650,500 and from this there was an advance to $1,051,543,200 June 2. Deposits also were at their lowest May 12 at $1,014,556,400, rising to $1,036,751,100 June 2.

Foreign Exchange, Silver, &c.—Exchange was quite weak at the beginning of May, facilitating further engagements of gold for import under Secretary Shaw's plan. The action of the Bank of England, however, May 3 in again putting up its minimum from 3½ to 4 caused a recovery, and after that exchange developed strength with an important rise in rates, thus precluding further gold imports. The announcement that the Penn. RR. had sold $50,000,000 coll. trust notes led to liberal speculative selling of bills on the theory that a portion of the notes, at least, would be placed abroad. The Bank of England suffered further heavy losses of bullion the first two weeks owing to the continued drain to the United States, but subsequently was able materially to replenish its stock of gold aided by some large gold arrivals from India. The Bank of Germany, on the 23d, reduced its rate from 5 to 4½ and on the whole the monetary situation abroad considerably improved. But money rates here also declined and the last half of the month the exchange market was dull with the fluctuations in rates quite narrow. The low figures were May 3, when 60-day bills were 4 8050@4 8075, sight 4 8375@4 8390 and cable transfers 4 8440@4 8445. May 31 the quotations were 4 8210@4 8225, 4 8515@4 8525 and 4 8560@4 8570. Open market discounts May 31 were 3½ at London and at Berlin and Frankfort and 2¼ at Paris. There was a still further advance in silver, the price in London getting up to 31⅜d., with the close May 31 at 31⅛d.

JUNE.—*Current Events.*—Congress adjourned June 30. After numerous disagreements between the conferrees of the two houses of Congress, the Hepburn Railroad Rate Bill became a law June 29, mainly in the form devised by the Senate, though the original provision of the House bill, enlarging the Commission to seven members with terms of seven years, was restored. The Meat Inspection Bill, which had been attached as a rider to the Agricultural Appropriation Bill in the Senate, also became a law, but only after some of its main provisions had been radically changed in the House. President Roosevelt June 4 transmitted to Congress the report of James B. Reynolds and Chas. P. Neill, the special committee appointed by him to investigate conditions in the stockyards at Chicago, in which serious allegations of uncleanliness were made, and the President urged the enactment of substantially the provisions contained in the Senate rider. The House Committee on Agriculture, however, under the chairmanship of James W. Wadsworth, insisted on material alterations, and some acrimonious correspondence between the President and Mr. Wadsworth followed. Eventually a compromise measure which the President was willing to accept was agreed upon. The President was obliged to waive a number of points he had insisted on, in particular that the expense of inspection should be borne by the packers themselves. Under the Act as passed, the cost is laid on the Government and an appropriation of $3,000,000 was made for the purpose. The so-called Pure Food Bill, intended to provide against impurity, adulteration and fraud in the production and sale of food supplies, also became a law. The Statehood Bill was changed in conference so as to admit Oklahoma and Indian Territory as one State under the name of Oklahoma, but providing that Arizona and New Mexico should only be admitted as a joint State if the people of Arizona and New Mexico both voted for such joint statehood at the general election Nov. 6. [At that election the proposition was defeated.] Some other measures passed were a bill defining when immunity should be granted to witnesses from prosecution who give testimony in cases arising under the Inter-State Commerce and Anti-Trust Laws before Government tribunals, and limiting the immunity "to a natural person who in obedience to a subpoena gives testimony under oath or produces evidence, documentary or otherwise, under oath"; the Naturalization Bill, providing for a uniform and more strict method of naturalizing aliens throughout the United States; a bill for the reorganization of the Consular service on a merit basis; a bill increasing the liability of railroads to their employees in case of accident; a bill appropriating $25,000 for the traveling expenses of the President and those accompanying him when making trips about the country; a bill allowing national banks to loan to 10% of capital and surplus combined (instead of 10% of capital alone), provided this 10% does not exceed 30% of the capital alone. This last became a law June 22, and quite a stir was created by the issue of a circular under date of June 23 by Comptroller Ridgely saying it would be the policy "to enforce the law by requiring every bank without exception to keep its loans and discounts within the statutory limits." The type of the Panama Canal was also determined by Congress, a lock canal instead of a sea-level waterway being decided on. A resolution was likewise adopted providing for purchase of supplies for the canal in the United States unless the President deems the prices unreasonable or extortionate. Among the measures which failed, or which went over to the second or short session of Congress, were the bill forbidding political contributions from corporations, the immigration bill, the anti-injunction bills and the ship-subsidy bill. The Santo Domingo Treaty was not acted upon by the Senate. President Roosevelt, through Attorney-General Moody, allowed it to be announced June 22 that the Federal Government intended to take up at once the criminal prosecution of the Standard Oil Co. There were numerous other prosecutions and some convictions under the Interstate Commerce and the anti-trust laws, in which latter several of the States also took a hand. In the State courts at Toledo certain ice dealers were convicted of combination in restraint of trade in advancing prices for ice and were sentenced to both fine and imprisonment. Prosecutions of icemen were also begun in other States. In Kentucky the State Railroad Commission ordered a sweeping reduction in local freight rates and in Texas the State Commission ordered cuts in both passenger and freight rates and was temporarily enjoined. The Illinois Commission announced a reduction in freight rates on certain items and in Missouri legal proceedings were begun to restrain the State Board of Railroad and Warehouse Commissioners from putting into effect the schedule of freight rates provided for in the Maximum Freight Law enacted by the last Legislature. In Ohio (Feb. 8 1906), Virginia (March 15), and some other States laws had previously been passed reducing passenger rates to 2 cents per mile. In Russia the situation again became very disturbing. Besides this the Douma was in constant conflict with the Czar's Ministers and Russian securities again experienced severe declines. In the Iron trade the dissolution of the Southern Furnace Association was announced. This occurred on June 14. Thereupon a considerable block of No. 2 Birmingham pig iron is reported to have been sold on the basis of $13 a ton, against $14. There was a quick rally to $13 50, and the matter proved of only passing consequence. Important declines in the condition of wheat were reported at the beginning of the month. This, together with unfavorable weather—drought in the Southwest and excessive rains in the Northwest—caused sharp advances in grain prices. Later, with clear and warmer weather in the Northwest and cooler, with rains, in the Southwest, the price of wheat again receded. Sept. wheat in Chicago, after advancing from 79½ to 84⅝, closed June 30 at 81⅜. Definite announcement was made that the Pennsylvania RR. had succeeded in placing a 3¾% 12-15-year bond issue of the Pennsylvania Company for 250,000,000 francs in Paris. The allegations developed against officials and employees of the Pennsylvania RR. before the Inter-State Commerce Commission the previous month were followed by an extensive investigation by a special committee of the board of directors of the company. Mr. Cassatt showed that he personally had no interests or ownership in any of the coal companies making shipments over the Pennsylvania lines and only an unimportant interest in some other enterprises. In July the board of directors adopted the report of the committee and ordered that all officers and employees must divest themselves of interest in all coal and other enterprises where the holding of such interest might conflict with their duty to the company or the company's duty to the public. With large revenues, the U. S. Treasury increased its cash holdings from $316,673,545 to $328,152,366. Government deposits in the banks rose from $92,534,755 to $93,986,237. National bank circulation increased from $516,036,146 to $517,847,749. The Sec. of the Treasury gave notice that during July the depository banks would be obliged to repay the $10,000,000 special deposits made with them in March. In the bituminous coal regions settlements with the striking miners were effected in Ohio, Indiana, Illinois and the Southwest (Missouri, Kansas, Arkansas and Indian Territory) and Michigan on the basis of the 1903 scale of wages. In Western Pennsylvania the men on the lines of the Buff. & Susq. resumed work June 25. A renewal of labor troubles at the Fall River cotton mills was fortunately averted. The operatives requested a restoration of the wages paid prior to July 25 1904 and eventually this was granted, the advance to go into effect from July 2—giving an increase of about 14% in wages as compared with the 5% to 8% increase which the employees had been receiving under the sliding scale. Print cloths at Fall River were reduced from 3⅝ cts. to 3⅜ cts. The decline in cotton was interrupted early in June on unfavorable weather for the growing crop and middling uplands in New York June 4 were 11.30 cts.; the weather subsequently improved and the price June 30 was 10.80 cts. At the mines of the Greene Copper Co. at Cananea, Mex., serious labor troubles occurred through a strike of the Mexican workmen and their attempt to force the American workmen to join in the movement. A considerable number of miners were killed and one incident was the rushing across the Mexican border of armed Americans into Mexican territory at the request of the Mexican local

authorities, who found themselves unable to cope with the situation. King Haakon VII. and Queen Maud of Norway were crowned June 22. In the Italian Parliament a bill was passed reducing the interest on Italian 4 and 5% rentes to 3.75% and eventually to 3.50%. The conversion operation the next month proved a great success. The amount involved was $1,620,000,000, and only $710,000 bonds were presented for payment. In Massachusetts a law was enacted permitting the incorporation of high-speed electric railroads with authority to take lands by right of eminent domain under certain restrictions.

Railroad Events and Stock Exchange Matters.—The stock market, though strong early in the month, later developed great weakness. The provoking cause seems to have been mainly the hostile spirit shown against corporate undertakings as reflected in the events narrated above. Reading com. declined from 145¾ June 8 to 120½ June 30. N. Y. Cent. from 142¼ June 7 to 130¾ June 30; Penn. RR. from 135⅛ June 12 to 125 June 30; Mil. & St. Paul com., after advancing from 169⅝ June 1 to 182⅛ June 13, closed at 171 June 30; No. Pac. sold off from 214 June 12 to 191 June 29; Gt. North. from 309 to 278½; Un. Pac. com. from 153 June 7 to 141¼ June 30; Amal. Copper from 110⅜ June 7 to 95½ June 28, and U. S. Steel com. from 42 June 5 to 33¾ June 30. The syndicate formed the previous year to underwrite about $24,000,000 bonds of the Chic. Burl. & Quincy (Ill. Div.) was dissolved, with a considerable amount still unsold. The ruling that the transfer tax on stock sales must be paid at the rate of 2 cts. upon each share sold, no matter what the par value, proved very disturbing in the "curb" market, where so many shares of small denominations are dealt in. The most important new capital issue was the placing in France of a 250,000,000 francs 3¾% loan of the Penn. Co., guar. by the Penn. RR. Balt. & Ohio RR. increased the semi-annual div. on its com. stock from 2½ to 3%. Amer. Locomotive began divs. on its com. stock, the initial payment (quar.) being 1¼%. Pitts. Cin. Chic. & St. Louis increased the semi-annual div. on its pref. stock from 2 to 2½%. Among other companies that increased divs. were the Anaconda Copper Min. Co. and the United Copper Co. (com.). In the U. S. Court Judge Lacombe continued the order previously granted restraining the public authorities from enforcing the 80-cent Gas Law, but stated that he did not intend to restrain individual consumers from bringing actions against the Consol. Co.

The Money Market.—Money showed growing ease at the beginning of June but this was not maintained. Both the money holdings and the surplus reserves of the banks were steadily increased, supplies of money here having been augmented by large shipments from San Francisco, including considerable arrivals of Australian gold at Vancouver, B. C., which had been trans-shipped to San Francisco. Aggregate money holdings were $274,460,000 June 30 against $264,877,100 May 26 and surplus reserves $12,055,750 against $6,694,150. The latter part of June money again developed firmness with some slight flurries in the call loan branch, owing to preparations for the 1st of July int. and div. disbursements. The range for call loans was 2@6 and time loans at the close were 4½@5 for 60 to 90 days, 5% for 4 to 5 months, 5¼@5½ for 6 months and 5½@5¾ for 7 mos. Paper was quoted at 5@5½ for double names and prime single names and 5½@6 for good single names. Deposits of the banks increased from $1,032,731,800 May 26 to $1,049,617,000 June 30. Loans increased from $1,049,390,800 May 26 to $1,060,076,300 June 16, and were $1,056,944,900 June 30.

Foreign Exchange, Silver, Etc.—Exchange underwent another quick transformation. Early in June there was a sharp rise, influenced by easier money here and by a good demand to cover finance and other loan bills about to mature. Foreign lenders appeared to be little inclined to extend or renew maturing obligations. About the middle of the month the tone was reversed. The announcement of the negotiation of the Pennsylvania RR. loan in France induced speculative selling of exchange while easier discounts in London and firmer rates for time money in New York aided the renewal of maturing finance bills. There were also indications of drawings of bills by representatives in this city of foreign fire insurance companies in settlement of losses sustained by the San Francisco fire. Altogether a sharp decline ensued, encouraging expectations of gold imports, even without the intervention of the Secretary of the Treasury; but only some very small engagements for import were actually made. The Bank of England rate was reduced June 21 from 4% to 3½% and the bullion holdings were heavily augmented. Exchange was at its highest June 12 with 60-day bills 4 83@4 8305, sight at 4 8605@4 8610 and cable transfers 4 8645@4 8650. June 30 rates for the three classes of bills were 4 8190@4 82, 4 8470@4 8475 and 4 85@4 8510. Open market discounts in London were easier and the quotation June 30 was 3⅛; but at the Continental centres rates stiffened and at the close were 3⅞@4 at Berlin and Frankfort and 2⅝ at Paris. Silver in London under large selling orders declined to 29⅝d. June 15 but closed at 30 3-16d.

JULY.—*Current Events.*—The Sec. of the Treasury invited bids July 20 for $30,000,000 10-30-year Panama Canal bonds. Mr. Shaw used every device to help along the sale and it proved a great success. The bonds are by law available as security for bank notes and for Government deposits, and the Secretary offered other inducements to attract bids and insure a good price. He gave notice that banks holding public deposits secured by municipal obligations would have to substitute Government bonds for the same. This led to a demand for the old U. S. 2s and sent up their price. July 9 they had sold at 103⅝; but July 17 sold at 104½ and were quoted 104¾ bid, 105¼ asked; July 31 Mr. Shaw also announced that banks bidding for the Canal bonds would be favored with special Government deposits and that part of the money representing the bonds purchased would be left on deposit with the institution making the bids. The bidders were not obliged to put up any money. This last feature enabled a clerk in this city to obtain $5,819,580 of the bonds. The bids aggregated $146,371,300 at an average price of 104.036. The larges award to any bidder was $15,000,000 to Fisk & Robinson at 103.89@104.23. A New York City bond sale a few days subsequently of $12,500,000 4% bonds proved far from a success for a variety of reasons. The City Comptroller placed only $11,029,100 at an interest basis of 3.94%, as against 3.65% at the city's sale of $20,000,000 4s the previous February. On July 31 the directors of the U. S. Steel Corporation voted to resume dividends on the com. stock—½% being declared for the March quarter and ½% for the June quarter, making 1% for the six months, payable Oct. 1. In the Beech Creek region of Pennsylvania the strike at the coal mines was terminated about the middle of July—this being about the last of the strikes in the soft-coal regions to be settled. The outlook for the growing crops continued very favorable. A quite general decline in grain prices occurred. Sept. wheat at Chicago closed at 74⅛ cts. July 31, as against 81⅜ June 30; Sept. corn at 49¾, against 52¾, and Sept. oats at 31⅛, against 36⅜. Money holdings of the U. S. Government further increased from $328,152,366 to $335,251,754, but Government deposits in the banks were reduced from $93,986,237 to $84,480,056, chiefly as the result of the withdrawal of the $10,000,000 special Government deposits placed with the banks the previous March. National bank circulation was reduced from $517,847,749 to $516,573,399—this being the first decrease for a long time. The Treasury statement July 31 showed only $7,025,825 of State, city and railroad bonds held as security for public deposits, against $20,928,825 June 30 1906. On Sunday, July 22, the Russian Emperor unexpectedly dissolved the Douma; the news caused intense excitement upon all the European bourses and led to serious declines in Russian securities. After the dissolution of the Douma the majority of the members assembled at Viborg, Finland, and issued a manifesto to the Russian people. They were soon dispersed, however. Later, mutinies of troops and uprisings of the people occurred in various parts of the Russian Empire, creating grave anxiety all over the financial world. Sec. of State Elihu Root started July 4 on a three months' tour of the South American States to promote friendly intercourse with the United States, and to attend the Pan-American Congress at Rio de Janeiro. He was everywhere enthusiastically received. Brazil announced a new tariff reducing duties on flour and other American products 20%. Serious hostilities having developed among the Central American States Guatemala, Salvador and Honduras, Mexico cooperated with the United States in offering its good offices, and the two succeeded in bringing about peace. After eleven years' struggle, Capt. Alfred Dreyfus of the French army was finally vindicated; he was reinstated in the army and decorated with the Cross of the Legion of Honor. Russell Sage died July 22, leaving his property to his wife. Alfred Beit, the South African "diamond king," died July 16.

Railroad Events and Stock Exchange Matters.—The stock market underwent a decided change for the better. The first two weeks the tone continued weak, and there was further pronounced liquidation, carrying prices in not a few cases to the lowest points of the year. Then a period of dulness intervened, but about the 20th aggressive buying was noted, and the latter part of the month the tone was quite strong. Altogether the upward reaction reached large proportions. Atchison com. sold up from 85⅝ July 13 to 92⅜ July 31; Milw. & St. Paul com. from 167⅛ July 3 to 182¼ July 26; No. Pac. from 190 July 3 to 205½ July 30; N. Y. Cent. from 127¾ July 2 to 137½ July 30; Pennsylvania from 122½ July 2 to 130¾ July 30; Un. Pac. com. from 139¾ July 12 to 152¾ July 31; So. Pac. com. from 63¼ July 2 to 74½ July 31; Steel com. from 32⅝ July 13 to 40 July 31 and Amal. Copper from 92⅜ July 13 to 101¾ (ex-div.) July 30. The bond market remained extremely dull. A block of $6,180,000 equipment bonds of the Wabash RR. purchased by Lee, Higginson & Co. was offered for sale in Paris. Brooklyn Un. Gas Co. announced that the Sept. div. would be entirely omitted. In the Bay State Gas litigation Judge Putnam in the U. S. Circuit Court at Boston handed down a decision holding that Henry H. Rogers, though not guilty of any breach of trust, must pay to the receiver of the Bay State Gas Co. an equitable proportion of the profits derived from the sale of certain other properties. See V. 83, p. 157. The Supreme Court of Michigan affirmed the decision of the lower court overruling the demurrer of the Mich. Cent. RR. in the action brought by the State of Michigan to collect taxes for the years 1856 to 1893, claimed to be due in excess of the amounts already paid.—V. 83, p. 213.

The Money Market.—In money there was a return to ease. Before Sec. Shaw's plans had developed with reference to the Panama Canal bond sale there was a fear lest that operation might produce some tension. But the Secretary conducted the sale so as to avert friction. Early in July 8% was paid for call loans, but this was due mainly to shifting of money incident to the turn of the half-year. On July 31 the range for call loans was only 2¼@2½%. For time money the rates were 4% per annum for 60-day periods, 4¼@4½ for 90 days, 4½@4¾ for four months, 5¼@5½ for five months and 5½@5¾ for six months. Commercial paper then was 5½@5¾ for double names and for prime single names, and 6 for good four to six months' single names. Loans of the Clearing House banks dropped from $1,056,944,900 June 30 to $1,036,233,400 July 14, but increased again to $1,058,415,100 July 28. Deposits followed a similar course, dropping from $1,049,617,000 June 30 to $1,023,932,000 July 14, with an increase to $1,060,116,900 July 28. Money holdings, after declining from $274,460,000 June 30 to $265,551,000 July 7, rose to $283,921,700 July 28. Surplus reserves, after getting down to $6,465,075 July 7, were up to $19,391,000 July 21 and were $18,892,475 July 28. Business in commercial paper remained very limited. Eastern markets had been practically closed for some time previously to mercantile paper because of the absence of demand for this form of investment on the part of the fire insurance companies owing to the losses sustained by them by the San Francisco fire.

Foreign Exchange, Silver, &c.—The course of sterling during July was irregular, the tendency of rates, however, being upward, particularly the latter part. In the opening days the market was often weak, influenced in part by dear money on call here, and in part by reason of the offerings of bills representing drawings of local agents of foreign fire insurance companies on account of the settlement for the San Francisco fire losses. The latter part of the month the decline in money in this market, together with the tension which developed at the European financial centres as a result of the disturbances in Russia, produced a sharp rise in sterling. Before this rise some further occasional engagements of gold in London for import were announced and also engagements of gold from Australia. Thereafter profitable importations of the metal from London were precluded. The low figures were July 3, when 60-day bills were 4 8160@4 8165, sight bills 4 8440@4 8445 (which figures were again reached July 17) and cable transfers 4 8480@4 8485 (this last, however, touching a still lower figure, namely 4 8470@4 8475 on the 17th), while the high figure was reached July 24, when the rates for the three classes were respectively 4 8220@4 8225, 4 8520@4 8525 and 4 8560@4 8565. The close July 31 was at 4 8220@4 8230, 4 85@4 8505 and 4 8545@4 8550. Open market discounts at the European financial centres July 31 were 3 1-16@3 3-16 at London, 2½ at Paris and 3⅜ at Berlin and Frankfort. Silver in London fluctuated between 29 13-16d. and 30 7-16d., with the close July 31 at 30 1-16d.

AUGUST.—*Current Events.*—Somewhat of a sensation was created by the announcement Friday, Aug. 17, of the action on Union Pacific and Southern Pacific dividends. An increase on U. P. common had been looked for, but no one expected that the addition would be more than one or two per cent per annum (the stock having been on a 6% dividend basis). Actually a semi-annual payment of 5% was announced, placing the stock on a basis of 10% per annum. At the same time dividends were begun on Southern Pacific common, a semi-annual payment of 2½% being declared, placing these shares on a 5% basis. On the stock market, this news coming so soon after the resumption of dividends on U. S. Steel common, engendered a speculative revival. Tension again developed in the money market without, however, disturbing confidence in the general situation. Payment had to be made for the $30,000,000 Panama Canal bonds sold by the U. S. Govt. the previous month, and simultaneously Government revenues ran in excess of disbursements. Secretary Shaw endeavored, as far as possible, to minimize the influence of these operations, but though Government deposits in the banks were increased between Aug. 1 and Sept. 1 from $84,480,056 to $106,355,219, cash holdings in Sub-Treasuries nevertheless rose from $335,251,754 to $346,664,238. National bank circulation again increased, rising from $516,573,399 to $524,439,160. The favorable crop outlook was reflected in declining prices on both the grain and the cotton Exchanges. Sept. wheat at Chicago, which had closed at 74⅛ July 31, was down to 70¼c. Aug. 31; Sept. corn between the same dates declined from 49¾c. to 47¼c. Middling upland cotton in this market fell away from 10.90c. July 31 to 9.80c. Aug. 31. For the first time since 1893 the U. S. Govt. began the purchase of silver bullion in the market, the metal being needed for subsidiary coinage; later in the year the monthly purchases were again suspended because of the high price. A shock in financial circles was created by the closing of the Real Estate Trust Co. of Phila. on Tuesday Aug. 28, following the death the previous week by suicide of its President, Frank K. Hipple, who, it subsequently developed, had been guilty of gross fraud and irregularities. Earlier in the month, a financial institution located in one of the outlying sections of Chicago, namely the Milwaukee Avenue State Bank of Chicago, closed its doors. In this case, also, bad and fraudulent management was the cause. An earthquake at Valparaiso and other points in Chili, accompanied by fire, as in the San Francisco case, worked great destruction, leading to a heavy loss of life and property damage estimated at $200,000,000 or over. The Shah of Persia issued a rescript ordering the formation of a National Consultative Assembly composed of representatives of all classes of the population, from the princes downward. In China, a Chinese commission, after returning from a tour of the United States and Europe, recommended a gradual change to a constitutional government in China, giving from ten to fifteen years to educate the people to it, and an imperial decree appeared Aug. 30 promising the constitution but not fixing any date. President Roosevelt issued a proclamation putting into effect on Sept. 1 a new commercial agreement between the United States and Spain as to reciprocal tariff concessions. He also issued instructions to the Public Printer that in printing documents from the White House a so-called simplified form of spelling recommended by a spelling reform committee, which had the support of Andrew Carnegie, be adopted. The list comprised 300 words including "thru" and "tho" as the spelling for "through" and "though." On account of the opposition which developed when Congress re-assembled, the action was rescinded the following December. The Sewer Pipe Trade Association, in order to avoid prosecution by the U. S. Government, entered into an agreement with the U. S. District-Attorney whereby the Association was dissolved (V. 83, p. 382). The Commercial Cable Co. on Aug. 28 announced the opening of its cable to Iceland. An imposing reception was accorded William J. Bryan at Madison Square Garden in welcome of his home-coming from abroad; in his speech Mr. Bryan declared in favor of the Federal ownership of trunk lines of railroad and the State ownership of all other railroads. A remark by Justice Gaynor that the Brooklyn Rapid Transit Co. had no right to charge a 10-cent fare to Coney Island rendered in a proceeding to which the company was not a party induced large numbers of passengers to refuse to pay the extra fare and led to riotous proceedings at various points along the line; the matter was finally settled by the company giving passengers rebate checks for the extra fare, which checks it agreed to redeem, provided the Court of Appeals eventually decided that the company had the right to charge only a single fare. The Valorization Act in Brazil, intended to raise the price of coffee to a satisfactory basis, and which was preceded by a convention between the three great coffee States in Brazil, became a law. It provide for an export tax of three francs per bag (about 58 cts.), and will involve an outlay, it is supposed, of $75,000,000 in purchasing coffee.

Railroad Events and Stock Exchange Matters.—A great revival of speculation occurred on the Stock Exchange. The announcement after the close of business July 31 of the action of the U. S. Steel Corporation in resuming dividends on Steel com. was interpreted as a widely favorable event and the stock market the beginning of August naturally felt the quickening influence. Hence, when, on Friday morning, Aug. 17, the further announcement came that the dividend on U. P. com. had been raised from a basis of 6% per annum to 10% and that dividends on So. Pac. com. were to be begun at 5% per annum, a tremendous impetus was given to the speculation for a rise. The next few days the advances in the prices of prominent stocks reached very large dimensions and transactions were on a tremendous scale—the sales Monday, Aug. 20, aggregating 2,716,000 shares. Union Pac. com. had sold at 153 Aug. 1 and reached 191¾ Aug. 30, with a further rise in Sept., and many other stocks also enjoyed large advances. The latter part of the month the condition of the money market suggested caution and somewhat of a halt in the upward movement then ensued. The market for bonds remained generally narrow and limited, as in previous months; in a few cases there were sharp declines—in N. Y. Cent. gen. 3½s because of the dissolution of the underwriting syndicate with some of the bonds left unsold. There were suggestions of increased dividends on Atchison and other stocks. Atch. com. moved up from 92¼ Aug. 9 to 108⅝ Aug. 29; Can. Pac. from 164¾ Aug. 4 to 179¼ Aug. 29; Gt. North. from 293¼ Aug. 4 to 334 Aug. 30; N. Y. Central from 137½ Aug. 1 to 146 Aug. 20; Penn. from 130⅜ Aug. 1 to 146¼ Aug. 20; So. Pac. com. from 73⅝ Aug. 2 to 93½ Aug. 25; Amal. Copper from 100¾ Aug. 9 to 111½ Aug. 20; and U. S. Steel com. from 39⅛ Aug. 4 to 47¾ Aug. 25. Milw. & St. Paul directors gave shareholders the right to take the $25,000,000 of treasury com. stock at par; the privilege was worth $17 or $18 a share. Boston & Maine stockholders were offered 53,319 shares of new stock at $165 a share, but subscribed for only 38,457 shares. New or increased dividends were declared by a number of copper companies, including Butte Coalition Mining Co., Calumet & Hecla, Copper Range Consolidated and Wolverine Copper Mining Co. The Republic Iron & Steel Company, besides the regular quarterly dividend of 1¾% on the pref. stock, declared 2% on account of arrears of dividends on this stock and repeated the operation three months later. The American Express Co. announced an increase from 8% yearly to 12% yearly. At the annual meeting of the Wells, Fargo Express Co. the Harriman ticket was re-elected. The Brooklyn Ferry Co. defaulted Aug. 1 in the interest on its $6,500,000 first consols. An assessment of $3 per share was levied on the 280,000 shares of stock of the

Spring Valley Water Co. following the San Francisco earthquake and fire. The Pennsylvania RR. announced a reduction in passenger rates (V. 83, p. 324, 436), as also did the N. Y. N. H. & H.—V. 83, p. 435—the N. Y. Central, and a number of other roads (V. 83, p. 625, 686. In Wisconsin the State Railroad Commission ordered a reduction in grain rates. In Washington the Railroad Commission ordered an interchange of wheat traffic between eastern Washington and Puget Sound ports (V. 83, p. 295), and in Oregon assessed values of railroads were enormously increased. The Virginia Corporation Commission, after declaring unconstitutional the Churchman Act, passed by the Virginia Legislature and which sought to compel the railroads to keep on sale mileage books at 2 cents a mile (the provision was later also declared invalid by the courts), issued a notice requiring the railroads to show cause Nov. 1 why they should not be compelled to make a flat rate of 2 cents a mile.

The Money Market.—Money again developed decided tension. The New York City banks had to meet the usual call for funds to move the crops, while at the same time the U. S. Treasury was taking money out of the banks, as noted above. The speculative revival on the Stock Exchange served further to intensify the pressure on the banks. Towards the close the failure of the Real Estate Trust Co. of Phila. also proved a disturbing influence. The last day of August the range for call loans was 8@12% while borrowers on time had to pay a commission in addition to the legal rate of interest. The surplus reserves of the Clearing House banks declined from $18,892,475 July 28 to $2,869,400 Sept. 1, and money holdings fell from $283 921,700 to $263,383,700. Loans after increasing from $1,058,415,100 July 28 to $1,077,191,700 Aug. 4, fluctuated thereafter and were $1,063,739,600 Sept. 1. Deposits, after rising from $1,060,116,900 July 28 to $1,076,599,300 Aug. 4, fell away to $1,042,057,200 Sept. 1. Time loans the latter part of the month were quoted at 6% and a commission of ¼ of 1% for all periods from sixty days to six months. At the very close, there was an advance to the equivalent of 6½% for ninety days to four months. For periods beyond five months the rate was 6%. Commercial paper closed at 6@7 for double names and 6@7 for prime and 7½ for good single names

Foreign Exchange, Silver, &c.—Sterling exchange developed great weakness. At the beginning of August, the market was active and higher, influenced by a good demand to cover speculative sales and to remit for stocks sold for European account in consequence of the disturbed political and financial situation in Russia. Soon, however, the market manifested a declining tendency. Bankers seemed to be confident of lower rates as the result of the season's export movement of cotton and grain, which was expected to be large, and they were disposed to anticipate such movement by operations in futures and by speculative selling. The growing tension in the money market encouraged negotiations in all forms of loan bills and induced holders of commodity drafts in the interior, to promptly market the same. Liberal purchases by Europeans of American securities also at times supplied considerable amounts of exchange, apparently much more than offsetting the inquiry for bills resulting from foreign realizations on such securities. Altogether, the market became demoralized the latter part of the month. Sight bills dropped from 4 8535@4 8540 Aug. 7 to 4 8325@4 8340 Aug. 30 and closed Aug. 31 at 4 8330@4 8340. Cable transfers from 4 8575@4 8585 dropped to 4 8375@4 84, with the close at 4 8390@4 84; while sixty-day bills fell from 4 8250@4 8260 to 4 8025@4 8050, with the close 4 8030@4 8040. Open market discounts at London advanced and were 3½ Aug. 31. At Berlin and Frankfort the rate at the close was 3% and at Paris it was 2¼. Silver in London, after touching 29⅞d. Aug. 3, advanced to 30 15-16d. and closed at 30⅞d. The resumption of purchases of silver bullion by the U. S. Govt. exerted a strengthening influence.

SEPTEMBER.—*Current Events.*—The Secretary of the Treasury again intervened to assist in the importation of gold. Early in the month call money was quoted at 40%, and borrowers on time had to pay a commission in addition to the full legal rate of interest. Saturday, Sept. 8, the Clearing-House banks showed a deficiency in their reserves of $6,577,925. Government receipts were exceeding disbursements. After the close of business Sept. 5 Mr. Shaw announced that he would repeat his operation of the previous spring and deposit public moneys with the institutions engaging gold for import, thus making the imports immediately available and saving loss of interest. The offer applied to imports from Australia or any other distant point, but was not to become operative until Monday, Sept. 10. Some gold had been engaged before this news arrived and thereafter the takings were large. As recorded at the New York Sub-Treasury, $35,972,000 gold was engaged in Sept., against which Government deposits were made, and $2,000,000 more was engaged by the National Shawmut Bank of Boston. The *arrivals* at this point during the month aggregated about $26,000,000. On the afternoon of September 27 the Secretary of the Treasury went still farther and announced that $26,000,000 of Government moneys would be added to bank deposits independent of the gold engagements. The bulk of this amount, of course, did not get into the banks until the following month. Secretary Shaw early in the month issued a notice warning the banks that they must not use Government deposits in making speculative loans on call in Wall Street. Oct. 1 Government deposits with the banks were $134,619,383 against $106,355,219 Sept. 1 and $84,180,056 Aug. 1. Money holdings in Sub-Treasuries Oct. 1 were $339,049,387 against $346,664,238 Sept. 1 and $335,251,754 Aug. 1. Bank circulation secured by bonds further increased from $524,439,160 to $527,768,921. The large American takings of gold disturbed the European money markets, and both the Bank of England and the Bank of Germany raised their rates of discount, while sharp advances occurred in the open market. Developments in Cuba were very important. The insurrection in the island was making considerable headway and the Cuban Government appeared to be helpless against it. President Roosevelt sent Secretary of War Taft and Assistant Secretary of State Robt. Bacon as commissioners to the island to see if pacification could not be arranged and issued a note of warning that the United States would be obliged to intervene in fulfillment of its treaty obligations if this were not done. The effort proved futile. The Cuban President, Senor Palma, together with his whole Cabinet, resigned, leaving the country without any Government. Accordingly, on Sept. 29, Secretary Taft proclaimed himself Provisional Governor of Cuba. The next month Charles E. Magoon was appointed to succeed him. The weather during September continued favorable to the grain crops, but in the case of cotton some deterioration occurred, and, furthermore, considerable damage was done the latter part of the month by the hurricane referred to below. Middling uplands here, after advancing from 9.80c. Sept. 1 to 10c. Sept. 6, dropped to 9.00c. by Sept. 24, but recovered to 9.90c. Sept. 29, with a further sharp rise early in October. Political developments in New York State caused some uneasiness in business circles. William R. Hearst, after having himself nominated as a candidate for Governor by the so-called Independence League, succeeded in capturing also the nomination by the Democratic Convention, notwithstanding the determined opposition of the better wing of the party. The nomination, however, of Charles E. Hughes by the Republican Convention was considered as simplifying the issue, with the prospects favorable for the defeat of Mr. Hearst, especially as the latter's nomination led to large defections in the Democratic Party. On Sept. 26 and 27 a tropical storm did great damage on the Gulf Coast and also extended well up the Mississippi Valley. Pensacola, Fla., and Mobile, Ala., suffered severely, the property loss in each being estimated at several million dollars, while considerable loss of life also occurred. A local event was the joining of the two ends of one of the two tubes being built by the Penn. RR. beneath the bed of the Hudson River. In a test case Judge Windes in the Circuit Court at Chicago on Sept. 15 held valid the $75,000,000 Mueller certificates which the city proposed to issue for municipal ownership of street railways. The case was at once appealed to the State Supreme Court. Early in the month it was announced that the Penn. RR. had sold to Kuhn, Loeb & Co. 400,000 shares of its holdings of B. & O. stock and 160,000 shares of Nor. & West.—being about one-half its entire holdings in each instance, and reducing its interest in the share capital of these roads from about 40% to 20%. Later in the month it transpired that the Union Pacific-Harriman interests were negotiating with Kuhn, Loeb & Co. for the B. & O. stock, and the purchase was subsequently effected. A commercial agreement was entered into between the United States and Bulgaria giving this country the benefit of Bulgaria's minimum tariff. President Roosevelt issued an executive order enjoining the enforcement of the 8-hour law by contractors on Government work. Race conflicts between blacks and whites in the South were very frequent during 1906; one of these occurred in Sept. at Atlanta, in which many negroes were killed.

Railroad Events and Stock Exchange Matters.—The stock market during September was weak and strong by turns. The tension in money operated to repress speculative activity and Mr. Hearst's success in gaining the Democratic nomination also at one time exerted an adverse effect. A sharp rise followed the action of Secretary Shaw in again deciding to facilitate gold imports, but the buoyancy was not long maintained. Certain stocks enjoyed sharp rises by reason of special circumstances—Balt. & Ohio, for instance, when it transpired that the Harriman interests were seeking the Pennsylvania block of stock. The latter part of the month prices generally declined with the close somewhat weak. B. & O. com. sold up from 117¾ Sept. 1 to 125⅛ Sept. 21 and closed at 122⅞ Sept. 29. Can. Pac. from 173½ Sept. 1 advanced to 183 Sept. 28, closing at 182¾ Sept. 29. Milw. & St. Paul com., after having advanced from 177 Sept. 1 to 183 Sept. 4, sold down to 170 Sept. 28 and closed at 172⅛ Sept. 29. Pennsylvania moved up from 141⅜ Sept. 1 to 145¼ Sept. 17, then declined to 139½ Sept. 28, and closed at 141⅛ Sept. 29. Union Pac. com. rose from 191¼ Sept. 1 to 195⅜ Sept. 4, declined to 181½ Sept. 28, ex-div. of 5%, and closed at 183. So. Pac. com., from 90¾ Sept. 1 and 90½ Sept. 5, advanced to 97½ Sept. 21 and closed at 95½ Sept. 29. Evansv. & Terre Haute RR. declared 4% on its com. stock, being the first dividend since May 1901. The N. Y. Central offered shareholders $29,839,560 new stock at par. Clev. Cin. Chic. & St. Louis listed $4,402,400 additional common stock which had been sold.

The Money Market.—The tension in money became still more pronounced. Call loans touched 30% Sept. 4 and 40%

Sept. 5; news of Sec. Shaw's decision again to assist gold imports did not come until after the close of business the latter day. Sept. 6 the highest rate was 25% and Sept. 7 it was 17%. Thereafter no such extremes figures were reached, but even under the large deposits of Government moneys in the banks, ease by no means developed. Sept. 28 the range was 4½@7. On time contracts a fractional commission had to be paid the entire month in addition to the legal rate. At the close, with the commission included, the rate was 7% for sixty to ninety days, 7@7½ for four and 6½@6¾ for five to six months. Some loans were then reported at 6 for eight to nine months on high-grade security. Commercial paper was not readily salable, but rates at the close were nominally 6½@7 for double names and for prime single names, and 7½ for good single names. Money holdings of the banks fell from $263,383,700 Sept. 1 to $246,975,600 Sept. 8, and then increased week by week to Sept. 29, when the amount was $271,055,100. The banks were $6,577,925 below the required reserve Sept. 8, but the deficit was made good the next week and Sept. 29 there was $12,540,350 surplus. Loans were reduced from $1,063,739,600 Sept. 1 to $1,036,460,400 Sept. 15 and then increased to $1,051,172,800 Sept. 29. Deposits dropped from $1,042,057,200 Sept. 1 to $1,005,487,600 Sept. 15, and were $1,034,059,000 Sept. 29.

Foreign Exchange, Silver, &c.—Foreign exchange during September was more or less unsettled. Secretary Shaw's action in assisting gold imports, the monetary tension here, the advance in discounts abroad, together with the obstacles thrown in the way of this country obtaining the gold which it sought, were varying influences which affected prices of sterling bills one way or another from day to day. Dear money here encouraged drawings of finance and other loan bills, as it had in the month preceding, and also kept the demand for remittance light. A supply of exchange also came upon the market against a matured installment of the loan negotiated in France by the Penn. RR. There was at times some speculative selling of exchange based upon expectations of lower rates when cotton should begin actively to be exported. Sight bills were at their lowest Sept. 5 at 4 8285@4 8315. The close Sept. 29 was 4 8325@4 8335. Cable transfers were 4 8375@4 8380 Sept. 5 and 4 8410@4 8415 Sept. 29. Sixty-day bills were at their lowest Sept. 22 at 4 7940@4 7950; the price Sept. 29 was 4 7950@4 7975. The Bank of England put up its rate of discount from 3½ to 4% Sept. 13 and the Bank of Germany the next week advanced from 4½ to 5. Bullion holdings of the Bank of England were heavily reduced, in large part as the result of the takings of gold for the United States. Open market discounts at London Sept. 29 were 4⅛@4¼, and at Berlin and Frankfort 4⅝@4¾. At Paris the open market quotation was 2⅞. Silver advanced still further, getting up to 31¾d. with the close 31⅝d.

OCTOBER.—*Current Events.*—The drain of gold to the United States disturbed all the European money markets. On the 10th the Bank of Germany raised its rate from 5% to 6% and on the 11th the Bank of England moved up from 4% to 5%. Then on Friday, Oct. 19, the Bank of England took the whole financial world by surprise and further raised its rate to 6%. This was the more startling as the Governors had the previous day, at the regular weekly meeting, refrained from a further increase. The explanation was offered that indications of renewed monetary tension in New York, followed on Thursday, the 18th, by a sharp break in our foreign exchange rates, made the Bank officials apprehensive that there might be further takings of gold for this country at a time when they would have to meet a heavy call for gold for Egypt and other countries. The advance to 6% had the effect intended. The course of our exchange market was instantly reversed, while loans being carried in Europe were to a considerable extent transferred to this side or else the holdings of stock on which they had been obtained liquidated. On the New York Stock Exchange prices tumbled and the market on that and succeeding days was in a state of demoralization. Furthermore, on Oct. 23 Mr. Shaw announced that further advances of Government funds to facilitate gold imports would be discontinued. This had a reassuring effect in Europe, though by that time exchange rates had risen so decidedly as to make further imports of the metal out of the question, even with the aid of Treasury advances. Prior to the suspension of the order, $8,634,000 more gold had been engaged with the help of the Treasury and $1,848,000 gold came in unaided. Altogether, from the beginning of the movement, $44,606,000 of Treasury advances for gold imports were made at New York and $2,000,000 at Boston, besides which $7,457,844 gold came in unaided. The Secretary also took some new steps to ease monetary conditions here. Of the $26,000,000 special deposits announced towards the close of September, the New York institutions got eventually $7,500,000, though only $3,000,000 had been allotted to them; interior institutions failed to take their full quota. Moreover, part of the remainder of the $26,000,000 was placed with the New York correspondents of the country depositories for their account, to be withdrawn by them as needed. All this was before the sudden advance in the Bank of England rate to 6%. Following that event, Mr. Shaw gave notice that he would permit national banks having deposits of Government funds with Government bonds as collateral to substitute municipal securities for such collateral up to an aggregate of $18,000,000 on condition that the Government bonds released be used at once as the basis for new bank-note circulation. The offer, it is understood, was availed of to the full extent. The Secretary, "to demonstrate in a limited form the benefits of an elastic currency," required that the banks, when taking out the additional notes, must make application for the retirement thereof between March 15 and Aug. 10 1907. The Ontario Bank of Toronto became embarrassed, owing to unauthorized investments, as alleged, by its General Manager, and on Oct. 13 an offer for the absorption of the institution made by the Bank of Montreal was accepted. The troubles of this Canadian institution were followed the succeeding week by considerable shipments of gold from this centre to Canada. Money holdings in Sub-Treasuries were reduced from $339,049,387 to $324,029,969. Government deposits in the banks increased from $134,619,383 to $148,975,346, and national bank circulation increased from $527,768,924 to $536,933,169. There was a pretty general rise in the cotton goods market, due partly to a growing scarcity of supplies and partly to a sharp rise in cotton. Print cloths at Fall River were first marked up from 3⅜c. to 3½c., then on the 16th to 3⅝c., on the 19th to 3¾c., and on the 20th to 3⅞c. Middling upland cotton in this market from 9.90c. Sept. 29 got up to 11.40c. by Oct. 11, influenced at first by reports of damage from the tropical storm of the previous month and a small crop movement, and later by reports of killing frosts over a considerable portion of the South. The latter part of the month the price sharply declined and the close Oct. 31 was at 10.50c; the movement of the crop had now become quite large, while the Census Bureau report showed a much larger quantity of cotton ginned up to Oct. 18 than had been expected. J. M. Ceballos & Co., a banking house with large Cuban interests, made an assignment, with liabilities of $3,000,000. The French Ministry under M. Sarrien resigned, the Premier being ill. M. Clemenceau formed a new Ministry, retaining the portfolio of the Interior.

Railroad Events and Stock Exchange Matters.—The stock market the early part of October was irregular with the business small. The copper stocks advanced on still higher prices for the metal and there was improvement in other directions, too. Dealings, however, were almost wholly professional. With the signing of the contract for the long-mooted lease of the Great Northern ore lands to the U. S. Steel Corporation, the Steel stocks developed considerable strength and on Oct. 12 Steel com. touched 50¼, the highest price since Dec. 1901. The market, however, was showing growing weakness when Oct. 19 the news came of the advance in the Bank of England rate to 6%. This caused a sharp break throughout the list, which was accelerated the next day by an unfavorable bank statement. An irregular recovery followed, but weakness remained the prevailing characteristic until the close. The semi-annual dividend of both Atchison com. and Norf. & West. com. was increased from 2 to 2½% but the action in the Atchison case was followed by a sharp decline, owing to disappointment because the increase had not been to 3%. The Amal. Copper Co. increased its quarterly declaration from 1¾ to 2% but this stock also declined with the weakening of the general market. Can. Pac. announced its intention to distribute 1% yearly on the com. shares beginning with 1907 from the interest received from land funds and land contracts. Atch. com. from 109 Oct. 2 dropped to 99½ Oct. 20 and closed at 100⅜ Oct. 31. Milw. & St. Paul com. declined from 178⅝ Oct. 12 to 168¾ Oct. 20 and closed at 170; N. Y. Cent. sold at 126¾ Oct. 31 ex-rights, against 141½ Oct. 10 with the rights on; Pennsylvania from 146¼ Oct. 11 got down to 139 Oct. 26, with the close at 141; Union Pac. com. dropped from 191½ Oct. 11 to 180¼ Oct. 31. Bethlehem Steel Corp. reduced the div. on its pref. stock from a basis of 7% to 5%. Norf. & West. shareholders authorized $34,000,000 conv. bonds and a like amount of new com. stock into which the bonds may be converted. Chic. & North West. shareholders authorized an increase of $100,000,000 in com. stock, none to be issued immediately. Tenn. Coal Iron & RR. Co. shareholders authorized an increase in the stock from $30,000,000 to $50,000,000 and the directors voted to issue the $3,500,000 remaining of the $7,000,000 com. stock authorized in the spring. The N. Y. Court of Appeals handed down a decision sustaining the injunctions preventing the Consol. Gas Co. from shutting off the supply of gas to the plaintiffs in the case because of their refusal to pay more than the prescribed 80 cents per 1,000 feet. Wabash RR. shareholders authorized the $200,000,000 4% ref. bonds in accordance with the plan for retiring the debenture bonds. They also authorized $16,500,000 new pref. stock.

The Money Market.—Money on call Oct. 1 reached 9%, but gradually the action of the Treasury the previous month in enlarging Government deposits made its influence felt and rates declined both at call and on time. With the beginning, however, of shipments of gold to Canada in connection with the Ontario Bank embarrassment, a hardening tendency again developed. On the 17th the call loans got back to 6%, and on the 19th, with the rise in the Bank of England rate to 6%, call loans were made at 7%. With announcement of further relief measures by the Secretary rates eased off. The last few days, however, the tendency again was upward, and Oct. 31 the range was 6@9%. Money holdings of the banks, after

having been reduced from $271,055,100 Sept. 29 to $267,257,800 Oct. 5, increased to $275,718,400 Oct. 13 and then declined and were only $257,005,800 Nov. 3. Surplus reserves were reduced from $12,540,350 Sept. 29 to $9,423,125 Oct. 6, rose to $13,024,100 Oct. 13, then fell off and were $3,049,775 Nov. 3. Loans rose from $1,051,172,800 Sept. 29 to $1,082,358,500 Oct. 20, and it was thought this increase reflected largely the transfers to this side of loans which had been carried in Europe. On the other hand, the reduction following (to $1,052,790,900 Nov. 3) was taken to indicate a transfer of loans from the banks to the trust companies. Deposits Nov. 3 were $1,015,824,100 against $1,062,332,600 Oct. 20 and $1,031,338,700 Oct. 6. Rates for time money at the close were 6@6½ for sixty to ninety days and 6 for four to six months, while commercial paper was quoted at 6@6½ for double names and prime single names and 6½@7 for good single names.

Foreign Exchange, Silver, &c.—The tendency of exchange rates the first eleven days of October was upward. At this time ease was gradually developing in the money market and money here was relatively cheaper than on the other side. As stated above, the Bank of Germany on the 10th raised its rate of discount from 5 to 6% and Oct. 11 the Bank of England advanced from 4 to 5%. The difference in money rates made further negotiations of finance and other loan bills unprofitable, besides stimulating a demand for remittance in payment for such of these drafts as were maturing. But after the 11th the course of the exchange market was downward. A sudden flurry in call money Oct. 17 and the selling of bankers' drafts on rumors of expected tension in Canada, in connection with the embarrassment of the Ontario Bank, caused a sharp break in exchange the following day (Oct. 18) and led to the action of the Bank of England Oct. 19 in moving up its rate to 6%. This step instantly reversed again the course of exchange and only a slight further rise would have made it possible to export gold. The Bank of England for the six weeks ending Oct. 11, when the first advance in rate occurred, lost no less than £9,395,602 gold. The next week it made a small gain—£55,847. In the week ending Oct. 25, notwithstanding the advance to 6%, bullion holdings were further reduced by £745,746. This was followed, however, by a gain the ensuing week of £120,587. On Oct. 11 sixty-day bills were 4 8115@4 8130, sight 4 8520@4 8530, and cable transfers 4 8590@4 8605. By the 18th they had got down to 4 80@4 8025, 4 84@4 8415 and 4 8465@4 8475, respectively. Then came the upward turn and Oct. 21 quotations were 4 8075@4 8085, 4 8590@4 86 and 4 8715@4 8720. It remains to be said that cable transfers on the 22d sold as high as 4 8750 and on the 23d at 4 8780, an advance of over 3 cents compared with Oct. 18. The rest of the month the market was irregular and decidedly unsettled with the quotations Oct. 31 at 4 8040@4 8045 for sixty days, 4 8560@4 8565 for sight and 4 8665@4 8670 for cable transfers. Open market discounts were very high at all the European monetary centres, being Oct. 31 5⅞@6 at London, 5¼ at Berlin and Frankfort and 3½ at Paris. There was a further rise in silver—to 32 9-16d.—with 32 7-16d. the close Oct. 31.

NOVEMBER.—*Current Events.*—William R. Hearst was defeated in his canvass for Governor of New York by a plurality of 57,897, though all the other candidates on the Democratic State ticket were successful. The monetary situation in Europe improved somewhat, but in New York renewed tension developed. The Bank of England was not obliged further to advance its rate, though nearly all through the month fears prevailed that this might have to be done. The Bank was able to purchase practically all the arrivals of the metal in the open market, and in addition relief was afforded by the Bank of France agreeing to supply inquiries for gold on Egyptian account up to £1,000,000 and also in placing no obstacle in the way of private remittances of gold from Paris to London, these consisting largely of American coin. £2,109,000 was transferred in this way from Paris to the English capital the last two weeks, £1,494,000 consisting of American coin. Hence, though the Bank of England had an unexpectedly heavy drain of gold for Brazil to meet, it succeeded in increasing its bullion holdings in the five weeks ending Nov. 29 by £4,833,880. Discrimination against American finance bills at the European centres was one of the features. Nominally the Bank of France refused to discount any foreign finance bills, but the matter was of moment only as it related to American bills, the volume of which at the European centres had reached huge proportions. The Bank of France wanted to check speculative borrowing and was unwilling in the tension existing to provide facilities for possible takings of gold in Europe for American account. Many of the leading French banks joined in the refusal of the Bank of France; some other French banks, however, as well as French private bankers, undertook to discount American bills. Early in the month, when the regular rate of discount was 2⅞@3%, these American finance bills were discounted in Paris at from 4 to 4½%, according to circumstances. In this country no further aid came from Secretary Shaw during the month, and money holdings in Sub-Treasuries increased from $324,029,969 to $313,717,111. This addition occurred notwithstanding that Government deposits in the banks declined only from $148,975,346 to $145,559,439. National bank circulation further increased from $536,933,169 to $546,981,447. Much prominence was given in the newspapers and by the authorities at Washington to a suit in equity brought in the U. S. Circuit Court at St. Louis by Attorney-General Moody, acting under the direction of President Roosevelt, against the Standard Oil Co. and 70 alleged constituent corporations and partnerships and certain directors of the company. Violation of the Sherman Anti-Trust Law was charged. Proceedings against the company on one ground or another were already pending in some of the State courts and similar action was threatened in other States. Standard Oil shares dropped from 598 Nov. 7 to 505 Nov. 23. The previous January sales were made at 700. Railroad tonnage continued enormous and complaints of inability to move promptly the traffic offered came from all parts of the country. A statement made by President James J. Hill in a speech on Nov. 10 before the Merchants' Club of Chicago to the effect that from 115,000 to 120,000 miles of additional track were urgently needed attracted a great deal of attention. The Penn. RR. Nov. 1 increased its semi-annual dividend from 3 to 3½% and Nov. 7 announced an increase of 10% in the wages of all employees receiving less than $200 a month, effective Dec. 1. It was estimated the increase would apply to about 185,000 employees over the whole system, and that the additional outlay would amount to $12,000,000 a year. The 1% increase in the dividend called for $3,060,000 additional per year. The action of the Pennsylvania was taken as foreshadowing increases in wages all over the country, and a number of increases by other companies were actually announced. Some of the industrial concerns also raised wages, notably the U. S. Steel Corporation and the Standard Oil Co. At Fall River a request of the cotton operatives for an advance of 10% made the previous month—the request was for the restoration of the wages paid prior to Nov. 1903—was finally conceded after the manufacturers had tendered a 5% increase and the proposition had been rejected by the operatives and a strike ordered for Monday, Nov. 26. Print cloths remained unchanged at 3⅞c. but middling upland cotton in New York, after declining from 10.50c. October 31 to 10.10c. November 9, rose to 10.40c. November 30. An agreement upon a plan of currency reform was reached at a conference between the committee of the American Bankers' Association specially appointed for the purpose and the Currency Committee of the New York Chamber of Commerce. The plan was also concurred in by Congressman Chas. N. Fowler, the Chairman of the Banking and Currency Committee of the House of Representatives, and met with the approval of some of the Treasury officials. It provided that the banks might issue additional notes secured only upon their assets to the extent of 40% of their bond-secured circulation, but not to exceed 25% of the capital of the bank, upon the payment of a tax of 2½% per year, and also a further issue of credit notes not exceeding 12½% of the capital upon payment of a tax of 5% per annum. These credit notes were to be secured by a guaranty fund and the banks were to hold reserves against them the same as against deposits, namely 25% in reserve cities and 15% in country banks. The plan also provided that all public moneys above a reasonable working balance, from whatever source derived, should be currently deposited from day to day in national banks without the requirement of collateral security or any special guaranty—the banks to pay 2% interest on such deposits. The proposal for a Central Bank of Issue, suggested by the Chamber of Commerce, was discarded. During the month President Roosevelt made a trip to Panama to inspect the work on the projected Isthmus Canal, and on the way back paid a visit to Porto Rico. The occasion was the first in history when a President had gone out of the United States during his term of office. New York City Nov. 2 sold $4,500,000 4s at 101.899—a basis of about 3.91%. The Chase National Bank of this city declared a dividend of 400% and increased its capital from $1,000,000 to $5,000,000. President Roosevelt dismissed in disgrace an entire battalion of colored troops, consisting of Companies B, C and D of the 25th Infantry, serving at Fort Brown, Texas, because some of their number had been engaged in murder and riot at Brownsville, Texas, the previous August and the identity of the offenders was not revealed by the remaining men. The action excited much criticism. Owing to the exclusion some time previously of Japanese children from the San Francisco public schools, President Roosevelt directed the Secretary of Commerce and Labor, Victor H. Metcalf, to make an investigation to determine if Japanese treaty rights were being violated. The report was submitted to Congress the next month.

Railroad Events and Stock Exchange Matters.—The increase in the Penn. RR. div. gave tone to the whole market Nov. 1, but this soon passed away and the market became irregular—weak at first, then recovering, with sharp advances in certain special stocks, and finally lapsing into dulness, with the volume of business reduced to small proportions. The distribution of the Hill ore properties was announced, certificates of beneficial interest in these properties being created for 1,500,000 shares—precisely the number of shares of Gt. North. stock outstanding at the time. The stock, however, weakened after the announcement. From 315 Nov. 1 it sold up to 333½ Nov. 17, and then dropped to 314 Nov. 26, closing at 318⅞ Nov. 30. North. Pac. sold up from 209½ Nov. 1 to 228 Nov. 17 and closed Nov. 30 at 224¼. Among

other properties that showed wide fluctuations or special strength Union Pac. com. sold up from 179¼ Nov. 12 to 190⅞ Nov. 22 with the close at 187⅜; Mil. & St. Paul com. sold at 169½ Nov. 12 and 189½ Nov. 20 with the close 182⅞; Del. & Hud. from 213½ Nov. 12 moved up to 234¾ Nov. 22 with the close 228; Mo. Kan. & Texas com. rose from 33½ Nov. 9 to 43⅝ Nov. 27, closing at 42¾; Reading com. from 138¼ Nov. 1 got up to 150¾ Nov. 22, closing at 148; N. Y. Cent. rose from 126 Nov. 12 to 132¾ Nov. 19, with the close 131⅜. The Pullman Co. declared a stock dividend of 36%, the stock being increased from $74,000,000 to $100,000,000. In the Ill. Cent. RR., Vice-Pres. Jas. T. Harahan was elected President to succeed Stuyvesant Fish by the vote of 8 of the 12 directors present, the other 4 not voting. Pres. Samuel Spencer of the Southern Ry. was killed in a rear-end collision on one of the lines of the system on the morning of Nov. 29 near Lynchburg, Va., the accident having been caused by the carelessness of one of the signal operators. Stockholders of the Clev. Cin. Chic. & St. Louis Ry. were offered $10,000,000 new stock at 90. $20,000,000 new stock of the General Electric Co. was authorized and $10,861,200 offered to shareholders at par. The Western Union Tel. Co. offered to shareholders $10,000,000 4% convertible bonds at 87½. The Fed. Min. & Smelt. increased the extra div. on common.

The Money Market.—High rates for call loans were recorded every week in November and on the last day, owing to the calling of loans in preparation for the first of December payments, there was a sharp rise in the closing hour to 27%. Money holdings of the banks further declined from $257,005,800 Nov. 3 to $248,174,500 Nov. 10, and on this last date the reserve for the third time during the year showed a deficit of $1,514,125 below the 25% requirement. The reserve was restored the next week and by Nov. 24 there was a surplus of $4,403,425. Money holdings between Nov. 10 and Nov. 24 increased from $248,174,500 to $253,894,700, a rise in the rates of domestic exchange at interior points on New York bringing some return flow of currency; but the last week rates of exchange at Chicago on New York dropped from a premium to par, thus checking further shipments of money this way; accordingly, money holdings by Dec. 1 showed a decrease to $251,107,800 and the surplus reserve was reduced to $1,449,125. In addition to the ordinary calls for money the final payment on the $25,000,000 new stock of the Chic. Milw. & St. Paul RR., calling for about $12,000,000, had to be met Nov. 12 Time loans at the close (including the commission paid for securing the loans) were 7½ for sixty and 7@7½ for ninety days, 7 for four, and 6@6½ for five to six months. For periods running from 7 to 12 months loans could be obtained at 6%. Loans declined from $1,052,790,900 Nov. 3 to $1,039,397,800 Nov. 17, but were $1,048,552,300 Dec. 1. Deposits, after decreasing from $1,015,824,100 Nov. 3 to $994,480,500 Nov. 17, were $998,634,700 Dec. 1.

Foreign Exchange, Silver, &c.—There were no wide fluctuations or important features in the exchange market during November. It was naturally more or less sensitive to local monetary conditions, and easier discounts abroad also had their influence. Declines, however, in exchange caused by high money rates here were nearly always followed by a partial reaction due to a demand to remit in payment of maturing finance bills which demand was in evidence nearly all through the month. At times, also, there was a demand to remit for stocks that had been returned from abroad, though this in turn was on occasions offset by a pressure of bills against purchases of stock for London account. On the whole, exchange rates were a trifle lower at the end of the month, except in the case of sixty-day bills, where the decline in discounts abroad led to a slight advance. The quotations Nov. 30 were 4 8075@4 81 for sixty days, 4 8550@4 8560 for sight and 4 8635@4 8645 for cable transfers. Open market discounts in London, which the middle of the month were 6¼% for sixty-day bills, at the close were only 5½@5⅝ for sixty to ninety day bills. At Berlin and Frankfort, where they had been 5¾, the close was 5⅝. The Paris rate Nov. 30 was 3@3¼. Silver in London further advanced and touched 33⅛d. The close was at only 32d.

DECEMBER.—*Current Events.*—President Roosevelt's message to Congress, as expected, contained some radical recommendations, including a suggestion for a graduated inheritance tax. The President on the 5th also sent in a message asking for authority to dismiss any officer of the Navy; on the 11th a message telling of his visit to Porto Rico and urging that citizenship be granted the Porto Ricans; on the 18th he transmitted to Congress the report made to him by Secretary Metcalf on the situation affecting the Japanese children in public schools in San Francisco; on the 18th he submitted a report on the dismissal of the negro troops at Brownsville, Tex. On the 17th, he sent an illustrated message on the Panama Canal, and also some messages on minor matters. A scarcity of fuel developed in the Dakotas, Kansas and some other States, due mainly to the failure of coal-dealers to lay in stocks earlier in the season. The Inter-State Commerce Commission made an investigation into the matter and the railroads rushed shipments of coal through on passenger schedule time. This last in a measure disarranged their whole freight service, intensifying the congestion in grain and other freight. Several companies announced provisions for future capital needs on a very extensive scale, giving their shareholders valuable rights in connection therewith. The Great Northern Ry. offered $60,000,000 new stock at par, raising its capital from $150,000,000 to $210,000,000, payment to be extended over sixteen months, beginning with Jan. 1907 and terminating April 1908. The Nor. Pac. Ry. offered $93,000,000 out of a total proposed issue of $95,000,000 at par, raising its stock from $155,000,000 to $250,000,000. In this case the last payment will not be required until Jan. 1909. The Mil. & St. Paul offered at par roughly $100,000,000 ($66,328,500 pref. and $33,164,300 com.) for the purpose of building its Pacific Coast extension, &c. the last payment not being due until Mch. 1909. Some other companies inviting subscriptions for considerable new capital were the Atchison and the Norf. & West., besides which the Pitts. & Lake Erie was asking shareholders to authorize an increase in stock from $10,000,000 to $30,000,000. The tension in the local money market continued, and in Germany the Imperial Bank advanced its rate from 6% to 7%. On Dec. 5 Secretary Shaw announced that on Dec. 15 he would prepay without rebate the interest on U. S. bonds maturing between and including Jan. 1 and May 1 1907, about $12,000,000. Later he offered to increase Government deposits in the banks by $10,000,000, taking as security bonds permissible as savings bank investments under the laws of New York and Massachusetts, the deposits, however, to be returned one-half Jan. 20 and the remaining half Feb. 1. He also offered to buy $10,000,000 U. S. 4s of 1907, paying 101 for the registered and 102 for the coupon bonds. Not a very large amount of these bonds was tendered. Government deposits in the national banks Dec. 31 were $158,753,158, against $145,559,439 Dec. 1; Cash in Sub-Treasuries was $343,836,223, against $343,717,111. Bank circulation further increased from $546,981,447 to $549,280,084. The Banking and Currency Committee of the House of Representatives reported a bill for the issue of national bank credit notes based on the joint plan of the bankers and the Currency Committee of the Chamber of Commerce. (See V. 83, p. 1502.) A bill to permit national banks to make loans on farm lands (but not on real estate generally) passed the House on the 5th by 111 to 51 votes. The cotton goods market manifested continued strength and print cloths at Fall River were advanced from 3⅞ to 4 cts. Mid. upland cotton, however, from 11.40 cts. Nov. 30 declined to 10.45 cts. Dec. 14, with the close Dec. 31 at 10.65 cts. President Alexander J. Cassatt of the Pennsylvania RR. died suddenly on Dec. 28. Arnold Leo & Co., a Stock Exchange firm, announced its suspension Dec. 22, largely, it was supposed, because of a drop in Reading stock. N. Y. City on Dec. 14 sold $9,800,000 4% bonds on an interest basis of 3.93@3.98%. The clash in France between the Government and the Catholic Church on account of the execution of the Church Separation law, reached an acute stage and excited a good deal of attention. The German Reichstag was dissolved, owing to its rejection of the budget for Southwest Africa. The Chemical National Bank of this city announced a proposed increase in its capital from $300,000 to $3,000,000 by the payment of a special equalizing dividend of 900% out of the bank's surplus fund of $7,200,000. Letters patent were issued in London Dec. 12 granting a constitution to the Transvaal. The House of Representatives on the 14th rejected a proposition to increase the salaries of Congressmen from $5,000 a year to $7,500. The U. S. Senate ratified the Algeciras Treaty concerning Morocco, but adopted a resolution declaring against foreign entanglements. Mr. Roosevelt was awarded the Nobel Peace Prize by the Norwegian Parliament. The President appointed Attorney-General Wm. H. Moody to the U. S. Supreme Court and reconstructed his Cabinet. Chas. J. Bonaparte, Secretary of the Navy, was made Attorney-General; Victor H. Metcalf, Secretary of Commerce and Labor, was appointed Secretary of the Navy, and Oscar S. Straus of New York succeeded Mr. Metcalf. It was also announced that later other changes would be made. Leslie M. Shaw retiring as Secretary of the Treasury and being succeeded by Geo. B. Cortelyou, Postmaster-General, Geo. Von L. Meyer, formerly Ambassador to Russia, will replace Mr. Cortelyou as Postmaster-General. Ethan Allan Hitchcock will resign as Secretary of the Interior, his place being taken by Jas. R. Garfield, Commissioner of Corporations in the Department of Commerce and Labor. The Pennsylvania RR. sold to Kuhn, Loeb & Co. all the system's holdings in Ches. & Ohio stock, amounting at par to $15,630,000. The Buff. Rochester & Pittsb. Ry. transferred its interest in the stock of the Roch. & Pittsb. Coal & Iron Co. to the Mahoning Investment Co. and then distributed the shares of the latter to its own shareholders. The Inter-State Commerce Commission ordered an investigation of the relations between the Un. Pac. and Sou. Pac. railways. A plan for the general consolidation of Mexican roads under the control of the Mexican Government was announced. V. 83, p. 1470. Thomas F. Cole and John D. Ryan arranged to take over control of the Greene Consolidated Copper Co., having mines at Cananea, Mexico, and a consolidation of that company with the Cananea Central Copper Co. was made.

Railroad Events and Stock Exchange Matters.—A severe break in prices occurred in December, induced mainly by tight money and the large new capital additions announced by the Gt. Northern, the Nor. Pac. and the Mil. & St. Paul. The N. Y. Cent. raised its quarterly dividend from 1¼ to 1½%, and this and other dividend increases brought

about rallies at times, but did not serve to prevent general and extensive liquidation. The last few days some of the losses were in part recovered. Nor. Pac. from 224⅞ Dec. 12 dropped to 179¼ Dec. 26 and closed at 185¼ Dec. 31; Mil. & St. Paul com. from 199⅝ Dec. 17 declined to 146½ Dec. 29 ex-rights to take the new stock (worth 32@35) and closed at 148⅞; Reading com. was also strikingly weak and from 152½ Dec. 11 fell to 129 Dec. 24, closing at 134¼; Un. Pac. com. from 188½ Dec. 3 got down to 177½ Dec. 24 and closed at 180¼ Dec. 31; in N. Y. Cent. and Pennsylvania the net change was slight, the former closing at 131 against 131¾ at the opening, and the latter at 138⅜ against 138½. Amal. Copper closed at 115 against 113⅜ and U. S. Steel com. at 48¼ against 47⅝. Can. Pac. was one of the strong features and advanced from 182¾ Dec. 1 to 201½ Dec. 14, with the close 193. Ill. Cent. dropped from 176 Dec. 4 to 165 Dec. 31. After the announcement of the proposed increase of $60,000,000 in the stock of the Gt. North., the Attorney-General of Minnesota brought suit to enjoin the issue. The Chic. Rock Island & Pac. Ry. sold to Speyer & Co. $10,000,000 4% ref. bonds. Gen. Elec. Co. shareholders were offered $10,861,200 new stock at par. Lake Shore & Mich. So. increased its semi-annual div. from 4 to 6%; Mich. Cent. from 2 to 3%; Pittsb. & Lake Erie from 5 to 6%; Pitts. Cin. Chic. & St. Louis from 1½ to 2%; The Nor. Cent. Ry., besides its semi-annual div. of 4%, declared 12½% in stock. Lehigh Val. RR. declared 1% extra besides the semi-annual of 2%. The Vandalia RR. also increased its div. and so also again did the Anaconda Copper Min. Co. The Standard Gas Light Co., a subsidiary of the Consol. Gas Co. of this city, omitted its com. stock div. altogether and the Internat. Salt Co. suspended on its pref.

The Money Market.—The stringency continued throughout December, though in the last week the tension was not so extremely acute as some had feared. The maximum on call was 36% the first week, 28 the second, 29 the third and 18 the fourth week. On Monday, Dec. 31, however, loans were made at 45, with the lowest figure 18 and the average 25. On time the quotation then was 7@8 for sixty to ninety days, 6½@7 for four months and 6@6½ for five to six months. For eight to nine months, it was possible to borrow at the legal rate of 6%. In the third week time rates had been 13 for thirty days, 9@10 for sixty days, 8½ for ninety days, 8 for four months and 7 for five to six months. We have narrated above the efforts of the Sec. of the Treas. to relieve the tension. In addition, several of the railroads, like the N. Y. Central, the Chic. & North West. the Mil. & St. Paul, &c., paid their Jan. int. in advance of maturity—mostly on the 26th. The Clearing House banks on Dec. 8 for the fourth time in 1906 showed a deficiency below the required reserve, the deficit being $6,702,175. Nor was this deficit wiped out the next week, though loans increased to $1,699,056; Dec. 22 there was a surplus of $5,280,910, and Dec. 29 the surplus was $5,769,225. Money holdings of the banks were reduced from $251,107,800 Dec. 1 to $242,812,200 Dec. 8 and then increased week by week until Dec. 29 when the amount was $250,694,500. Loans were reduced from $1,048,552,300 Dec. 1 to $1,027,183,300 Dec. 22 and were $1,032,973,000 Dec. 29. Deposits were $998,634,700 Dec. 1 $967,061,400 Dec. 15 and $981,301,100 Dec. 29. For commercial paper the rates at the close were generally 6@6½ for double names and prime single names, and 6½@7 for good single names.

Foreign Exchange, Silver, &c.—The course of exchange was almost continuously downward in December. High money here was one of the principal causes, but the market was also influenced by offerings of drafts against securities which had been bought here for European account. It was reported at Paris that franc finance bills were being more freely negotiated, usually at a fraction over the Bank rate. At London, however, the disposition was to require the payment of maturing finance bills, and rallies in exchange resulted mainly from that cause. The Bank of Germany on the 18th further advanced its discount rate from 6 to 7%. The Bank of England left its minimum unchanged at 6. It had heavy calls to meet for South America and for the Provinces, and its bullion holdings in the four weeks ending Dec. 28 were reduced no less than £4,198,666, and would have been reduced still more except that the Bank of France released some further amounts of gold for shipment to London and there were also other large gold arrivals in London which the Bank of England secured. While exchange rates were weak on the very first day of Dec., with a fall of 30@35 points, the quotations then were 4 8040@4 8060 for sixty days, 4 8515@4 8525 for sight and 4 8605@4 8615 for cable transfers; but on the 29th prices were only 4 7820@4 7825, 4 8270@4 8275 and 4 8405@4 8410. From these figures there was an upward reaction of 45@85 points on Dec. 31. Sight exchange on the 28th sold at 4 8260, the lowest of the year. These figures would have warranted large takings of gold for importation only that it was known that such takings would be immediately followed by an advance in the Bank of England rate to 7% and possibly higher—a contingency that no one wanted to invite. One small engagement of £50,000 in London on the 10th was the only one announced. Open market discounts in London at one time were 6@6¼; Dec. 31 the quotation was 5½@5⅝. At Paris the open market rate Dec. 31 was 3@3½ and at Berlin and Frankfort, 5½@5¾. Silver in London got down to 31 9-16d. but the close was 32⅜d.

PRICES IN 1906 AT THE NEW YORK STOCK EXCHANGE

The tables on the following pages show the highest and lowest prices at the New York Stock Exchange of Railroad, Industrial and Miscellaneous bonds and stocks, and also of Government and State securities, for each month of the past year. The tables are all compiled from actual sales. In the stocks one-hundred share lots form the basis of compilation, except in the case of those few stocks which sell almost entirely in small lots. Following a rule adopted by the Stock Exchange in April 1896, sales which are not for "regular" delivery—that is, where the buyer or seller stipulates for three or more days' time, or where delivery is to be made the same day (the sale in this last instance being for "cash")—are disregarded.

COURSE OF PRICES OF RAILROAD AND MISCELLANEOUS BONDS FOR THE YEAR 1906.

[Compiled from *actual* sales made at the New York Stock Exchange.

1906.

TEMS ABOUT BANKS, BANKERS AND TRUST CO.'S.

—At the auction sale this week only two lots (amounting to 60 shares) of bank stock were sold. No sales of either bank or trust company stocks were made at the Stock Exchange. The table below, given in our usual form, shows the actual sales of New York City bank stocks made during the week at auction and at the Stock Exchange. Extensive tables showing the bid and asked quotations, deposits, surplus, &c., of banks and trust companies in all important cities of the United States are published monthly in the "Bank and Quotation" Section, the January issue of which accompanies to-day's "Chronicle." Bid and asked quotations for all New York City bank and trust company stocks are also published weekly in another department of the paper, and will be found to-day on pages 38 and 39.

60	Corn Exchange Bank	308	309	308	Dec. 1906— 314

—A recommendation that certain stocks, including mining, public service and industrial properties—not dealt in on the New York Stock Exchange—be listed on the New York Produce Exchange, has been adopted by the board of managers of the latter organization. We quote the recommendation herewith:

"Your committee appointed to consider the advisability of trading in mining, industrial and other securities not listed or traded in on the New York Stock Exchange, after careful and thorough investigation, recommend that for the purpose of broadening the scope and increasing the business of the Exchange the request for the introduction of such trading be granted and that a committee be appointed to formulate rules for the government of and trading in such securities for adoption at a meeting of those interested or to become interested in such trading, at as early a date as practicable.

"Applications for membership are now pending from men actively identified with these interests and the granting of the desired facilities will in our judgment bring to the Exchange many representative traders of good financial standing, prepared to enter into the building up of the proposed business."

A temporary trading list, embracing about one hundred leading mining stocks, will first be put in force. Later a permanent list, made up of carefully selected mining, traction company, gas and electric, and junior industrial stocks, will be prepared. As a result of the announcement of the project, an advance has already occurred in the price of seats on the Produce Exchange, one having this week been sold at $500 and one at $600. Previously, sales were at $300 and $400. Some doubt has been expressed as to whether the proposed venture would meet with the approval of the New York Stock Exchange; the committee, however, hopes to be able to adopt a plan that will be acceptable to the larger Exchange.

—The December 31st statement of the Bankers' Trust Company of this city, as made to the Superintendent of Banking, shows undivided profits of $777,673, this representing an increase for the year of $263,000, after the payment in dividends during the twelve months of $130,000.

—The $1,000,000 capital of the State Bank of this city, increased from $100,000, has become effective. The increase was provided for through a dividend of $900 per share, declared Oct. 26 1906 and made payable Jan. 2 1907.

—William T. Cornell, who formerly was Cashier of the Lincoln National Bank of this city, and President of the Equitable Trust Company of New York, died on the 1st inst at Mamaroneck, N. Y. Mr. Cornell resigned the cashiership of the bank in May 1902 to take the presidency of the American Deposit & Loan Company, the latter about the same time changing its name to the Equitable Trust Company. He remained at the head of this institution until June 1903. Mr. Cornell was born sixty-one years ago in Scarsdale.

—The directors of the National Bank of Rochester at Rochester, N. Y., at a meeting on the 26th ult., elected Granger A. Hollister Second Vice-President, to succeed Albrecht H. Vogt, resigned. At the same time Peter A. Vay, heretofore Assistant Cashier, was chosen Cashier; William B. Farnham was appointed First Assistant Cashier, Edward F. Pillow Second Assistant Cashier, and Robert Bannard Auditor. The other officials continue in their respective posts, viz.: Eugene Satterlee as President, Walter B. Duffy as First Vice-President and Edward Bausch as Third Vice-President.

—The business of the National Exchange Bank of Boston was this week transferred to the National Shawmut Bank of that city. The merger was the result of an offer (announced on the 29th ult.) made by interests identified with the National Shawmut Bank, and recommended for acceptance by the directors of the National Exchange. The offer was $192 50 per share (par $100) for such stock of the last-named institution as shall be deposited before Jan. 30. It was stated that stockholders not wishing to accept this offer would receive the value of their stock in liquidation, if the stockholders, at a meeting to be held Jan. 31, vote in favor of liquidating the bank. It was further stated in the circular to the stockholders of the National Exchange Bank that an opportunity to purchase a moderate amount of the stock of the National Shawmut Bank at $275 per share will be offered to the assenting stockholders. The National Shawmut Bank has a capital of $3,500,000, surplus and profits of over $4,000,000 and deposits of about $45,000,000. The National Exchange Bank has a capital of $1,000,000, surplus and profits of $767,000 and deposits of nearly $6,000,000. Harold Murdock, its President, is to become a Vice-President of the National Shawmut.

—James McCrea, the new President of the Pennsylvania RR., has been elected a director of the Philadelphia National Bank of Philadelphia to succeed the late A. J. Cassatt.

Mr. McCrea has also been elected to replace Mr. Cassatt on the board of the Commercial Trust Company of Philadelphia. Robert Kelso Cassatt, son of A. J. Cassatt, has likewise become a director of the Commercial Trust, succeeding Henry Rogers Winthrop, resigned.

—William Ingle, Cashier of the Merchants' National Bank of Baltimore, Md., at a meeting of the directors on the 28th ult., was chosen to fill the additional office of Vice-President. He was also elected a director of the bank, with which he has been identified since 1880.

—The directors of the State Bank of Chicago have transferred $100,000 from undivided profits to surplus, increasing the latter to $800,000.

—At the annual meeting of the First National Bank of Chicago on Dec. 31, Howard H. Hitchcock was elected First Vice-President to succeed David R. Forgan, resigned; F. O. Wetmore, formerly Cashier, and August Blum, previously Manager of Division "F," were chosen Vice-Presidents. Other changes were the election of Charles N. Gillett as Cashier; the appointment of C. H. Newhall as Manager of Division "E," to succeed Holmes Hoge, retired; and the appointments of A. W. Newton as Assistant Manager of Division "D," and J. P. Oleson as Assistant Manager of Division "E." Benjamin Allen succeeds D. R. Forgan on the board. In its statement under date of Jan. 2 1907 the First National reports net profits for 1906 of $1,459,183. Out of this it paid dividends of $960,000 (12% on its $8,000,000 capital), leaving the sum of $499,183 to be added to the balance of $1,103,916 brought forward Jan. 1 1906. From this total of $1,603,099, the bank transferred $1,000,000 to surplus, making the latter $6,000,000, and carrying forward $603,099.

—The new national bank being organized in Chicago by David R. Forgan has leased the large banking room in the Woman's Temple, on La Salle Street, formerly occupied by

the National Bank of North America and the Metropolitan National Bank. The new institution will be known as the National City Bank of Chicago; it is expected to open its doors for business early in February. It is reported the $1,500,000 capital stock has been largely over-subscribed.

—The National Bank of Commerce in St. Louis, which on December 11 took over the Fourth National Bank, has decided to increase its capital from $7,000,000 to $10,000,000. The matter will be submitted to a vote of the stockholders on the 8th inst. The liquidation of the Fourth National Bank will be ratified at a stockholders' meeting January 15.

—On Tuesday next, the 8th inst., the stockholders of the Bank of Richmond, at Richmond, Va., will be asked to approve a proposition to increase the capital from $800,000 to $1,000,000. Alterations which were in progress on the building purchased by the bank at Ninth and Main streets have been completed, and on the 24th ult. the institution removed to its new and permanent quarters. The remodeled offices are commodious and splendidly equipped. John Skelton Williams is President of the bank; Frederick E. Nolting is First Vice-President, and T. K. Sands Second Vice-President and Cashier.

Canadian Bank Clearings.—The clearings of the Canadian banks for the month of December 1906 show an increase over the same month of 1905 of 22.8%, and for the twelve months the gain reaches 18.6%.

Clearings by Telegraph.—Sales of Stocks, Bonds, &c.—The subjoined table, covering clearings for the current week, usually appears on the first page of each issue, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that, as compared with the corresponding week of 1906, there is a decrease in the aggregate of 6.3%. So far as the individual cities are concerned, New York exhibits a loss of 9.3%, Boston 6.2%, Philadelphia 4.6%. Baltimore records a gain of 6.6%, Chicago 3.1%, St. Louis 6.9% and New Orleans 3.3%.

Clearings—Returns by Telegraph. Week ending January 5.	1907.	1906.	Per Cent.
New York	$1,732,941,322	$1,921,158,167	—9.3
Boston	161,895,484	172,674,483	—6.2
Philadelphia	129,724,484	136,028,336	—4.6
Baltimore	26,983,752	25,316,996	+6.6
Chicago	193,914,582	188,143,006	+3.1
St. Louis	53,578,454	50,119,576	+6.9
New Orleans	19,945,906	19,303,059	+3.3
Seven cities, 5 days	$2,318,983,984	$2,512,743,623	—7.7
Other cities, 5 days	415,276,391	375,417,928	+10.6
Total all cities, 5 days	$2,734,260,375	$2,887,161,551	—5.3
All cities, 1 day	605,974,619	676,533,131	—10.4
Total all cities for week	$3,340,234,994	$3,563,694,682	—6.3

Auction Sales.—Among other securities the following, not regularly dealt in at the Board, were recently sold at auction:

By Messrs. Adrian H. Muller & Son:

Stocks.

20 Germania Fire Ins. Co. of N. Y. 226
100 American Surety Co. 190
60 Corn Exchange Bank 308-309

Bonds.

$250 Columbia Club of N. Y. City 4s 1932 $45

DIVIDENDS.

We have changed the method of making up our weekly list of dividends. Heretofore our record has included only the dividends announced each week, but for the convenience of our readers we now enlarge the scope of the compilation so as to show also dividends previously declared, but the date of payment of which has not yet arrived. In the new form the statement indicates all the dividends announced for the future by all large or important corporations.

Dividends announced this week are printed in italics.

a Transfer books not closed. *b* Payable on reduced capital. *c* Also declared 12½%, payable in stock at same time. *d* Five per cent declared, payable in two installments. *k* Nine per cent declared for year, payable in quarterly installments.

—A Chicago office was opened this week by A. O. Brown & Co. of New York on the ground floor of the Railway Exchange Building. The office is in charge of Stewart E. Barrell and Oliver A. Olmsted. A temporary branch office has also been opened by the firm at 337 Postal Telegraph Building, Chicago, under David A. Noyes's management. This office is to be discontinued May 1, when the firm will move into new offices on the ground floor of the Commercial National Bank Building. Charles T. Atkinson and Albert M. Barrell have become associated with the management of these offices. On Jan. 1 Samuel C. Brown and W. Rhea Whitman became members of the firm.

—In our news items last week we inadvertently stated that Heatly C. Dulles was formerly a member of Edward V. Kane & Co., Philadelphia, when he had been for a number of years the representative of Spencer Trask & Co. Mr. Dulles was on Jan. 1 admitted into the firm of Wurts & Co., 125 South Fourth Street, Philadelphia, which will hereafter be known as Wurts, Dulles & Co., and represent Spencer Trask & Co. in Philadelphia and eastern Pennsylvania. Edward T. Newkirk of Edward V. Kane & Co. also becomes a member of Wurts, Dulles & Co.

—The banking house of N. W. Halsey & Co., 49 Wall Street, with offices in Philadelphia, Chicago and San Francisco, is distributing a rather unique booklet showing the bonds they offer for investment yielding from 3.37% to 6%. The pamphlet contains descriptions of 75 different bond issues, 25 of which are municipal and railroad securities, legal in New York, New Jersey and Connecticut for trust funds; besides other municipal, railroad and public utility bonds, with a uniform full-page analysis of each.

—Spencer Trask & Co., investment bankers, William and Pine sts., New York, have issued a special 8-page circular describing a selected list of railroad bonds, electric lighting bonds, coal company bonds, street railway bonds, short-term notes, car-trust and equipment bonds. One of the features of the circular is that it outlines the primary factors which should govern the individual buyer in the selection of sound investments of this character.

—The firm of Thomas L. Manson & Co. of 71 Broadway was dissolved on Dec. 31 and a new co-partnership formed, retaining the former membership and firm name. Besides the new member, John A. Black, the old members of the new firm are: Thomas L. Manson, Herbert S. Carpenter, Henry S. Fullerton, Timothy F. Allen, Vance S. Manson and Harris K. Smith, Special.

—The Chicago brokerage firm of Kneeland, Clement, Curtis & Co. was dissolved the 31st ult., L. D. Kneeland retiring. The new firm of Clement, Curtis & Co. succeeds. They are members of the New York Stock and Coffee Exchanges and the Chicago Stock Exchange and Board of Trade, with private wires East and special cable service to London.

—John McCarthy, formerly Assistant Cashier of the Continental National Bank of Chicago, has become associated with the prominent commercial paper house of Chas. Hathaway & Co., and for the present will be connected with its Chicago office, 205 La Salle Street, of which Charles Folds is manager and resident partner.

—Norton Squire, formerly of Williamson & Squire, Horace F. Poor, son of the late Edward E. Poor, ex-President Park National Bank, and Remsen Schenck have formed a partnership to be known as Squire, Poor & Schenck. The new concern will have offices at 25 Broad Street and transact a general brokerage business.

—The firm of Tefft, Parmelee & Nash of this city was dissolved on the 1st inst. A new partnership has been formed by Erastus T. Tefft (member of the New York Stock Exchange), Mark W. Reeves, Walter H. Nash and George W. Carpenter under the name of E. T. Tefft & Co. The company's offices are at 5 Nassau St.

—The lithographers' strike, now in its fifth month, has caused many bonds and certificates to be printed on lithographed blanks. The additions made, if well printed, bear close resemblance to engraved work. Albert B. King & Co. of 206 Broadway carry a large stock of the blanks, and in great variety.

—Albert J. Elias, member of the New York Stock Exchange, and his son, Henry Hart Elias, have formed a co partnership under the firm name of Albert J. Elias & Co. at 20 Broad Street, this city. The new concern will do a general banking and brokerage business.

—A new copartnership has been formed in this city under the name of Ulman, Morse & Co., by Joseph S. Ulman, E. Rollins Morse and W. Rossiter Betts. The new firm succeeds to the business of E. Rollins Morse & Bro. and Ulman Bros.

—C. L. Peniston, who for nine years has been associated with the Chicago stock and bond house of Russell Brewster & Co. and its predecessor in positions of responsibility, has been admitted to a co-partnership interest in the firm.

—Attention is called to the advertisement of Eversz & Co. offering Swift & Co. first mortgage 5% bonds and Duluth Rainy Lake & Winnipeg Railway first fives. Special circular will be sent on application.

Statement of New York City Clearing-House Banks.—The following statement shows the condition of the New York City Clearing-House banks for the week ending Dec. 29. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

We omit two ciphers (00) in all cases.

Banks 00s omitted.	Capital.	Surplus.	Loans.	Specie.	Legals.	Deposits. a	Res've

Wall Street, Friday Night, Jan. 4 1907.

The Money Market and Financial Situation.—The story of this week's operations at the Stock Exchange may be briefly told. On Monday, the closing day of the year, call loan rates were quoted at 40%, the highest during recent months. Evidently some such movement of the money market had been anticipated. Security prices did not give way to any considerable extent, the most conspicuous result of the high rates mentioned being a restriction of the volume of business. The latter, however, continued limited until to-day, when the condition of the money market was much more nearly normal and there was a revival of activity in the security markets as well as a general advance in prices. Some of the buying to-day is reported to have been of an investment character, a feature which has been conspicuously absent of late.

The weekly statement of the Bank of England was favorably received in London and current rates in the open market there are well below the Bank rate.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 to 45%. To-day's rates on call were 5@6%. Prime commercial paper quoted at 6@6½% for endorsements and 6@6½% for best single names.

The Bank of England weekly statement on Thursday showed an increase in bullion of £1,218,368, and the percentage of reserve to liabilities was 33.50, against 37.17 last week.

The discount rate remains as fixed Oct. 19 at 6%. The Bank of France shows a decrease of 40,925,000 francs in gold and 8,125,000 francs in silver.

The New York City clearing-house banks in their statement of December 29 showed an increase in the reserve held of $4,501,400 and a surplus over the required reserve of $5,369,225 against $3,280,900 the previous week.

	1906. Dec. 29.	Differences from previous week.	1905. Dec. 30.	1904. Dec. 31.
	$	$	$	$
Capital	123,150,000	----------	116,472,700	115,972,700
Surplus	156,632,300	-- -------	140,800,500	135,482,500
Loans and discounts	1,032,973,000	Inc. 5,789,700	1,001,025,000	1,066,701,200
Circulation	53,670,800	Inc. 145,200	53,096,000	43,145,300
Net deposits	a981,301,100	Inc. 9,652,300	977,651,300	1,104,049,100
Specie	179,323,000	Inc. 2,695,400	173,005,600	208,554,800
Legal tenders	71,371,500	Inc. 1,806,000	75,699,800	81,140,900
Reserve held	250,694,500	Inc. 4,501,400	248,705,400	289,695,700
25% of deposits	245,325,275	Inc. 2,413,075	244,412,825	276,012,275
Surplus reserve	5,369,225	Inc. 2,088,325	4,292,575	13,683,425

a $16,529,000 United States deposits included, against $16,598,200 last week and $8,429,900 the corresponding week in 1905. With these United States deposits eliminated, the surplus reserve would be $9,501,475 on Dec. 29 and $7,430,450 on Dec. 22.

Note.—Returns of separate banks appear on page 0000.

Foreign Exchange.—The market was remarkably active and strong during the greater part of the week, influenced chiefly by covering of short contracts and also by a demand for remittance. The feature was a rise in sight bills on Friday to 4 85, against 4 8260 on Friday of last week. Closing rates were at the highest of the week.

To-day's (Friday's) nominal rates for sterling exchange were 4 80½@4 81½ for sixty-day and 4 85½@4 86 for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8075@4 81 for long, 4 8490@4 85 for short and 4 8585@4 86 for cables. Commercial on banks 4 8010@4 8020 and documents for payment 4 79½@4 80¼. Cotton for payment 4 79½@4 79¾, cotton for acceptance 4 8010@4 8020 and grain for payment 4 80@4 80¼.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 22½@5 21⅞ for long and 5 19⅜*a*@5 19⅜*d* for short. Germany bankers' marks were 93 13-16@93⅞ for long and 94⅝*d*@94 11-16*d* for short. Amsterdam bankers' guilders were 40 01@40 04 for short.

Exchange at Paris on London to-day 25f. 21½c.; week's range 25f. 21c. high and 25f. 21½c. low.

The week's range for exchange rates follows:

	Long		Short		Cables	
Sterling Actual—						
High	4 8075	@ 4 81	4 8490	@ 4 85	4 8585	@ 4 86
Low	4 7870	@ 4 7875	4 8270	@ 4 8275	4 8405	@ 4 8410
Paris Bankers' Francs—						
High	5 22½	@ 5 21⅞	5 19¾*a*	@ 5 19⅜*d*	----------	---
Low	5 23⅛	@ 5 23⅛	5 20⅝	@ 5 20*a*	----------	---
Germany Bankers' Marks—						
High	93 13-16	@ 93⅞	94⅝*d*	@ 94 11-16*d*	-----	----
Low	93⅝	@ 93¾	94 7-16	@ 94 9-16	-----	--
Amsterdam Bankers' Guilders—						
High	----------	---	40 01	@ 40 04	----------	---
Low	----------	---	39 94	@ 39 96	----------	---

Less *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus: *k* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah buying 50c. per $1,000 discount; selling 75c. per $1,000 premium. Charleston 10c. per $1,000 premium. New Orleans bank 75c. per $1,000 discount; commercial $1 per $1,000 discount. Chicago 10c. per $1,000 discount. St. Louis 5c. per $1,000 premium. San Francisco 50c. per $1,000 premium.

State and Railroad Bonds.—Sales of State bonds at the Board are limited to $3,000 Virginia fund. debt 2-3s at 95¾.

There has been steadily increasing activity in the market for railway and industrial bonds, although the aggregate daily transactions are still below the normal average. Prices have shown a tendency to advance, especially those of a convertible character, and in several cases such issues are from 1 to 2 points higher than last week. Other changes are less important. The active list includes Union Pacific, Atchison, Rock Island, Pennsylvania, United States Steel and Interboro-Metropolitan issues.

United States Bonds.—Sales of Government bonds at the Board, $2,000 3s, coup., 1908-18, at 102⅞. The following are the daily closing quotations; *for yearly range see third page following.*

* This is the price bid at the morning board; no *sale* was made.

Railroad and Miscellaneous Stocks.—The stock market as a whole has been dull and the movement of prices generally narrow and unimportant throughout the week until to-day. The volume of business was restricted on Monday, owing to high rates for call loans, as noted above; but the transactions were even more limited on Wednesday when money was much easier. Thursday's market was a fac-simile of that of the preceding days. To-day the market opened strong on favorable reports from abroad and easier money here; the tendency of prices was generally upward during the day and closing quotations in most cases are the highest of the week.

The exceptional features have been Delaware & Hudson, which advanced 5½ points on an increase of its dividend rate from 7 to 9%; subsequently it lost a part of the advance. Great Northern covered a range of 11 points, Northern Pacific 7½, Reading nearly as much and all close at or near the highest. Union Pacific was inclined to weakness until to-day, when it recovered sharply.

Amalgamated Copper has been a decidedly strong feature, closing with a net gain of over 5 points. Anaconda Mining has covered a range of 11 points. Steel common shows a net gain of 1½ points, and the preferred is fractionally higher.

For daily volume of business see page 45.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

STOCKS. Week ending Jan. 4.	Sales for Week.	Range for week. Lowest.	Range for week. Highest.	Range Year 1906. Lowest.	Range Year 1906. Highest.

Outside Market.—A more active market was experienced on the "curb" this week and prices as a rule displayed decided strength. The copper stocks received a large share of the attention and values moved upward, attributed in part to the advancing rates for the metal. Nipissing Mines was a feature, the price, after a decline from 11⅞ to 10¼, moving up to 15⅛ and closing to-day at 14⅝. Boston Consolidated Copper lost half a point to 30½, then rose to 33¼ and ends the week at 33. British Columbia Copper advanced from 12½ to 14⅜. Butte Coalition from 35⅜ reached 39¼ but sank back to 38⅝ at the close. Davis-Daly Estates sold up from 14⅞ to 17⅝, easing off at the close to-day to 17½. Greene Consolidated Copper went down from 33 to 31½ and up finally to 32⅝. United Copper common gained 1½ points to 74½. Tennessee Copper advanced from 47¾ to 49½ but fell back to 49. Nevada Consolidated Copper moved up from 17¾ to 18½. Among the specialties, Great Northern and Northern Pacific rights were active and fluctuated widely, the first named from 21½ dropping to 16¾ and advancing finally to 21. The latter rose from 23¾ to 24¼, sank to 21, but recovered and ends the week at 23½. Houston Oil preferred sold up from 52 to 55 and back to 53. International Salt recovered from its recent decline, advancing from 16½ to 20 and losing a point finally to 19. Mackay Companies common dropped a point to 69½ but recovered to 70. Standard Oil from 521 fell to 520 and advanced again to 530, subsequently sinking to 526. Western Ice ran up from 22¾ to 25. Chicago Subway rose from 14½ to 16¾ but to-day ran down to 13⅞.

Outside quotations will be found on page 45.

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

ROADS.	Latest Gross Earnings. Week or Month.	Current Year.	Previous Year.	July 1 to Latest Date. Current Year.	Previous Year.

Net increase (6.55%)			611,625	

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of Dec. 22 1906. The next will appear in the issue of Jan. 26 1907.

a Figures for the month in both years include operations of the Scranton Ry., acquired Jan. 1 1906. *b* Total is from March 1. *c* These figures are for consolidated company. *d* These are results for main line. *h* These are early preliminary returns; decrease due to earthquake, fire and strike among employees, Aug. 26 to Sept. 5 1906. *k* Decrease due to Lewis & Clark Exposition last year. *l* Beginning Oct. 1 1906, includes earnings of Canton-Akron Ry. in both years. *n* Figures for both railway and lighting departments.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of Dec. 29 1906. The next will appear in the issue of Feb. 2 1907.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Alabama Great Southern RR.—*Listed in London.*—The London Stock Exchange has listed a further issue of £50,000 of 5% general mortgage bonds of £100 each, making the total amount listed £710,000.

Guaranteed Bonds.—See Chattanooga Station Co. below.—V. 83, p. 1225, 1170.

Atlantic Coast Line RR.—*Guaranteed Station Bonds.*—See Charleston Union Station Co. below.

New Rolling Stock.—A press despatch from Wilmington, N. C., on Dec. 22 said:

The Atlantic Coast Line announces that orders will be placed for the earliest possible delivery in 1907 of 100 locomotives, 3,250 freight cars and 50 passenger cars, the appropriation being practically $5,000,000. Orders for 20 of the locomotives have been placed for February delivery. There are now due on contracts placed early in 1906 between 2,500 and 3,000 freight cars and 20 locomotives, which should have been delivered some time ago, builders being unable to furnish the equipment.—V. 83, p. 1290, 1295.

Atchison Topeka & Santa Fe Ry.—*Purchase of Stock.*—See Union Pacific RR. below.—V. 83, p. 1468, 1410.

Baltimore & Ohio RR.—*Purchase of Stock.*—See Union Pacific RR. below and compare V. 83, p. 562, 686, 1036, 1227.

Bakersfield & Ventura Ry.—*Sold.*—This company's property was sold under foreclosure at Oxnard, Cal., on Dec. 24, under foreclosure of a mortgage made to the Title Insurance & Trust Co., as trustee to secure $200,000 notes, and was bid in for $175,000 by the estate of Eben Smith, holder of the notes. A portion of the road appears to be in operation.—V. 83, p. 1227.

Bangor & Aroostook RR.—*New Line.*—The Maine Railroad Commission on Dec. 27 granted this company authority to build a 145-mile branch from Sebois Lake to St. Francis Plantation on the St. John River through a lumbering and sporting territory, forming a practically direct line from the northwest boundary of Maine to the Atlantic seaboard.—V. 83, p. 1170, 1094.

Boston & Lowell RR.—*Bonds—Stock.*—The stockholders on Jan. 2 authorized an issue of $325,000 20-year bonds to refund a like amount due July 1 1907; also an increase of the capital stock from $6,599,400 to $6,849,400 for permanent additions and improvements.—V. 83, p. 1590, 890.

Buffalo Creek RR.—*Refunding.*—The $150,000 first mortgage 6% bonds due Jan. 1 were paid on presentation at the National City Bank, New York City. The aforesaid bank and Potter, Choate & Prentice of New York purchased and have been placing at 117½ and interest the consolidated (now first) mortgage 5% bonds maturing Jan. 1 1941, which were issued for refunding. The entire $1,000,000 of the last-named issue is now outstanding. Compare V. 79, p. 1954.

Central Market Street Ry., Columbus, O.—*Successor Company.*—See Columbus Traction Co. below.—V. 83, p. 93.

Charleston (S. C.) Union Station Co.—*Bonds Offered.*—Redmond & Co., New York & Philadelphia, are offering at 96 and interest $100,000 of this company's present issue of $250,000 first mortgage 4% gold bonds of $1,000 each, dated Jan. 1 1907, due Jan. 1 1937. Interest payable Jan. 1 and July 1. Coupon and registered bonds. Authorized, $400,000. Equitable Trust Co., trustee. Guaranteed unconditionally, principal and interest, by the Atlantic Coast Line RR. and the Southern Railway by endorsement on each bond. A circular says:

A direct first mortgage upon a new union station and about 10 acres of real estate, with terminal yards, buildings, &c., in Charleston, S. C. The station is constructed in the most thorough and modern manner of steel and concrete, containing waiting rooms and complete offices, with a steel-covered train shed 400 feet long. The entire stock of the company is owned by the Atlantic Coast Line RR. and the Southern Railway.

Chattanooga (Tenn.) Railways.—*Change in Officers.*—Vice-President John Graham, Philadelphia, Pa., has been elected President, succeeding Clarence P. King, who has become Vice-President. The directors are:

Howard S. Graham, F. V. Brown, F. H. Spurlock, C. P. King, John Graham, Lewis H. Parsons and F. H. Treat.—V. 83, p. 1227, 562.

Chattanooga (Tenn.) Station Co.—*Guaranteed Bonds Offered.*—Potter, Choate & Prentice and Spencer Trask & Co., both of New York, are offering at 94 and interest $850,000 first mortgage 50-year 4% gold bonds of $1,000 each (c*), dated Jan. 1 1907 and due Jan. 1 1957, without option of earlier redemption. Interest payable Jan. 1 and July 1. Principal and interest payable without deduction for any taxes. Trust Company of America, New York, trustee. Authorized issue, $1,000,000. Guaranteed jointly and severally, both as to principal and interest, by the following companies by endorsement on each bond: Southern Ry. Co., Central of Georgia Ry. Co., Alabama Great Southern RR. Co. and Cincinnati New Orleans & Texas Pacific Ry. Co. The entire capital stock is owned by said railroads, excepting directors' qualifying shares.

Abstract of Letter from President Fairfax Harrison Nov. 26 1906.

The bonds are secured by a first mortgage upon the entire property now owned and which will be acquired and constructed by the Chattanooga Station Co., consisting of its passenger terminals and approaches, and the land upon which they are to be located, which land fronts on Market St., the entire width of the block between Elyria and Hotel streets, and extends eastwardly for a distance of many city blocks to the line of the Belt Railway Co. of Chattanooga, containing an area of 25.75 acres. It is estimated that in two years the number of passengers, both incoming and outgoing, using the Chattanooga terminals of said railway companies has grown from 444,052 to 491,054, an increase of nearly 11%. Owing to this increased traffic, the old terminals used by said railway companies have become inadequate. The new terminals will be large and will provide for the passenger traffic in Chattanooga for a long time to come. The site is well selected and the station itself is to be an entirely new building, handsomely furnished and thoroughly equipped.—V. 83, p. 1227.

Chateaugay & Lake Placid Ry.—*Voted.*—The New York Railroad Commission on Dec. 31 authorized this company to increase its capital stock from $2,450,000 (of which $2,000,000 is 4% preferred) to $3,450,000, to reimburse the Delaware & Hudson Co. for standard-gauging and other improvements on the property. The new stock will be preferred.—V. 81, p. 613.

Chicago Kalamazoo & Saginaw Ry.—*Change of Control.*—On Dec. 28 this road, extending from Pavillion to Woodbury, 55 miles, was sold to the Michigan Central (New York Central) interests, for a sum supposed to be about $900,000. The following new management is announced:

President, H. B. Ledyard, Detroit, who is Chairman of the Board of Directors of the Michigan Central; Vice-President and General Manager, J. H. Dewing, Kalamazoo; Secretary and Treasurer, J. W. Kealey, Kalamazoo. Directors: N. H. Stewart, Kalamazoo; R. H. l'Hommedieu, Detroit; Henry Russel, Detroit, and Messrs. Burt & Nutt, Detroit.

The road, it is said, will be operated independently.—V. 61, p. 1063.

Chicago Milwaukee & St. Paul Ry.—*Cash to be given for Fractional Rights.*—It was announced yesterday that the company would "pay to each stockholder of record on Dec. 19 1906 who was entitled to subscribe for a fractional share of new stock the premium over par of said fractional share." The original plan, for the sake of avoiding delay and inconvenience, provided that no subscriptions should be allowed for fractional shares, but many shareholders complained; hence this change.

Purchase of Stock.—See Union Pacific RR. below.—V. 83, p. 1523, 1469.

Chicago & North Western Ry.—*Purchase of Stock.*—See Union Pacific RR. below.—V. 83, p. 1098, 1037.

Chicago Southern Ry.—*Interest on Guaranteed Notes.*—Funds were deposited with the Girard Trust Co. of Philadelphia by John R. Walsh to meet the semi-annual interest due on Jan. 1 on the 5% notes, which are guaranteed by the Southern Indiana Ry. The new stock will be preferred.—V. 83, p. 817, 36.

Cincinnati New Orleans & Texas Pacific Ry.—*Guaranteed Bonds.*—See Chattanooga Station Co. above.—V. 83, p. 1469.

Columbus (O.) Railway & Light Co.—*Lease.*—See Columbus Traction Co. below.—V. 83, p. 1523, 323.

Columbus (O.) Traction Co.—*Successor Company.* This company was incorporated under the laws of Ohio on Dec. 26 with $1,000,000 capital stock, of which $500,000 is preferred, to take over the Central Market Street Ry. of Columbus (V. 83, p. 93), which, the "Columbus State Journal" says, was recently "purchased by men interested in the Columbus Railway & Light Co. (V. 83, p. 1523) from A. E. Locke, of Boston, for $150,000, the assumption of the 5% bond issue of $500,000 and some costs of administration." The new company will lease the property to the Columbus Railway & Light Co., but the latter will not guarantee the bonds. The incorporators are: Butler Sheldon, Frank T. Stewart, George Hardy, William K. Lanman and Harford F. Stewart.

Delaware & Hudson Co.—*Dividend Increased.*—The directors on Wednesday declared a dividend of 9% for the year, payable in four quarterly installments as follows: 2¼% on March 15 to holders of record Feb. 23; 2¼% on June 15 to holders of record May 25; 2¼% on Sept. 16 to holders of record Aug. 26, and 2¼% on Dec. 16 to holders of record Nov. 25.

Annual Dividend Record (Per Cent) Since 1883.

1883	1885	1886	1887	1888	1889 to 1896	1897 to 1900	1901 to 1906	1907
7	6	5	5	6	7 yearly	5 yearly	7 yearly	9

The following statement was given out by the board:

The net earnings are approximately 12½%. It is contemplated to retire during the year the balance outstanding of car trust certificates, equipment debentures and Hudson Coal Co. debentures, which amount in all to $4,335,000, and are payable in annual installments extending over a number of years. When this is done the addition to annual outgo arising from the increase now made in the rate of dividend will be $450,375.

New Stock for Subsidiary.—See Chateaugay & Lake Placid Ry. above.

Acquisition of Hudson Valley (Electric) Ry.—See United Traction Co. of Albany, &c., below.—V. 83, p. 1523, 379.

Detroit United Railway.—*Purchase.*—A preliminary contract has been made for the purchase of the Detroit Ypsilanti Ann Arbor & Jackson Electric Railway, which see below. The purchase price, it is said, will be met by a new bond issue on the line purchased, which will be guaranteed by the Detroit United, but 6% notes may be issued until the bond market improves.—V. 83, p. 1170.

Detroit Ypsilanti Ann Arbor & Jackson Railway.—*To Authorize Sale of Property.*—The shareholders will meet Jan. 17 to take action respecting "a preliminary contract" for the sale of all the property, real and personal, and, "if deemed proper, to authorize the sale in accordance with the terms thereof." See Detroit United Ry. below.—V. 81, p. 1723.

Geneva Waterloo Seneca Falls & Cayuga Lake Traction Co.—*New Securities.*—The New York Railroad Commission has approved the proposal to make a new first mortgage for $1,000,000 and to increase the capital stock from $150,000 to $1,000,000.—V. 80, p. 2344.

Great Northern Ry.—*Purpose of New Stock Issue.*—A statement filed with the Minnesota authorities on Dec. 31 recites the purpose of the new $60,000,000 stock issue as follows:

1. To provide funds for such further and additional equipment as the board of directors may from time to time determine to be necessary.
2. To provide funds for additional terminals and facilities on existing lines, including a good second main track, and for reductions of grades and improvements of the line, as they may be authorized from time to time by the board of directors.
3. To acquire the bonds or stocks, or both, of the following companies: Dakota & Great Northern Ry. Co., Montana & Great Northern Ry. Co., Billings & Northern RR. Co., Washington & Great Northern Ry. Co., Portland & Seattle Ry. Co., Vancouver Victoria & Eastern Railway & Navigation Co., Brandon Saskatchewan & Hudson's Bay Ry. Co., Midland Railway Co. of Manitoba.
4. To acquire such other securities as the board of directors may from time to time authorize to be acquired. See V. 83, p. 1169.

Postponed.—The closing of the transfer books for the purposes of the new issue of stock and the limit of time for the filing of subscriptions has been postponed until 3 p. m. Jan. 10. The time for filing assignments has been postponed until 3 p. m. Jan. 12 and the time for making the first payment has been postponed until Jan. 14. These changes are due to the postponement of the injunction proceedings brought by the State of Minnesota, on which it is expected a decision will be rendered before the date now fixed upon for the closing of the books.—V. 83, p. 1469, 1411.

Gulf & Chicago Ry.—*Receivership.*—See Mobile Jackson & Kansas City RR. below.—V. 82, p. 452.

Gulf Terminal Co. of Mobile, Ala.—*Offering of Guaranteed Bonds.*—Potter, Choate & Prentice and Spencer Trask & Co., both of this city, are offering at 94 and interest $600,000 first mortgage 50-year 4% gold bonds of $1,000 each (c$), dated Jan. 1 1907 and due Jan. 1 1957, without option of earlier redemption. Interest payable Jan. 1 and July 1. Franklin Trust Co., New York, trustee. Principal and interest payable without deduction for any tax. Authorized issue, $700,000. Guaranteed jointly and severally, both as to principal and interest, by the following companies by endorsement on each bond: Southern Ry. Co. and Mobile & Ohio RR. Co., which companies lease the terminals and own the entire capital stock, excepting directors' qualifying shares

Abstract of Letter from President F. L. Russell, Nov. 26 1906.

The bonds are secured by a first mortgage upon the entire property of the company in Mobile, consisting of passenger terminals and approaches, located upon land lying along and easterly of St. Joseph St., extending from Beauregard St. through seven city blocks to Sumpter St. and containing an area of 6.37 acres. It is estimated that in two years the number of passengers (incoming as well as outgoing) using the Mobile terminals of the Southern Ry. and Mobile & Ohio companies has grown from 143,394 to 162,892, an increase of 19,498, or nearly 14%. Owing to this increased traffic, the old terminals have become inadequate. The new terminals are large and will provide for the passenger traffic in Mobile for a long time to come. The site is well selected and the station itself is a new building, handsomely furnished and thoroughly equipped.

Hudson & Manhattan RR.—*New Mortgage.*—The company has filed its new mortgage to the Standard Trust Co., as trustee, to secure $100,000,000 4½% bonds.—V. 83, p. 1469, 1228.

Hudson Valley Ry.—*Sale to Delaware & Hudson Interests.*—See United Traction Co. of Albany, &c.—V. 83, p. 1098.

Illinois Central RR.—*Purchase of Stock.*—See Union Pacific RR. below.—V. 83, p. 1590, 1228.

Kanawha & Michigan Ry.—*New Director.*—George D. Mackay, Chairman of the minority stockholders' committee, was elected on Thursday a director in the place of Charles G. Hickox. The board also appointed a committee consisting of N. Monsarrat, President of the company, and Decatur Axtell, Chairman of the board, and Mr. Mackay to consider the question of funding the equipment obligations and various improvement loans, with a view to the payment to the stockholders of a proper porportion of the road's net earnings pending the completion of the merger with the Hocking Valley Ry. The consummation of this merger has been deferred until March 1.—V. 83, p. 687.

Lake Shore Electric Ry., Cleveland.—*Probable Note Issue.*—The "Cleveland Finance" of Dec. 29 said: "The company expects to sell $550,000 of 3-year 6% gold notes secured by general mortgage bonds now in the treasury to provide for the balance of this year's improvements and for the improvements of next year (1907)."—V. 83, p. 95, 1098, 1171.

Little Miami RR.—*Modifications.*—The shareholders will vote Jan. 29 on—

(1) A modification of the lease of the road to the Pittsburgh Cincinnati Chicago & St. Louis Ry. Co.
(2) A resolution to rescind the condition attached to the increase of the capital stock in the sum of $3,000,000, authorized in the year 1890 (namely, from $5,000,000 to $8,000,000.—Ed.).
(3) A resolution further to increase the capital stock by the sum of $2,000,000 (from $5,000,000 to $7,000,000) and to limit the issue thereof in accordance with the lease as thus modified.—V. 74, p. 427.

Macon Dublin & Savannah RR.—*Bond Issue.*—A press report states that the shareholders have authorized an issue of $1,804,000 mortgage bonds and that an extension will be built from Macon to Atlanta.—V. 83, p. 1347.

Massachusetts Electric Companies.—*New Stock for Subsidiaries.*—The Massachusetts Railroad Commission on Jan. 2 authorized the Boston & Northern Street Ry. Co. to issue $300,000 additional capital stock and the Old Colony Street Ry. Co. to issue $200,000 additional capital stock, all at par, on account of additions and improvements. Compare V. 83, p. 1467.

Mexican Central Ry.—*Payment of Maturing Notes.*—The $10,000,000 of 2½-year 6% gold notes maturing Jan. 1 were paid on presentation out of the proceeds of the $33,000,000 5% notes due July 1 1910, which were sold last June (V. 82, p. 1497; V. 83, p. 156).

Merger.—Touching the proposed merger of the company with the National RR. of Mexico (V. 83, p. 1470), Minister of Finance Limantour, in a speech before the Chamber of Deputies of the Mexican Congress, is reported to have given the following information:

The plan can only be consummated after a considerable period of time, for there are many different interests in the two corporations and many steps will have to be taken before those corporations can be extinguished and a new one can be formed. The Mexican Government now owns only 47½% of the stock of the National RR. Co. of Mexico, but in the new Mexican corporation the Government will hold an absolute majority, receiving first and second preferred in exchange for its present holdings of National RR. stock, and in exchange for its ordinary stock in the National and in consideration of its guaranty of the new second mortgage bonds a large block of the new common stock.

The second mortgage will be confined to the sum necessary to convert only a part of the bonds at present outstanding and to provide for the expenses of incorporation, for the construction or purchase of other railway lines and for new equipment and betterments. The liability on the proposed guaranty is purely nominal, inasmuch as the net profits of the Mexican Central and the National Railroad last year were sufficient not only to pay interest on the new first mortgage bonds but also on the bonds which the Government will guarantee. The Government merely pledges its credit, and as it is superior to that of either of the corporations involved, the pledge in question enables the operation to be carried through. If the business of the lines expands in the future as may be expected considering the country's prosperity, the nation will have secured a half interest in the Central in return for a mere pledge and without any disbursement in cash. If later on the occasion arises for issuing more bonds for extensions and betterments, it will be necessary to proceed with caution so that the increase in profits may suffice to meet the interest on the new bonds.—V. 83, p. 1470, 1465.

Minneapolis St. Paul & Sault Ste Marie Ry.—*New Bonds.*—Application has been made to the London Stock Exchange to list an additional $3,240,000 first consolidated mortgage 50-year gold bonds, Nos. 46,616 to 19,855.—V. 83, p. 749, 687.

Mobile Jackson & Kansas City RR.—*Receivership Vacated for Parent Company—Provision for Interest Payment.*—Chancellor Smith at Mobile on Dec. 31 removed the receivers appointed last week pending the argument of the appeal, which has been set for Jan. 14 before the Supreme Court. The coupons on the M. J. & K. C. bonds due Jan. 1 are being paid as presented at the Colonial Trust Co.

Receiver of Leased Line.—F. E. Dewey and J. L. Dantzler, the receivers named last week for the M. J. & K. C., were on Dec. 28 appointed receivers of the Gulf & Chicago. The M. J. & K. C., however, continues to operate the road and it is expected that an application will be made shortly to vacate the receivership. Owing to the receivership the coupons on the $4,000,000 Gulf & Chicago 5% bonds due Jan. 1 have not been provided for, but arrangement, it is thought, will be made for the purchase of the coupons by one or more of the larger bondholders.—V. 83, p. 1590, 1471.

Mobile & Ohio RR.—*Guaranteed Bonds.*—See Gulf Terminal Co. above.—V. 83, p. 1166, 1099.

New York Central & Hudson River RR.—See Chicago Kalamazoo & Saginaw Ry. above.

Purchase of Stock.—See Union Pacific RR. below.—V. 83, p. 1471, 1411.

New York Chicago & St. Louis RR.—*Second Preferred Shareholders Seek Larger Dividends.*—James F. Andrews, a member of the New York Stock Exchange, has asked the second preferred stockholders to co-operate with him and his associates in an attempt to have the annual dividend rate on the second preferred shares increased from 3 to 5%. The earnings, it is contended, amply justify such a course, especially if allowance be made for the large sums charged each year to income on account of new construction, betterments and new equipment. Compare earnings in V. 83, p. 1285, 1286, and page 101 of "Railway & Industrial" section.—V. 82, p. 1037.

New York New Haven & Hartford RR.—*New Issue of Notes Offered.*—Hornblower & Weeks, Boston and New York, and Lee, Higginson & Co., Boston, have been offering this week, at par and interest, $7,000,000 5% notes dated Jan. 9 1907 and due $3,500,000 Jan. 9 1910 and $3,500,000 due Jan. 9 1912, without option of earlier redemption. Interest payable Jan. 9 and July 9. Coupon notes in denominations of $5,000, $10,000, $25,000 and $50,000 each. Legal investment for Massachusetts savings banks. Those due in 1912 have all been sold. Compare V. 83, p. 1591.

New York & Port Chester Ry.—*Securities Authorized.*—The New York Railroad Commission on Dec. 30 authorized this company to make a mortgage for $20,000,000 and to increase the capital stock from $250,000 to $20,000,000. A statement issued by the Commission says:

It appears that substantially all of the capital stock of the New York Westchester & Boston Railway Co., whose proposed line is substantially the same as the New York & Port Chester RR. Co., is owned by the owners of the stock in the latter named road. It is provided that at no time shall the aggregate amount of mortgage bonds outstanding in both railroads exceed $20,000,000, and at no time shall the aggregate amount of outstanding capital stock of both companies exceed $20,000,000 at par value.—V. 83, p. 1291, 586.

Oregon Short Line RR.—*Acquisitions—50% Dividend.*—See Union Pacific RR. below.—V. 83, p. 1171.

Pennsylvania RR.—*New President.*—Vice-President James McCrea was on Wednesday elected President to succeed the late A. J. Cassatt. (Compare V. 83, p. 1544.)—V. 83, p. 1591, 1412.

Pittsburgh & Clearfield RR.—*New Enterprise.*—This company was incorporated at Harrisburgh, Pa., on Dec. 29 with $1,500,000 capital stock by officers of the Pennsylvania Beech Creek & Eastern Coal Co. (Compare V. 83, p. 441, 497, 767), to build a line 142 miles long from the Monongahela River, North Versailles Township, Allegheny County, Pa., through Allegheny, Westmoreland, Indiana and Clearfield counties, to connect with the Pittsburgh Binghamton & Eastern at Clearfield.

The officers are: James Kerr, Clearfield, President, holding 7,455 shares; Thomas A. Watkins, Scranton; Samuel Heltner and J. O. Clark, Philadelphia; Frederick R. Kerr, Clearfield; H. J. Patton, Clearfield, and S. H. Hicks, Bryn Athyn, directors.

Rock Island Southern RR.—*Bonds Offered.*—Mason, Lewis & Co., Boston, Chicago and Philadelphia, are offering at 98 and interest $400,000 "first mortgage 5% gold bonds," dated Jan. 1 1907, due Jan. 1 1947; optional after five years at 105 and interest. Denomination, $1,000. Interest Jan. 1 and July 1, both principal and interest payable at American Trust & Savings Bank, Chicago, trustee. An advertisement on Dec. 29 said:

The company was incorporated in 1905 under the Steam Railroad Act of the State of Illinois, to build a railroad equipped with steam and electric power, through the counties of Warren, Knox, Mercer and Rock Island, connecting the cities of Rock Island, Moline, Davenport, Monmouth and Galesburg and other intermediate cities and towns. The line is completed from Monmouth to Galesburg, and has been in operation since the 1st of June for passengers, and will start to carry freight the 1st of January, putting the Santa Fe RR. into Monmouth and the Iowa Central RR. into Galesburg. This will give Monmouth a Santa Fe connection to Chicago and other important points. The road will be completed to Rock Island, and in operation during the year 1907.

The trust deed provides that additional bonds may be issued only for 60% of the cost of the property during construction, and 25%, or a total of 85%, when the net earnings from operation equal one and one-half times the interest charges on the bonds issued and to be issued. M. A. Walsh is President.—V. 81, p. 212.

St. Joseph & Grand Island Ry.—*Purchase of Stock.*—See Union Pacific RR. below.—V. 83, p. 1167, 563.

St. Louis & Suburban Ry.—*Merger Completed.*—See United Railways of St. Louis below.—V. 83, p. 1591.

Southern Indiana Ry.—*Interest Met.*—See Chicago Southern Ry. above.—V. 83, p. 1289, 1230.

Southern Ry.—*Guaranteed Bonds.*—See Chattanooga Station Co., Charleston Union Station Co. and Gulf Terminal Co. above.—V. 83, p. 1472, 1412.

Texas & Pacific Ry.—*Favorable Tax Decision.*—The Supreme Court of Texas on Jan. 2 handed down a decision holding that, as the company has a Federal charter, it is not subject to the provisions of the new State law taxing railroads 1% of their gross receipts.—V. 83, p. 1591, 689.

Toledo Ottawa Beach & Northern Ry.—*Mortgage Filed.*—This company, which will be operated under lease by the Toledo Railway & Light Co., has filed a mortgage to the Guaranty Trust Co., of New York, as trustee, to secure an issue of $1,500,000 5% bonds of $1,000 each.—V. 83, p. 1525, 1172.

Union Pacific RR.—*Acquisitions.*—At the hearing in this city yesterday before the Inter-State Commerce Commission regarding the companies controlled by the Harriman interests, William Mahl, Comptroller of the Union Pacific, is reported as testifying that the following acquisitions have been made out of surplus funds since June 30 1906:

1. *Amounts of Stock Acquired Since June 30 1906 and Per Cent of Total Issue acquired by Union Pacific.*

Illinois Central Railroad stock		$28,123,300 or 29.59%
St. Joseph & Grand Island Ry.	common stock	2,900,000 or 63.00%
do do do	1st pref. stk., abt	932,200 or 16.95%
do do do	2d pref. stk	1,250,000 or 35.71%

2. *Acquired by Oregon Short Line RR. (Controlled by U. P. RR. Co.).*

Atchison Topeka & Santa Fe Ry.	preferred stock	$10,000,000 or 8.76%
Baltimore & Ohio RR.	common stock	32,334,200 or 21.33%
do do	preferred stock	7,260,000 or 12.20%
Chicago Milwaukee & St. Paul Ry.	common stock	3,690,000 or 6.34%
Chicago & North Western Ry.	common stock	2,572,000 or 3.32%
New York Central & Hudson River RR.	stock	14,285,745 or 7.97%

Mr. Mahl also testified that last fall the Oregon Short Line declared a dividend of 50% on its stock, thereby nearly exhausting its surplus funds.—V. 83, p. 1591, 1412.

Union Traction Co. of Indiana. *Dividend.*—The company, it is stated, has declared a dividend of 1% on its $7,500,000 common stock, payable Jan. 10 to holders of record Jan. 5. The only previous dividend on the common stock were July 1903, 1%; Jan. 1904, ½%; July 1904, 1%.—V. 81, p. 614.

United Railways of St. Louis.—*Property Taken Over.*—The transfer of stock certificates and deeds to the property of the St. Louis Suburban Ry. to the United Railways of St. Louis was made on Dec. 29 and on Jan. 1 the management of the Suburban lines was assumed. Compare plan V. 83, p. 39, 156, 324.—V. 83, p. 381.

United Traction Co. of Albany, &c.—*Acquisition.*—This company, controlled by the Delaware & Hudson Co., obtained authority from the New York State Railroad Commission on Dec. 28 to increase its capital stock from $5,000,000 to $12,500,000, for the purpose of taking over the outstanding securities of the Hudson Valley Ry., most of which, both stock and bonds, have already been acquired. (See Hudson Valley Ry. in V. 83, p. 1098.)—V. 82, p. 1381.

Wabash RR.—*New Mortgage.*—The company has filed its new mortgage, dated July 1 1906, to the Bowling Green Trust Co. of New York, J. C. Van Blarcom of St. Louis and James B. Forgan of Chicago, as trustees. The mortgage secures an issue of $200,000,000 4% first refunding extension gold bonds, dated July 1 1906 and due July 1 1956, interest payable Jan. 1 and July 1, per plan V. 83, p. 626, 1099.

Interest Payment.—Holders of debenture bonds deposited under the plan received on Jan. 2 the interim certificates representing the new securities issuable thereunder at the United States Mortgage & Trust Co. The interest upon the new bonds maturing on Jan. 1 1907 was also paid by the trust company to the holders of deposit receipts.

Deposits.—The following statement, showing the amounts of debentures assenting to the plan, is pronounced substantially correct:

	Issued.	*Deposited.*	*In Transit.*	*Unassenting.*
"A" bonds	$3,500,000	$2,935,000		Callable at par.
"B" bonds	26,500,000	22,622,000	abt. $1,500,000	abt. $2,400,000

—V. 83, p. 1099.

Washington Alexandria & Mt. Vernon (Electric) Ry.—*First Dividend.*—The directors on Dec. 28 declared a first dividend of 1% on the $1,500,000 stock, payable Jan. 2 to stockholders of record Dec. 29. Graham & Co., of Philadelphia, placed the company's $1,800,000 bonds in 1905 (V. 80, p. 2221, 1176).—V. 83, p. 493.

INDUSTRIAL, GAS AND MISCELLANEOUS.

Alabama Consolidated Coal & Iron Co.—*New Directors—Mr. Hoadley Elected President.*—James A. Green, Edward K. Hill, Guy R. Johnson and Kenneth K. McLaren were on Wednesday elected directors to succeed T. G. Bush, Atwood Violett, Erskine Hewitt and William M. Hoagland. Joseph H. Hoadley has been chosen as President in place of T. G. Bush, who recently resigned. Mr. Hoagland also relinquishes his position as Secretary and Treasurer, but his successor has not been appointed.—V. 82, p. 1103.

American Book Co., New York.—*Extra Dividend.*—This company, incorporated in New Jersey in January 1890, paid on Dec. 23 1906 an extra dividend of 2% on its $5,000,000 capital stock (all common, par $100).

Annual Dividend Record (Per Cent) as Unofficially Reported.

'90	'91	'92	'93	'94	'95	'96	'97	'98	'99	'00	'01	'02	'03	'04	'05	'06
6	2	8	10	15	8	8	8	12	8	8	8	8	8	8	8	10

Compare V. 78, p. 289, 2596.

American Strawboard Co.—*Dividend.*—The directors on Dec. 28 declared a dividend of 2% on the $6,000,000 stock, payable Dec. 29 to holders of record that date. Of the total

stock, the United Box Board Co. owns $4,495,500, which, under the funding plan recently issued (compare V. 83, p. 1540), it is proposed to sell to the new American Box Board Co., with the right to re-purchase on certain terms prior to Jan. 2 1908. The aforesaid plan (V. 83, p. 1540) also gives a statement of earnings and balance sheet for the American Strawboard Company.

Annual Dividend Record (Per Cent).

1890.	1891.	1892.	1893.	1894-1897.	1898.	1899.	1900.	1901-1905.	1906.
8	8	8	4	None	1	None	3	None	Dec., 2

—V. 82, p. 450.

Androscoggin Mills, Lewiston, Me.—*Dividend Increased.*—This company on Jan. 1 paid a semi-annual dividend of 5% on its $1,000,000 stock to shareholders of record Dec. 19, increasing the annual rate to 10%, as against 8% for some years past. Par of shares $100.

Automatic Electric Co. (Telephone Manufacturing), Chicago.—*Official Statement.*—We have received the following:

The company has enjoyed the most prosperous year of its existence. At present there are nearly $7,000,000 worth of orders on hand to be filled. These include some large plants, Denver, Omaha, San Francisco and Chicago being among the number. So great has been the growth of the business that the factory for the manufacture of automatic equipment has been more than doubled in size and trebled in capacity. The new addition will be available shortly after New Year's. During the year the company issued and sold the last $1,000,000 of its $5,000,000 capital stock, to provide additional working capital. Perhaps the most important contract which the company will handle this coming year will be for the 100,000 line exchange to be built in Chicago by the Independent Telephone Co. of Chicago, a $10,000,000 corporation, which has taken over the telephone rights of the Illinois Tunnel Co., the growth of whose automatic plant, serving the loop district only, has been retarded by reason of the fact that the latter company has devoted its energy to the completion of its tunnel system for freight and mail service.

In line with the new Independent Company's advent into Chicago is the purchase of the South Bend (Ind.) Home Telephone Co. by a company of independents, who will make that city the clearing point for the independent toll-line business of that half of the United States lying east of that meridian of longitude. Contracts have been made during the past year for automatic plants at San Francisco and Oakland, Cal. (as well as large additions to the Los Angeles automatic system), at Portland, Ore., and at Spokane, Tacoma, Bellingham and Walla Walla, Wash.—V. 83, p. 1413.

Camp & Hinton Company of Lumberton, Miss.—*Bonds Offered Covering Valuable Timber Lands and Lumber Plants.*—Clark L. Poole & Co., successors to H. C. Barroll & Co., First National Bank Bldg., Chicago, are offering at par and interest $500,000 first mortgage 6% gold bonds dated Dec. 1 1906. Coupon bonds, $1,000 each. Principal payable $25,000 June 1 1907 and $50,000 each six months thereafter. Redeemable, any or all, prior to maturity at 103 and accrued interest. Principal and interest payable at Central Trust Co. of Illinois, trustee, Chicago. The company has a paid-up capital and surplus of over $2,300,000 and has successfully operated in the lumber business for many years. A circular says in substance:

A first mortgage on about 37,390 acres of uncut timber lands in LaMar and Perry counties, Miss., heavily timbered with long-leaf yellow pine. J. D. Lacey & Co., Chicago and New Orleans, certify that they estimated the timber during November and December 1906 as aggregating 240,365,000 feet (log scale) of uncut merchantable pine timber of exceptionally good quality. Our appraisal of the cash market value of this timber is $1,081,642. This mortgage is also a first lien on mills, &c., which we appraise at $500,000, including two modern saw-mills (aggregate capacity 350,000 feet per day), located at Lumberton, Miss.; planing mills, dry kilns, machine shops, houses, 16 miles of railroad and its equipment, &c., all to be kept covered by insurance for the protection of this bond issue.

This loan provides funds with which to pay encumbrances amounting to $220,000 ($220,000 of the proceeds will be held by the trustee and used by it to pay off these encumbrances on or before April 1 1907), and the balance will be used to pay the remaining indebtedness of the company and for the purchase of additional pine-timber lands. The total authorized bond issue is $1,000,000. The remaining $500,000 will be held in escrow, and may be issued only in part payment for additional pine-timber lands located near those now owned by the company, at the rate of $2 per 1,000 feet of additional pine stumpage, if acquired and made subject to the lien of this mortgage, based upon estimates to be certified to by J. D. Lacey & Co. The mortgage requires the deposit with the trustee of $3 per 1,000 feet, log scale, for all timber cut and manufactured into lumber, and these deposits should retire all the bonds long before the timber has been cut.—V. 80, p. 653.

Columbia Corporation.—*Acquisition of Cleveland Properties.*—The formal agreement for the acquisition of the control of the Cleveland Gas Light & Coke Co. and the People's Gas Light Co., both of Cleveland, it is stated, was signed by representatives of all companies concerned on Jan. 2. Compare V. 83, p. 1292.

Consolidated Steamship Lines.—*Organized to Control Morse Lines.*—This company was incorporated under the laws of Maine on Jan. 2 with $60,000,000 of authorized (common) stock, in shares of $100 each, and a proposed (4%) bond issue (amounting, it is understood, to $30,000,000), for the purpose of amalgamating the following steamship lines controlled by Chas. W. Morse, through acquisition of a majority of their capital stock:

	Steamers.	Stock Issued	Bonds Authorized.	Bonds Issued.	References To Chronicle.
Mallory SS. Co	[illegible]	[illegible]	$6,000,000	$3,500,000	V. 83, p. 1594
Clyde SS. Co	22	14,000,000	6,000,000	4,000,000	xV. 82, p. 807
Eastern SS. Co	16	3,000,000	3,000,000	2,202,000	V. 83, p. 1232
Metropol. SS. Co	8	3,000,000	3,000,000	1,000,000	V. 82, p. 990
Hudson Nav. Co	5	4,000,000	2,391,000	2,391,000	V. 83, p. 1039
Total	62	$38,000,000	$20,391,000	$12,593,000	

See also V. 83, p. 1231.

Electrical Development Co., Niagara Falls. *Power Transmitted to Toronto.*—See Toronto & Niagara Power Co. below. —V. 83, p. 627, 158.

Gamewell Fire-Alarm Telegraph Co., New York.—*New Stock.*—The shareholders will meet at the office, No. 19 Barclay St., Jan. 15, to vote upon increasing the capital stock from $750,000 to $1,500,000; par of shares $100. Jos. W. Stover is President, and Chas. W. Cornell, Secretary.

Greene Cananea Copper Co.—*Officers.*—The following officers are announced:

President, T. F. Cole, Duluth; First Vice President, Col. W. C. Greene, Herford, Ariz.; Second Vice Pres. and Treasurer, C. A. Duncan, Duluth; Third Vice Pres., Charles F. Frazer, New York; Fourth Vice Pres., J. B. Cotton, Duluth; Secretary, F. R. Kennedy, Duluth.—V. 83, p. 1503, 1526.

Hall Signal Co.—*New Stock.*—The shareholders will meet at Portland, Me., on Jan. 15 to vote on issuing $1,000,000 additional preferred stock, to provide for the increasing business, making the total stock $1,100,000 preferred and $1,900,000 common. See V. 83, p. 754.

Plan.—A circular issued yesterday announces a plan to sell the property, subject to the mortgage of $250,000, to a new company, with $10,000,000 of authorized capital, of which $5,000,000 will be 7% cumulative preferred; par of shares, $100. The $1,900,000 common stock of the present company will be exchanged dollar for dollar for new preferred and the $100,000 preferred stock is offered an equal amount of new preferred and $20 per share in cash. The present shareholders will also have the right to subscribe at par for $1,000,000 new preferred (receiving therewith 100% bonus in common shares) to the extent of 50% of their respective holdings. This block of new preferred has been underwritten by a syndicate headed by J. S. Bache & Co. in consideration of $2,500,000 of the new common. The remainder of the new stock, $2,000,000 preferred and $1,500,000 common, will remain in the treasury for future requirements. Subscriptions by the shareholders are payable as follows: $10 Jan. 25 1907; $15 Mch. 20; $25 May 20; $25 July 20; $25 Sept. 20 1907.—V. 83, p. 754.

Home Telephone Co. of Alameda County, Oakland, Cal.—*Bond Issue.*—A mortgage was filed at Oakland, Cal., on Dec. 7 1906 to the Mercantile Trust Co. of San Francisco, as trustee, to secure a bond issue of $5,000,000. Compare Automatic Electric Co. above, and see V. 82, p. 1443.

Illinois Car & Equipment Co.—*Reduction in Capital Stock.*—The "Chicago Economist" of Dec. 29 said:

The English directors have agreed to reduce the capital stock 25% (*i. e.*, from $800,000 to $600,000.—Ed. "Chronicle."), making the par value of stock $7 50 instead of $10. The proposed change is rendered necessary by the fact that since the reduction made in 1904 (from $2,000,000 to $800,000.—Ed. "Chronicle."), the re-valuation of the properties created a deficit in the accounts, which has to be disposed of before dividends can be paid. A meeting will be held in Jersey City Feb. 6, when a resolution will be proposed amending the by-laws so as to enable dividends to be declared. An interim dividend will then be ordered paid, which will be the first in the company's history. Compare V. 80, p. 166.

International Lumber & Development Co., Philadelphia.—*Extra Dividend.*—This much-advertised company, of whose stock "only a few shares remain to be sold, at par," has declared another special dividend of 2%, payable Jan. 31 1907, in excess of the guaranteed 8%. An advertisement says:

10% dividends paid first year, 12% dividends paid second year. Thirteen steamship loads of lumber already shipped to United States. 2,500 acres of corn to harvest, 7,000 orange trees, 200,000 banana plants, 3,000,000 henequen plants, 500 acres of rubber, besides wild rubber trees, logwood and chicle, mahogany, cedar and other valuable lumber. Company now has over $100,000 worth of lumber in Mobile and Chicago.—V. 83, p. 326.

International Salt Co.—*Circular as to Suspension of Dividends.*—President E. L. Fuller, in a circular sent yesterday to the stockholders, says in substance:

At a meeting of the board held Dec. 18 1906 it was decided to temporarily suspend payment of dividends. This action reflects the general monetary conditions, which make it inadvisable at this time to finance extraordinary improvements by the increase of capital.

Your management has for some months past been looking into certain new and improved processes for the manufacture of salt, and after an exhaustive expert examination and a satisfactory guaranty of efficiency had been obtained, the directors authorized the adoption of these processes and secured the sole right to use same in the United States. The installation of the necessary machinery is now in progress at several plants of the company in different parts of the country, and it is confidently expected that the new processes will be fully available in at least three of the plants within less than twelve months and that the requisite equipment to meet present and prospective demands will be completed and installed at all of the plants within two years. This will insure a much larger production of salt at a material reduction in cost.

These improvements will require quite a large expenditure and the directors have decided that it would be for the best interests of the stockholders to temporarily discontinue dividends—although the company is in good financial condition and the business very satisfactory—and to finance the acquisition and installation of the new processes out of net earnings. It is believed that this conservative policy will establish the company in an unassailable position and enable it in the near future to place the stock on a permanent dividend basis. (Compare V. 83, p. 1101, 1593.)

John B. Stetson Co. (Hats), Philadelphia.—*Dividends.*—The directors on Dec. 20, with the regular semi-annual dividend on the $1,500,000 8% preferred stock, declared on the $2,300,000 common shares a semi-annual distribution of 10% and an extra dividend of 5%, both payable Jan. 15, making 25% in all paid from the earnings of 1906 on the common stock.

Annual Dividend Record of Common Shares, including above Declaration.

—V. 81, p. 1854.

Kirby Lumber Co.—*Payment of Overdue Timber Certificates.*—Notice is given that the principal of timber certificates, series "F," of $260,000, due Aug. 1 1906, will be paid on Jan. 10 1906 at the National City Bank of New York or the Maryland Trust Co., Baltimore, Md., together with interest at 6% per annum from Aug. 1 1906 to Jan. 10. —V. 83, p. 382, 99.

La Belle Iron Works, Wheeling, W. Va.—*Stock Dividend.*—The directors on Dec. 27 declared a quarterly cash dividend of 2%, payable Feb. 1 to stockholders of record Jan. 21, and also a stock dividend of 8% payable Jan. 20 to stockholders of record Jan. 1. This increases the outstanding stock to practically the full amount authorized, $7,500,000. All negotiations with the Wheeling Steel & Iron Co. have been declared off. Compare V. 83, p. 627, 625.

Lincoln Gas & Electric Co.—*Restraining Order.*—The company on Dec. 28 secured an order from the United States Circuit Court restraining the city from enforcing the ordinances recently passed reducing the price of gas from $1.50

to $1 per 1,000 feet, on the ground that it was in effect a special tax upon the earnings.—V. 83, p. 1174.

Long Beach Hotel & Cottage Co.—*Foreclosure Decree.*—Supreme Court Justice Kelly in Brooklyn on Dec. 26 ordered the foreclosure sale of this company's property under the mortgage to the Farmers' Loan & Trust Co., as trustee, upon which there is due for principal and interest $692,000. The sale has been set for noon Feb. 8 at Mineola. Compare V. 82, p. 573.

National Licorice Co., Brooklyn, N. Y.—*Dividend.*—The directors have declared a semi-annual dividend of 2½% on the $1,000,000 common stock, payable Jan. 5 to stockholders of record Jan. 3. There is also $500,000 6% cumulative preferred. Par of shares, $100.

Dividend Record of Common Stock (Per Cent)—Compare V. 83, p. 41.

1903	1904		1905		1906		1907
4½	Jan., 1;	July, ½.	Jan., 1;	July, 1.	Jan., 2;	July, 1½.	Jan., 2½

—V. 83, p. 41.

New Haven Gas Light Co.—*Proposed Extension.*—This company has announced its intention to apply to the Connecticut Legislature for authority to extend its mains throughout the towns of Branford, Guilford and Milford.—V. 78, p. 345.

Oceanic Steamship Co., San Francisco.—*Payment of Overdue Coupons.*—A press dispatch from San Francisco announced the payment on Jan. 2 of the coupons, amounting to $60,000, which matured July 1 1906, but remained unpaid. The coupons due Jan. 1 1907 were not met at maturity.—V. 83, p. 100, 92.

Pacific States (Bell) Telephone & Telegraph Co.—*Plan Approved.*—The shareholders on Jan. 2 ratified the plan (V. 83, p. 1416) to transfer the property to a new company to be formed under the laws of California under the title of Pacific Telephone & Telegraph Co. The property of the Sunset (Bell) Telephone & Telegraph Co. will also be taken over by the new corporation, it is understood, under lease.—V. 83, p. 1416.

Pacific (Bell) Telephone & Telegraph Co.—*New Company.*—See Pacific States Telephone & Telegraph Co. above.

Pennsylvania Beech Creek & Eastern Coal Co.—*Allied Railroad Project.*—See Pittsburgh & Clearfield RR. under "Railroads" above.—V. 83, p. 767.

Roberts, Johnson & Rand Shoe Co., St. Louis.—*Stock Increase.*—This company, it is stated, has filed a certificate of increase of authorized capital stock from $2,500,000 to $3,750,000.—V. 81, p. 1854.

Singer Manufacturing Co.—*Merger.*—See Wheeler & Wilson Manufacturing Co. below.—V. 83, p. 276.

Standard Underground Cable Co., Pittsburgh.—*Extra Dividend.*—The directors on Dec. 30 declared the usual quarterly dividend of 3% and an extra dividend of 5% on the $2,000,000 stock, payable Jan. 5 to stockholders of record Dec. 31.

Approximate Dividend Record (Per Cent) for Calendar Years, Including Above Declaration.

6 yearly	6½	8	7	8	8	10	10	10	12	12	12	17

—V. 83, p. 1294.

Swift & Co., Chicago.—*Report.*—At the annual meeting on Jan. 3 the shareholders were informed that during the year ending Sept. 29 1906 the company did "a business of considerably over $200,000,000." (For the preceding year the business done was also described as "more than $200,000,000.") The total surplus as of Sept. 29 shows an increase for the year of $2,500,000 after payment of the usual 7% in dividends on the stock. In February last the stock was increased from $35,000,000 to $50,000,000 by the sale of new stock at par to shareholders. The bills payable stand at $19,755,130, as against $20,509,806 Sept. 30 1905; accounts payable, $4,206,366, against $2,890,286.—V. 83, p. 1596.

Toronto Electric Light Co.—*New Stock.*—The shareholders will vote Jan. 14 on a proposition to authorize the issue of $1,000,000 additional stock, which, it is stated, will be offered pro rata to shareholders of record at par ($100 per share). This will increase the outstanding stock from $3,000,000 to $4,000,000. The proceeds, it is supposed, will be used in connection with the distribution of Niagara power. (Compare Toronto & Niagara Power Co. below.) The company has for many years paid dividends at the rate of 7% per annum in January, April, July and October.—V. 83, p. 321.

Toronto & Niagara Power Co.—*Electricity Transmitted to Toronto.*—This ally of the Electrical Development Co. recently began delivering Niagara power to the Toronto Railway Co. and the Toronto Electric Light Co. (see that company above). The "Toronto Globe" of Dec. 3 said:

It will probably be three or four weeks before more than the 3,000 to 4,000 horsepower now delivered part of each day can be materially increased, and several months more will elapse before the Toronto Electric Light Co. will be able to accept and distribute more than 2,000 to 3,000 horsepower. The Toronto Railway Co. can store about 4,000 horsepower to use any time during the day and is prepared to take all the power which it can get from Niagara. At present the Toronto Railway Co. is turning over to the Electric Light Company about 2,000 horsepower daily, pending the completion of the light company's own transforming plant.—V. 79, p. 2647, 274.

United Box Board & Paper Co.—*Dividend on Stock of American Strawboard Co.*—See that company above.—V. 83, p. 1596, 1540.

United States Glass Co.—*Quarterly Dividend.*—This company has declared a "regular quarterly distribution" of 1%, payable Jan. 15 to stockholders of record Jan. 5. Compare V. 83, p. 822.

United States Rubber Co.—*Earnings.*—The net earnings for 9 months ending Dec. 31 (Dec. partly estimated) were approximately $3,206,176, not including earnings of the Rubber Goods Manufacturing Co., except dividends amounting to $552,247 received upon stock of said company in the company's treasury. The net earnings for the corresponding period last year were $3,162,000.—V. 83, p. 1475, 822.

Victor Talking Machine Co., Philadelphia.—*Mortgage.* This company, incorporated under the laws of New Jersey on Oct. 5 1901, recently made a mortgage to Edward T. Stotesbury, of Drexel & Co., Philadelphia, as trustee, to secure an issue of $800,000 notes, payable $13,000 a month, except in September, when $17,000 will be paid, thus providing for the payment of the entire issue at the end of five years. The issue, it is said, will be used to retire a portion of the company's stock.

The authorized issue of capital stock is $2,000,000 common and $500,000 7% preferred, of which at last accounts there was outstanding $1,901,000 common and $350,000 preferred; par of shares, $100. Directors: Eldridge R. Johnson, President, Philadelphia; Leon F. Douglass, Vice-President; Thomas S. Parvin, Treasurer; and A. C. Middleton, Secretary. Owns large factory at Camden, N. J.

Wheeler & Wilson Manufacturing Co., Bridgeport.—*Merger.*—The shareholders will meet Jan. 24 to vote on terminating the corporate existence of the company, whose capital stock was $1,000,000. General Superintendent Eames is quoted as saying:

The effect will be that after Jan. 24 this factory will be run as a Singer plant, the same as the plants in Elizabeth, N. J.; South Bend, Ind.; Montreal, Canada; Glasgow, Scotland; Hamburg, Germany, and Moscow, Russia. Compare Singer Mfg. Co., V. 83, p. 276.

—Redmond & Co. are offering a list of January investments at prices which should command the attention of all investors. Among them there may be particularly mentioned the first mortgage 6% bonds of the Pittsburgh & Lake Erie RR., which reported for last year a net income of over $3,000,000, an amount more than 1½ times the principal sum of these first mortgage bonds. Other bonds range in yield up to 5⅜%, and there is a strong list of guaranteed stocks.

—Thatcher Magoun Brown, son of John Crosby Brown, and Moreau Delano, son of Eugene Delano, have been admitted as partners in the firms of Brown Brothers & Co. in this country and in England.

—The new firm of Babcock, Rushton & Louderback (successors to John C. King & Co.) began business on the 2nd inst. in their offices in the Rookery, Chicago, and at 18 Wall St., New York.

—Atwood Violett & Co. of this city announce the admission of James G. MacLean into the firm. Mr. MacLean was until recently a member of H. G. Campbell & Co., 11 Wall Street.

—The Boston Safe Deposit & Trust Co. is presenting its friends with the 1907 edition of its publication, "Coupons Where Paid," in Boston, a work of long standing and much value.

—Samuel L. Fuller, heretofore a member of the firm of Jackson & Curtis, has been admitted as a general partner in the firm of Kissell, Kinnicutt & Co. of 1 Nassau Street.

—Frank B. Cahn & Co., members N. Y. Stock Exchange, 25 Broad Street, announce that Charles F. Ainsworth and Marcus Kaufman have been given an interest in the firm.

—Baker, Ayling & Co., 50 Congress St., Boston, have opened an office in the Land Title Building, Philadelphia, in charge of N. M. Seabrease and T. McG. Leaver.

—Charles L. Parmelee, formerly of Tefft, Parmelee & Nash, announces that he will conduct a general investment and brokerage business in bonds at 20 Broad St.

—Charles H. Mills, on account of ill health, has withdrawn from the firm of F. S. Moseley & Co. of Boston. William F. Clough of Chicago becomes a partner in the firm.

—The Guaranty Trust Co., 28 Nassau St., offers through its bond department an attractive list of investment issues. See advertisement on another page.

—Speyer & Co. of this city announce that Charles H. Tweed, who is retiring from active business, has withdrawn from their firm.

—Edward B. Smith & Co. of Philadelphia and New York announce that Edward S. J. McVickar retired from the firm on Dec. 31.

—Walter V. Kremer has this week been admitted into the New York Stock Exchange firm of L. Levy & Co., 111 Broadway.

—J. Milton Colton retired as a member of the Philadelphia banking firm of E. W. Clark & Co. on the 1st inst.

—Theodore Ames Jr. and Edgar Boody have become partners in the firm of Boody, McLellan & Co. of this city.

—William Salomon & Co. of this city announce the withdrawal of Adolf Kaufman as a partner in their firm.

—John H. McCullough has been admitted to partnership n the firm of Harriman & Co., 111 Broadway.

—Edward Tworger was admitted as a partner in the firm of Philbrick & Hall, 25 Broad Street.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, Jan. 4 1907.

The activity of trade which made the year 1906 so remarkable shows little or no diminution, and the new year opens with widespread prosperity, generally good and well-sustained prices, and the only drawback is the inadequacy of the country's facilities for handling its unparalleled business.

Stocks of Merchandise.	*Jan. 2 1907.*	*Dec. 1 1906.*	*Jan. 2 1906.*
Lard ..... tierces	7,537	5,200	6,196
Cocoa ..... bags	5,500	4,352	15,000
Coffee, Brazil ..... bags	3,296,298	2,916,367	3,864,363
Coffee, Java ..... mats	125,500	105,500	90,207
Coffee, other ..... bags	300,000	350,500	294,877
Sugar ..... hogsheads	none.	none	21,867
Sugar ..... bags, &c.	none	none	961,411
Hides ..... No.	6,500	3,000	9,700
Cotton ..... bales	143,903	123,038	225,857
Rosin ..... barrels	31,738	40,952	27,414
Spirits turpentine ..... barrels	1,595	1,401	1,363
Tar ..... barrels	286	433	1,064
Saltpetre ..... bags	1,057	750	1,211
Manila hemp ..... bales	7,205	9,679	47,112
Sisal hemp ..... bales	2,714	2,491	2,714
Flour ..... barrels and sacks	61,700	92,000	109,100

LARD on the spot has been quiet but firm, owing to moderate receipts of live hogs and light offerings. City is quoted at 9c. and Western at 9.40@9.50c. Refined lard has been quiet but firm. Refined Continent 10c., South America 10.50c. and Brazil in kegs 11.50c. Lard futures at the West have advanced, owing to manipulation by packers, moderate receipts of hogs, light stocks of product, commission buying, covering of shorts and an absence of selling pressure.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	*Mon.*	*Tues.*	*Wed.*	*Thurs.*	*Fri.*
January delivery	9.05	9.15	Holi-	9.30	9.32½	9.22½
May delivery	9.17½	9.30	day.	9.50	9.52½	9.47½
July delivery		9.32½		9.57½	9.60	9.52½

PORK on the spot has been dull but firm, owing to light offerings and the strength of other provisions. Mess is quoted at $17 50@$18 50, clear $18@$19 and family $18 50@$19. Cutmeats have been dull but generally steady with the offerings and stocks light. Pickled shoulders 8c., pickled hams 12@12½c., and pickled bellies 14@10 lbs., 10¼@10¾c. Tallow has been nominally unchanged at 6¼c. for City. Stearines have been firmer with trade dull and offerings scarce. Oleo 12c. and lard 10½@10¾c. Butter has been moderately active and steady; creamery extras 33c. Cheese has been quiet and steady; State factory 14½c. Eggs have been dull and easier; Western firsts 26c.

OIL.—Cottonseed has declined with trade dull; prime summer yellow 39½@40c. Linseed has been dull and steady. Buyers continue to hold aloof for lower prices but crushers as a rule remain firm in their views. City, raw, American seed, 42@43c.; boiled, 43@44c.; Calcutta seed, raw, 70c. Lard has advanced, owing to the strength of the raw material and light offerings. Trade has been dull at the advance. Prime 77@79c. Olive has been quiet but firm; yellow 65@68c. and green 59@60c. Cocoanut has been in moderate demand and firm; Cochin 9¾@10c. and Ceylon 9¼@9½c. Peanut quiet and steady; yellow 50@60c. Cod dull and steady; domestic 36@37c. and Newfoundland 38@40c.

COFFEE on the spot has been dull and easy. Rio No. 7, 7½c.; Santos No. 4, 8¼c. West India growths have been quiet and steady; fair to good Cucuta 8⅝@8¾c. The market for future contracts has been easier in the main, owing to weak cables from Havre and Hamburg, liberal sales for foreign account, continued large receipts, liquidation by tired holders, pressure from local bears and dulness of spot trade.

The closing prices were as follows:

January	5.55c.	May	5.95c.	September	6.20c.	
February	5.65c.	June	6.00c.	October	6.25c.	
March	5.75c.	July	6.05c.	November	6.35c.	
April	5.85c.	August	6.10c.	December	6.40c.	

SUGAR.—Raw has been dull and easy. Centrifugal, 96-degrees test, 3 9-16c.; muscovado, 89-degrees test, 3 1-16c., and molasses, 89-degrees test, 2 13-16c. Refined has been quiet and steady. Granulated 4.70c. Spices generally firm. A good inquiry from the interior for car lots has been reported of late. Teas firm with a good jobbing trade. Hops quiet and firm.

PETROLEUM has been firm with export trade active and the domestic demand moderate. Refined, barrels, 7.50c., bulk 1.40c. and cases 10c. Naphtha has been moderately active and steady; 75@76 degrees 18c. in 100-gallon drums. Gasoline has been fairly active and steady; 89 degrees 21c. in 100-gallon drums. Spirits of turpentine has been quiet and steady at 70½@71c. Rosin has been quiet and firm; common to good strained $4 25@$4 30.

TOBACCO.—The market for domestic leaf has been less active, but this is to be expected at this time of the year. No features of interest have developed in the general situation, which is generally regarded as favorable. Packers have shown less disposition to meet the prices asked by growers.

COPPER has been quiet but firm; lake 24½@25c., electrolytic 24¼@24½c. Lead has been quiet but firm at 6.15@6¼c. Spelter has been dull but firm at 6.80@6.85c., owing to light stocks. Tin has declined to 41c. for Straits. Iron has been moderately active and steady; No. 1 Northern $24 50@$26; No. 2 Southern $22@$25 50.

COTTON

Friday Night, January 4 1907.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 311,945 bales, against 298,196 bales last week and 354,207 bales the previous week, making the total receipts since the 1st of September 1906, 6,069,988 bales, against 5,200,840 bales for the same period of 1905-06, showing an increase since Sept. 1 1906 of 849,148 bales.

Speculation in cotton for future delivery has been, as usual at this time of the year, on a very moderate scale, and the changes for the week are slight, these being, however, in the direction of higher prices. This is attributable to the strong spot markets, the scarcity of the better grades and the high premiums ruling therefor, the activity in spot cotton at Liverpool and relatively heavy purchases here, first of January and later of March. Persistent buying of futures by spot interests, moreover, has not been without its influence, nor has the continued prosperity of the cotton goods business both at home and abroad been ignored. Arbitrage business between New York and Liverpool has figured rather prominently of late in the shape of purchases here and sales across the water. The South has been a buyer on a larger scale than recently and local covering has also contributed to strengthen prices. Further January notices have been issued on two days of the week, but this fact has had no great influence. The prompt stopping of the large number of January notices issued last week has inclined bears to caution. So has the continued strength of spot quotations at the South and the increasing demand, as it appears, for the lower grades, owing to the difficulty if not the impossibility of securing an adequate supply of the better qualities. It is the spot situation, indeed, which has in reality dominated the whole market, speculation, as was so noticeably the case last year, being distinctly subordinate to the trade in the actual cotton. This speculative dulness, however, is due in a measure to the fact that most operators here profess themselves to be at sea, unable to determine whether the firm spot prices are to be taken as an indication of the future of the market or whether the cure is to be found in the continued large receipts. To-day there was some decline, owing partly to disappointing advices from Liverpool, continued large receipts and local and Southern selling. Moreover, the South was reported to be offering the actual cotton somewhat more freely. Before the close, however, there was a rally, owing partly to good buying of October supposed to be for Russia and partly to local covering, leaving prices, as a rule, slightly higher for the day. January was for a time slightly affected by the circulation of notices, but all months showed firmness in the afternoon, especially October.

Cotton on the spot has been dull and steady in the main. Middling closed at 10.75c., an advance during the week of 10 points.

The rates on and off middling, as established Nov. 21 1906 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Fair	c. 2.00 on	Strict low mid	c. 0.14 off
Strict mid. fair	1.75 on	Fully low mid	0.32 off
Middling fair	1.50 on	Low middling	0.59 off
Barely mid. fair	1.25 on	Barely low mid	0.70 off
Strict good mid	1.00 on	Strict good ord	0.90 off
Fully good mid	0.88 on	Fully good ord	1.07 off
Good middling	0.76 on	Good ordinary	1.25 off
Barely good mid	0.57 on	Strict g'd mid. tgd.	0.39 on
Strict middling	0.38 on	Good mid. tinged	Even
Middling	Basis	Strict mid. tinged	0.06 off
Middling tinged	c. 0.12 off		
Strict low mid. ting	0.16 off		
Low mid. tinged	0.90 off		
Strict g'd ord. ting	1.25 off		
Fully mid. stained	0.42 off		
Middling stained	0.50 off		
Barely mid. stained	0.78 off		
Strict low m. stain	1.50 off		
Fully l. m. stained	1.75 off		
Low mid. stained	2.00 off		

On this basis the official prices for a few of the grades for the past week would be as follows:

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

January 4—	1907.	1906.	1905.	1904.
Stock at Liverpool bales	749,000	1,069,000	876,000	606,000
Stock at London	6,000	11,000	13,000	13,000
Stock at Manchester	47,000	46,000	36,000	68,000

Total, 33 towns	249,030	4,730,339	238,817	713,801	117,691	3,925,159	142,325	746,851

The above totals show that the interior stocks have decreased during the week 4,787 bales, and are to-night 33,047 bales less than at the same period last year. The receipts at all the towns have been 131,336 bales more than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

January 4—	1906-07		1905-06	
Shipped—	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Via St. Louis	42,057	370,450	19,485	231,254
Via Cairo	10,132	112,769	6,027	107,704
Via Rock Island	3,592	26,050	1,884	25,234
Via Louisville	4,720	46,278	4,253	45,585
Via Cincinnati	2,779	24,437	2,101	30,152
Via other routes, &c	25,978	168,897	18,945	124,103
Total gross overland	89,258	748,861	43,990	564,523
Deduct shipments—				
Overland to N. Y., Boston, &c	8,407	62,958	7,972	87,227
Between interior towns	1,592	25,874	675	9,558
Inland, &c., from South	1,492	20,988	1,353	18,156
Total to be deducted	11,491	109,820	9,980	114,741
Leaving total net overland a	77,767	639,041	34,010	479,782

a Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 77,767 bales, against 34,010 bales for the week last year, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 189,259 bales.

In Sight and Spinners' Takings.	1906-07		1905-06	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.

WEATHER REPORTS BY TELEGRAPH.—Advices to us by telegraph this evening from the South denote that rain has been general the past week. The picking of the remnant of the crop has been interfered with in some localities, but the movement of the crop to market continues free.

Galveston, Texas.—There has been rain on two days during the week to the extent of six hundredths of an inch. The thermometer has ranged from 58 to 76, averaging 72.

Fort Worth, Texas.—We have had light rain on two days of the past week, the rainfall being twenty-seven hundredths of an inch. Average thermometer 48, highest 64, lowest 32.

Palestine, Texas.—We have had rain on two days during the week, the precipitation being forty-four hundredths of an inch. The thermometer has averaged 54, the highest being 74 and the lowest 34.

Taylor, Texas.—It has rained on one day of the week, the precipitation being twenty hundredths of an inch. Average thermometer 56, highest 78, lowest 32.

San Antonio, Texas.—There has been rain on one day of the past week, the rainfall reaching twenty-two hundredths of an inch. The thermometer has averaged 56, ranging from 34 to 78.

Abilene, Texas.—There has been rain on one day during the week, the rainfall being four hundredths of an inch. The thermometer has ranged from 36 to 74, averaging 55.

Palestine, Texas.—We have had rain on one day of the week, the rainfall being seventy-four hundredths of an inch. Average thermometer 60, highest 76, lowest 44.

New Orleans, Louisiana.—There has been rain on three days of the week to the extent of forty-five hundredths of an inch. The thermometer has averaged 66.

Leland, Mississippi.—The week's rainfall has been eighty-five hundredths of an inch. The thermometer has ranged from 39 to 70, averaging 55.

Vicksburg, Mississippi.—It has rained on four days during the week, the rainfall reaching two inches and twenty hundredths. Average thermometer 61, highest 77 and lowest 42.

Helena, Arkansas.—There has been rain on three days of the week, the precipitation being three inches and thirty hundredths. The thermometer has averaged 55.8, the highest being 71 and the lowest 36.

Memphis, Tennessee.—Bad weather has interfered with gathering cotton. Now clear. Rain has fallen on four days during the week, the rainfall being three inches and sixty-seven hundredths. The thermometer has ranged from 10.2 to 73, averaging 55.4.

Mobile, Alabama.—Heavy rains in the interior. There has been rain here on five days during the week, the precipitation reaching fifty-eight hundredths of an inch. The thermometer has averaged 62, the highest being 72 and the lowest 49.

Montgomery, Alabama.—We have had rain on three days of the week, to the extent of one inch and eighteen hundredths. The thermometer has averaged 62, ranging from 43 to 75.

Savannah, Georgia.—It has rained on four days of the week, the precipitation being fifty hundredths of an inch. Average thermometer 60, highest 72 and lowest 45.

Selma, Alabama.—It has rained on two days of the week, the rainfall reaching two inches and seventy-five hundredths. The thermometer has averaged 55, ranging from 35 to 67.

Madison, Florida.—We have had rain on one day during the week, the rainfall being fifty hundredths of an inch. The thermometer has ranged from 51 to 83, averaging 58.

Augusta, Georgia.—There has been rain on four days during the week, the rainfall being eighty-four hundredths of an inch. The thermometer has averaged 57, the highest being 72 and the lowest 42.

Charleston, South Carolina.—It has rained on four days during the past week to the extent of thirty-six hundredths of an inch. The thermometer has ranged from 45 to 67, averaging 56.

Greenwood, South Carolina.—We have had rain on two days of the past week, the precipitation being one inch and two hundredths. Average thermometer 49, highest 55 and lowest 41.

Statesburg, South Carolina.—We have had rain on four days during the week to the extent of seventy-six hundredths of an inch. The thermometer has averaged 57, the highest being 75 and the lowest 42.

Charlotte, North Carolina.—We have had rain during the week to the extent of ninety-two hundredths of an inch. The thermometer has averaged 54, ranging from 44 to 66.

NEW YORK COTTON EXCHANGE.—*Recent Attacks Unjustified.*—Anent the recent attacks made upon the New York Cotton Exchange, Messrs. Henry Hentz & Co. remark as follows:

Considerable indignation is felt in the trade here at the outrageous attacks made on the New York Cotton Exchange by some people who don't understand the situation, particularly some of the officials of a certain cotton association. Investigation will show that there is nothing in the charges. There has been a great deal of howling in regard to the revision made by the Revision Committee of our Exchange on the 21st ult. in fixing the differences, especially between low middling and middling at ½c. vs. 1c., the present difference in New Orleans, and between good ordinary and middling at 125 points vs. 181 points, the present difference in New Orleans (on 21st ult. the latter difference was 194 points), showing that the difference in New Orleans at present is 56 points more on good ordinary and 50 points more on low middling than in New York.

The closing price in New Orleans yesterday for January delivery cotton was 10.11c. bid against 9.47c. in New York—a difference of 64 points. If we assume that good ordinary cotton will be delivered against these contracts in both markets, New Orleans will show an advantage of only 8 points over New York, and if low middling will be delivered the difference will be 14 points over New York; therefore there is no real basis for the attacks made on the New York Cotton Exchange. No one thinks at present that higher grades will be tendered in either market this season, as middling may now be considered a high grade.

It should be remembered that our Exchange fixed the differences between the grades on 21st November for ten months ahead, and it remains to be seen if 125 points below middling for good ordinary cotton and 50 points for low middling will not be about the average differences between these grades and middling during that period. The present slight difference between New York and New Orleans is not sufficient to justify the clamor that has been raised in many sections of the South. There were (estimated) about 80,000 bales tendered here on the 28th ult. for delivery and payment yesterday, of which 45,200 bales were received and paid for yesterday—the remainder, about 35,000 bales, were bought back by the houses that issued the notices. The full settlement of 45,200 bales in such a short space of time, we don't think can be exceled by any other Exchange. It shows, we think, the superiority of the certificate system here. The people who receive cotton on contract can tender the same cotton again without fear of the grade being lowered. The grade of the certificated cotton is guaranteed by the Cotton Exchange Inspection Fund, which is large. Scarcely any claims have been made upon it for errors in grading.

ALEXANDRIA RECEIPTS AND SHIPMENTS.

Alexandria, Egypt, January 2.	1906-07.	1905-06.	1904-05.
Receipts (cantars *a*)—			
This week	280,000	230,000	230,000

JUTE BUTTS, BAGGING, ETC.—The market for jute bagging has continued extremely dull during the week under review, but prices are unchanged at 8¾c. for 1¾ lbs. and 9⅛c. for 2 lbs., standard grades. Jute butts also dull at 3@4c. for bagging quality.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is firm for yarns and steady for shirtings. Demand for both home trade and foreign markets is improving. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

	1906-07.			1905-06.

BREADSTUFFS.

Friday, Jan. 4 1907.

Prices for wheat flour have declined on some grades, while others have remained unchanged. In the main, however, the tone of the market has been weaker, owing to the decline in wheat, while the stagnation of trade has in itself had a depressing influence, buyers showing more disposition than ever to hold aloof from the market, owing to the fall in wheat quotations. Spring grades have shown more heaviness than winter. Export trade has been lifeless and the clearances from the seaboard have been small. Rye flour has been firm, owing to small offerings. Trade, however, has been unprecedentedly dull. Corn meal has been dull and steady.

Wheat has declined somewhat during the week, although of late some recovery has taken place, owing partly to a better demand for export and partly to an overcrowding of the short side, which has led to rather heavy covering within the last day or two. But the foreign markets have as a rule been depressed, the Argentine crop news has been very favorable and the Argentine shipments show an increase. The stock at Minneapolis during the week has increased some 850,000 bushels. The Northwest has at times sold heavily. In general, too, the speculation has been sluggish, and not until within a day or two has there been any particular export business. On the other hand, the world's shipments have been comparatively moderate. The world's stocks for the week showed an increase of only 1,090,000 bushels, against an increase for the corresponding period last year of 7,518,000 bushels. Foreign houses have been buying futures for the first time in a good while, and it is said that much of the winter-wheat belt is unprotected by snow. To-day prices advanced a fraction early, owing to covering by shorts in an oversold market, but later on a setback occurred, owing to renewed liquidation and bearish pressure. Crop reports continued favorable and the export trade was dull.

July delivery in elevator	76⅜	76⅜	day.	76⅛	75¼	75⅛

Indian corn futures have ruled steady to firm, despite the weakness in wheat. The weather has been distinctly unfavorable, heavy rains and unseasonably mild temperatures prevailing. This has caused the crop to dry very slowly, and has also interfered with the movement to market. The proportion of contract grade in the receipts continues unusually small. A better cash demand has been reported, partly for export, and shorts have covered, while the offerings have been light. At the same time the depression in wheat and the expectation of heavy receipts shortly have militated against any advance of importance. To-day the market was stronger at first, owing to continued mild and unsettled weather, small receipts and covering of shorts, but later a reaction occurred, owing to liquidation and a decline in wheat.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN IN NEW YORK.

May delivery in elevator	43⅜	43½	day.	43½	43⅜	43
July delivery in elevator	43⅞	44⅛		44	43⅞	43½

Oats for future delivery in the Western market have been easy at times, owing to the decline in wheat, the dulness of the cash trade and liquidation. The firmness of corn, however, has had a steadying effect. The speculation has been dull and has lacked features of interest, though large shorts have covered at times. The receipts have been moderate, but are expected to increase with an improvement in the condition of the roads and in railroad facilities. To-day prices were firmer early, owing to a rise in corn, light receipts, reports of a better shipping demand and covering of shorts, but later on prices weakened in sympathy with the rest of the list.

THE DRY GOODS TRADE.

New York, Friday Night, Jan. 4 1907.

Annual revie ws of the dry goods trade are unanimous in stating that 1906 was one of the greatest, if not the greatest, that has ever been known in the history of the textile industry of the country. While the export demand was considerably less than in some previous years, the domestic consumption was the greatest ever known, and was sufficient to cause a real scarcity of goods during the greater part of the year. Prices also were remunerative, and a larger volume of goods could have been disposed of had it been available. The reason why it was not is to be found in the curtailment of manufacture due to the insufficient labor supply. Good wages were paid throughout the year, and towards the close there was a general advance affecting all New England operatives; but in spite of this mill managers complained bitterly of the short supply of hands, both in New England and in the South—particularly in the latter section of the country. Year-end stock-taking revealed the fact that supplies on hand are small, indicating further active buying in the near future. The primary market during the week has been comparatively quiet, as few buyers have as yet returned to town after the holidays. A fair business was transacted, however, and all prices were firmly held. An encouraging feature was the sale of some 3-yard sheetings to China with further inquiries from that country. The week was a broken one also in the woolen and worsted goods market.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Dec. 29 were 2,751 packages, valued at $145,663, their destination being to the points specified in the tables below:

	1906		1905	
New York to Dec. 29.	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain	65	1,858	11	1,203
Other European	3	1,390	22	1,049
China	---	90,784	---	107,484
India	130	15,688	382	18,917
Arabia	---	54,091	---	25,644
Africa	---	15,512	19	11,225
West Indies	278	29,174	546	34,765
Mexico	25	2,101	64	2,898
Central America	111	15,899	206	16,850
South America	1,884	58,822	424	60,376
Other Countries	255	19,431	227	16,767
Total	2,751	305,650	2,101	297,268

The value of these New York exports since Jan. 1 has been $17,684,893 in 1906, against $16,833,911 in 1905.

Heavy brown drills and sheetings were slightly firmer and those who sought goods found that they were well sold up for the next two or three months. For this reason there is little likelihood of the inquiries received from China during the week resulting in actual business, as they have been below the market, and manufacturers see no reason for shading prices at the present time. The sale to China that was reported consisted of 750 bales of 3-yard sheetings, and the price was said to be 6¾c. Light-weight sheetings were steadily held, but no business of importance was transacted. The position of these is stronger than that of heavy-weights, and no reductions are anticipated; in fact, a further stiffening of values would not be surprising. Prominent lines of bleached goods are still held "at value," and agents are not inclined to take orders freely until they can see their way clear to make more satisfactory deliveries. At the same time there is good buying in small lots of other lines of bleached goods, and orders are being placed farther ahead. Napped goods were not opened to any extent during the week, but will probably be shown next week, and prices are expected to be higher. There has been some good buying of prints in anticipation of an early advance. Ginghams are well conditioned, and the demand is in excess of the supply. Wide print cloths have sold fairly freely, but deliveries this side of April are difficult. The average price of print cloth regulars at Fall River during 1906 was 3.629c.

WOOLEN GOODS.—In contradistinction to the cotton goods trade, the year in the woolen and worsted goods market was not of a very satisfactory character. Several reasons may be given for this, one of the principal being the centering of the demand upon worsteds to the detriment of woolen goods. There was a still greater tendency, moreover, to purchase mercerized worsteds, which resulted in the manufacture of fabrics so adulterated that in the end they created disgust among clothiers generally. In spite of the advance in the raw material and the increased cost of production, there was no adequate advance in prices and manufacturers suffered in consequence. The mildness of the winter of 1905-06 resulted in large stocks of heavy-weights being carried over by retailers, and this interfered with the heavy-weight business during the year, and also, to some extent, with the light-weight business. While the new heavy-weight business is now in full swing through the opening of a great majority of the lines, the week under review has been a quiet one, owing to the holiday interruption. Some fair orders have been placed, however, by those buyers who remained in town, or who hurried back, and there is a better feeling generally throughout the trade regarding the prospects of the season. There has been little change in the character of the buying, cotton-warp fabrics having been in particularly good demand. The mildness of the weather to date has interfered with the sale of overcoatings, and the future of these depends greatly upon the weather from this time on. Dress goods will be more freely opened next week. In the meantime a fair business has been passing.

FOREIGN DRY GOODS.—There has been little of interest during the week in the imported woolen and worsted dress goods market. Silks are more active and firmer, and ribbons have sold well at advancing prices. Linens continue exceptionally strong. Burlaps are firm and in small supply.

STATE AND CITY DEPARTMENT.

News Items.

Sao Paulo (State), Brazil.—*Bond Sale.*—The National City Bank of New York and J. Henry Schroder & Company of London have purchased an issue of £3,000,000 sterling State of Sao Paulo, Brazil, 5% exchequer gold bonds. The loan is dated December 1 1906, and one-quarter of the bonds will be redeemable each year from Dec. 1 1908 to Dec. 1 1911 inclusive.

Of the total issue, £1,000,000 is payable in United States gold dollars at the fixed rate of exchange of $4 84 per pound sterling. The loan, besides being a direct obligation of the State of Sao Paulo, is further secured, both as to principal and interest, by a first charge upon a surtax of 3 francs, gold, per bag of coffee exported from Sao Paulo. The tax is deposited weekly in Santos with the agents of the bankers purchasing the loan. The taxes thus far collected have averaged 708,075 francs per week, or at the rate of £1,458,211 per annum.

We are informed that the bonds will probably be offered at a price to yield purchasers a little over 6%.

Bond Calls and Redemptions.

Galveston, Texas.—*Bond Call.*—T. J. Groce, City Treasurer, calls for payment Feb. 1 at the office of the City Treasurer $75,000 "forty-year limit debt" bonds, Nos. 904 to 978 inclusive, and dated Jan. 1 1883. Denomination $1,000.

The official notice of this bond call will be found among the advertisements elsewhere in this Department.

Bond Proposals and Negotiations this week have been as follows:

Akron, Summit County, Ohio.—*Bond Sale.*—On Dec. 31 1906 the $31,000 4% sewer bonds described in V. 83, p. 1487, were awarded to the Cleveland Trust Co. at 100.258—a basis of about 3.947%.

Bonds Authorized.—The issuance of $2,500 4% coupon Mill Street grade-crossing-abolition bonds is provided for in Ordinance No. 1191, passed by the City Council on Dec. 17 1906. Denomination $500. Date Jan. 1 1907. Interest semi-annually at the National Park Bank in New York City. Maturity $500 yearly on Jan. 1 from 1908 to 1912 inclusive.

Allegheny, Allegheny County, Pa.—*Bonds Proposed.*—Ordinances providing for the issuance of $1,000,000 reservoir and $400,000 funding bonds have been introduced in the City Councils.

Anaconda, Deer Lodge County, Mont.—*Bond Sale.*—On Dec. 21 1906 the $34,000 4½% coupon bonds described in V. 83, p. 1487, were awarded to J. M. Holmes of Chicago. Bonds mature in 20 years after date of same (Jan. 1 1906), subject to call after 10 years.

Arlington, Kingsbury County, S. D.—*Bond Sale.*—This city has awarded the $13,000 5% water-works bonds offered but not sold on May 22 1906 (V. 83, p. 171) to the Trowbridge & Niver Co. of Chicago at 97. Denomination $500. Date July 15 1906. Interest semi-annual. Maturity twenty years, subject to call after ten years.

Ashland, Ohio.—*Bond Sale.*—On Dec. 31 the $5,500 5% 8½-year (average) coupon debt-extension bonds a description of which was given in V. 83, p. 1426, were awarded, it is stated to the Ashland Bank & Savings Co. of Ashland at 108.738—a basis of about 3.80%.

Atlantic City, N. J.—*Bond Sale.*—We are advised that the entire issue of $128,000 4% gold coupon fire-department bonds mentioned in V. 83, p. 1055, and V. 83, p. 644, has been disposed of—$98,000 being taken by the Sinking Fund of Atlantic City.

Bethany, Harrison County, Mo.—*Bond Sale.*—This city has awarded $6,000 4% light-plant-improvement bonds to Herman Robke, Grand Master of Exchequer of the Grand Domain State of Missouri, Knights of Pythias.

Boston, Mass.—*Bond Sale.*—An issue of $13,950 3½% various municipal purpose bonds dated Dec. 1 1906 and maturing Dec. 1 1926 was recently disposed of at par to city trust funds.

Brainerd, Crow Wing County, Minn.—*Bond Sale.*—This city has awarded $35,000 refunding bonds to the State of Minnesota at par for 4s. Denomination $5,000. Date July 1 1907. Interest annual. Maturity twenty-five years.

Buffalo, N. Y.—*Bond Issue.*—The issuance of a $320 4% election expense fund bond has been authorized. Under the ordinance providing for this bond, it is to be taken at par by the Park Bond Redemption Sinking Fund. It is dated Jan. 15 1907 and will mature July 1 1907.

Camden, N. J.—*Bond Offering.*—Proposals will be received until 8 p. m. Jan. 11 by Philip Wilson, Chairman Finance Committee of City Council, for $200,000 4% school (coupon or registered) bonds. Denomination not less than $1,000. Date Feb. 1 1907. Interest semi-annual. Maturity Feb. 1 1937. Certified check on a national bank for 5% of the bonds bid for, payable to the City Treasurer, required.

Charlottesville, Albemarle County, Va.—*Bond Offering.*—Proposals will be received until 4 p. m., Jan. 15, by F. W. Twyman, Chairman Finance Committee, for the $140,000 4½% 10-40-year (optional) coupon reservoir bonds voted on Dec. 4. Securities will be dated Jan. 1 1907. Interest semi-annual. Delivery "Feb. 1 1907 or later." Accrued interest to be paid by purchaser. E. I. Carruthers is City Auditor.

Chicago (Ill.) Sanitary District.—*Bond Sale.*—This district has awarded the $500,000 4% coupon bonds described in V. 83, p. 1368, to numerous bidders, the issue having been oversubscribed. The bonds maturing in eight years or less were sold at par, while those maturing in nine years or over were sold at prices to net 3.97% interest.

Cleveland, Ohio.—*Bond Offering.*—On Dec. 17 1906 the City Council passed ordinances providing for the issuance of $40,000 sewer-intersection fund and $250,000 paving-intersection fund (city's portion) 4% coupon bonds. Denomination $1,000. Date Feb. 1 1907. Interest semi-annually at the American Exchange National Bank in New York City. Maturity Feb. 1 1924. Proposals for the above bonds will be received until 12 m. Feb. 1 by J. P. Madigan, City Auditor. Each bid must be made on a blank form furnished by the city and must be accompanied by a certified check on a national bank for 5% of the bonds bid for, payable to the "Treasurer of the city of Cleveland." Purchaser to pay accrued interest.

Clyde, Sandusky County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m., Jan. 21, by Will H. Bacon, Village Clerk, for $3,500 5% coupon water-works-improvement bonds. Authority, Section 2835 of the Revised Statutes. Denomination $500. Date Dec. 1 1906. Interest semi-annually at the Chase National Bank in New York City. Maturity $500 yearly from 1911 to 1917 inclusive. Bonds are exempt from taxation. Certified check for $300, payable to the village of Clyde, is required.

Douglas County (Colo.) Union High School District.—*Bond Sale.*—On Dec. 15 1906 the $15,000 school-building bonds offered on that day (V. 83, p. 1488) were awarded to the First National Bank of Douglas County for $16,000 (106.666) for 6s.

Elizabeth, Union County, N. J.—*Bonds to be Taken by Sinking Fund.*—We are informed that the $50,000 4% 20-year school-building and $2,500 4% 20-year school-house-improvement bonds mentioned in V. 83, p. 995, will be taken by the Sinking Fund when issued. The $2,500 issue has already been so placed.

Erie School District No. 47 (P. O. Erie), Red Lake County, Minn.—*Bond Sale.*—On Dec. 24 1906 $700 5% school-building bonds were awarded to J. A. Duffy. Securities are dated Dec. 24 1906. Interest annual.

Fairview, Oscodo County, Mich.—*Bond Sale.*—This village has awarded the $25,000 4½% coupon water-system-extension bonds offered but not sold on Aug. 6 (V. 83, p. 512) to the Cleveland Trinidad Paving Co. at 102. Denomination $1,000. Date Sept. 1 1906. Interest semi-annual. Maturity thirty years.

Fall River, Mass.—*Bond Sale.*—On Jan. 3 $56,000 4% 50-year registered New Bedford and Fairhaven bridge bonds were awarded to Blake Bros. & Co. of Boston at 104.19—a basis of about 3.812%. Authority Section 15, Chapter 439, Acts of 1900. Denomination $1,000 or multiple. Date Jan. 1 1907. Interest semi-annually by check.

Fernie, B. C.—*Debenture Sale.*—On Dec. 1 1906 the $40,000 5% 30-year sewer debentures, mention of which was made in V. 83, p. 995, were awarded to W. Sanford Evans of Winnipeg at a price above par.

Guelph, Ont.—*Debenture Sale.*—This city, we are informed, has awarded $20,000 4% 20-year debentures to Wood, Gundy & Co. of Toronto.

Henry County (P. O. Clinton), Mo.—*Bond Sale.*—This county, we are informed, has awarded $95,000 4½% refunding bonds to the William R. Compton Bond & Mortgage Co. of Macon at 102.20. Denomination $500. Interest semi-annual. Maturity $15,000 Jan. 1 1917, subject to call after Jan. 1 1912 and $50,000 Jan. 1 1927, subject to call after Jan. 1 1917.

Hibbing, St. Louis County, Minn.—*Bids Rejected.*—All bids received on Dec. 18 for the $100,000 5% coupon funding bonds described in V. 83, p. 1489, were rejected. We are informed that par was the best price offered.

Jersey City, N. J.—*Bond Sale.*—Local papers state that the Board of Finance has authorized the sale to the Sinking Fund of $551,000 3½% refunding tax-relief bonds.

Kootenai County School District No. 106 (P. O. Coeur d'Alene R. F. D. No. 1), Idaho.—*Bond Sale.*—On Nov. 1 1908 the $1,150 coupon building bonds offered on Oct. 8 1906 (V. 83, p. 818) were awarded to the State of Idaho at par for 5s. Date of bonds Nov. 1 1906.

Lackawanna County (P. O. Scranton), Pa.—*Bond Sale.*—This county, it is stated, has awarded $135,000 4% 30-year court-house refunding bonds to Lamprecht Bros. & Co. of Cleveland at 101.75.

Lima School District No. 9 (P. O. Lima), Livingston County, N. Y.—*Bond Sale.*—On Dec. 29 1906 $8,000 building bonds were awarded to the Bank of Lima at 100.312 for 4½s. Following are the bids:

Bank of Lima, Lima (for 4½s)	$8,025
W. J. Hayes & Sons, Cleveland (for 4½s)	a8,004
Geo. M. Hahn, New York (for 4¾s)	a8,000
O'Connor & Kahler, New York (for 5s)	8,155
Myron W. Greene, Rochester (for 5s)	8,010

a And furnish bonds free of charge to district.

Denomination $500.

Livingston, Park County, Mont.—*Bond Sale.*—On Dec. 31 1906 the $25,000 6% 10-20-year (optional) coupon sewer bonds described in V. 83, p. 1369, were awarded, it is stated, to N. W. Harris & Co. of Chicago at 107.

Madisonville School District (P. O. Station M, Cincinnati), Ohio.—*Bond Sale.*—On Dec. 29 1906 the $2,500 4% 30-year coupon school-house-addition bonds described in V. 83, p. 1490, were awarded to the Provident Savings Bank & Trust Co. of Cincinnati at 102.90 and interest. Following are the bids:

Prov.Sav.Bk.&Tr.Co.,Cln	$2,572 52	Weil, Roth & Co., Cincln	$2,551 50
Seasongood & Mayer, Cin	2,582 50	W. R. Todd & Co., Cincinn	2,526 00
Central Trust Company	2,577 75	Kleybolte & Co., Cincinn	2,525 00
Atlas Nat. Bank, Cincinn	2,556 25		

Mamaroneck, Westchester County, N. Y.—*Bond Sale.*—On Jan. 2 the $60,000 5-29-year (serial) paving bonds described in V. 83, p. 1606, were awarded to Adams & Co. of Boston at 100.31 for 4s—a basis of about 3.97½%. A bid of 102.32 for 4¼s was also received from W. J. Hayes & Sons of Cleveland, but this bid was said to be irregular and therefore was not considered.

Montreal Protestant School District, Que.—*Bond Offering.*—Proposals will be received until 12 m. Jan. 9 1907 by Charles J. Binmore, Treasurer of the Protestant Board of School Commissioners, for $275,000 4% 30-year bonds.

NEW LOANS.

$80,000

City of Mount Vernon,

Westchester Co., N. Y.,

Refunding Bonds.

The Common Council will, at the Lucas Building, Depot Place, in the City of Mount Vernon, on the 15th day of January 1907 at 8 p. m., receive sealed proposals for the purchase of Eighty (80) Refunding Bonds of said City of Mount Vernon numbered consecutively as issued from three hundred sixty-six (366) to four hundred forty-five (445), both inclusive, and the said eighty (80) bonds will be sold to the highest bidder at a public sale to be held at said time and place.

These are a series of bonds which are authorized to be issued under and pursuant to Chapter 53 of the Laws of 1906. Each bond will be for the principal sum of One thouand dollars ($1,000), and will bear interest at the rate of four per centum per annum, payable semi-annually at the office of the City Treasurer of the City of Mount Vernon. They will be dated January 1st 1907 and payable as follows:

$15,000 on the 1st day of Jan. 1918.
15,000 on the 1st day of Jan. 1919.
15,000 on the 1st day of Jan. 1920.
15,000 on the 1st day of Jan. 1921.
20,000 on the 1st day of Jan. 1922.

The bonds will be delivered to the purchaser on the 25th day of January 1907.

Each proposal must be accompanied by a certified check for $1,000 as security for the performance of such bid and as liquidated damages in the event of the failure of the successful bidder to accept and pay for said bonds.

The said Common Council will at said time open such proposals as may be received and will award the bonds to the highest bidders unless the said Common Council shall deem it for the interest of the City to reject such bid, in which event the Common Council reserves the right to accept the bid or bids which it deems to be to the best interests of the City or to reject all of said proposals.

Bonds will be engraved under the supervision and certified to as to their genuineness by the United States Mortgage and Trust Company, and their legality approved by J. H. Caldwell, Esq., of New York City, whose opinion as to legality will be furnished to the purchaser.

By Statute the bonds cannot be sold for less than par and accrued interest.

This notice is published pursuant to a resolution of the Common Council of the City of Mount Vernon ordering the same and bearing date the 2d day of January 1907.

Dated Mount Vernon, N. Y., January 3rd, 1906.

EDWARD F. BRUSH, Mayor.

A. W. REYNOLDS, City Clerk.

City of St. Paul, Minn.,

PARK BONDS.

City Comptrollers' Office,
St. Paul, Minn., January 2, 1907.

SEALED PROPOSALS will be received at the office of the City Comptroller by the Sinking Fund Committee until 12 o'clock, noon, on January 16, 1907, and opened at that time, for the purchase of Twenty-Five Thousand ($25,000 00) Dollars of bonds of the City of St. Paul, Minnesota, the proceeds of which are to be used for the purpose of adding to its funds available for the acquisition of land for park and parkway purposes by purchase or otherwise. These bonds are issued pursuant to Ordinance No. 2640, passed by the Common Council and approved December 7, 1906, authorized by Chapter 235 of the Laws of the State of Minnesota for the year 1903, approved April 17, 1903, as amended by Chapter 91 of the Laws of Minnesota for the year 1905, approved March 31, 1905. Bonds in denomination of five hundred or one thousand dollars each, as the purchaser may desire, with coupons attached and dated February 1, 1907, and mature January 31, 1937. They bear interest at the rate of four (4) per cent per annum, payable semi-annually, interest and principal payable at the financial agency of St. Paul in New York City, delivery of bonds to be made at the Comptroller's office, where payment must be made by the successful bidder. A certified check payable to the City Treasurer of the City of St. Paul for two (2) per cent of the par value of the bonds bid for must accompany each bid that will be considered. Bids will be received for all or any part of the lot. The Committee reserves the right to reject any and all bids.

Proposals to be marked "Bids for Park Bonds" and addressed to

LOUIS BETZ,
City Comptroller.

NEW LOANS.

$41,000

Town of Hartsville, So. Car.,

5% Coupon Bonds.

Sealed proposals will be received by the Board of Commissioners of Public Works of the Town of Hartsville, S. C., until 12 o'clock noon. FEBRUARY 1ST 1907, for the purchase of Forty-One Thousand Dollars ($41,000 00) five per cent coupon bonds to be dated January 1st, 1907, and payable forty years after date, with the privilege of redemption twenty years after date. Interest payable January 1st and July 1st of each year at Bank of Hartsville, Hartsville, S. C. The purpose of this issue of bonds is to meet the cost of constructing and operating a system of water works and plant for sewerage and lighting purposes, for the use and benefit of the said town.

The Town of Hartsville has no present bonded or other indebtedness. Certified check for $1,000 00, payable to the order of J. J. Lawton, Chairman, to accompany all bids and to be forfeited in case of failure of purchaser to comply with his bid. No bids for less than par and accrued interest will be considered. Right reserved to reject any or all bids. Address all bids to the Board of Commissioners of Public Works, Hartsville, S. C., and endorse plainly on the envelope the words, "Bid for Bonds."

For further information apply to the Chairman.

LIST ON APPLICATION.

SEASONGOOD & MAYER

Mercantile Library Building, CINCINNATI.

the $50,000 5% gold funding bonds authorized at the election held Dec. 13 1906. Denomination $100. Date Jan. 15 1907. Interest semi-annual. Maturity one-twentieth yearly. Certified check for 3% of bid required.

Red Lodge School District No. 32 (P. O. Red Lodge), Carbon County, Mont.—*Bond Sale.*—This district has awarded $1,200 6% school-building bonds to John P. Schmit at 105. Denomination $400. Interest semi-annual. Maturity Sept. 15 1916, subject to call after Sept. 15 1911.

Richmond, Va.—*Bond Sale.*—We are advised that the $473,500 4% 34-year improvement bonds, the unsold portion of the $508,500 offered on Dec. 20 1906, have been awarded at 99—$46,500 to R. E. Glover and $427,000 to Thos. Branch & Co. of Richmond and Davenport & Co. of Richmond. Of the total amount of bonds, $175,000 will be issued in coupon form and the remaining $323,500 will be registered. The proceeds of these bonds will be used as follows: $135,000 for the construction of a new gas-holder, $60,500 for the purchase of the site for the new high-school, $240,000 for the new high-school-building, $56,000 for the settling-basin (flume) and $17,000 for the settling basin generally.

Rosebud County (P. O. Forsyth), Mont.—*Bond Sale.*—On Dec. 29 1906 the $40,000 10-20-year (optional) coupon bridge-construction bonds described in V. 83, p. 1431, were awarded to N. W. Harris & Co. of Chicago at 100.262 and accrued interest for 4½s. This is on a basis of about 4.68% to the optional date and 4.48% to full maturity. Following are the bids:

N. W. Harris & Co., Chicago (for 4½s)	$40,105
A. B. Leach & Co., Chicago (for 5s)	40,653
E. H. Rollins & Sons, Chicago (for 5s)	40,625
State of Montana (for 5s)	40,500
Farson, Son & Co., Chicago (for 5s)	40,414

St. Boniface School District No. 1188., Man.—*Debenture Sale.*—On Dec. 20 the $100,000 5% coupon school-building debentures described in V. 83, p. 1370, were awarded, it is stated, to Wood, Gundy & Co., of Toronto.

St. Paul, Minn.—*Bond Offering.*—Proposals will be received until 12 m., Jan. 16, by the Sinking Fund Committee at the office of Louis Betz, City Comptroller, for $25,000 4% coupon park bonds. Authority, Ordinance No. 2640, passed by the Common Council and approved Dec. 7 1906, and Chapter 235, Laws of 1903, approved April 17 1903 as amended by Chapter 91, Laws of 1905, approved March 31 1905. Denomination $500 or $1,000 to suit purchaser. Date Feb. 1 1907. Interest semi-annually at the financial agency of the city of St. Paul in New York City. Maturity Jan. 31 1937. Certified check for 2% of the bonds bid for, payable to the City Treasurer, is required.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Salem, Columbiana County, O.—*Bond Sale.*—On Dec. 27 1906 the $28,000 coupon trunk-sewer bonds described in V. 83, p. 1550, were awarded as 4¼ per cents to Denison & Farnsworth of Cleveland at par.

Sangamon County (P. O. Springfield), Ill.—*Temporary Loan.*—This county recently negotiated a loan of $41,000 with local banks. Loan is in anticipation of the collection of taxes.

San Juan School District, San Benito County, Cal.—*Price Paid for Bonds.*—We are informed that the premium paid by the Los Angeles Trust Co. of Los Angeles for the $12,000 5% 2-21-year (serial) gold coupon school-building bonds recently awarded to that institution was $590, the price thus being 104.916—a basis of about 4.45%.

Sao Paulo, Brazil.—*Sale of Bonds.*—See "News Items" above for report of sale of £3,000,000 bonds.

South Omaha, Douglas County, Neb.—*Bond Offering.*—Local papers state that proposals will be received until Jan. 7 by the City Clerk for $40,000 4% park bonds.

Sugar Notch (Borough), Luzerne County, Pa.—*Bond Offering Postponed.*—We are informed that the time for receiving bids for the $8,500 5% coupon judgment-funding bonds described in V. 83, p. 1551, has been extended from Dec. 27 1906 to 7 p. m. Jan. 7 1907. Denomination $500. Date Jan. 1 1907. Interest semi-annual. Maturity on Jan. 1 as follows: $500 yearly from 1910 to 1918 inclusive;

BOND CALL

City of Galveston, Texas,

Notice is hereby given to the holders of the bonds of the City of Galveston known as "Galveston forty-year limit debt bonds," issued by said city in the year 1883, and numbered 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977 and 978; each of said bonds being for one thousand dollars ($1,000), and each dated on the 1st day of January, 1883; that the city of Galveston will redeem at par the hereinbefore named and numbered bonds upon their presentation at the office of the Treasurer of said city, at Galveston, on the 1st day of February, 1907, and any of the bonds herein described and designated, which are not presented for redemption, as aforesaid, on the 1st day of February, 1907, shall cease to bear interest from and after said date. The bonds hereby designated for redemption being those bearing the earliest date of said "Galveston forty-year limit debt bonds" which are now outstanding.

Post Office Box 958. NEW YORK.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, &c., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day have been $3,393,911,248, against $3,322,115,773 last week and $3,766,616,845 the corresponding week last year.

Clearings—Returns by Telegraph. Week ending January 12.	1907.	1906.	*Per Cent.*
New York	$1,795,347,167	$2,111,566,544	—15.0
Boston	166,985,223	155,697,373	+7.2
Philadelphia	123,372,809	130,069,757	—5.2
Baltimore	25,440,686	25,508,679	—0.3
Chicago	194,381,556	204,156,051	—4.8
St. Louis	58,961,299	57,727,591	+2.1
New Orleans	21,793,927	20,150,047	+8.2
Seven cities, 5 days	$2,386,282,667	$2,704,876,045	—11.8
Other cities, 5 days	412,761,298	390,148,693	+5.8
Total all cities, 5 days	$2,799,043,965	$3,095,024,738	—9.6
All cities, 1 day	594,867,283	671,592,107	—11.4
Total all cities for week	$3,393,911,248	$3,766,616,845	—9.9

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, January 5, and the results for the corresponding week in 1906, 1905 and 1904 are also given. Contrasted with the week of 1906 the total for the whole country shows a loss of 6.8%. Outside of New York the increase over 1906 is 2.2%.

Clearings at—	*Week ending January 5.*				
	1907.	1906.	*Inc. or Dec.*	1905.	1904.

Index to Volume 83 accompanies this issue.

THE FINANCIAL SITUATION.

There seemed to be some little improvement in the general situation the past week in spite of drawbacks. An early development of tension in the call loan branch of the money market was due to the remarkably low reserves of the banks, as shown by the previous week's statement; possibly helped by preparations for the payment of $25,000,000 securities which had been issued by a telephone company; also to expectations that provision would have to be made next week for the surrender of $6,000,000 of the $12,000,000 public deposits which were placed in depositories last month under the stipulation that they should be returned one-half on January 21 and the remainder on February 15. This strained situation in money moderated later, the improvement taking its start in a much better outlook for money in London and Paris at the moment, exciting a hope that the official rate at London would be lowered, a hope that was soon thereafter dissipated by the decided rise in the unofficial rate at Berlin and other changes affecting the Bank of England rate.

The tension was, however, substantially relieved on Thursday through intervention by Secretary Shaw, who announced that, as the available cash in the Treasury is unusually large, and interest rates high, he would postpone the above-noted call for the surrender of public deposits until Feb. 1, requiring that then the one-half of the above sum originally called for Jan. 21 be surrendered and the remainder Feb. 15. A feeling seems also to be quite confidently entertained by many that by the end of this month the volume of the return flow of money from the West and the South will be large. Reports from those sections state that money is moving to the interior centres from outlying localities, and probably very soon transfers through the domestic exchanges will be made to New York. Already there have been received considerable amounts, as is shown by the record of the inter-bank movement last week and again the current week.

———

It is reported that the speculative selling of exchange this week was by one of the leading drawers, with the object of checking the advancing tendency of the market, which might, unless thus restrained, make possible exports of gold to London. It is explained that it is not desirable to permit either exports or imports of the metal until the markets here and abroad resume normal conditions. The interests of capitalists controlling large properties are so great that they cannot, if it can be prevented, allow gold to be shipped to Europe; the effect of such exports would most likely have a disturbing influence upon the money market. Imports of the metal would derange the situation at European centres and create conditions which would make difficult borrowing of foreign capital by Americans. If exchange can be maintained at rates between the gold-import and export points, operations therein can be conducted to the advantage o bankers both here and in Europe.

———

While the elections for trustees in the two great mutual life insurance companies were pending, attention was called to the subject several times a week by the sweeping and unsustained charges of misconduct brought against the administrations in reference to their handling of the matter. More recently the whole subject has temporarily dropped out of mind, and yet there is no definite information of the result, although the elections are now three weeks past. It was at once announced, on the strength of deductions drawn not only from general probabilities, but from the proportions which masses of votes from several different sources bear to the total, that the administration tickets have won by a heavy majority in both companies, and there is still no reason for doubting this; but nothing is positively ascertained. The law provides that "immediately upon the closing of the polls the inspectors shall proceed to the examination of the ballots and shall canvass the votes lawfully cast; the canvass shall proceed from day to day and the inspectors shall certify the result to the company as soon as it is completed."

This is both distinct and mandatory, and while the "immediately" is to be reasonably construed, the requirement clearly neither contemplates nor allows delay; yet the polls closed at 4 p. m. on December 18, and down to a day or two ago at least nothing had been done with the ballots except examine and perhaps mark the outsides of the sealed envelopes containing them, neither count nor canvass having been begun. The inspectors are to "canvass the votes lawfully cast," which necessarily means that they are to be the judges of all questions and disputes arising, subject to reference to the courts if necessary. It is just to remember that the physical task is a large one, the total vote in each company approximating 300,000, and that no single set of election inspectors ever had so large a case brought to it; yet, while this is ample excuse for delay in completing the work, it is no excuse for delay in beginning.

So far as has been announced, nothing has been done beyond suggesting devices for the actual handling and tallying and discussing (without being able to easily agree on) the rules of procedure. It is only just to say that the law put these elections in the charge of the Insurance Commissioner, and that the inspectors are his appointees and responsible to him, so that the case is entirely out of the hands of the company managements, which are not in fault for any delays in beginning or slowness in finishing. The situation, is, however, one that borders on the ridiculous, and it illustrates the unwisdom of the law and the unthinking haste of the imagined public feeling that demanded so violent an interference with the orderly management of things, and which is still at work trying to construct crimes where those who are active in that work know there is none.

———

An important incident of the week has been the decision of the New York Court of Appeals declaring unconstitutional the law passed in 1906 amending the Stock Transfer Tax bill. Our readers are aware that the original statute had already been held by the same Court to be constitutional, so that it is only the addendum of 1906 that has now become void. No doubt this last decision is just, and so far the result now reached was desirable. But conservative interests cannot rejoice greatly over the fact that the latest adjudication will tend to facilitate a class of business which includes some of the least desirable engaged in in Wall Street. But the law as it stood with the amendment valid worked very unjustly, because unequally, requiring 100 shares of stock to pay the same tax on

its par whether the par was 100 or any other value down to $1 —the minimum consequently paying one hundred times as much tax as the stock of which the par was one hundred. It is no wonder, when the case got before the Court, that the opinion of the justices was unanimous against the 1906 law.

The announcement that stockholders of the Pennsylvania Railroad Company at the coming annual meeting in March are to be asked to authorize a further increase in the company's capital, both stock and bonds, has not unnaturally led to considerable comment. In certain quarters, too, the proposal has apparently been received with much surprise, a circumstance which is reflected in the drop of several points yesterday in the price of the stock. The reason for the surprise is that last June President Cassatt, in announcing the negotiation of the French loan for $50,000,000, stated that as far as could then be foreseen the Company would not have to meet any very large new capital requirements for some years, beyond what would be necessary to pay off the $50,000,000 of notes maturing Nov. 1 1907 and to provide the money needed after the close of 1906 to complete the New York terminal. This last, it was estimated, would call for an expenditure of $40,000,000, to be distributed over the years 1907 and 1908. It is urged that since this statement was made, the Pennsylvania has sold blocks of its holdings of Baltimore & Ohio, Norfolk & Western and Chesapeake & Ohio shares, and must have realized very large amounts of money from such sales. Of course there is no dispute that the company did derive considerable money in that way, and yet we do not see that this militates at all against the idea that the Company may nevertheless be in need of further funds in order to carry out the extensive operations in which it is engaged. When we speak of "extensive operations," we have in mind not alone the special work in connection with the New York terminals. The ordinary new capital wants from year to year of an enterprise of the magnitude of the Pennsylvania Railroad system are themselves of extremely large extent. The Company makes very considerable appropriations for additional track, sidings, &c., directly out of earnings each year, but these necessarily fall far short of the full requirements for the purpose. Traffic is expanding in such a prodigious way that no sooner has an order for new equipment or some other additions been filled than it becomes necessary to give another equally large order still further adding to the facilities for doing business.

The situation in that regard is well illustrated by a remark credited to one of the officials of the Pennsylvania Railroad to the effect that Mr. Cassatt could not have foreseen, when he made his statement last June, the recent tremendous increase in the Company's business. On account of this increase, the Company, it is stated, has recently been obliged to contract for 17,000 additional cars at an aggregate cost of about $19,000,000. The significance of this further large order will appear when it is recalled that at the time of the June announcement it was pointed out that most of the money then derived by the Company from its bond negotiations would be used to pay for 33,000 steel cars and 313 locomotives, which were being constructed at a cost of $42,000,000, and to complete a water supply system for the Company's lines. In other words, after providing for an expenditure of $42,000,000 for new equipment, it has been found necessary within a few months thereafter to authorize outlays of $19,000,000 more for the same purpose. Such are the Company's needs that even a far-sighted man like Mr. Cassatt apparently found himself unable, with all of his active imagination, to keep up with them.

It cannot be denied that the company's borrowings in recent years seem large and are large. But the Pennsylvania system is a giant among railroad properties and its outlays and needs are necessarily proportioned to its size. Just how much addition to capital stockholders are to be asked to authorize has not yet been definitely determined upon, but it is stated to be likely that the increase will be $100,000,000 in stock and an equal amount in bonds, the new issues only to be put out as the money is needed. These are undoubtedly big amounts and if we were dealing with an ordinary railroad property, they would appear stupendous. But in the case of the Pennsylvania Railroad, we are *not* dealing with an ordinary railroad property. Gross earnings of the Pennsylvania system are increasing at the rate of over $25,000,000 a year. Counting all the lines owned, operated and controlled, both East and West of Pittsburgh, the addition during 1905 was actually $28,853,177. For 1906 we have as yet only the figures for the eleven months to November 30 and for these eleven months there has been a further addition of $21,386,100 on the lines directly operated East of Pittsburgh and Erie, but exclusive of the lines controlled and separately operated. We are inclined to think that when the accounts are made up for 1906 the total of the gross earnings of all the various lines operated or controlled will not fall very far short of $300,000,000. When, therefore, the Pennsylvania Railroad borrows $50,000,000 or $100,000,000 the size of the loan must be considered in relation to the prodigious magnitude of its revenues. Is not the Pennsylvania Railroad employing the money raised by it in precisely the way demanded by the public?

Is not the money being applied so as to promote the public good and in fulfillment of the company's duty as a public carrier? In connection with the freight congestion throughout the country, which is being made so much of, the railroads have been criticised for not having added to their facilities sufficiently fast to provide for the increase in business. If there is any basis at all for the criticism an adequate defence against the charge might be made on the ground that business has really been increasing faster than it was possible to provide for the same. The Pennsylvania management evidently is determined to fulfill public needs in that regard, at least so far as human prescience can make provision to that end. The extra equipment is in anticipation of the demands of a constantly growing traffic. The enormous expenditures on the New York terminals—which we very much fear will not bring any immediate return commensurate with the outlay—really belong in much the same category. They are an anticipation of future requirements—the far future if the reader so will. Will not the effect in any event be to strengthen immensely the position of the Pennsylvania Railroad with reference to the future, and is not the work it is doing in that regard in the interest of the whole community as well as in its own interest?

Nor does it seem difficult to explain the proposed further capital additions even in face of the large sums

realized by the Company from its recent sales of shareholdings in other properties. Mr. Cassatt when he made his June statement was speaking in 1906. We are now in 1907 and Mr. Cassatt indicated that the $50,000,000 notes maturing Nov. 1 1907 were one of the things for which provision would have to be made. He also indicated, as stated above, that the New York terminals would require $40,000,000 in 1907 and 1908. If we take one-half of this sum as the amount required in 1907 this would add $20,000,000 more to the $50,000,000 to be raised to pay off the notes, making together $70,000,000. Now we are told additional orders for equipment have been given to cost $19,000,000. This raises the total to $89,000,000. Possibly the Company realized $60,000,000 to $70,000,000 from its sale of shareholdings in the Baltimore & Ohio, the Norfolk & Western and the Chesapeake & Ohio. With $89,000,000 required for the purposes named, the Company would thus still be between $20,000,000 and $30,000,000 short after applying the proceeds of the shareholdings referred to. Hence it does not seem so very strange after all that the management to provide for future needs should ask authority to make further new capital additions, to be put out only as required from time to time.

The records show that it is being found possible to make very substantial additions to the country's production of pig iron. This is rather important at a time of such urgent demand for iron as now exists, for we have been led to believe that the domestic output had about reached its limit. During the summer and autumn there appeared to be considerable basis, too, for the statement. But in recent months the furnaces have been steadily enlarging their output and the figures for December just made public by the "Iron Age" are the most encouraging that have yet been put out on that point. In August the "Age" made the product 1,926,736 tons; in September 1,970,962 tons; in October 2,196,808 tons; in November (a short month) 2,187,665 tons; while now for December it is found that the make of iron reached 2,236,153 tons, notwithstanding holiday interruptions. Adding 35,000 tons to the December total to cover the monthly output of the charcoal furnaces, which are never represented in the "Age's" figures, the iron product for December was 2,271,000 tons. This, it will be seen, is at the prodigious rate of over 27,000,000 tons a year. Yet demand is exceeding supply and the "Age" states furthermore that the outlook for maintaining the December output in January is not very promising since the capacity of the furnaces in operation declined from 513,860 tons per week on Dec. 1 to 507,397 tons per week on Jan. 1. However, an important fact is that even with some furnaces out of blast temporarily, the output per week at the beginning of 1907 at 507,397 tons compares with only 463,673 tons per week at the beginning of 1906 and but 377,879 tons per week at the beginning of 1905.

There was no change in official rates of discount by any of the European banks this week; compared with last week unofficial or open market rates were steady at London, ⅛ of 1% lower at Paris and ⅛ of 1% higher at Berlin and Frankfort.

The most striking feature of the statement of the New York Associated Banks last week was the reduction in the surplus reserve to $147,825, this comparing with a surplus the previous Saturday of $5,369,225. The net decrease in cash was $402,100, while the increase in reserve requirements was $4,819,300, so that the reduction in reserve was $5,221,400, to the amount above stated. Loans were expanded by $16,694,500 and deposits increased $19,277,200. There were no transfers by the Treasury in either direction during the week, but it was reported from Washington that the Department had arranged for the transfer hither from New Orleans of a considerable amount of the accumulations of Government funds at that centre. There was a shipment hence to Argentina of $250,000 gold.

As the result of the above-noted low reserves of the Associated Banks, as shown by last week's statement, of preparations for the disbursement of $25,000,000 on account of an issue of telephone securities, and the expectation that next week depository banks would be required to arrange for the surrender of $6,000,000 of the $12,000,000 public deposits—which had been placed therein last month with the understanding that half of this sum would be called January 21st, and the remainder February 1st—there was the development of some tension in the call-loan branch of the money market early in the week that had a somewhat disturbing influence. Secretary Shaw, however, without solicitation, intervened for the relief of the market, and on Thursday he announced that the call for deposits which would mature January 21st would be postponed until February 1st, and that surrenders under the original call for that date for the remaining $6,000,000 of deposits would not be required until the 15th of that month. The market was easier on Thursday and for the remainder of the week. There was a recession in rates for time money this week to 6% for all periods from sixty days to six months on mixed collateral, but loans on industrial security were quoted at ½ of 1% higher for the shorter dates.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 15% and at 2%, with the average about 6%; banks and trust companies loaned at 3% as the minimum. On Monday loans were at 10% and at 5½% with the bulk of the business at 5¾%. On Tuesday transactions were at 15% and at 5% with the majority at 6½%. On Wednesday loans were at 9% and at 2% with the bulk of the business at 7%. On Thursday transactions were at 6% and at 2½% with the majority at 5½%. On Friday loans were at 5½% and at 4% with the bulk of the business at 5½%. Time loans on good mixed Stock Exchange collateral were 6% for all maturities, from sixty days to six months; where the security offered was industrial stocks, the rate was 6½% for sixty to ninety days and 6% for longer periods. The demand for fixed-date funds was only moderate, borrowers expecting lower quotations. Commercial paper remains unaltered at 6@6½% for sixty to ninety day endorsed bills receivable, 6@6½% for prime and 6½@7% for good four to six months single names.

The Bank of England rate of discount remains unchanged at 6%. The cable reports discounts of sixty to ninety day bank bills in London 5%. The open market rate at Paris is 3@3⅜% and at Berlin and Frankfort it is 5¼@5⅜%. According to our

special cable from London, the Bank of England gained £1,371,154 bullion during the week and held £31,654,000 at the close of the week. Our correspondent further advises us that the gain was due to heavy receipts from the interior of Great Britain, imports and purchases being slightly exceeded by the export movement. The details of the movement into and out of the Bank were as follows: Imports, £696,000 (of which £5,000 from Australia and £691,000 bought in open market); exports, £750,000 (of which £740,000 to South America and £10,000 to Egypt), and receipts of £1,425,000 *net* from the interior of Great Britain.

The foreign exchange market was generally lower this week. The business on Saturday last was at higher rates than on the previous day, in consequence of a demand for remittance by Tuesday's mail; this inquiry, however, seemed to afford opportunity to dispose of overbought bills resulting from last week's speculative operations, and on Monday the market fell off, influenced by the satisfaction of the demand for remittance and by supplies of commodity bills, chiefly against cotton; the little strain in call loans had some effect upon the market. On Tuesday the tone was weak, due in part to some speculative selling, also to the fact that there would be no mid-week mail; this tended to restrict the demand, and though there was a partial recovery in the afternoon the market closed barely steady. On Wednesday the tone was again weak, influenced by a large supply of cotton bills and by liberal offerings of bankers' drafts, indicating speculative sales; there was some bidding for bills for Saturday's steamer, but the business therefor was small and in the absence of a good demand the market closed heavy. There was no evidence of investment buying during the week. It was reported that considerable amounts of finance bills, representing loans on securities, would mature this month, but it was thought likely that these would be renewed.

Nominal quotations for sterling exchange are 4 81 for sixty days and 4 85½ for sight. Rates for actual business on Saturday of last week were, compared with those of the previous day, 25 points higher for long at 4 8075@4 8125, 30 points for short at 4 8520@4 8540 and 35 points for cables at 4 8620@4 8635. On Monday long fell 50 points to 4 8070@4 8075, short 30 points to 4 8505@4 8510 and cables 25 points to 4 8575 @4 8585. On Tuesday long declined 5 points to 4 8065@4 8070, short 15 points to 4 8490@4 8495 and cables 5 points to 4 8570@4 8580. On Wednesday long fell 20 points to 4 8045@4 8050, short 25 points to 4 8465@4 8470 and cables 20 points to 4 8555@4 8560. On Thursday long was 25 points higher at 4 8050@4 8075, short 10 points at 4 8470@4 8480 and cables fell 5 points to 4 8550@4 8560. The tone was steady on Friday at an advance of 5 points for short and cables.

The following shows daily posted rates for sterling exchange by some of the leading drawers:

		Fri., Jan 4	Mon., Jan. 7	Tues., Jan. 8	Wed., Jan. 9	Thurs., Jan. 10	Fri., Jan. 11
Brown Bros. & Co.	60 days	4 81½	81½	81	81	81	81
	sight	4 86	86	85½	85½	85½	85½
Baring & Co.	60 days	4 80½	81½	81	81	81	81
	sight	4 85½	86	85½	85½	85½	85½
Bank British North America	60 days	4 80½	81½	81	81	81	81

	sight	4 86	86	85½	85½	85½	85½
Merchants' Bank of Canada	60 days	4 80½	81	81	81	81	81
	sight	4 85½	85½	85½	85½	85½	85½

The market closed on Friday at 4 8050@4 8075 for long, 4 8475@4 8485 for short and 4 8555@4 8565 for cables. Commercial on banks 4 8010@4 8020 and documents for payment 4 79½@4 80½. Cotton for payment 4 79½@4 79¾, cotton for acceptance 4 8010 @4 8020 and grain for payment 4 80¾@4 80½.

The following gives the week's movement of money to and from the interior by the New York banks:

Week ending January 11 1907.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	$11,475,000	$6,061,000	Gain $5,414,000
Gold	2,090,000	840,000	Gain 1,250,000
Total gold and legal tenders	$13,565,000	$6,901,000	Gain $6,664,000

With Sub-Treasury operations, the result is as follows:

Week ending January 11 1907.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement as above	$13,565,000	$6,901,000	Gain $6,664,000
Sub-Treasury operations	28,400,000	22,400,000	Gain 6,000,000
Total gold and legal tenders	$41,965,000	$29,301,000	Gain $12,664,000

The following table indicates the amount of bullion in the principal European banks:

Bank of	January 10 1907.			January 11 1906.		
	Gold.	Silver.	Total.	Gold.	Silver.	Total.
	£	£	£	£	£	£
England	31,654,000	----	31,654,000	29,797,858	----	29,797,858
France	106,295,200	39,555,360	145,850,560	114,740,696	42,583,121	157,323,817
Germany	27,107,000	9,036,000	36,143,000	32,027,000	10,675,000	42,702,000
Russia	117,580,000	4,685,000	122,265,000	103,610,000	3,629,000	107,239,0 0
Aus.-Hun.	46,433,000	11,780,000	58,213,000	44,875,000	12,080,000	56,955,000
Spain	15,428,000	24,186,000	39,614,000	15,031,000	22,845,000	37,876,000
Italy	32,033,000	4,598,800	36,631,800	27,858,000	3,532,500	31,390,500

THE ALLEGED DISPUTE WITH JAPAN.

We have had little to say of the recent controversy over the question of Japanese scholars in San Francisco schools, and for the reason that we have not deemed the episode of any far-reaching importance. It is true that sensational newspapers have busied themselves with showing how easily war with Japan might arise out of this apparent denial to Japanese in this country of rights guaranteed them by treaty. Certain European newspapers, especially in quarters where it is not unlikely that trouble between Japan and the United States would be welcomed, have added their voice to predictions of "coming war." No doubt these disinterested parties may have imagined that their predictions drew added weight from President Roosevelt's strong criticism of San Francisco's position in his message to Congress and from the special report on the facts in the case made to the President by Secretary Metcalf.

We presume, however, that the President's repudiation, in behalf of the Administration, of any sympathy with the attitude of San Francisco, was taken for the express purpose of removing any valid ground of international friction. It has certainly been so accepted by Japan, whose Ambassador to this country, in a recent public speech, referred to the talk of a diplomatic clash as absolute nonsense. Every intelligent man knows it to be so, and we should hardly return to the question now but for the fact that numerous critics, more serious than those to whom we have referred, have made the incident the basis for criticism of our present Federal system of government, and for prediction of an inevitable change in that system. The London "Spectator" has perhaps ex-

pressed this attitude most intelligently. What it concludes may be judged from its statement that "it seems to us, as impartial and sympathetic observers, that a very serious crisis may be ahead of the United States. Another stage has been reached in the slow but inevitable progress toward national unification, and the present question may quite conceivably prove the most important that has been raised since the Civil War."

The justification for this somewhat formidable description of the matter is found by the "Spectator" in the well-known fact that exclusion of the Japanese children from the San Francisco schools was at least nominally in violation of privileges guaranteed to the Japanese in this country by our treaty with Japan. On the one hand, regulation of education is purely a State matter, not to be interfered with by the General Government, while on the other hand, according to the United States Constitution, not only the fundamental law and the laws subsequently passed by Congress, but "all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land, and the judges in every State shall be bound thereby, anything in the Constitution or laws of any State to the contrary notwithstanding." From this the "Spectator" draws the seemingly plausible inference that if a State refuses to observe its duty toward foreign residents enjoying treaty rights, "then it is the business of the Federal Government to use all its forces, civil and military, for the purpose."

Now, all this reasoning is theoretically sound, and we cannot blame a foreign critic for assuming that the time may come when a State, persisting in a contumacious attitude toward treaty rights or other Federal guaranties, would necessitate forcible discipline by the Federal Government. We rather wonder, however, why the question does not occur to destructive critics how the country has so long escaped from difficulties of this origin. Throughout our earlier history, the question of State obedience to statutes, passed by Congress but disliked by the people of certain States, came up so repeatedly that the struggle of 1861 was clearly foreshadowed, to the far-seeing statesman, at least a generation before it came. Nothing of this sort can be said of the proposition set forth by the "Spectator." Except for the trouble of 1891 between the Italian Government and our own over the lynching of the New Orleans Italians, we cannot recall a single incident where a difficulty thus originated has assumed a serious aspect. Mr. Bryce analyzes and criticizes with the utmost thoroughness, in his "American Commonwealth," the advantages and defects of our divided system of Federal and State government, pointing out possible weaknesses in management of foreign diplomacy, in lack of uniformity in private law and matters of administration, and referring to other obstacles which naturally would impress a foreigner. But of the dilemma pronounced by our London contemporary as possibly the most important raised since the Civil War, Mr. Bryce makes no mention whatever.

The reason, we think, is fairly plain. The possible causes in which a dispute of this sort might arise are so few, the interests immediately at stake are so small, and the attitude of the General Government so certain to be consistent, that it is difficult to imagine an actual and serious diplomatic clash over the question. In the case of the Mafia of 1891 our Government frankly expressed its own concern to Italy, and interceded, we believe successfully, for payment of an indemnity to the families of the victims. In the present case of San Francisco, we understand that school privileges have not been denied to Japanese children—the exclusion being merely from one class of schools—so that the fundamental principle of the treaty has not been flatly violated. We mention this not to approve necessarily the action of California, but to show that the case is hardly one from which the imagined serious consequences might proceed.

One need only consider the limited extent to which a treaty with a foreign Power can in any case touch directly on questions of local State administration, to see how improbable a serious situation from such a cause would be, and how exaggerated are such conclusions as that drawn by the "Spectator." Except, indeed, for the two branches of treaty guaranties—that of protection to property of foreign residents, and that providing that the privilege of using our public institutions be extended to such residents—we find it not at all easy to select a supposable case from which even such a teapot tempest as that of the present season or of 1891 might arise. Certainly it is not our judgment that a nation which has carried its Constitution and its system of dual government unimpaired through such a terrific shock as the Civil War will be compelled to amend it for the mere purpose of avoiding petty friction of the sort witnessed in California. Of the Japanese attitude toward the suggestion of an outright breach with the United States, we have not deemed it necessary to speak. Certainly nothing more preposterous could well be imagined than the suggestion in Japan, at the present time, of breaking off good relations with this country. What some of our hot-headed newspapers and politicians have more need to remember is that we, too, have a stake of high importance in the friendship of Japan. What such good relations mean to the commerce of our Pacific coast hardly needs to be pointed out. What the lightly-predicted Japanese enmity would mean, with our remote and isolated naval base within easy reach of Tokio, deserves equal consideration.

FAILURE RECORDS—WHAT THEY SHOW AND DO NOT SHOW.

When one studies the annual lists of failures, as made up and published at the end of every twelve months, if a crisis has occurred within the cycle, the story necessarily turns on it and is solved by it; but when the year is an ordinarily prosperous one, too little comes within the record to make the presentation of facts complete enough to trace, through the figures given, the action or influence of the conspicuous events which have been a chief part of the year's commercial and financial history. A crisis is a matured end which results as the culmination of some prolonged mistakes in legislation or in business methods that one can follow through the years in which it has been maturing and culminating. On the other hand, any year which has no such round-up may include many important events but has no tell-tale.

For illustration, by far the greatest calamity which has happened in 1906, and for many a year, was the

San Francisco fire and its attendant losses. Almost the whole city was blotted out of existence and the surroundings received a severe setback. Notwithstanding that city, in population and as a business centre, was by all odds the leading city in California, that State is reported by Dun as aggregating in 1906 only 380 failures and $2,048,259 liabilities, against 519 failures and $2,955,689 liabilities in 1905. Instead, therefore, of showing an increase in casualties and liabilities in 1906, on account of the fire, &c., there is more than 26% decrease in both items. Consequently, this great calamity leaves in the record no discoverable marks of its inroad.

That discrepancy, it should be added, is not because the figures are wrong or that the system is necessarily wrong. Just so, also, there are many other of the 1906 happenings that have materially interfered with the progress of trade and commerce and yet make no show in the failure records; some have not yet worked out their results, while others are incidents having little relation to failure figures because probably not so serious as to cause at the moment casualties. Of this character was the car shortage and freight embargo—matters of very grave inconvenience in numerous sections, but in the failure records as given not noticeable even, where the 'pressure was most severe.

We should expect, however, to have met with distinct traces of some other of the prominent characteristics of the year's business, and are disappointed in finding so little of that nature disclosed. Take the wide speculations that have prevailed, the extreme tension in money, most prominent in New York, testing credit severely, and the rapid conversion there and in its vicinity of floating capital into fixed forms. These certainly are all of cankerous growth, and as a practical fact have been in a measure prominent in every part of the country. In all these respects New York has had a fearfully bad name. Indeed, it would seem that the best orators of the land have searched through their lexicon from A to Z to find words terrible enough to paint in proper colors the evil work being carried on by speculators at this centre; besides, too, what a hubbub has been made over its habit and capacity for absorbing capital, which, whenever out of occupation, flows into New York bank vaults by force of a natural law, to the loss of its use at interior centres—a capacity so great as to lead our Secretary of the Treasury in all his distributions of cash to discriminate against New York. Yet after it all, New York State shows only 1,144 failures in 1906, against 1,290 in 1905; to be sure, the aggregate of liabilities is $23,859,101 in 1906, against only $20,380,214 in 1905, a difference which, according to the teaching of to-day, is of no great account, since the decrease in number shows that the loss comes out of the larger capitalists—the troublesome millionaires. In the same connection it is interesting to note that the State of Illinois, wherein is the more saintly town of Chicago, advanced materially in 1906 both in number of failures and total liabilities.

Looking at the future of failures, we do not recall any decidedly prosperous year in which a spirit of caution was so marked a feature throughout as has been the case in 1906. This recognition of an approaching danger has, too, been a growth much more pronounced as the year has progressed, not being extended over the whole country until the close of the year and even at that late date in a modified form, and not including within its grasp a good many leading industries. With a strong and buoyant start, it took time and it took pressure of a highly unfavorable kind to undermine the exuberant gladness and confidence the year began with. What undermined confidence was the war that has been waged against capital, making capitalists less venturesome, capital more seclusive, what we call money dear, and rendering securities unsafe and enterprise injudicious. Now that commercial and financial affairs have been pushed down hill, it will of course be harder to get them back. People who understand the influences governing the flights of capital, and how easy it is to give it wings, were well aware where affairs would land when the agitation of the inter-State commerce rate bill began. The descent has not been as rapid as anticipated, because, though hostile bills have been passed and disturbing threats uttered, their execution has been delayed in large measure. If the spirit continues in 1907 as in 1906, we shall, before a decided recovery is reached, get where we shall secure our schooling in money wisdom through more serious suffering than we have had yet.

There has been another force adverse to easy production accumulating influence in the last two years. Higher prices for raw material and higher prices for wages call for the absorption of more capital in manufacture and in the stocks carried. We referred to this point a year ago when writing of the year's failures. We then said that larger expenses and a smaller net profit on a given unit of capital have become the rule. As a consequence, those who make the most money must be those who handle abundant capital and who can afford, if need be, to lose interest in carrying the more costly stocks; besides that, those who have not large capital stand at a disadvantage in buying the supplies of materials they need. Thus it comes to pass that every advance in wages and in commodity values has an influence in discouraging the smaller trader.

THE FUEL SHORTAGE AND ITS CAUSE.

Developments from day to day are making it more and more plain that the recent coal shortage in the Northwest was the result of causes beyond the control of the railroads and for which they were in no degree responsible. Owing to the fact that the railroads, on account of the wonderful activity of general trade, have been overwhelmed with freight of all kinds, and that as a result there has been undoubted congestion on many different lines and in nearly all parts of the country, causing delays in the movement and delivery of traffic, there has been a disposition to believe that the coal shortage was the outgrowth of the same condition of things. Investigation is gradually establishing, however, that the scarcity of fuel in the sparsely settled districts of the Northwest has been occasioned by wholly different circumstances and causes. It seems that coal dealers along some of the lines, and particularly of the Northern Pacific and the Great Northern railways, did not lay in supplies of coal at the usual time. The reason for this attitude—the delay in placing orders so that the coal would be on hand when the cold weather came—is largely a matter of conjecture. It is suggested that the railroad rate agitation in Congress and the

enactment of the Hepburn Railroad Rate Bill, giving the Inter-State Commerce Commission great power over rates, induced the delay. We are told that dealers were led to think that the Commission would at once proceed to make vigorous cuts in rates and as dealers wanted to get the benefit of the lower rates, they held back their orders in the expectation that later in the season the cost of the freight transportation would be less.

Whether this be the true explanation or not, the fact is undoubted that orders for coal for these points were during most of the season on a greatly reduced scale as compared with other years. Then, all of a sudden, realizing that the time had arrived when they must have stocks of coal whether rates were reduced or not, orders were given of unusual size for coal—orders that ordinarily would have been distributed over a period of several months. Hence, the roads were called upon to carry three to four times the quantity of coal they are ordinarily obliged to transport late in the season. In some cases the orders were given after snow fell and necessarily there was delay in delivery. The dealers, not getting their supplies, sought to throw the blame on the carriers on the plea that if only the railroads would deliver the enormous quantities of coal ordered by them at the last moment, they would have coal enough to meet the demands of all local consumers.

It appears, too, that indirectly the apathy of dealers in laying in their stocks of coal at the usual time served to intensify the congestion in other classes of freight. When the railroad managers saw what a predicament the dealers had got themselves into, and that the inevitable result must be distress and great suffering by the local communities, owing to the lack of the proper supplies of fuel as the weather grew colder, they redoubled their efforts to relieve the situation and rushed coal shipments through in extra quick time. This seriously interfered with the ordinary movements of freight. It seems to be the practice on these Northwestern roads to ship coal largely in box cars. The shipments are made westward, and in this case the trains in numerous instances were run on passenger train schedules. But the ordinary trend of freight in that section at this season is eastward. Grain, for instance, is pressing for shipment eastward in enormous volume. With the cars employed in other work—in moving coal westward—the number available for grain shipments eastward was correspondingly reduced. It will be recalled that both the Northern Pacific and the Great Northern in their statements of earnings for the month of November reported losses in earnings as compared with the corresponding month last year, as they do now also in their returns for December. We commented on the November loss as being rather strange at a time when the roads had, according to all accounts, more freight than they could handle. That the grain movement had been smaller was evident from the statistics, but it seemed difficult to understand why the shortage in grain should not have been made good by larger shipments of other classes of freight, which was being offered in such enormous volume.

The explanation of this apparent anomaly is now found in the circumstances narrated above. On account of the extra amount of coal that had to be carried and the need for rushing these coal shipments through unusually fast, the whole freight business of the roads has been deranged. They were unable to move as much freight as they ordinarily would have been able to do, and that fact served at once to increase traffic congestion and to reduce the earnings.

The experience on the present occasion shows how futile must be any legislative meddling with the problem, as is now proposed. The daily papers have recently reported that a bill was ready for introduction in Congress providing that when a shipper asks for twenty-five cars or less it shall be the duty of the carrier to provide them within three days, and if he requests more than twenty-five cars, then within ten days. The carrier is to forfeit to the shipper one dollar per car for each day's delay and to be liable for all damages suffered by the shipper and for the cost of any suit he may have to bring to recover indemnity. But how would the carrier fare under such a situation with regard to coal as we have described above? If dealers delay in laying in supplies and then rush in orders for enormous quantities of goods, is the railroad to be penalized for the dilatoriness of the dealer?

A law such as proposed would be wholly impracticable. There would be no inducement for expediting shipments if consignors knew that the carrier was under obligation to furnish the cars whenever demanded, no matter how unreasonable the demand. The result would be the crowding of shipments of goods into a space of a few of the busiest weeks. Under such an arrangement it would be absolutely impossible for the roads ever to have an adequate supply of equipment and the cost of obtaining such supply, if it were really obtainable, would be forbidding, for it would inevitably follow that the equipment must remain idle a good part of the remainder of the year. Nor would such an arrangement be to the interest of the producing and manufacturing interests. Suppose that the whole season's cotton crop or the grain crops were rushed to the seaboard within a month or two. What would be the effect on prices, and where would the room be found to store the produce or the ships to carry it away? An even or equal distribution, as nearly as may be, over the different months of the year is what should be aimed for. Moreover, only in that way can due economy in operations be attained, making it possible to transport freight at lower rates than could otherwise be done.

RIGHT OF WOMEN TO WORK AT NIGHT.

In our issue of Aug. 18 last we referred to a decision of the Court of Special Sessions of the First Division of the City of New York declaring unconstitutional a labor statute forbidding adult women to work in factories before six in the morning or after nine at night. The case was subsequently carried on appeal to the Supreme Court, and the Appellate Division of that Court in the First Department last month handed down a decision affirming the judgment at Special Sessions. The ground upon which the lower court held the statute invalid was that to labor and to employ labor are inherent and inalienable rights of our citizens and cannot be taken away in whole or in part unless upon the broad ground of public good, which must be apparent and cannot be predicated on legislative dictum. Justice Olmsted, who wrote the opinion at Special Sessions, put the matter thus: "It may be stated as

a well-settled legal proposition that the right to labor and to contract for that labor is both a liberty and a property right; when, therefore, the Legislature enacts a statute such as that under consideration, it must be admitted that it has infringed in the enactment the rights which are very clearly accorded by the Constitution to the individual citizen."

This opinion and the reasoning employed in it the Appellate Division now adopts as its own. The case was that of the People of the State of New York vs. David L. Williams, who conducts a printing and bookbinding establishment up town. The law has been on the statute books for a number of years, forming Section 77 of Chapter 415 of the Laws of 1897 and has been amended from time to time. One night in January 1906 a deputy factory inspector visited the bookbindery of Mr. Williams and found some girls at work of full legal age, engaged in their usual occupation of folding sheets and doing other similar work customary in binderies, and for which girls with their deft fingers are peculiarly adapted. It would be a hardship to deprive girls of employment of that kind, since the pay for night work is much higher than for day work, and, furthermore, night work is essential on many different papers and periodicals which cannot be sent to press until late at night and which must be ready promptly for distribution to the reading public the next morning.

Nevertheless Mr. Williams, as one of the proprietors of the establishment referred to, was found guilty of a misdemeanor in having employed one Katie Mead to work in his establishment after nine o'clock at night on certain specified dates. The law says "that no minor under the age of 18 years and no female shall be employed, permitted or suffered to work in any factory in this State before six o'clock in the morning or after nine in the evening of any day." The word "factory," as we have on previous occasions pointed out, has a very broad designation, the statutory definition of it being as follows: "The term factory when used in this chapter shall be construed to include also any mill, workshop or other manufacturing or business establishment where one or more persons are employed at labor."

At the trial the deputy inspector was called to prove the bare fact of employment after prohibited hours in a factory. The accused offered no evidence and was thereupon found guilty. Upon a motion in arrest of judgment, the defendant, through his counsel, contended first that Section 77 of the Labor Law, under which the conviction was had, is in contravention of the Fourteenth Amendment of the Federal Constitution, in that it is an infringement of the privileges and immunities of the citizens of the United States, and denies to women the equal protection of the laws; second, that it contravenes Article 1, Section 6, of the State Constitution, in that it deprives a citizen of her liberty and property without due process of law.

Only one plea in justification of the Statute was urged by the State, namely that it was enacted to protect the comfort, welfare and safety of the whole people, and the individual must suffer this curtailment of his granted rights in the interest of the common good. But Justice Olmsted quoted the decision of the United States Supreme Court (Lochner vs. New York, 198 U. S. R., p. 45) in the case where it was attempted to fix a ten-hour day for employees of bakeries and confectionery establishments, which the Court, as will be remembered, declared unconstitutional. In that case it had been urged that it was to the interest of the State that its population should be strong and robust, and therefore any legislation which might be said to tend to make people healthy must be valid as health laws enacted under the police power of the State. But the United States Supreme Court said that if this be a valid argument and a justification for this kind of legislation, it would follow that the protection of the Federal Constitution from undue interference with the liberty of person and freedom of contract is visionary wherever the law is sought to be justified as a valid exercise of the police power. Said the U. S. Supreme Court in that case: "The Act is not within any fair meaning of the term a health law, but is an illegal interference with the rights of individuals, both employers and employees, to make contracts regarding labor upon such terms as they may think best or which they may agree upon with the other parties to such contract. Statutes of the nature of the one under review, limiting the hours in which grown and intelligent men may labor to earn a living, are mere meddlesome interferences with the rights of the individual."

Applying the same course of reasoning to the New York statute prohibiting the employment of women after nine o'clock at night, Justice Olmstead, as already said, reached the conclusion that it was clearly unconstitutional. Moreover, to him the New York law seemed class legislation of a peculiarly objectionable type. He referred to the fact that there was no pretext that the building in which the Mead girl had been employed was insecure, the light bad, the ventilation defective, or the general sanitary conditions deficient. On the contrary, the deputy factory inspector had testified that in those particulars "it is the best factory of the kind in New York City." Justice Olmsted pointed out that the statute which would prevent Katie Mead from working in a factory after nine o'clock under the best sanitary conditions offers no prohibition against her doing the same work in a hall bedroom in a tenement house, under conditions more detrimental to her health. "Why this distinction," he asked, "between two possible mothers of future citizens if this be simply a health regulation? The relation of the subject of the statute to the public health and common welfare seems altogether too remote to sustain it as a proper exercise by the State of its police power."

We review thus at length the points made in the opinion at Special Sessions, because Justice Scott, in delivering the opinion of the Appellate Division, did not feel called upon to enlarge upon it, saying that Justice Olmsted's opinion discussed the Constitutional infirmity of the labor statute upon which the prosecution was based so satisfactorily that there seemed no need of adding to it. In view of the fact, however, that two of the justices of the Appellate Division dissented (Houghton and Ingraham were the dissentients), he deemed it proper to point out that confusion seemed to have arisen as to precisely what is the offense charged. The statute (Section 77, as already stated, of the Labor Law) contains two inhibitions. It forbids the employment of any minor under the age of eighteen years or any female of any age in any factory before six o'clock in the morning or af-

ter nine o'clock in the evening. It is this clause which the defendant was charged with violating. The other prohibition is quite distinct and forbids the employment of any such minor or woman for more than ten hours a day or for more than sixty hours in the week.

The two inhibitions are separate and unrelated. The first, which was the only one in question before the Court, has nothing to do with the length of time a woman or minor shall work, for permitting such work for an hour or even less time within the prohibited hours is a violation of the clause. Justice Scott was prepared to admit that, for physical reasons, a woman cannot, speaking generally, work as long or as hard as a man, and he was careful to say that if the Court had to consider a statute limiting the number of hours per day or per week, during which a woman might work, the argument put forth to sustain the clause under consideration "would be apposite and persuasive." But that question was not before the Court. Its discussion, Justice Scott thought, served rather to cloud than to clarify the question alone presented for determination. The provision under examination was aimed solely against work at night, without regard to the length of time during which work is performed or the conditions under which it is carried on. In order to sustain the reasonableness of such a provision, the Court would have to find, Justice Scott pointed out, that, owing to some physical or nervous difference, it is more harmful for a woman to work at night than for a man to do so, for concededly, he said, the clause in question would be unconstitutional if it applied to men as well as to women. He was not aware of any such difference, and in the discussions that took place none had been pointed out to him. The order at Special Sessions was therefore affirmed.

CLEARINGS AND SPECULATION IN 1906.

Like all the other indications of trade activity, the records of bank clearings for the calendar year 1906 tell a story of continued growth and expansion. In reviewing the bank exchanges for the preceding year (1905), we found that the totals far surpassed those of the best preceding period of twelve months. Now for 1906, with a further large increase, even this previously unexcelled aggregate of 1905 is left far behind. Of course, however, there is nothing very surprising in that fact. All through the year our factories and other industrial and business establishments were turning out an unequaled quantity of wares and goods, and practically every line and department of trade was seeking to enlarge its output; for it is literally correct to say that the demand for all classes of goods was all the time in excess of the supply. In the case of the metals trades, and more particularly in iron and steel, this was conspicuously true, leading finally to considerable importations from abroad to supplement the home production. Furthermore, the country harvested another large series of grain crops, and the cotton crop also ran much ahead of the reduced yield of 1905. Speculation was also more or less in evidence —though not to any very great extent in the mercantile markets. On the New York Stock Exchange the share sales reached figures never before attained, even though the general course of values was not upward. On the other hand, the tendency of mercantile prices *was* upward. In brief, all conditions and circumstances combined to swell the volume of the bank clearings.

Taking the total of the exchanges for the whole country, the aggregate for 1906 reaches 159,808 million dollars, against 143,909 millions in the calendar year 1905, only 112,449 millions in 1904 and but 109,-209 millions in 1903. The increase over 1905 is fully 11%, and as compared with 1903, when many of the conditions were adverse, it is not far from 50%. It is also noteworthy that the ratio of gain over 1905 at New York does not vary greatly from that in the rest of the country. At New York the further growth in 1906 was 11.6%; outside of New York it was 10.1%. Such a close accord as this is rare. On account of the part played by financial transactions at this centre, and yet more on account of the fluctuations in Stock Exchange speculation, the course of clearings here is often quite different from that elsewhere—the two movements in some years having been the exact reverse of each other. In the following we compare the clearings for 1883 and the twenty-three years since then for New York alone and for the points outside of New York, bringing out conspicuously the fact mentioned.

Year.	*New York Clearings.*	*Inc. or Dec.*	*Clearings Outside New York.*	*Inc. or Dec.*	*Total Clearings.*	*Inc. or Dec.*
	$	%	$	%	$	%
1906	104675828,656	+11.6	55,132,812,330	+10.1	159,808,640,986	+11.0
1905	93,822,060,202	+36.7	50,087,388,239	+13.9	143,909,448,441	+27.7
1904	68,649,418,673	+4.1	43,800,245,342	+1.3	112,449,664,015	+3.0
1903	65,970,337,955	—13.6	43,238,849,809	+3.8	109,209,187,764	—7.4
1902	76,328,189,165	—3.9	41,695,109,575	+6.7	118,023,298,740	—0.4
1901	79,427,685,842	+50.9	38,982,329,340	+16.6	118,410,015,182	+37.6
1900	52,634,201,865	—13.4	33,436,347,818	+0.5	86,070,549,683	—8.5
1899	60,761,791,901	+44.8	33,285,608,882	+23.9	94,047,400,783	+36.6
1898	41,971,782,437	+25.6	26,854,774,887	+12.6	68,826,557,324	+20.2
1897	33,427,027,471	+15.8	23,802,043,485	+6.4	57,229,070,956	+11.7
1896	28,870,775,056	—3.3	22,375,548,783	—4.2	51,246,323,839	—3.7
1895	29,841,706,924	+22.3	23,338,903,840	+10.1	53,180,700,764	+16.6
1894	24,387,807,000	—22.0	21,072,251,587	—7.6	45,460,058,609	—15.9
1893	31,261,037,730	—14.7	22,882,489,378	—9.4	54,143,527,108	—12.5
1892	36,662,469,202	+8.6	25,256,657,420	+10.8	61,919,126,622	+9.5
1891	33,749,322,212	—9.9	22,907,857,405	—0.8	56,657,179,617	—6.4
1890	37,458,607,609	+4.4	23,087,956,388	+14.2	60,546,563,997	+7.9
1889	35,895,104,905	+15.4	20,215,145,550	+10.0	56,110,250,455	+13.4
1888	31,100,027,521	—7.1	18,384,046,654	+4.3	49,484,584,175	—3.1
1887	33,474,556,268	—0.6	17,616,680,056	+13.2	51,091,236,324	+3.8
1886	33,676,829,612	+19.6	15,570,851,854	+17.2	49,247,681,466	+18.9
1885	28,152,201,336	—9.1	13,287,102,263	+0.8	41,439,303,599	—6.1
1884	30,985,871,170	—17.2	13,179,255,183	—7.6	44,165,126,355	—14.6
1883	37,434,300,872	—20.2	14,265,522,880	+2.4	51,699,823,752	—15.0

It will be seen from the foregoing that in both 1903 and 1902 New York showed losses while the rest of the country recorded gains. On the other hand, in 1905 New York recovering its previous losses, had 36.7% gain, while the rest of the country had only 13.9% increase. Another circumstance with reference to the outside clearings is worth alluding to. In these outside clearings the course has been uninterruptedly upward year by year since 1896, when doubts regarding the country's standard of values was definitely removed as a result of the Presidential election of that year. The amount and ratio of the gain has varied considerably from year to year, accordingly as conditions were extremely or only partially favorable; but the gain itself has been continuous. As a consequence the outside clearings in 1906 reached 55,132 million dollars, as against only 38,982 millions in 1901 and but 22,375 millions in 1896. As Stock Exchange speculation is so much less a factor at the outside cities, the prodigious growth shown in their totals is a highly significant fact, reflecting the growth in population and in manufacturing and mercantile trade in all parts of the country.

With reference to New York, Stock Exchange speculation is always a factor present in bank clearings. And during 1906 the share dealings on the Stock Exchange, as already indicated, were of extraordinary magnitude. It is true that most of the dealings in stocks on the Exchange are now cleared through the

Stock Exchange Clearing House, and hence such dealings do not directly enter into the volume of bank exchanges. Nevertheless, as we have many times pointed out, indirectly Stock Exchange business does affect very materially the course and volume of bank exchanges. For the purpose of indicating the course of Stock Exchange speculation for a long series of years past, we present the following table:

NUMBER AND VALUE OF SHARES SOLD AT NEW YORK STOCK EXCHANGE.

Year.	Stocks. Shares.	Aver. Price.	Values (approximate)	Year.	Stocks. Shares.	Aver. Price.	Values (approximate)
			$				$
1906	284,298,010	94.2	23,393,101,482	1896	54,654,096	65.2	3,329,969,940
1905	263,081,156	87.3	21,295,723,688	1895	66,583,232	60.3	3,808,338,604
1904	187,312,065	69.9	12,061,452,399	1894	49,075,032	64.2	3,094,942,769
1903	161,102,101	73.2	11,004,083,001	1893	80,977,839	60.3	4,550,260,916
1902	188,503,403	79.9	14,218,440,083	1892	85,875,092	63.5	4,874,014,262
1901	265,944,659	79.0	20,431,960,551	1891	69,031,689	57.1	3,812,247,119
1900	138,380,184	69.2	9,249,285,109	1890	71,282,885	60.2	3,977,664,193
1899	176,121,135	78.6	13,429,291,715	1889	72,014,600	61.0	4,059,231,891
1898	112,699,957	72.7	8,187,113,985	1888	65,179,106	62.5	3,539,519,143
1897	77,324,172	67.0	4,973,553,065	1887	84,914,616	61.1	4,508,778,899

Scrutiny of the foregoing table reveals that in every way Stock Exchange business during 1906 was of unexampled magnitude. Altogether the sales reached 284,298,010 shares, as against 263,081,156 shares in 1905 and only 161,102,101 shares in 1903. The *number* of shares dealt in does not always furnish a clear indication of the course of the dealings, for these share transactions may be made up more largely in one year than another of $50 shares. The par value of the shares affords a much better guide. This item is not contained in the above table, but referring to a statement given on page 22 of the issue of our "Bank and Quotation" Supplement of last Saturday, it is found that the nominal or par value of the share sales was 24,843 million dollars for 1906, against 24,400 millions in 1905, 17,393 millions in 1904 and 15,028 millions in 1903. On this basis there is very little difference between 1906 and 1905, but a very marked difference as compared with 1904 and 1903. When we have regard to *market* values, which is perhaps the best guide of all, the comparison is much the same, the total for 1906 being 23,393 millions, against 21,295 millions in 1905, but as against only 12,061 millions in 1904 and 11,004 millions in 1903. This serves to reveal why the gain in bank clearings in 1905 was so much larger at New York than elsewhere, and also why in 1906 the ratio of increase was very much like the increase for the rest of the country, New York City showing simply a normal addition in accord with the development and expansion in trade for the country as a whole.

We have stated that the course of stock prices in 1906 was not upward. In this we have reference to the market as a whole. In the great majority of cases the highest prices were made in the early months. Yet there were exceptions to the rule, as always happens, and some of these exceptions were very conspicuous instances of their kind. Take Union Pacific, for example. This sold at 138½ in May, but in September, on the announcement of the increase in dividend to a basis of 10% per annum, the stock moved up to 195⅜. Similarly some of the other Pacific stocks made striking advances. A table was given in our "Quotation" Supplement last Saturday (page 22) showing the course of prices for all the leading groups of stocks.

Another characteristic of Stock Exchange speculation in 1906 should not be overlooked. While the share sales were by far the largest ever reached, the bond sales were on a small scale. There was very little doing in bonds all through the year—and this was even more conspicuously true of the dealings over the counters of bankers and bond houses than of those on the Exchange. No doubt one reason for the inactivity was the tension which prevailed in the money market most of the year. Because of this and the activity of trade, more remunerative employment for money was to be had than by making investments in bonds. The annexed statement shows the details of the stock and bond sales for the last two years.

Descript'n	Twelve Months, 1906. Par Value or Quantity.	Actual Value.	Aver. Price	Twelve Months, 1905. Par Value or Quantity.	Actual Value.	Aver. Price.

Total val.		$24416,848,337			$22705,182,756	

The dealings in stocks were more evenly distributed between the different quarters of the year than is usually the case, as will appear from the table we now introduce, giving the share transactions by months and by quarters for each of the last two calendar years.

Not only did the bank clearings for the country as a whole during 1906 far exceed those of all previous years; but the different cities and sections of the country nearly all enjoyed the same distinction. Here is a table showing the course of bank clearings at the leading cities for the last four years—both for the full twelve months and for December, the closing month.

BANK CLEARINGS AT LEADING CITIES FOR DECEMBER AND THE YEAR

(000,000s omitted.)	December 1906.	December 1905.	December 1904.	December 1903.	Jan. 1 to Dec. 31 1906.	Jan. 1 to Dec. 31 1905.	Jan. 1 to Dec. 31 1904.	Jan. 1 to Dec. 31 1903.

The most striking way, however, to indicate the generally satisfactory condition of affairs during 1906 and the resulting further growth in clearings is to note that out of the whole 108 cities which have clearing houses and appear in our records, there are only six altogether, namely Peoria, Ill.; Jacksonville, Ill.; Canton, Ohio; Fargo, N. D.; Memphis, Tenn., and Augusta, Ga., that report for 1906 a smaller total of clearings than for 1905. A detailed statement showing the clearings for the last two years at every clearing-house city was published in the "Chronicle" of Jan. 5 1907, page 1.

We annex still another table to show the clearings by months—both the totals for the whole country and those outside of New York. It will be observed that the ratios of gains were very large in the first quarter of the year, more particularly during January and February. Speculation was active on the Stock Exchange at that time, and furthermore the winter was very mild, doing away with many of the interruptions to trade operations often encountered in these months.

In grouping the clearings for the different sections of the country, a feature observed in previous years is still in evidence. We mean that the largest ratio of improvement is reported by the Far Western and Pacific Coast group of cities. We all know that new communities are springing up there and that industrial progress is exceptionally marked in that part of the country. Even San Francisco, notwithstanding the dire suffering the city sustained through earthquake and fire, shows pretty nearly 9% increase over 1905 in its clearings, following 19.6% increase in 1905 over 1904. At Los Angeles the 1906 gain is 20.6%; at Portland, 23.1%; at Seattle, 61.4%. For the Pacific group as a whole the 1906 increase is 19.6%, which is much higher than the percentage of gain for any other group or section. The Middle group shows 11.4% increase, the New England 8.7, the Middle Western 8.9, the Southwestern and Northwestern 11.1 and the Southern 8.3. It deserves also to be pointed out that every group records an increase for every three months period of the year—with a single exception. This exception is the Pacific group, which in the second quarter alone had smaller clearings for 1906 than for 1905. The reason can be easily guessed—that was the period when San Francisco was overtaken by the calamity already referred to. The table we now present gives the clearings by groups for each quarter of the last six years.

With reference to speculation on the mercantile exchanges, there are few reliable data. No official record is furnished of the amount of sales on the Cotton Exchange, and hence it is not possible to indicate the extent of the transactions or to make comparisons with the years preceding. On the Produce Exchange the volume of business appears to be steadily contracting. In this case, too, no official data of the dealings are available, but, following our practice of previous years, we have made up from the figures given from day to day in the daily papers certain results which ought to furnish a fairly close approximation to the actual totals. From these results it appears that the total of the grain sales (spot and options) in 1906 amounted to only 448 million bushels, against 478 million bushels in 1905 and 627 million bushels in 1904. A synopsis of the transactions in quarter-year periods is furnished in the following:

SALES OF FLOUR, WHEAT, &c., AT NEW YORK PRODUCE EXCHANGE.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO.'S.

The public sales of bank stocks this week aggregate 85 shares, of which 80 shares were sold at the Stock Exchange and 5 shares at auction. The transactions in trust company stocks, all auction sales, reach a total of 70 shares and include the first public sale of Carnegie Trust Co. stock, of which 50 shares were sold at 200.

—Two opinions rendered this week settle definitely the status of the stock transfer tax of this State. In the case of Albert J. Hatch, who sought to test the validity of the law of 1905, which imposes a tax stamp of 2 cents on "each hundred dollars of face value or fraction thereof," the United States Supreme Court on Monday sustained the decision of the New York Supreme Court, the Appellate Division, First Department, and the New York Court of Appeals, upholding the constitutionality of the law. The other decision this week was handed down by the Court of Appeals at Albany in the case of Irving K. Farrington. This declares the amendment to the stock transfer tax, which became operative last May, to be unconstitutional. Under the amendment a 2-cent tax was required on each *share* of one hundred dollars of face value or fraction thereof, instead of on "each hundred dollars of face value or fraction thereof," as specified in the law as originally passed. The decision was unanimous, and holds the Act unconstitutional on the ground that it denies to the transferrers of the stock of the par value of less than $100 per share the equal protection of the law within the meaning of the Constitution.

—In answer to an inquiry made in behalf of the projectors of a company to be formed in Iowa for the purpose of insuring bank deposits, Attorney-General C. W. Mullan of that State has decided that bank deposits are not the subject of insurance under Iowa laws, and therefore the formation of such a company would be illegal. Mr. Mullan in his opinion says a careful examination of the provisions of the statute relating to insurance "fails to disclose any authority given by statute to insurance companies transacting business in this State to insure depositors against loss caused by the failure of the bank in which deposit is made through the dishonesty of its officers or employees, or from other cause. Under a familiar rule of law the naming of the character of risks which may be insured against excludes all others, and as no authority is found in the statute for the insurance of bank deposits, it follows that such risks are excluded by the law-making power of the State, and that no insurance company authorized to transact business under the laws of this State is authorized under our statute to enter into a contract of insurance of that character. Bank deposits are therefore not the subject of insurance under the laws of Iowa."

—Many important and unexpected changes occurred in the control and personnel of the banks in this city at the annual meetings of the stockholders and directors last Tuesday. Especial interest centres in the admission of F. Augustus Heinze into the Mercantile National Bank, the resignation of E. C. Converse, President of the Liberty National Bank, and the selection of F. B. Schenck, the former President of the Mercantile National Bank, to succeed him, the consolidation of the Bank of Discount and Northern National Bank with the Riverside Bank, and the consolidation of the New York National Exchange Bank with the Irving National Bank.

—The election of the Mercantile National Bank resulted in the retirement of the Gould interests, the direction of the institution resting in the control of F. Augustus Heinze, O. F. Thomas, E. R. Thomas and Charles W. Morse. Mr. Heinze was accordingly by unanimous vote elected President, succeeding F. B. Schenck; Miles M. O'Brien was re-elected Vice-President and E. R. Thomas and Chester Glass were elected new Vice-Presidents. Emil Klein was appointed Cashier, succeeding James V. Lott, who becomes Cashier of the Liberty National Bank, and A. W. Day was re-appointed Assistant Cashier. The board of directors was reduced from thirty-one to nineteen. The new directors are: Richard Young, A. P. Heinze, O. F. Thomas, Chester Glass, Stanley Gifford, Max H. Schultz and F. Augustus Heinze. The other members continuing include: W. F. Carlton, William Ballin, John F. Kehoe, Seth M. Milliken, C. W. Morse, H. F. Morse, M. M. O'Brien, Dick S. Ramsay, William Skinner, E. R. Thomas, R. M. Thompson and Warner Van Norden.

—Interests identified with the Bank of Discount, this city, of which Joseph G. Robin is President, in conjunction with those of the Northern National Bank, in which three representatives of F. Augustus Heinze were elected directors on Tuesday, have purchased control of the Riverside Bank, corner Eighth Avenue and 57th Street. The business of the Bank of Discount will be taken over by the Riverside Bank, and the Northern National Bank, upon surrendering its national bank charter, will be continued as a branch. The Bank of Discount has $100,000 capital, $48,207 surplus and $339,927 deposits; the Northern National $300,000 capital, $240,901 surplus, $1,686,123 deposits; and the Riverside Bank $100,000 capital, $108,842 surplus, $1,909,900 deposits. The following constitutes the board of the Riverside Bank: from the Bank of Discount board: Joseph G. Robin, James T. Wood, William P. Young, Stanley Gifford, Paul T. Brady and William L. Brower; from the old Riverside board: Charles N. Taintor, John J. Claney and George W. Plunkitt; from the Northern National Bank, Henry Dimse. The board will soon be increased from ten to fifteen members. The officers are: President, James T. Wood; Vice-Presidents, Charles N. Taintor (former President Riverside Bank) and William L. Brower; Cashier, Henry H. Bizallion. Henry Dimse, late President of Northern National Bank, was elected Chairman of the Executive Committee.

—A consolidation of the Irving National and the New York National Exchange banks of this city, talked of more than a year ago, reached tangible shape on Tuesday, when the boards of the respective banks passed resolutions with a view to merging the business of the two banks. The proposed merger, it is understood, was brought about through the acquisition of a controlling interest in the Irving by interests identified with the Hanover National, which, it is believed, controlled the New York National Exchange. The Irving National Exchange Bank is to be the name of the institution growing out of the combination. It is to have a capital of $2,000,000, a surplus of $1,000,000 and total resources of $22,000,000. Lewis E. Pierson, the present executive of the New York National Exchange Bank, will be President of the consolidated bank, and will be associated with Charles L. Farrell, Rollin P. Grant and J. E. Nichols as Vice-Presidents and Benjamin F. Werner as Cashier. The quarters of the New York National Exchange Bank will be occupied by the successor bank. Both the Irving and the New York National Exchange have a capital of $1,000,000. Mr. Pierson assumed the presidency of the last named institution in January 1904; the previous year, January 1 1903, its capital stood at $500,000, surplus and profits at $368,340, deposits at $6,659,561 and assets at $8,108,902. On January 1 1906 the capital was $1,000,000; surplus and profits, $910,900; deposits, $9,940,476; and assets, $12,254,100. The November 12 1906 statement, the last issued by the bank, was the best in its history, showing deposits of $11,648,639 and total resources of $14,230,499.

Until the consolidation has been completed, Charles L. Farrell will serve as President of the Irving, he having been elected to the office this week, succeeding Samuel S. Conover. The latter is interested in the formation of a new trust company which is to be organized by some of the former directors of the Irving National. The institution will be known as the Irving Trust Company; it will have a capital of $500,000, and will have offices in Chambers Street, between Broadway and Greenwich.

Interests in the consolidated Irving National Exchange Bank also purpose establishing a trust company with half a million capital. This concern will make use of the quarters of the Irving National.

—The election on Tuesday of Frederick B. Schenck as President of the Liberty National Bank of this city was one of the principal changes made at this week's annual meetings. Mr. Schenck's election to the presidency of the

Liberty followed his withdrawal as a candidate for re-election as President of the Mercantile National, in which it became known on Monday that F. Augustus Heinze had become a dominant factor. Mr. Schenck had been connected with the Mercantile National for twenty-six years. As head of the Liberty National he succeeds E. C. Converse, who, however, continues as a member of its board. Charles Steele, of J. P. Morgan & Co., has resigned as a director of the Liberty, being replaced by Mr. Schenck. Further changes were made in the Liberty National on Wednesday, when Charles W. Riecks, formerly Cashier, was elected Second Vice-President, and James V. Lott, formerly Cashier of the Mercantile, was appointed to succeed Mr. Riecks as Cashier of the Liberty. Charles H. Stout and Daniel G. Reid continue as Vice-Presidents of this bank.

—The plan to increase the capital of the Chemical National Bank of this city, mentioned in our issue of Dec. 15, was ratified by the stockholders on Tuesday. The bank will raise its capital from $300,000 to $3,000,000 through the payment of a special equalizing dividend of 900% from surplus. Joseph B. Martindale, Assistant Cashier, who was added to the bank's directorate at Tuesday's meeting, was elected Vice-President of the institution the following day. At the same time Herbert K. Twitchell (formerly of the Chase National) and Edward H. Smith were appointed Assistant Cashiers. William H. Porter continues as President and Francis Halpin as Cashier.

—Edwin A. Lee and William E. Purdy were appointed Assistant Cashiers of the Chase National Bank of this city on Wednesday. Herbert K. Twitchell resigned as an Assistant Cashier to take a similar office in the Chemical National.

—Richard I. Brewster was elected Second Vice-President of the Fourteenth Street Bank of this city on Tuesday. The other officers were re-elected, viz.: R. Ross Appleton, President; John F. Carroll, First Vice-President; P. M. Sayford, Third Vice-President, and Louis V. Ennis, Cashier. New directors are Herman Heidelberg, Louis V. Ennis and P. M. Sayford. The bank will increase its capital next month from $500,000 to $1,000,000. It has deposits of nearly $8,000,000.

—T. Shepherd Strong Jr. has been elected an Assistant Cashier of the Consolidated National Bank of this city. New directors in the bank are F. Augustus Heinze, Cornelius N. Pugsley, C. H. Livingstone, Samuel B. Dick and A. De Ronda. Retiring directors are E. G. Burgess, R. H. Lynn and A. W. Thompson.

—Among the changes made in the boards of directors of the various local banking institutions, not noted elsewhere in this department, were the following:

The Phenix National elected to its board Henry W. De Forest and Edwin A. Potter, President of the American Trust & Savings Bank of Chicago. One of the new members takes the place of Henry W. Eaton.

F. A. Vanderlip was chosen as a member of the board of the National City Bank to succeed the late John A. McCall.

In the Hanover, William C. Duncan was chosen as successor to the late Samuel Spencer.

Daniel Barnes, President of the Seaman's Bank for Savings, replaces the late William C. Sturges on the board of the Mechanics' National, of which William A. Jamison of Arbuckle Bros. has also become a director.

Morgan J. O'Brien is successor to the late James H. Breslin on the board of the Garfield National.

Pliny Fisk was elected to the directorate of the American Exchange National Bank.

In the Citizens' Central National Bank, Carl F. Boker of Herman Boker & Co. and Frederick T. Fleitmann were added to the directorate.

In the Northern National William Ballin, Stanley Gifford, Paul T. Brady and Cassius M. Wicker were elected to the board to fill vacancies.

In the Aetna National new members are F. D. Huyler, W. S. Pitcairn, William Endemann, George Noakes and W. H. Noyes, these replacing Horace Granfield, Joseph H. Everett, James Dennison, Henry Raphael and E. V. Connolly.

George E. Keeny, President of the Hartford Life Insurance Company, was elected to the board of the Oriental Bank to fill a vacancy.

In the Metropolitan Bank, Bradley L. Eaton was added to the directorate.

Frederick G. Kinsman and Francis G. Lloyd were chosen to fill vacancies in the directorate of the Hamilton Bank.

In the Greenwich Bank, Henry Heide, William A. Hawes and Walter G. Nelson are successors to F. Tilford, Henry Rowley and J. Harsen Rhoades.

Alfred H. Post of A. H. Post & Co. has been added to the board of the Battery Park National Bank.

In the Century Bank, Edward J. Croker was added to the board.

Edward Townsend, President of the Importers' & Traders' National Bank, has been elected a director of the Bankers' Trust Company.

W. A. Simonson has been chosen to succeed George Sherman, retired, on the board of the Second National Bank. E. H. Beaslee is an additional director.

W. P. Chapman Jr. and A. Saks replace H. N. Fell and C. E. Braine as directors of the Thirty-fourth Street National Bank.

Henry R. Ickelheimer of Helderbach, Ickelheimer & Co., has been elected to the directorate of the Fifth Avenue Bank, succeeding the late Edward A. Price.

—At the Importers' and Traders' National Bank of this city, John J. Walton and P. B. Worrall were chosen directors to succeed the late Russell Sage and Edward A. Price, deceased. Adolph Lewisohn was added to the board.

—Oakleigh Thorne, President of the Trust Company of America, 135 Broadway, has acquired a controlling interest in the Colonial Trust Company, which will soon be consolidated with the Trust Company of America. John E. Borne, President of the Colonial Trust Co., and several of its trustees, will be elected to the board of the Trust Company of America when the stockholders of the latter meet on Jan. 16. Mr. Borne will be chosen Chairman of the Executive Committee of the Trust Company of America. The arrangement whereby Mr. Thorne acquired his interest in the Colonial was entirely friendly; both sides considered the strengthened position brought about by such a combination of greater mutual advantage than the continuance of the Colonial as a separate institution. While Mr. Thorne and Mr. Borne will preside as President and Chairman of the Executive Committee, both of them will devote their entire time and attention to the united institution. The minority stockholders of the Colonial Trust Co. have received the Trust Company of America's offer to take over their holdings at $400 per share by exchanging them for 50% in stock of the Trust Company of America. President Borne advises the Colonial stockholders' acceptance of the offer, as the Trust Company is paying 40% in dividends annually, which will return the Colonial Trust Company shareholders the equivalent of 20% on their present stock. The Trust Company of America is erecting an immense "skyscraper" at 39 to 47 Wall Street, which should be ready for occupancy about May 1. The present offices of the Colonial Trust at 222 Broadway are to be operated as a branch. In acquiring the Colonial Trust, the Trust Company of America will not increase its stock. The deposits of the new institution will be about $70,000,000; capital, $2,000,000, and surplus not less than $10,000,000. The Colonial Trust was organized in 1897. It reported $25,203,944 deposits on Dec. 31, $1,605,344 undivided profits, $500,000 surplus, $1,000,000 capital and $28,472,039 aggregate resources.

—Arpad S. Grossman, Treasurer of the Colonial Trust Company of this city, died at his home, Montclair, on the 7th inst.

—A new State bank, to be known as the Alliance Bank of the City of New York, has been organized by A. A. Lisman and his associates for the Borough of the Bronx. It will be located on Westchester Avenue in the Village of Westchester, and will have a capital of $100,000 and a paid-in surplus of more than $50,000. The institution is to open branches throughout the Bronx. E. H. Rosenquest, President of the Bronx Borough Gas & Electric Co., will be at the head of the institution.

—Owen E. Paynter was appointed an Assistant Cashier of the Merchant's National Bank of this city on Thursday.

—The proposition to reduce the capital of the Commonwealth Trust Company of this city from $500,000 to $250,000, referred to Dec. 29, was ratified by the stockholders on Tuesday, the 2d inst.

—R. Ross Appleton, receiver of the Cooper Exchange Bank of this city, has been authorized to pay a dividend of 12½% to the bank's depositors. This distribution makes an aggregate of 87½%, made in three payments—a 50% dividend in January last, 25% in the summer and the present dividend of 12½%. The institution suspended on October 10 1905.

—The Russo-Chinese Bank, head office St. Petersburg, will open a regular agency in this city, commencing business on Monday, Jan. 14, at Nos. 50-52 Pine Street. It will be under the management of W. Kutzleb, who has been the bank's American representative for more than three years. The bank has a paid-up capital and reserves amounting to $16,500,000 and the balance sheet shows approximately $160,000,000 assets. It has 50 banks and agencies throughout Russia, China and Japan, as well as branches in London, Paris, Calcutta and San Francisco. On its board of directors there appear such prominent international names as J. Hottinguer of Messrs. Hottinguer & Co., bankers, Paris; Ed. Noetzlin, Paris, member of the Board of the Banque de Paris et des Pays-Bas, Banco Nacional de Mexico, &c., and A. Wischnegradski, St. Petersburg, director of the St. Petersburg International Commercial Bank and others.

—A charter was issued Dec. 24 for the European-American National Bank of New York. The institution is to have

a capital of $200,000 with a surplus of $40,000, and will have banking rooms at 187 Greenwich Street, Corner Dey Street, opening for business, it is expected, next month. The proposed bank is largely backed by railroad and steamship interests. It will have connections with foreign banking houses and, located near Washington Market, expects to draw patronage from meat and produce merchants. The application to organize was presented by Frank Zotti of Frank Zotti & Co., 108 Greenwich Street; Frank R. Marsh of Port Chester; Lyman McCarty, Assistant General Passenger Agent of the Baltimore & Ohio RR.; Charles S. Lee, General Passenger Agent of the Lehigh Valley RR.; S. F. B. Morse and William Grant Brown, the last named of the law firm of Cantwell & Brown, 170 Broadway.

—Under the name of the Hungarian-American Bank, there is being formed an institution which will serve the Hungarian population of this city. The bank is to be established by Eugen Boross, former Special Commissioner of the Royal Hungarian Minister of Agriculture, who will have the support of a few local trust companies and prominent bankers. The capital of $100,000 will be in shares of $100, to be issued at $200 each, giving a surplus of $100,000. The institution, will conduct a general banking business with Hungarians here and abroad, particularly attending to transfers of money to Hungarians traveling to and from the United States, and of transfers for the purpose of paying for machinery and other merchandise purchased for Hungary in America. Among those who are interested in the new bank's organization are the following: John Alvin Young, President of the Windsor Trust Company; H. R. Wilson, President of the Lincoln Trust Company; Le Roy Baldwin, President of the Empire Trust Company; T. E. Morse, President of the American Trading Company; Louis Ettlinger, of the American Lithograph Company; H. C. Nelson, President of the First National Bank of Ossining, N. Y.; Rev. Louis de Kovacs, Perth Amboy, N. J., and Max Goebel, of the Jordan L. Mott Iron Works.

—Prof. Hermann Schumacher, of the University of Bonn, and Kaiser Wilhelm Professor of German History and Institutions at Columbia University, New York, lectured before New York Chapter, American Institute of Bank Clerks, at the New York University Building, 32 Waverly Place, on Thursday evening, the 10th inst.

—The Farmers' Loan & Trust Company (16 to 22 William Street), of which Edwin S. Marston is President, reports the largest deposits of any trust company in the city for the year ending December 31 1906, the amount being $78,445,775. On December 31 1905 deposits were reported at $70,577,988, making a gain for the year of about eight million dollars. Aggregate resources are now $88,096,786.

—The bankers of New York City, members of Group VIII, New York State Bankers' Association, will hold their annual banquet in the grand ball-room of the Waldorf-Astoria Hotel on Wednesday evening, January 30. The guests will be seated at small round tables arranged for eight persons instead of the long tables used at former banquets. Applications for this year's dinner far exceeded the sitting capacity of the ball-room, which is limited by the committee of arrangements to 500 guests. An interesting program of speakers will be announced at a later date. The Chairman of Group VIII is Stephen M. Baker, President of Bank of Manhattan Company. H. H. Powell, Cashier of the Importers & Traders' National Bank, is Secretary and Treasurer of the Group.

—The Italian-American Trust Company of this city declared an initial dividend of 2%, payable January 7.

—David A. Sullivan, who recently came into control of the Mechanics' & Traders' Bank of this city, was elected President of the institution at Tuesday's meeting, succeeding W. L. Moyer. E. R. Thomas, Leo Schlesinger, Isaac Stiebel and Louis Holloway were re-elected Vice-Presidents and A. M. Dederer was re-appointed Cashier. Mr. Sullivan continues as President of the Union Bank of Brooklyn Borough.

—Articles of incorporation for the proposed Montauk Bank of Brooklyn Borough were filed recently. As stated in these columns last August, the institution is to locate at Fifth Avenue and Union Street, and is to have a capital of $100,000. Stephen M. Griswold, who it had been intended to name President of the bank, is understood to have withdrawn his acceptance of the office. He is, however, one of the incorporators of the institution.

—The Dec. 31 statement of the Lincoln Trust Company, Madison Square, City, testifies to the continuous growth this institution has enjoyed during the past year and since its inception in 1902. The company's deposits have increased from $17,084,075 Dec. 31 1905 to $21,384,142 on Dec. 31 1906, a fitting comparison with $13,151,918 Dec. 31 1904 and $7,382,350 Dec. 31 1903. On the last day of the year a quarterly dividend of 3% was paid to stockholders. Besides a capital of $1,000,000 and surplus of $1,000,000, its undivided profits stood at $100,800 on Dec. 31. The aggregate resources are now $23,617,192 58. Henry R. Wilson is President.

—At the Chatham National Bank of this city, where it was lately announced that controlling interest was being sought by a local broker, the old management elected its ticket without opposition. In addition to the re-election of the former directors, the board was increased from eleven to fifteen members and the following new members chosen: Franklin S. Jerome, Frank J. Heaney, Samuel Weil and Lewis Coon. The report in one of the morning papers yesterday that a majority interest in the bank had been sold to a syndicate composed of O. F. Thomas, C. W. Morse, E. R. Thomas and F. A. Heinze is denied by President George M. Hard.

—The board of directors of the Mutual Alliance Trust Company of this city adopted resolutions on the 10th inst. attesting to the worth of their late fellow-member, Emanuel Lehman, who died on Wednesday in his eightieth year. Mr. Lehman was also senior member of the cotton-brokerage firm of Lehman Brothers, Vice-President and director of the Alabama Mineral Land Co., Vice-President and director of the Consolidated Gas Company of New Jersey, Vice-President and director of the East River Gas Company, director of the Mercantile National Bank, &c.

—The usual semi-annual dividend of 3% to be paid Feb. 1st by the Twenty-Third Ward Bank of this city will be supplemented by an extra payment of 1%.

—The directors of the Nassau Bank of this city on Wednesday elected former Cashier William H. Rogers to the post of Second Vice-President. Mr. Rogers has been in the service of the bank for half a century and since 1869 had held the cashiership. He is succeeded in that office by Edward Earl, formerly Assistant Cashier. F. H. Richardson is President of the bank and James C. Bell First Vice-President.

—William Allen Butler Jr. has been elected a director of the Franklin Trust Company of Manhattan and Brooklyn boroughs to succeed the late Wilhelmus Mynderse.

—The stockholders of the Williamsburg Trust Company of Brooklyn Borough have elected W. A. Feil a director to replace Hugh J. Grant.

—Joseph M. Byrne, a Vice-President of the Federal Trust Company of Newark, N. J., has been elected a director of the Union National Bank of Newark.

—For December 31 1906 the City Trust Company of Newark, N. J., reports deposits of $1,099,848, this comparing with $870,278 twelve months ago and $835,848 December 31 1904. The bank's total assets on the latest date were $1,250,258, against $1,010,847 December 30 1905, $964,189 on the same date in 1904 and $541,193 December 31 1903. The capital is $100,000, surplus $5,000 and undivided profits $41,948. The officers are Cyrus Peck, President; Irving Smith and Eugene Eagles, Vice-Presidents, and Charles G. Colyer, Secretary and Treasurer.

—The January 1 1907 statement of the Hudson Trust Company of Hoboken and West Hoboken shows deposits of $12,993,618. The total assets now stand at $14,766,803, comparing with $14,333,740 on January 1 1906, $12,412,039 on January 1 1905 and $10,149,091 three years ago—January 1 1904. The company calls attention to the fact that it has no connection whatever with the Hudson Trust Company of New York, one being a New Jersey Corporation and the other a New York corporation. The New Jersey institution has a capital of $500,000 and surplus of $1,266,389. Myles Tierney is President and J. H. P. Reilly Secretary.

—The first statement of the Hardware City Trust Company of New Britain, Conn., issued December 22 1906, two months after the institution's opening, shows deposits of $292,829 and total resources of $442,829. The capital, $100,000, and surplus, $50,000, are fully paid. Charles M. Jarvis is President; George P. Hart, Vice-President, and Frank G. Vibberts, Secretary and Treasurer.

—At the annual election of officers on Tuesday, A. M. Blakesley was elected Vice-President of the Waterbury National Bank of Waterbury, Conn., and A. J. Blakesley was elected Cashier. The latter was also made a director of the bank.

—With a final dividend of 84 cents declared in liquidation on December 26, the stockholders of the Rhode Island National Bank of Providence, R. I., have received, according to local reports, a total of $23 34 per share. The institution was merged in 1901 with the Second National, the Fifth National and the National Eagle, forming the United National Bank. In addition to the price paid for their holdings, the stockholders of the several banks were to participate in the profits, if any, resulting from the liquidation of their respective institutions. For the $25 shares of the Rhode Island National, $20 was paid, $16 66 2-3 in stock of the new bank and $3 33 1-3 in cash. A dividend of $2 50 in cash which has since been paid to the stockholders, and the final disbursement of 84 cents, makes a total distribution of $23 34 per share.

—It is announced that arrangements have been made for the absorption of the Freeman's National Bank of Boston by the National Bank of the Republic of that city. The price paid by the latter for the stock of the Freeman's (capital, $500,000) is understood to be $145 per share. E. P. Hatch, President of the Freeman's, will become a Vice-President of the National Bank of the Republic, which is to increase its capital from $1,500,000 to $2,000,000. The consolidation will add about $3,000,000 to the bank's deposits, making the amount more than $16,000,000. The proposition to increase the capital will be acted upon Feb. 11.

—T. Jefferson Coolidge Jr. has been elected President of the American Loan & Trust Company of Boston, succeeding N. W. Jordan, who has been chosen to the office of Chairman of the board, for which provision was made this week. It is stated that Mr. Coolidge accepts the post only temporarily, until the election of a permanent President. The only change in the board of the company was the election of Rodolphe L. Agassiz as an additional director. As was noted some months ago, a majority of the stock of the company is owned by a syndicate identified with the Old Colony Trust.

—A sketch of the history of the First National Bank of Boston is outlined in a booklet in which also the policy of the bank with regard to the conduct of its business is indicated. The remarks as to the foundation of the institution inform the reader that control of the Massachusetts National Bank, the oldest banking institution in New England (its original charter dating back to 1784), was purchased by the present management of the First National about six years ago. Soon afterward the management took over the business of the Broadway National, and a little later that of the First National, assuming the name of the latter. In 1904, by a further consolidation, the First National absorbed the National Bank of Redemption, which had itself, a few years before, taken over the business of the Shoe & Leather National Bank. When the last consolidation was completed in 1904, the deposits of the bank, it is noted, were $35,000,000. To-day they are more than $44,000,000. This growth, the bank declares, has been "due to a definite policy, to certain distinctive methods, carefully considered and steadfastly adhered to." It especially calls attention to its reserve. While a reserve fund of 25% of net deposits is the legal requirement, the bank, as a further precaution, carries a large portion of its loans on demand, and therefore convertible into cash at short notice. Beginning January 1 it announces that it will allow interest at 2% on monthly balances of $500 or over, except active accounts and accounts requiring accommodation.

—William R. Dresser, President of the Puritan Trust Company of Boston, Mass., died on the 8th inst. Mr. Dresser was fifty years of age. He had been identified with the management of the trust company since its organization in 1895.

—The change which attracted the most attention in Philadelphia occurred in the Philadelphia National Bank, where N. Parker Shortridge had declined re-election to the presidency. Mr. Shortridge was elected Chairman of the Board, while Levi L. Rue, formerly Vice-President, was elected as the new head of the institution.

—The stockholders of the Corn Exchange National Bank, Philadelphia, on Tuesday adopted a resolution providing for a change in the par value of the stock from $50 to $100 per share. The board of directors was also increased from eleven to fourteen members. The new directors are: Joseph H. Parvin, Thomas E. McVitty, William H. Folwell and Walter A. Bailey. The last named replaces his father, the late John T. Bailey.

—William T. Elliott was this week elected President of the Central National Bank of Philadelphia, taking the place made vacant last October by the death of Theodore Kitchen. Mr. Elliott also succeeds the late President as a member of the bank's board.

—The throwing of a bomb in the Fourth Street National Bank of Philadelphia on Saturday last by a stranger, presumably insane, whose demands for money had been met with rebuffs, wrecked the interior of the bank and caused the death of Cashier William Z. McLear. The bomb-thrower himself was also killed. A number of others, clerks and customers, likewise suffered injuries of more or less consequence, and President R. H. Rushton narrowly escaped the fate of Cashier McLear. The latter was about forty-five years of age. He had been an employee of the bank about ten years and was advanced from the office of Assistant Cashier to that of Cashier last May.

—New directors on the board of the Franklin National Bank of Philadelphia are Percy C. Madeira and John B. Thayer.

—Philadelphia's new Republic Trust Company began business on Wednesday the 2nd inst. in its own building at 1429 Chestnut Street. The capital is $200,000 and the surplus $50,000. The officers of the company are George C. Allen, President; John E. McCully, Vice-President, and William C. Pollock, Secretary and Treasurer.

—Robert C. Hall was elected President of the Pittsburgh Stock Exchange at the annual election on the 22nd inst. John B. Barbour Jr. was re-elected Vice-President and John Ramsey was re-elected Treasurer.

—The stock of the Diamond Savings Bank of Pittsburgh, which it was recently voted to reduce from $250,000 to $125,000, is to be retired at $200 per share. This is the amount at which it was issued when the institution was organized several years ago.

—Jacob B. Mauser, a Vice-President of the Citizens' Deposit & Trust Company of Allentown, Pa., died on the 28th ult., in his seventieth year.

—The receivership of the People's Savings Bank of Washington, D. C., will be finally wound up about January 24. The bank suspended on October 24 1906, and on December 3 John W. Schofield as Receiver commenced to pay off all creditors in full. Interest on all claims to the date of closing was also paid.

—The lately organized West End Bank & Trust Company of Cincinnati commenced business on Saturday, Dec. 30. The new institution has its quarters at 1241-43 West Eighth Street. It has a capital of $50,000, and is under the management of H. H. Suydam, President; E. V. Overman and Harry Mauss, Vice-Presidents; H. F. Frohman, Secretary and Treasurer; George A. Schulze, Cashier, and William H. Imbus, Assistant Cashier.

—The stockholders of the Norwood Savings Bank & Trust Company of Norwood, Ohio (capital $50,000) recently ratified a proposition to merge their institution with the Norwood National Bank, a new institution. The officers of the latter were elected at a meeting of its stockholders on December 6. Edward Mills was chosen President, J. C. Cadwallader and M. G. Cooper Vice-Presidents, and H. W. Hartsough Cashier. The bank has a capital of $200,000. It is located in the quarters occupied by the Norwood Savings Bank & Trust.

—The Helvetia Savings & Banking Company of Cincinnati adopted on the 1st inst. its new name—the Columbia Bank & Savings Company. The change was ratified by the stockholders on August 4.

—At the annual meetings on Tuesday of the several Chicago banks, not many changes were made among officials or in the boards of directors. Among the more important was the election of William A. Tilden to the presidency of the Drovers' Deposit National Bank and the election of R. T. Forbes as Vice-President—the former officers, William H. Brintnall, President, and Edward Tilden, Vice-President, retiring from active management. Both, however, continue as directors of the institution. George M. Benedict is the bank's Cashier.

In the Fort Dearborn National Bank, Nelson N. Lampert and William A. Tilden succeed Charles L. Farrell and Edward E. Moberly as directors.

On the directors' board of the Prairie National Bank, Harry R. Moore and Willis S. Herrick succeed James W. Stevens and George Van Zandt.

C. M. McFarlane replaces P. A. Valentine on the board of the Stock Yards Savings Bank. S. McRoberts and T. J. Fitzgerald were added to the board.

In the Colonial Trust & Savings Bank Walter D. Young, of Bay City, succeeds Horatio O. Stone, retired.

Benjamin Carpenter was chosen successor to the late John C. Welling on the board of the Corn Exchange National.

Adolph Bernard was elected a director of the Oakland National Bank, succeeding J. P. McKeon.

Louis H. Rathje was elected to succeed his uncle, Henry A. Rathje, retired, as a director of the Chicago City Bank.

—The stockholders of the Commercial National Bank of Chicago ratified on Tuesday the proposition to increase the bank's capital from $2,000,000 to $3,000,000. As noted December 15 the shareholders have waived their rights to 75% of the new issue. The stock will be disposed of at $300 per share. The board of the institution has been increased from nine to thirteen members, with the election of the following new directors: Alexander F. Banks, President of the Elgin Joliet & Eastern Ry.; Edward P. Russell, of Russell, Brewster & Co.; Robert H. McElwee, President of the Menominee River Lumber Co., and Alfred Cowles, President of the Rialto Building Co.

—The stockholders of the National Live Stock Bank of Chicago, at their annual meeting, voted against renewing the bank's charter, which expires in another year—February 7 1908. It is the opinion that a plan for reorganization will be worked out in the meantime, and that an entirely new institution will be organized upon the expiration of the present charter. Interests now controlling the bank will be in control of the proposed bank, if formed, and its strength will be increased through the introduction of new interests. The National Live Stock Bank has a capital of $1,000,000, surplus of $750,000, undivided profits of $577,470 and deposits of $8,843,048.

—O. W. Herrick, Vice-President of the Avenue State Bank, Oak Park, a Chicago suburb, died on Monday after an illness of several weeks. He was 77 years old.

—At the annual meeting of the stockholders of the Illinois Trust & Savings Bank of Chicago on the 7th inst. it was favorably voted to increase the capital from $4,500,000 to $5,000,000. It is expected that the new stock will be issued in May. The surplus has been increased to $6,000,000 through the transfer of $1,000,000 from undivided profits. John G. Shedd and Henry A. Blair have been elected directors of the institution to succeed the late John C. Welling and D. B. Shipman.

—P. A. Valentine has resigned from the directorate of the Continental National Bank, Chicago, and Samuel McRoberts, Treasurer of Armour & Co., has been chosen as his successor on the board. Ira P. Bowen, the oldest Assistant Cashier of the Continental National, after 22 years of continuous service in this bank, has been retired on a pension because of ill health.

Frank H. Elmore, Wilbur Hattery and John H. Washburn, three young men who have been with the Continental National for many years, have been promoted to assistant cashierships.

—At a meeting on December 31 the stockholders of the State National Bank of Little Rock, Ark., ratified a proposition to increase the capital from $100,000 to $500,000. The enlarged capital will become effective as soon as the new stock has been placed, which it is thought will not be later than February 1. L. W. Cherry is President of the bank and W. W. McLaughlin Cashier.

—J. T. Trenery, President of the Farmers' National Bank of Pawnee City, Neb., has been elected Vice-President of the First National Bank of St. Joseph, Mo. It is understood that he will continue at the head of the Pawnee City institution.

—F. M. Gardner Jr., an Assistant Cashier of the Mechanics-American National Bank of St. Louis, Mo., died suddenly on the 25th ult. at the home of Vice-President H. P. Hilliard. He was twenty-four years of age.

—A national bank, to be known as the Fifth National, is to be organized in Covington, Ky., with a capital of $100,000. The institution will take the place of the Union Bank, which was formed the present year, but has never engaged in business. The stockholders of the latter decided on the 29th ult. to place it in voluntary liquidation.

—The Lexington City National Bank of Lexington, Ky., has increased its capital from $400,000 to $500,000. The proposition was voted upon on November 27 and carried by a practically unanimous vote. The 1,000 new shares were sold at $200 each, and the stock paid for on December 10. The bank's officers are James S. Stoll, President; B. L. Coleman, Vice-President; J. W. Stoll, Cashier, and J. E. McFarland and J. W. McMeekin, Assistant Cashiers.

—An interesting record of the growth of the Colorado National Bank of Denver, Colo., during the past ten years is furnished in the comparative statement for the three periods given herewith:

Date.	Capital.	Surplus and Undiv. Profits.	Deposits.	Aggregate Resources.
Jan. 1 1897	$500,000	$202,951	$4,943,171	$5,734,652
Jan. 1 1902	500,000	212,680	9,242,075	10,450,252
Jan. 1 1907	500,000	508,379	14,950,601	16,454,180

The bank is under the management of Charles B. Kountze, President; Dennis Sheedy, Vice-President; George B. Berger, Cashier; William B. Berger and T. R. Field, Assistant Cashiers.

—W. S. McCornick, who some months ago secured an interest in the Utah National Bank of Salt Lake City, has succeeded Anton H. Lund as President of the institution. Mr. McCornick is also President of McCornick & Co., bankers.

—The Banque d'Hochelaga (Montreal) will make application to the Treasury Board for authority to increase its capital from $2,000,000 to $4,000,000, as provided in a resolution passed by its shareholders at the recent annual meeting.

—The Traders' Bank of Canada announces the removal of its head office, in Toronto, to its new building at 61-63 Yonge Street. The bank occupies the first and second floors of the structure, which is seventeen stories in height.

—Senator George A. Cox resigned the presidency of the Canadian Bank of Commerce (head office Toronto) at Tuesday's meeting of the shareholders. Mr. Cox, who is associated with many other institutions in Canada either as President or director, had been at the head of the bank for a period of seventeen years; he will continue to serve it as a director. Byron E. Walker, General Manager since 1886, has succeeded to the presidency, Alexander Laird becoming General Manager.

Monetary and Commercial English News

(From our own correspondent.)

London, Saturday, December 29 1906.

The last settlement on the Stock Exchange has ended much more satisfactorily than appeared at all probable only a week ago. The carrying-over rates have been exceedingly stiff. The very lowest have been 6%, and in some cases they have ranged from 9 to 15%. In the face of that, however, markets have been firm, and yesterday the last day—Pay Day, as it is usually called—there was a general rise all over the market. The rise was most pronounced in American shares, copper shares and diamond shares; but it was very general. Even South African gold shares participated

in the improvement. Partly this was due to the gratification on finding that the exceedingly stiff Contango rates for American securities did not lead to any difficulties. It was feared that some would not be able to carry over and that this might lead to difficulties. However, the fears proved quite unfounded, and the relief felt led to a general improvement.

Over and above this, there is a hope that money will now very soon become moderately easy. All thinking people are prepared to find that money will continue comparatively dear for a considerable time. But most hope that in a very few weeks the Bank of England will be able to put down its rate of discount to 5%. Everybody, at the same time, recognizes that whether it is able to do so or not will depend upon the action of New York. Last evening £600,000 in gold was sent into the Bank of England from Paris, and it is expected that another £400,000 will come in next week, making a million sterling. The quarter of a million sterling which had been "earmarked" for Egypt is about to be set free, and to-day there will arrive from South Africa about £900,000 in gold. If the Bank of England is able to secure that amount the total addition to the Bank's reserve will exceed two millions sterling. And as money will now begin to flow back from the interior, the Bank will be very materially strengthened—so materially, indeed, that it ought to be able to meet the demands of both South America and of India. It is believed that the Egyptian demand is now ended. Therefore if New York does not compete with the Bank of England, and especially does not withdraw gold from the Bank of England, the 6% rate will in all reasonable probability suffice, and before the end of January there is a prospect that the Bank of England may be able to put down its rate of discount to 5%. If, on the other hand, a demand for New York arises, the Bank of England will be compelled to put up its rate at once to 7%.

In Paris, as in London, there is a very hopeful feeling. Carrying-over rates at the liquidation at the beginning of the month are expected to be exceptionally high, for there is a considerable account now open for the rise. That, however, is a temporary affair, due to the usual demands for holiday-making and for the end of the month and the year. In January money will be abundant and cheap, and everybody is very confident that both at home and abroad peace will be maintained, and therefore everybody is inclined to invest.

In Berlin, likewise, there is a very hopeful feeling. Money is exceedingly scarce and dear. During this week the applications to the Imperial Bank were on an enormous scale, and it is expected that the next return will show the greatest excess of note circulation over the legal maximum that has ever been chronicled. Still the hope is general that the stringency will very soon come to an end; that in the course of January the Bank will be able to put down its rate to at least 6%, and that then business will become much more active.

Naturally the Christmas holidays and the near approach of the end of the month and of the year have made money both scarce and dear. Yet there is an inclination to lower rates somewhat. The best bankers are supporting the Bank of England in making the 6% rate effective, but a few bankers and discount houses are competing for bills in the belief that money will soon become both plentiful and cheap. The general feeling in the city, however, is against the lowering of rates, as experience has shown over and over again that any decline in rates not only checks the import of gold from abroad but encourages withdrawals from the Bank of England. Therefore it is hoped that in spite of the few unwise lenders, rates will be fairly well maintained. Early next month there will be large payments out of the Bank of England on Government account. But, on the other hand, the market is so largely indebted to the Bank that probably the additions to the supplies in the open market will not be very great; at all events will not suffice to lower rates materially for more than a very short time. As the month advances, the collections of the revenue will begin to transfer money from the open market to the Bank, and in February the Bank will have complete control of the market.

The India Council offered for tender on Wednesday 120 lacs of drafts, and the applications amounted to 700 lacs, at prices ranging from 1s. 4 3-32d. to 1s. 4 5-32d. per rupee. Applicants for bills at 1s. 4 3-32d. and for telegraphic transfers at 1s. 4 5-32d. per rupee were allotted about 17% of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years:

Messrs. Pixley & Abell write as follows under date of December 27:

GOLD.—The Bank of England is still able to buy all the gold in the open market, and has secured about £400,000 this week, as New York abstains from competition. The Bank has received, since our last, £1,039,000, of which £352,000 is in bars and £688,000 in U. S. gold and sovereigns from Paris. £505,000 has been withdrawn, of which £250,000 is for Egypt. Next week £866,000 is due from South Africa. Arrivals—South Africa, £433,000; West Africa, £83,000; Australia, £37,000; West Indies, £9,000; total, £562,000. Shipments—Gibraltar, £10,000; Bombay, £20,100 Penang, £500; total, £30,600.

SILVER.—The market remains firm and has risen 3-16d. during the week, chiefly on special buying for India. The Indian Bazaars have also been buyers, the price there being Rs. 82 per 100 Tolahs. Forward has varied between the same price as cash and 1-16d. premium. Arrivals—New York, £105,000; Straits (in coin), £165,000; China, £22,000; Australia, £2,000; total, £294,000. Shipments—Bombay, £177,100; Hobson's Bay, £51,200; total, £228,300.

MEXICAN DOLLARS.—These coin have been dealt in at about 1d. under the price of silver. £24,000 has come from New York and £35,500 has been shipped to Bombay.

The quotations for bullion are reported as follows:

Feb. 28	511,846,440	41,630,329	509,173,566	41,630,329	550,803,895
Jan. 31	509,901,690	36,864,331	506,365,749	36,864,331	543,230,080

For full explanation of the above table see the issue of Dec. 14 1901, page 1232, the first item in Financial Situation. The following shows the amount of each class of bonds held against national bank circulation and to secure public moneys in national bank depositories on December 31.

Bonds on Deposit Dec. 31 1906.	U. S. Bonds Held Dec. 31 1906 to Secure—		
	Public Deposits in Banks.	Bank Circulation.	Total Held.
2 per cents, Panama Canal	$12,868,000	$16,831,580	$29,699,580
4 per cents, Funded 1907	9,424,000	27,054,650	36,478,650
4 per cents, 1895, due 1925	5,156,250	6,432,400	11,588,650
3 per cents, 1908-1918	5,468,500	4,193,960	9,662,460
2 per cents, consols of 1930	52,414,200	496,751,250	549,165,450
3.65s Dist. of Columbia, 1924	832,000	------	832,000
State, City and Railroad bds	71,458,256	------	71,458,256
Hawaiian Islands bonds	1,579,000	------	1,579,000
Philippine Loan	7,624,000	------	7,624,000
Total on deposit Dec. 31 '06	$166,824,206	$551,263,840	$718,088,046

The foregoing does not include the bonds held in the New York Sub-Treasury against deposits in banks.

The following shows the amount of national bank notes afloat and the amount of the legal tender-deposits Dec. 1 and Jan. 1, and their increase or decrease during the month of December:

National Bank Notes—Total Afloat —		
Amount afloat Dec. 1 1906		$593,380,549
Amount issued during December	$6,272,059	
Amount retired during December	3,490,139	2,781,920
Amount of bank notes afloat Jan. 1 1907		$596,162,469
Legal-Tender Notes—		
Amount on deposit to redeem national bank notes Dec. 1 1906		$46,399,102
Amount deposited during December	$2,116,763	
Amount of bank notes redeemed in December	1,633,480	483,283
Amount on deposit to redeem national bank notes Jan. 1 1907		$46,882,385

The portion of legal tenders deposited (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation and (3) by banks reducing or retiring their circulation, was as follows on the first of each of the last five months:

Legal Tenders.	Sept. 1.	Oct. 1.	Nov. 1.	Dec. 1.	Jan. 1.
Deposits by—	$	$	$	$	$
Insolvent banks	36,113	36,113	36,113	1,323,811	1,283,376
Liquidating banks	16,787,238	16,020,156	16,276,011	16,059,871	15,671,376
Reducing under Act of 1874.*a*	28,589,792	30,077,915	29,926,692	29,015,420	29,927,633
Total	45,413,143	46,134,184	46,238,816	46,399,102	46,882,385

a Act of June 20 1874 and July 12 1882.

Auction Sales.—Among other securities the following, not regularly dealt in at the Board, were recently sold at auction: By Messrs. Adrian H. Muller & Son:

Stocks.
20 Lincoln Trust Co. 395½
30 Carnegie Trust Co. 200

Bonds.
$10,000 N. Y. City School 3½s, 1954, M. & N. 93 1-16 and int.

Bonds.
$1,776.40 Paterson, N. J., City Engineer's Cert., dated Sept. 1 1904 $100
$10,000 Bleecker St. & Fulton Ferry RR. 1st M. 4s, 1950, J. & J. 87¾

DIVIDENDS.

We have changed the method of making up our weekly list of dividends. Heretofore our record has included only the dividends announced each week, but for the convenience of our readers we now enlarge the scope of the compilation so as to show also dividends previously declared, but the date of payment of which has not yet arrived. In the new form the statement indicates all the dividends announced for the future by all large or important corporations.

☞ *Dividends announced this week are printed in italics.*

Statement of New York City Clearing-House Banks.—The following statement shows the condition of the New York City Clearing-House banks for the week ending Jan. 5. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

We omit two ciphers (00) in all cases.

Banks 00s omitted.	Capital.	Surplus.	Loans.	Specie.	Legals.	Deposits. a	Res've
	$	$	$	$	$	$	%

a Including for Boston and Philadelphia the item "due to other banks" and also Government deposits. For Boston these Government deposits amounted on Jan. 5 to $4,614,000; on Dec. 29 to $4,617,000.

Imports and Exports for the Week.—The following are the imports at New York for the week ending Jan. 5; also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

For week.	1907.	1906.	1905.	1904.
Dry Goods	$3,827,756	$3,712,594	$3,127,174	$2,848,468
General Merchandise	11,939,471	10,996,013	10,282,376	9,005,193
Total	$15,767,227	$14,708,607	$13,109,550	$11,853,661
Since January 1.				
Dry Goods	$3,827,756	$3,712,594	$3,127,174	$2,848,468
General Merchandise	11,939,471	10,996,013	10,282,376	9,005,193
Total 1 week	$15,767,227	$14,708,607	$13,409,550	$11,853,661

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Jan. 5 and from Jan. 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1907.	1906.	1905.	1904.
For the week	$11,231,310	$12,458,650	$9,225,597	$10,207,530
Previously reported	----	----	----	----
Total 1 week	$11,231,310	$12,458,650	$9,225,597	$10,207,530

The following table shows the exports and imports of specie at the port of New York for the week ending Jan. 5 and since Jan. 1 1907, and for the corresponding periods in 1906 and 1905:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1	Week.	Since Jan. 1
Great Britain	----	----	----	----
France	----	----	----	----
Germany	----	----	----	----
West Indies	$6,000	$6,000	$35,886	$34,919
Mexico	----	----	6,051	6,051
South America	----	----	54,100	52,800
All other countries	----	----	13,210	13,210
Total 1907	$6,000	$6,000	$109,247	$106,980
Total 1906	$18,000	$18,000	26,276	26,276
Total 1905	2,356,370	2,106,370	32,100	26,478
Silver.				
Great Britain	$531,434	$272,124	----	----
France	----	----	----	----
Germany	----	----	----	----
West Indies	547	547	2,861	2,806
Mexico	----	----	23,129	23,129
South America	----	----	74,394	74,391
All other countries	----	----	----	----
Total 1907	$531,981	$272,671	$100,384	$100,329
Total 1906	1,109,494	1,109,494	42,947	42,947
Total 1905	755,921	671,081	29,699	6,575

Of the above imports for the week in 1907, $37,651 were American gold coin and $2,161 American silver coin. Of the exports during the same time $6,000 were American gold coin and ------ were American silver coin.

Wall Street, Friday Night, Jan. 11 1907.

The Money Market and Financial Situation.—The security markets have been more active this week than during the holiday period. In the bond department at the Exchange during the early part of the week there was a notable increase in the volume of business, suggesting a larger investment demand, but the $3,000,000 record then made has not been maintained. Instead, the transactions have day by day grown smaller until they are only one-half to two-thirds the amount mentioned.

Evidently some of the influences affecting sentiment and operations in Wall Street are more or less at variance. Exchange rates at several interior points indicate that a return flow of currency towards this centre is well under way and the local money market is easier. Abroad, too, the financial situation has improved this week. The Bank of England reports an increase of reserve to about 40% of its liabilities, as against 33½% last week, and both the Bank of France and the Imperial Bank of Germany have materially increased their gold reserves.

At the same time the shares of certain railway companies, whose affairs are being officially or judicially investigated, have declined in value and a tendency to caution in investment circles seems to very generally prevail.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 to 15%. To-day's rates on call were 4@5½%. Prime commercial paper quoted at 6@6½% for endorsements and 6@6½% for best single names.

The Bank of England weekly statement on Thursday showed an increase in bullion of £1,371,154, and the percentage of reserve to liabilities was 39.97, against 33.50 last week.

The discount rate remains as fixed October 19 at 6%. The Bank of France shows a decrease of 7,425,000 francs in gold and 1,550,000 francs in silver.

The New York City clearing-house banks in their statement of January 5 showed a decrease in the reserve held of $402,100 and a surplus over the required reserve of $147,825, against $5,369,225 the previous week.

	1907. Jan. 5.	Differences from previous week.	1906. Jan. 6.	1905. Jan. 7.
	$	$	$	$
Capital	123,150,000	-- -- ---	116,472,700	115,972,700
Surplus	156,632,300	----------	140,809,500	135,482,500
Loans and discounts	1,049,667,500	Inc. 16,694,500	1,004,658,300	1,069,742,700
Circulation	53,664,200	Dec. 6,600	52,912,900	43,172,400
Net deposits	a1000,578,300	Inc. 19,277,200	983,742,800	1,109,168,600
Specie	172,951,400	Dec. 6,371,600	167,336,000	203,684,000
Legal tenders	77,341,000	Inc. 5,969,500	79,170,700	85,216,400
Reserve held	250,292,400	Dec. 402,100	246,506,700	288,900,400
25% of deposits	250,144,575	Inc. 4,819,300	245,935,700	277,292,150
Surplus reserve	147,825	Dec. 5,221,400	571,000	g11,608,250

a $16,401,600 United States deposits included, against $16,529,600 last week and $8,423,000 the corresponding week in 1905. With these United States deposits eliminated, the surplus reserve would be $4,248,225 on Jan. 5 and $9,501,475 on Dec. 29.

Note.—Returns of separate banks appear on the preceding page.

Foreign Exchange.—The market was lower this week, influenced by firm rates for money, by some speculative selling, and by a light demand for remittance; the tone was steadier at the close.

To-day's (Friday's) nominal rates for sterling exchange were 4 81 for sixty day and 4 85½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8050@4 8075 for long, 4 8475@4 8485 for short and 4 8555@4 8565 for cables. Commercial on banks 4 8010@4 8020 and documents for payment 4 79½@4 80½. Cotton for payment 4 79½@4 79¾ cotton for acceptance 4 8010@4 8020 and grain for payment 4 80⅜@4 80½.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 22½@5 21⅞ for long and 5 20@5 19¾*h* for short. Germany bankers' marks were 93⅞@93 15-16*d* for long and 94⅝@94 11-16*d* for short. Amsterdam bankers' guilders were 40 03@40 05 for short.

Exchange at Paris on London to-day 25f. 21c.; week's range 25 f. 21½c. high and 25f. 21c. low.

The week's range for exchange rates follows:

	Long		Short		Cables	
Sterling Actual—						
High	4 8075	@ 4 8125	4 8520	@ 4 8540	4 8620	@ 4 8635
Low	4 8045	@ 4 8050	4 8465	@ 4 8470	4 8550	@ 4 8560
Paris Bankers' Francs—						
High	5 22½	@ 5 21⅞	5 19⅜*h*	@ 5 19¾*a*		
Low	5 23⅛	@ 5 22½	5 20*h*	@ 5 19⅜*h*		
Germany Bankers' Marks—						
High	93⅞	@ 93 15-16*d*	94⅝	@ 94 11-16*d*		
Low	93¾	@ 93⅞	94 9-16	@ 94⅝		
Amsterdam Bankers' Guilders—						
High			40 03	@ 40 05		
Low			40	@ 40 1-16		

Less: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus: *k* 1-16 of 1%. *x* 1-32 of 1%. *u* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah, buying, 50c. per $1,000 discount; selling 75c. per $1,000 premium. Charleston 10c. per $1,000 premium. New Orleans bank 40c. per $1,000 discount; commercial 25c. per $1,000 premium. Chicago, par; St. Louis 10c. per $1,000 premium; San Francisco 50c. per $1,000 premium.

State and Railroad Bonds.—No sales of State bonds have been reported at the Board this week.

As noted above, the market for railway and industrial bonds was unusually active on Monday and Tuesday, but later the aggregate daily transactions are little larger than the recent average.

A few issues have been conspicuously active, including Atchison, Interborough-Metropolitan, Pennsylvania and United States Steel. Closing quotations are in many cases fractionally higher than last week.

United States Bonds.—Sales of Government bonds at the Board include $1,000 4s coup., 1907 at 100⅞, $7,000 4s reg., 1907, at 100⅞, $1,000 3s coup., 1908-18, at 103⅛, and $3,000 4s coup., 1925, at 129½. The following are the daily closing quotations; *for yearly range see third page following.*

* This is the price bid at the morning board; no *sale* was made.

Railroad and Miscellaneous Stocks.—The stock market has been more active than last week, over 1,000,000 shares having been traded in on Monday. The market was inclined to heaviness during the early part of the week, especially on Tuesday, under the influence of a 15%-call-loan rate, but prices generally recovered later on easier money market conditions. To-day, however, the market was weak, following the announcement that Pennsylvania officials will ask the stockholders to authorize a large new issue. The stock declined 4 points.

The other exceptional features have been Great Northern and Northern Pacific, which declined about 6 points and recovered feebly. Delaware & Hudson has lost a part of the advance noted last week, and Canadian Pacific is down over 5 points.

The miscellaneous and industrial list has been less erratic. Anaconda Mining has kept within a range of less than 5 points, closing near the lowest. Colorado Fuel & Iron has been relatively strong, and Steel preferred is nearly a point higher than last week.

For daily volume of business see page 96.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Outside Market.—The activity and more important price changes in outside securities this week have been confined to a few issues, the market on the whole being of an uncertain character. Tennessee Copper was unusually active and from 50 reached 55¼, ending the week at 53 ex-div. Greene Consolidated Copper rose from 32⅝ to 33½, then dropped to 30⅞, closing to-day at 31. United Copper common advanced from 74⅝ to 75¼, sank to 73, the close to-day being at 73½. Nevada-Utah moved up from 4⅛ to 5¾ and to-day eased off to 5. Trinity Copper fluctuated widely, a loss of 10 points to 30 being followed by a jump to 39. It declined finally to 30½. Boston Consolidated Copper advanced from 33 to 33⅛, but fell off to 31¼. Davis-Daly Estates sold up from 17½ to 19 and back to 17⅝. Utah Copper advanced from 35 to 37⅞, but reacted to 37. Nipissing in the beginning of the week rose from 14⅝ to 15, but weakened and to-day dropped to 13⅛, closing at 13½. Manhattan Transit and Mackay Companies issues were the leading features outside the copper shares, the former advancing from 3⅞ to 5¼ and to-day, on heavy buying, to 6⅝. The close was at 5⅜. Mackay Companies common advanced from 70⅛ to 74½ and ends the week at 73. The preferred from 67¾ rose to 71. Western Ice ran up from 24⅝ to 30¾, weakened to 27½ and closed to-day at 28. Standard Oil lost a point to 525, subsequently advancing to 538¾. American Writing Paper preferred gained about six points to 26. Havana Tobacco common sold up from 13½ to 15 and back to 14½. Mallory Steamship rose sharply from 41⅛ to 45. Great Northern rights from 21 advanced to 21½, sank to 18 and recovered finally to 20.

Outside quotations will be found on page 96.

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

ROADS.	Latest Gross Earnings. Week or Month.	Current Year.	Previous Year.	July 1 to Latest Date. Current Year.	Previous Year.

Total (39 roads)	14,365,803	13,162,829	1,357,084	154,110
Net increase (9.14%)	------	------	1,202,974	------

For the month of December the returns of 49 roads show as follows:

Month of December.	1906.	1905.	*Increase.*	%
	$	$	$	
Gross earnings (49 roads)	51,749,645	48,655,642	3,094,003	6.36

It will be seen that there is a gain on the roads reporting in the amount of $3,094,003, or 6.36%.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of Dec. 22 1906. The next will appear in the issue of Jan. 26 1907.

ANNUAL REPORTS.

Annual Reports.—All annual reports of steam railroads, street railways and miscellaneous companies which have been published during the last half of 1906 may be found by reference to the general index of the "Chronicle," the annual reports being indicated in this index by heavy-faced type.

Mobile Jackson & Kansas City RR.

(*Report for Fiscal Year ending June* 30 1906.)

Vice-President and General Manager T. F. Whittelsey, Mobile, Sept. 15 1906, says in substance:

Road and Equipment.—On June 30 1906 we were operating 401.69 miles of main line and branches, an increase during the year of 136.48 miles, which were opened for service as follows: Aug. 9, Decatur Jct. to Union, 10.75 miles; Sept. 17, Union to Ackerman, 57.99 miles; Oct. 10, Houston to Algoma, 15.30 miles; Nov. 12, Ackerman to Maben, 18.80 miles; Dec. 11, Algoma to Pontotoc, 5.30 miles; Jan. 1, Maben to Houston, 24.29 miles. New equipment received, 500 box cars 30 tons capacity. Tie renewals, 23,619, contrasting with 17,317 for the year 1904-05. Included in operating expenses for the year ended June 30 1906 were items aggregating $8,271 for new industry tracks ($14,769) and other improvements and additions.

During the year we rebuilt 31 trestles between Mobile & Merrill costing $16,128, charging the entire amount to appropriation made Sept. 1 1904 for permanent improvements. No expenses were charged to cost of road. Rail in main line June 30 1906, 50 lbs., 32.9 miles; 60 lbs., 54.5 miles; 70 lbs., 275.5 miles; branches, 60-70 lbs., 34.7 miles. During the year 5.67 miles of additional sidings were constructed, as compared with 14.11 miles during the preceding year.

Average amounts charged to maintenance of equipment for repairs and replacement of rolling stock during the year: Per locomotive, $1,409, against $811 in 1904-05; per passenger car, $764, against $478; per freight car, $30, against $26. Equipment June 30 1906: Locomotives 34, increase 1 leased; average tractive power (pounds), 19,382, increase 9%. Freight cars 1,002, increase 455, or 83%; total capacity (in tons of 2,000 pounds), 32,640; increase 14,265, or 78%.

General Results.—Gross earnings increased $406,164, or 59.9%; net earnings increased $36,546, or 13.4%; surplus over interest and taxes, $29,027; increase $10,189; average miles operated, 361.58, increase 39.6%.

On July 23 1905 yellow fever was discovered in New Orleans, and resulting quarantines in Mississippi and Alabama from July 29 to Oct. 23 seriously interfered with passenger and freight train operation. Averaging the monthly earnings for July and November, and using that average for August, September and October, I estimate that we lost $30,862 passenger and $14,158 freight revenue; total $50,001. From March 11 to April 13 1906 the line was closed at Pontotoc by court injunction, which cost an amount estimated at $10,000. Unprecedented rainfall in North Mississippi early in the year of 1905 greatly reduced the production of cotton, thereby affecting our revenues adversely.

Effort has been made to develop our new territory in Mississippi by the liberal extension of passenger and freight train service, also station service, the cost of which is reflected in the operating expenses. With equipment and facilities commensurate with the needs of the property and the growing communities through which the road extends, the earnings can be very largely increased and the percentage of expenses to earnings materially decreased.

GROWTH OF TRAFFIC AND REVENUES SINCE 1900.

Fiscal Year.	*Tons Carried.*	*Number Ton Miles.*	*Passenger Miles.*	*Gross Earnings.*	—*Rate per Mile.*— *Tons.*	*Pass.*
1900	99,218	3,220,001	774,946	$114,364	-------	-------
1901	101,844	3,528,260	954,076	140,730	-------	-------
1902	125,090	4,309,677	1,221,818	167,229	-------	-------
1903	134,702	7,060,024	2,397,020	273,980	2.50 cts.	3.59 cts
1904	267,494	12,064,794	4,581,796	528,017	3.01 cts.	2.77 cts.
1905	366,560	15,960,792	5,131,334	677,528	3.00 cts.	3.16 cts.
1906	546,208	36,156,426	7,525,103	1,083,692	2.20 cts.	2.74 cts

Note.—Of the 546,208 tons carried in 1905-06, products of forests represented 369,845 tons (increase 117,094 over 1904-05); merchandise, 62,250 tons (increase 31,377 tons); products of agriculture, 29,852 tons (increase 6,941); products of animals, 19,919 tons (increase 9,998); products of mines, 36,480 tons (increase 19,288); manufactures, 27,852 tons (decrease 5,050).

Tonopah & Goldfield Railroad.

(*Report for Fiscal Year ending June* 30 1906.)

President John W. Brock, Philadelphia, Dec. 17 1906, says in substance:

The board of directors submits the report of the operations of this company since its creation, Nov. 1 1905, by the consolidation of the Tonopah RR. Co. and the Goldfield RR. Co. The bonded debt of the constituent companies has been called in and canceled and the first mortgage bonds of your company issued to the amount of $1,150,000, secured upon a total owned mileage of 104.23 miles. There are available for the acquisition of additional property $350,000 of the total authorized mortgage of $1,500,000.

At the time of the consolidation the Goldfield RR. was in operation, showing excellent earnings, being newly constructed as a broad-gauge railroad, laid with 65-lb. rails, its motive power being identical with that purchased by the Tonopah RR. for use when the broad-gauging should be completed. On Aug. 13 1905 the first broad-gauge train reached Tonopah, the change of gauge having been made during the day. The weight of rail upon the Tonopah RR. was 50 lbs. to the yard; but your board considered it advisable to re-lay the road with 65-lb., and the necessary amount was ordered, but unfortunately the whole amount has not been received during the fiscal year.

Owing to the growth of business, your board found it necessary to order four new passenger cars, which are under construction by the Pullman Company, and 50 iron-hopper cars, which should be delivered this autumn, for the movement of ore. It has also authorized the enlargement of the station building at Tonopah, and, because of the construction of the Bullfrog Goldfield RR., has directed a number of improvements at Goldfield, including the moving of the station building to a point available for use upon the through line.

The additional tracks and sidings will consume some portion of the 50-lb. rail replaced, but a considerable quantity has been sold—some 18 miles being sold for the construction of the Silver Peak RR., which should soon be completed. Much of the narrow-gauge equipment has been sold, including the locomotives. Some few cars—freight and passenger—are still on hand.

The territory served by your company's lines is growing in importance and its population is increasing. A daily through train with Pullman car service has been established in conjunction with the Southern Pacific Co. between San Francisco and Tonopah and Goldfield. The passenger rates were reduced 20% at the close of the fiscal year. The freight traffic has gained steadily both in general merchandise and ores. The earnings of the consolidated railroad for the eight months of its operation exceeded the earnings of the Tonopah RR. for the full year ending June 30 1905.

The Bullfrog Goldfield RR. is now under construction from Goldfield southward to the Bullfrog mining district upon the same standard as to motive power, equipment and weight of rails as your company's railroad, and should be completed within a few weeks.

INCOME ACCOUNT FOR EIGHT MONTHS ENDED JUNE 30 1906.

Freight traffic	$666,153	Net earnings (as below)	$432,726

White Pass & Yukon Railway Co., Limited.

(Report for Fiscal Year ending June 30 1906.)

Secretary W. H. P. Stevens says:

During the year covered by the accounts a special resolution was passed by the holders of the 6% mortgage debentures (navigation bonds—£255,555), under which the term of such debentures has been extended from Dec. 31 1911 to Jan. 1 1930, it being provided at the same time that the company shall not redeem such debentures before the new due date, except at a premium of 5%. The only cost to the company of effecting this advantageous extension was the payment of a commission of 5% to the commercial managers for underwriting and for carrying the business through, including all expenses and legal charges connected therewith. Of this commission one-fourth has been charged against the present year's profits, the balance being chargeable by equal installments over the next three years.

The statement of earnings of the operating companies published in former reports is omitted this year.

	Tons carried, number	29,309	26,066	23,559	21,847

S. H Graves, President of the local companies, reporting for the calendar year 1905, says:

The year 1905 was marked by greater progress in the development of the mineral resources of the Yukon territory and Alaska than any previous year since the discovery of the Klondike gold fields. In Alaska the output and population of the Tanana Goldfields almost equaled that of the Klondike, and the numerous smaller mining camps along the river all showed increased activity, while many new ones sprang into existence. These camps contributed satisfactorily to our traffic, notwithstanding that they are so much more easily reached than Dawson is from the mouth of the river.

On the Canadian side of the boundary the change from hand to machine work for the recovery of the gold has made steady progress, and particular attention has been paid to dredging where the ground is suitable. We took in the material for a number of large dredges in 1905, and some of them were in such successful operation before the close of the season as to give a great stimulus to this method of gold recovery. The railway connecting Dawson with the chief mining creeks was commenced in 1905, and it is hoped may be completed and opened to traffic in 1906.

The other Canadian placer gold fields have all shown increased activity, especially Atlin, which district is now almost entirely on a machine basis with a largely increased output.

By far the most important and interesting feature in the development work of 1905 was in the Windy Arm District between Lake Bennett and Windy Arm, a peninsula about 18 miles in length and 10 to 12 in width. Silver and gold ore of great extent and running high in values have been discovered at many places in this peninsula and a large amount of work has been done on a number of these properties, demonstrating large ore bodies. An aerial tramway has been installed at one mine to carry ore down to the lake, and a number of others are contemplated. It seems probable that, should equally encouraging results be obtained in 1906, a large smelter will be built at some point on the lake, and we shall have to take active measures to put ourselves in a position to furnish adequate and satisfactory service to these mines. With this in view surveys have already been made for alternative lines from Log Cabin, and from Caribou, to the Windy Arm Mines.

Swift & Company (Packers), Chicago, Ill.

(Report for Fiscal Year ending Sept. 29 1906.)

At the annual meeting held in Chicago on Jan. 3 Treasurer L. A. Carton made the following statement:

The improvement of our plant has engaged our attention largely in the preceding 12 months, and we have done a business of considerably more than $200,000,000 during the past year. To do this amount we slaughtered 9,222,839 animals and shipped 112,760 carloads, which does not include sales from plants not requiring railroad equipment to deliver. To produce and sell these goods we expended in wages and salaries over $19,000,000. Some of the products were as follows:

Various kinds of fats, 511,756,000 lbs; 210,766,000 lbs. of fertilizer, 10,437,000 lbs. of glue, 9,600,000 lbs. of wool and 146,967,000 lbs. of hides and pelts, in addition to meat distributed to the retail trade through over 300 branch houses and upwards of 300 agencies.

As giving some idea of the extent of our business outside of the United States, our export department has given me a list of 80 countries, comprising such sections of the earth's surface as the continent of Africa and the island of Malta, and of governments controlling the area of the empire of Russia, covering over 2,000,000 square miles, to that of the kingdom of Belgium with only about 11,000 square miles, and all requiring their taste to be consulted.

During 1906 we issued $15,000,000 additional capital stock, which was paid for in cash at par (V. 82, p. 52). This brought our cash capital up to $50,000,000, all paid in at par. We paid you during the year four dividends of 1¾% each, 7%, and added 5% to our surplus—$2,500,000. That item now stands at $12,496,005, making the book value of each share of stock approximately 125. Following is the condensed financial statement of our affairs at the end of the fiscal year, Sept. 29 1906:

Operations for fiscal years ending Sept 29.

Railway Steel-Spring Company.

(Official Statement of Nov. 26 1906.)

The statement furnished to the New York Stock Exchange in connection with the listing of $4,362,000 first mortgage 5% Latrobe Plant sinking fund bonds gives the following information (compare V. 74, p. 984; V. 75, p. 80):

Said bonds are part of an authorized issue of 4,500 bonds for $1,000 each, all of which were issued, but 138 thereof have been redeemed and canceled. Secured by mortgage dated Jan. 1 1906 from the Railway Steel-Spring Co. to the Standard Trust Co. of New York, as trustee. Principal due Jan. 1 1921, but the company has the right to redeem on any interest day the whole or any part of said bonds at 105 and interest. Annual sinking fund $135,000 in cash for retirement of said bonds. The proceeds of said bonds were used to purchase from the Latrobe Steel Co. its real estate, plant and certain other property.

The said mortgage covers the following, purchased from the Latrobe Steel Co.: About 80 acres of land at Latrobe, Pa., upon which is located a thoroughly modern plant for the manufacture of steel tires (almost all of this land is subject to a restriction that the coal shall not be mined therefrom); letters patent issued by the United States and England having unexpired terms of from one to seven years; rights to patents; oil and gas leases; patent processes and inventions, trade marks, trade rights, trade names, and good-will, including the right to use the name "Latrobe Steel Co." The oil and gas leases cover about 986 acres on which are active gas wells and about 1,272 acres on which there are no wells. The acreage is all in Westmoreland County, Pa., in the neighborhood of Loyalhanna Creek; commences about 3½ miles from the company's plant at Latrobe; runs in a general northeast and southwest direction, and is connected with said plant by gas lines consisting of about 25,000 feet of 8-inch pipe, about 13,319 feet of 6-inch pipe and about 280 feet of 4-inch pipe.

The annual capacity of the Latrobe Steel plant heretofore has been 36,000 tons, and extensive improvements are now under way which will increase the said annual capacity to about 90,000 tons. Since Nov. 1 1905 the company has spent, directly and indirectly, over $500,000 on account of additions to the Latrobe plant, and authorized additions and improvements thereto (some of which are now under construction) call for a further expenditure of from $300,000 to $400,000. The average annual net earnings of said Latrobe Steel Co. at said plant during the past ten years, as shown by its books, amount to more than $500,000.

The Railway Steel-Spring Co. is engaged in the manufacture of steel springs for cars and locomotives, steel-tired car wheels, locomotives and car wheel tires, steel bars, tires and special shapes. It now owns and has in active operation the following plants:

Steel Spring Plants.			*Steel-Tired Wheel Plants.*		
Location.	*Acres.*	*Annual Cap.*	*Location.*	*Acres.*	*Annual Cap.*
Pittsburgh, Pa.,	1½	25,000 tons	Depew, N. Y.,	2.1	18,000 wheels
Philadelphia, Pa.,	1½	15,000 "	Pullman, Ill.,	2.8	20,000 "
Oswego, N. Y.,	7½	15,000 "	Hudson, N. Y.,	1.9	18,000 "
Detroit, Mich.,	4½	60,900 "	Scranton, Pa.,	4.0	6,000 "
E. St. Louis, Ill.,	7	20,000 "			
			Total,		62,000 "
Total,		135,000 "	*Tire Plant.*		
			Latrobe, Pa., abt. 80, *y*36,000 tons		

* Includes steel spring, capacity 20,000 tons; steel bar, capacity 40,000 tons. *y* Being increased to 90,000 tons.

All of the aforesaid plants are owned in fee. They are all thoroughly modern, completely equipped and free from encumbrance, except that the Latrobe plant is subject to the mortgage securing these bonds to list which this application is made. In addition to said plants the company controls the output of the steel-tired wheel plant of the Railway Steel-Spring Co., a Colorado corporation, at Denver, Col., having a capacity of 7,500 wheels.

NET EARNINGS OF THE COMPANY FROM JAN. 1 1906 TO SEPT. 30 1906 (PARTLY ESTIMATED).

Net earnings after deducting operating and general expenses	$1,641,343
Deductions—	
Preferred stock dividend (9 months) (5¼%)	708,734
Common stock dividend paid April 3 1906 (compare foot-note to balance sheet) (2%)	269,994
Interest on Latrobe Plant 5% bonds	160,793
Total deductions	$1,139,521
Balance, surplus, for nine months	$501,822
Charged off for special expenses in connection with acquisition of Latrobe plant	450,000
Balance	$51,822

BALANCE SHEET SEPT. 30 1906 (PARTLY ESTIMATED)

*On Oct. 20 1906 a dividend of 2% on the common stock was paid. This payment amounted to $269,991 and was made out of the above surplus.

"Oct. 1 not being one of the company's regular inventory periods, the figures for the above balance sheet and the earnings are partly estimated."—V. 83, p. 1474, 1417.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Alexander & Eastern Ry.—*New Name.*—This line was formerly the Alexander & Rich Mountain Railway.—V. 77, p. 509.

Alexander & Rich Mountain Ry.—*New Name.*—This line is now the Alexander & Eastern Railway.—V. 77, p. 509.

Atchison Topeka & Santa Fe Ry.—*Interest in Consolidated Company.*—See Northwestern Pacific RR. below.—V. 84, p. 50.

Atlantic Coast Line RR.—*Sale.*—See Macon Dublin & Savannah RR. below.—V. 84, p. 50.

Aurora Elgin & Chicago RR.—*Bonds Offered.*—Edward V. Kane & Co., North American Building, Philadelphia, are offering at 95 and interest $250,000 first and refunding 5s, due 1946.

Earnings.—The said bankers report for the year ending Oct. 31 1906:

Gross earnings	$1,227,211	Interest on underlying bds.	$250,000
Operating expenses	674,169	Int. on 1st & refunding 5s	50,000
Net earnings	$553,042	Sulplus	$253,042

—V. 83, p. 490, 212.

Bennington & Hoosick Valley (Electric) Ry.—*Change in Control—Merger.*—This company, which recently passed under the control of the Consolidated Railway Co. (New York New Haven & Hartford), was on Jan. 9 consolidated with the Bennington & North Adams Electric RR. Co. The capital stock of the new company is $650,000, in shares of $100 each. Charles S. Mellen is President. Franchises, it is said, have been acquired for an extension to Troy, N. Y.—V. 75, p. 1398.

Boston Elevated Ry.—*Report.*—The results for the year ending Sept. 30 were:

Year.	Gross. $	Net. $	Oth. inc. $	Charges. $	Div.(6%) $	Bal., sur. $
1905-06	13,527,186	4,220,235	107,127	3,475,883	798,000	53,779
1904-05	12,689,676	4,072,023	51,893	3,288,831	798,000	37,085

—V. 83, p. 1590.

Boston & Maine RR.—*Notes Sold.*—The company has arranged to sell to a syndicate consisting of Kidder, Peabody & Co., R. L. Day & Co., Estabrook & Co. and F. S. Moseley & Co. $3,000,000 of one-year notes, $1,000,000 of which, dated Jan. 15, are being offered on a 5% basis. Of the remainder, $1,000,000 will be dated Feb. 1 and $1,000,000 March 1. The notes will probably bear 5% interest, although the rate has not been definitely determined.—V. 83, p. 1098.

Boston & Worcester Electric Companies.—*Report.*—The report of this company, which holds all except $100 of the $1,725,000 stock of the Boston & Worcester Street Ry. Co., is as follows for the year ending Sept. 30:

Fiscal Year—	Receipts Divid's.	Other.	Total.	Pfd. Div. $4 per sh.	Misc. Exp.	Bal., Sur.
1905-06	$103,494	$10,979	$114,473	$111,744	$2,632	$97
1904-05	103,488	4,555	108,043	105,744	2,256	43

Earnings of Boston & Worcester Street Ry.

Year—	Gross.	Net.	Interest.	Taxes.	Dividend.	Bal., Sur.
1905-06	$514,465	$245,073	$95,032	$37,643	(6%) $103,500	$8,898
1904-05	453,905	218,710	80,525	33,123	(6%) 103,491	1,568

Capitalization of Boston & Worcester Electric Companies, 33,936 preferred shares and 34,614 common shares; no debts of any kind; profit and loss surplus $2,182. Assets, $2,182 cash and $600,000 of the notes and 17,249 shares of the stock of the Boston & Worcester Street Ry.—V. 83, p. 1227.

Brooklyn Heights RR.—*To Guarantee Bonds.*—Brooklyn Union Elevated 4-5% bonds and Kings County Elevated 4% bonds will be guaranteed on two days in each month in 1907 by the Brooklyn Heights RR. Co. at 85 Clinton St., Brooklyn, N. Y., between 9 a. m. and 12 m. as follows:

January	16 and 30	May	16 and 30	September	16 and 30
February	15 and 28	June	15 and 29	October	16 and 30
March	15 and 29	July	16 and 30	November	15 and 29
April	16 and 30	August	16 and 30	December	16 and 30

—V. 81, p. 1722.

Brooklyn Rapid Transit Co.—*Ten-Cent Fare to Coney Island Held Legal.*—The New York Court of Appeals on Tuesday, in the test case begun last summer, sustained the right of the company to charge a double (10-cent) fare over its lines to Coney Island. The decision was unanimous, Judge Haight writing the opinion. Compare V. 83, p. 379, 434.

Briefly stated, the Court finds that the defendant was incorporated as a street surface railroad, and in case it leases or operates any other street surface railroads within the city limits, it must, under the provisions of Sections 101 and 104 of the railroad law, which apply to street railroads alone, furnish transportation over each crossed connecting road for one fare. Under the general railroad law, the Court says, the defendant, however, was authorized to lease and operate the elevated and steam surface roads which it owns as a part of its through line to Coney Island and is entitled to all of the privileges and benefits authorized by their charters, one of these being the right to charge three cents per mile over the former steam roads so taken over. The fact that rapid transit roads are equipped with electric power and electricity substituted, it is held, does not affect the question of fare, as such change may be made under general law upon compliance with the requirements of the statute.—V. 83, p. 1122, 1008.

California Northwestern Ry.—*Merger.*—See Northwestern Pacific RR. below.—V. 83, p. 271.

California Street Cable RR., San Francisco.—*Opposition to Sale.*—A committee consisting of Edmund Tauszky and John B. Casserly has addressed a communication to the stockholders advising against the sale of stock on the terms offered by the United Railroads, namely, for each $100 share $25 cash and $125 in 4% notes, payable in ten annual installments. The total issue of stock is $1,000,000. Resolutions against the sale adopted by the shareholders at a meeting on Dec. 19 say in part:

The road and machinery have been restored without assessment, although we failed to collect $45,000 insurance. Along the line buildings are rapidly being erected. When we receive the balance of our cars, we shall be doing as good business as previous to April 18 1906. Our treasury is in good condition. The receipts since we started, Aug. 18, with four cars, have been $101,634. The price offered us is not one-half of the value of the property.—V. 82, p. 279.

Canada Atlantic Railway.—*To Guarantee Bonds.*—This company, controlled by the Grand Trunk Ry., has called a meeting of the shareholders for Feb. 7 to vote on—

Approving of an agreement entered into with the Pembroke Southern Railway Co., S. R. Poulin, *et al*, bearing date Feb. 16 1906 and authorizing the directors of the company to guarantee the payment of the principal and interest of the first mortgage bonds to be issued by the Pembroke Southern Railway Co. in accordance with the provisions of the said agreement. Compare V. 82, p. 451, 1101.

Canon City Florence & Royal Gorge Interurban Electric RR.—*Receivership.*—At Canon City, Colo., on Jan. 3, Judge Bailey in the District Court, on application of C. C. Durkee, a creditor, appointed ex-Governor James H. Peabody as receiver of the property. Frank D. Heath, President of the Great Western Coal Co., recently purchased an interest in the property from Vice-President and General Manager F. S. Granger, and the receivership, it is asserted, was precipitated by a controversy between these men and their associates. At last accounts 10 miles of the line were completed but not in operation. Compare V. 82, p. 1268.

Cape Breton Coal, Iron & Ry.—*Default.*—The interest due Jan. 1 on the $500,000 bonds remains unpaid. A plan of consolidation with other properties is said to be pending. See V. 79, p. 2794.

Chicago Indianapolis & Louisville Ry.—*Listed.*—The New York Stock Exchange has listed $58,000 additional refunding mortgage 5% bonds of 1947, making the total amount listed $5,000,000.—V. 83, p. 1347.

Chicago Milwaukee & St. Paul Ry.—*Circular as to Fractional Rights.*—The circular, sent to the shareholders on Jan. 4 regarding the cash payment which will be made to the stockholders on account of fractional rights to subscribe to the new stock, says:

The executive committee has adopted the following plan providing for the fractional shares of each stockholder: The company will find the total amount of the fractional shares and will issue preferred and common stock for the same and sell this preferred and common stock at auction. From the amount thus realized they will deduct $100 a share, as being the amount due the company, and will divide the balance between the fractional shareholders in proportion to their holdings on Dec. 19 1906. A check will be mailed to each fractional holder for the amount to which he is entitled. This plan will be carried out as soon as the company is able to do so.—V. 84, p. 50.

Chicago Rock Island & Pacific Ry.—*New Trustees.*—The Bankers' Trust Co. of New York and Benjamin Strong Jr. have been appointed trustees under the general mortgage dated Jan. 1 1898, succeeding the Central Trust Co. of New York and George Sherman. The appointment of Mr. Strong will take effect on March 1 next.—V. 83, p. 1590, 1227.

Cincinnati Hamilton & Dayton Ry.—*January Interest Paid Without Issue of Receivers' Certificates.*—Judson Harmon, Receiver, Jan. 4 1907, replying to our inquiry, says:

No certificates were issued for the purpose of raising funds to pay the interest due Jan. 1 1907, by the C. H. & D. and Pere Marquette railroads. The interest obligations of both roads due on that date were paid by the Receiver out of the net earnings. The receivers' certificates dated Jan. 1 1906, which matured Jan. 1 1907, were extended until July 1 1907 at 6%.—V. 83, p. 1033, 969.

Cleveland Electric Ry.—*Decision by United States Supreme Court.*—The United States Supreme Court on Monday affirmed the decision of Judge Tayler in the United States Circuit Court in April last (V. 80, p. 1970; V. 81, p. 1817), holding that the franchises of the company in Central Avenue S. E., Quincy Avenue S. E. and East 9th Street expired March 22 1905 and do not run until 1911 as claimed by the company. The Court also confirmed Judge Tayler's ruling that the franchise granted on these streets to the Forest City Ry. is void, it having been designated as an extension of the franchise of the Cleveland Electric Ry., which had already expired. The decision disposes of the contention of the counsel of the Cleveland Electric Ry. that the City Council had, intentionally or otherwise, extended the franchises of various of the company's lines to July 13 1913, but does not in any other respect remove the cloud from any of the franchises granted to the Forest City Ry. whose validity is disputed on similar grounds. All of the latter's franchises are, moreover, involved in the "personal interest" suit, which will be heard by Judge Phillips on Jan. 21. President Andrews, at a public meeting on Thursday, offered to operate the Central and Quincy Avenue lines at cost and charge a 3-cent fare pending the submission of another offer. Compare V. 83, p. 1169.

New Companies.—See Cleveland Tramway and Low Fare railways below.

Reduced Fares.—The company began on Dec. 31 the sale of seven tickets for a quarter on all lines, with two transfers on all cross-town lines. President Andrews says the new arrangement will be given a thorough test in order to demonstrate the fairness of the proposition recently made to the City Council.—V. 83, p. 1469.

Cleveland Tramways Co.—*New Company.*—This company was incorporated on Oct. 9 last, with $50,000 capital stock, by interests identified with the Cleveland Electric Ry. The company, it is thought, may bid on the Central and Quincy avenue and other franchises held by the Cleveland Electric Ry., which, under the recent decision of the United States Supreme Court, have already expired or will terminate from time to time within a few years. Harry J. Crawford is President. See Cleveland Electric Ry. above.

Consolidated Railway., Connecticut.—*Acquisition.*—See Bennington & Hoosick Valley Ry. above.—V. 83, p. 1523.

Erie RR.—*Sale of Notes.*—The "Boston News Bureau" of Jan. 9 says:

F. S. Moseley & Co. have purchased $1,000,000 five and six months 6% notes of the Erie RR. and are offering them at par and interest. The notes are dated $500,000 Dec. 1 1906, $500,000 Jan. 2 1907, and mature June 1 1907 and July 1 1907. They are the last allotment of the issue which J. P. Morgan & Co. took some months ago.

The same firm was reported in December last as offering $1,000,000 6% notes of the Erie due April 1907, to net about 6½%.—V. 83, p. 1590, 1228.

Forest City Ry. of Cleveland.—*Decision of United States Supreme Court.*—See Cleveland Electric Ry. above.

New Companies.—See Cleveland Tramway and Low Fare railways below.—V. 83, p. 1469.

Great Northern Ry.—*Again Postponed.*—In the absence of a decision in the Minnesota injunction case, the company has again postponed the closing of the transfer books for the purposes of the new issue of stock and the time limit for the filing of subscriptions, this time until 3 p. m. Jan. 15. The time for filing assignments has been postponed until 3 p. m. Jan. 18 and the time for making the first payment has been postponed until Jan. 21.—V. 84, p. 51.

Gulf & Chicago Ry.—*Purchase of Coupons.*—As forecasted last week, certain persons interested as stockholders and bondholders of the Gulf & Chicago and Mobile Jackson & Kansas City have agreed to purchase the coupons on the Gulf & Chicago bonds which matured Jan. 1, and payment is being made on presentation at the office of the company, 5 Nassau St.

Report.—See report of Mobile Jackson & Kansas City Ry. on a preceding page.—V. 84, p. 51.

Hartford & Springfield Street Ry.—*Offering of Guaranteed Bonds.*—See Rockville Broadbrook & East Windsor Street Ry. below.—V. 83, p. 213.

Illinois Central RR.—*Purchase of Stock.*—See Union Pacific RR. below.—V. 84, p. 51.

Kansas City Mexico & Orient Ry.—*Sale of Bonds—Status of Enterprise.*—A dinner, attended by 450 business men of Kansas City and vicinity, was given in Kansas City on Jan. 2 for the purpose of making known the present status of the enterprise and the great benefits to accrue to the city by the completion of the road. At or before the dinner subscriptions were obtained for about $370,000 of a block of $1,500,000 first mortgage bonds, which it was desired to sell in order to provide for the early opening of the line from Kansas City to San Angelo, Tex., a distance of 711 miles, of which temporarily 114 miles from Kansas City to Emporia would be trackage over the road of some other company.

President Stilwell in a speech said in substance:

As the Kansas City Southern brought the Gulf ports close to Kansas City, so will the Kansas City Mexico & Orient bring the Pacific coast close to Kansas City. The Orient crosses the country diagonally, crossing every railroad in the southwest territory and in Mexico at right angles, making every one of these lines feeders to the Orient railroad. The proposed railroad does not cross a mile of desert. All other railroads to the Pacific coast traverse between 500 and 600 miles of desert. (Compare V. 83, p. 1411).

Fourteen million dollars has been put into the railroad, and there is not one dollar of Wall Street money in the whole amount.

We hope to have trains in operation from Kansas City to San Angelo, 711 miles, by October of this year. To do this it is necessary to raise $1,500,000. I am proud of the fact that with but one or two exceptions every man in Kansas City, St. Louis, Holland and England who invested with me in the Kansas City Southern is with me in the Orient. It has been our habit to pay as we go on the Orient. We have paid for every foot of track that is now in use, and our bonded debt on the entire system does not amount to more than $1,000,000. We want this money now so that we can place orders for the necessary material to finish the line from Emporia to San Angelo.

The invitation to attend the dinner was accompanied by a letter written under date of Dec. 15 by J. T. Odell, formerly General Manager of the Northern Pacific. This letter speaks confidently of the probable earning capacity of the road, the writer basing his opinion on the exceptional fertility of the soil in eastern Kansas, Oklahoma and a portion of Texas, and the prospect for a considerable tonnage of ore and lumber from the Mexican mining and timber districts. Mr. Odell says in part:

The construction now stands as follows: There are about 200 miles completed and in operation from Wichita—south into Oklahoma, and from Sweetwater, Tex., east to Knox City, a distance of 78 miles, the road is in successful operation. The gap between the Texas and Kansas lines is 162 miles, all of which is graded, and 40 miles of rails on the ground. The line is also practically graded from El Dorado to Emporia, Kan., a distance of 63 miles; and from Sweetwater to San Angelo, Tex., a distance of 77 miles.

As there are no bonds of any account out at this time, and practically no floating debt, it is proposed to sell $1,500,000 bonds in addition to the $500,000 recently sold (but the proceeds not yet used), making a total at present of $2,000,000, and with this money finish up the pieces above mentioned which will give a continuous line of 597 miles; then take trackage temporarily over some existing line between Kansas City and Emporia, about 114 miles, which would give a line of 711 miles in length in the United States.

In the Republic of Mexico the line is completed east of Chihuahua for a distance of 80 miles and from Minaca (which is the western terminus of the Chihuahua & Pac. RR., 125 miles in length, leased), the line is completed and in operation for a distance of 63 miles; from the west coast toward the Sierra Madre Mountains there are 76 miles in operation and grading is going ahead, as it is also on the line west of Minaca.

There should, therefore, be in operation during 1907 775 miles owned and about 275 miles leased, or a total of 1,050 miles, with, say, only $2,000,000 bonds out, the interest on which is now about one-half earned on 278 miles of disconnected road, and before the proceeds of the sale of the bonds are available. The disconnected sections, operated necessarily in a temporary way, show earnings to-day equal to one-third of the gross earnings per mile as shown in the estimate of completed road. This will hold good on all the completed road in the United States, and is evidence enough that the full estimate will be met when the line is finished and equipped.

[The company is authorized to issue per mile of constructed road $20,000 each of common and preferred stock and $22,500 first mortgage 4% bonds, with $2,500,000 additional bonds available for heavy work in the Sierra Madre Mountains. The money for construction has heretofore come chiefly from sale of stock of the construction companies, viz., the Union Construction Co. (authorized capital stock $3,000,000; V. 75, p. 1258; V. 77, p. 513), which took the contract for building the 420 miles from Kansas City westerly, and the International Construction Co. (V. 75, p. 1257; V. 77, p. 251, 513; V. 79, p. 2460), which is building the remainder of the line to the Pacific coast. These companies were to receive per mile of completed road $12,500 common stock and $16,000 preferred stock and an amount of first mortgage bonds which, in the case of the Union Company, was $15,000 per mile (without equipment), and in the case of the International $18,000 (including $2,000 per mile of equipment), and an additional $2,500,000 for heavy work in the Sierra Madre Mountains. The bonds held by the construction companies presumably for the time being bear no interest, and therefore are not considered outstanding.—Ed.] Compare V. 75, p. 1253; V. 83, p. 1411.

Lehigh Valley RR.—*Movement to Obtain Larger Dividends.* Joseph Walker Jr. and Jacob Halsted announce:

At the request of a number of stockholders, but not in opposition to the operating management of the company, we have instituted a movement to secure proxies for the purpose of obtaining a better recognition of the rights of such stockholders as are in favor of having this stock listed on the New York Stock Exchange, and also in favor of a larger distribution of profits, which it is apparent from the earnings of the company the stockholders should receive. Shareholders are invited to send their proxies, for use at the annual meeting in Philadelphia on Jan. 15, to the undersigned, in care of Joseph Walker & Sons, 20 Broad St., New York City. A proxy given to the present management can be revoked by the execution, to the undersigned, of one of later date.

Joseph Walker & Sons recently issued an exhaustive circular regarding the company.—V. 83, p. 1524.

Louisville & Nashville RR.—*Increase in Other Income.*—See Nashville Chattanooga & St. Louis Ry. below.—V. 83, p. 1037, 818.

Low Fare Ry. of Cleveland.—*New Company.*—This company was incorporated on Dec. 22 1906, with $250,000 authorized stock (to be increased later), by the Johnson interests, to take over recent 3-cent-fare franchises granted by the City Council, and, it is thought, become successor to the Forest City Ry. in the event of the decision in the "financial interest" case being adverse to that company (see V. 83, p. 1469). The City Council on Dec. 31 passed an ordinance, by unanimous vote, granting the new company franchises over a number of streets extending from East 14th Street to the West Side. The President is Carlos E. Moore and the Vice-President W. B. Colver, who is also Secretary of the Municipal Traction Co., the lessor of the Forest City Ry.

Macon Dublin & Savannah RR.—*Change in Control.*—The control of this company, which was acquired in 1904 by the Atlantic Coast Line interests, it is announced, has been purchased by or in the interest of the Seaboard Air Line Ry. The line extends from Macon to Vidalia, Ga., 92 miles. A new first mortgage for $1,880,000 (one account says $1,804,000) was recently authorized, replacing, it is supposed, the $1,380,000 old first 5s and $500,000 second mortgage 5s. There is also outstanding $2,040,000 of capital stock. Alfred Walter, President of the Seaboard Air Line, has been elected President.—V. 84, p. 51.

Manila Electric Railroad & Lighting Corporation.—*Earnings.*—Messrs. J. G. White & Co. of this city, who are the managers and engineers of this property, report gross earnings for the late calendar year of $909,080 and net earnings of $444,457. These figures are for the combined railway, lighting and trucking departments.—V. 83, p. 1229.

Milwaukee Electric Railway & Light Co.—*New Stock for Extensions and Additions.*—A meeting of the shareholders has been called for Jan. 21 to vote on increasing the common stock from its present authorized limit of $15,000,000 ($9,000,000 outstanding) to an amount to be determined at the meeting. An official statement says:

Additional capital must be provided in the near future for the extension of the company's railway lines within the limits of the city; for the construction of new power-generating stations or additions to its exsting stations; for the construction of car houses, machine shops and other purposes required to meet the growing business of the company. The board of directors deem it wise at this time to make comprehensive provision not only for the immediate requirements of the company, but for all that may be reasonably anticipated during a long period of years, and consider that such provision (in addition to the refunding and extension mortgage bond issue heretofore authorized) should be made through increased issues of common capital stock.

New Bonds and Stock for Subsidiary.—See Milwaukee Light Heat & Traction Co. below.—V. 82, p. 100.

Milwaukee Light, Heat & Traction Co.—*New Stock and Bonds.*—In view of the plans of the management for further extensions and the acquisition of other properties, the shareholders are notified that at the annual meeting to be held on Jan. 21 they will be asked to vote on authorizing a new issue of "refunding and extension mortgage" bonds to such an amount as may be determined at the meeting, and also on increasing the capital stock, now unclassified, either by the addition of new common stock or common and preferred. —V. 80, p. 872.

Mobile Jackson & Kansas City RR.—*Report.*—See "Annual Reports" on a preceding page.

Purchase of Coupons on Leased Line Bonds.—See Gulf & Chicago Ry. above.—V. 84, p. 51.

Nashville Chattanooga & St. Louis Ry.—*Dividend Increased.*—The directors on Jan. 8 declared a semi-annual dividend of 3% on the capital stock, payable Feb. 1 to stockholders of record Jan. 21. This increases the annual rate to 6%, contrasting with—

DIVID'DS Since '88.-%	'89 to '92.	1893.	1894.	'95 to '98.	'99 to '03.	1904.	1905.	1906.
	5 yearly.	3½	3½	4 yearly.	None.	4	5	5

Of the $10,000,000 capital stock, $7,177,600 is owned by the Louisville & Nashville RR.—V. 83, p. 815.

New York New Haven & Hartford RR.—*Notes.*—In reply to our inquiry regarding the published report of its recent purchase of notes of the company additional to those taken by other firms and institutions, as mentioned in this column, the Rhode Island Hospital Trust Co. of Providence, on Jan. 4, writes:

Your inquiry doubtless refers to an item published which is somewhat misleading. This company has taken for itself and its customers several of the notes of this corporation (N. Y. N. H. & H. R. R. Co.), but not to the extent of even $1,000,000, much less $3,000,000.

A press report from New Haven states that the recent issue of notes has been made in anticipation of the payments due on the $30,000,000 3½% convertible debentures offered to stockholders of record Dec. 31 1905, on the subscriptions to which the final installments of 25% each will not be due until July 1 1907 and April 1 1908, respectively. Compare V. 84, p. 52; V. 83, p. 1591.

New Issue of Notes Offered.—Hornblower & Weeks, Boston and New York, and Lee, Higginson & Co., Boston, have purchased and are offering $10,000,000 5% notes, of which $5,000,000 mature in four and $5,000,000 in five years, without option of earlier redemption. Interest payable Jan. 9 and July 9. Coupon notes in denominations of $5,000, $10,000, $25,000 and $50,000 each. The 5-year bonds are offered at 102 and the 4-year bonds at 101⅝, both with interest added to date of delivery, netting investors about 4.55 per cent.

The same firms recently offered $7,000,000 of 5% notes, one-half maturing Jan. 9 1910 and one-half Jan. 9 1912, making $17,000,000 in all purchased by the firms named, in addition to which $6,000,000 or more were sold to other parties late in 1906. The proceeds of these notes will, it is understood, provide for the company's capital requirements for some time to come. Compare V. 84, p. 52; V. 83, p. 1591.

Purchase of Real Estate.—See Massachusetts Gas Companies under "Industrials" below.

Trolley Acquisition.—See Bennington & Hoosick Valley (Electric) Ry. above.

Holders of 3½% Convertible Bonds to Be Permitted to Subscribe to New Stock Issues.—It is officially announced that in future opportunity will be given to holders of the $30,000,000 3½% convertible bonds of 1906 to share with the stockholders in the right to subscribe to any new stock issues, each $150 of debentures to be treated as a share of stock. By their terms these debentures will be convertible into stock at option of the respective holders between Jan. 1 1911 and Jan. 1 1916, $150 in debentures for $100 of stock.—V. 84, p. 52.

Norfolk & Portsmouth Traction Co.—*Listed in Philadelphia.*—The Philadelphia Stock Exchange has listed $1,150,000 additional first mortgage 5% gold bonds, making the total amount listed $3,150,000.—V. 83, p. 1171.

Northern Central Ry.—*Listing.*—The New York Stock Exchange has authorized the listing on and after Jan. 15 of $2,149,200 additional capital stock, making total amount listed $19,342,600. See V. 83, p. 1471.

Earnings for 11 months ending November 30.

Gross	$10,662,453	Total net income	$3,024,602
Net	2,362,716	Charges	952,286
Other income	661,886	Semi-an dividend (4%)	687,734
Surplus for 11 months over one semi-annual dividend of 4%			$1,384,582

Compare V. 83, p. 1471.

Northern Pacific RR. (Foreclosed).—*Notice to Holders of Unassented Stock.*—The committee representing the old stock which did not assent to the last reorganization plan, has decided that after Jan. 21 1907 no further deposits of stock shall be received by the Fidelity Trust Co., Philadelphia. See V. 83, p. 1412.

Northern Pacific Ry.—*New Stock Issue Approved.*—The shareholders on Jan. 7 ratified the proposition to increase the capital stock from $155,000,000 to $250,000,000.—V. 83, p. 1471, 1524.

Northern Securities Co.—*Report.*—A circular signed by President Hill shows:

North Shore RR. (California).—*Merger.*—See Northwestern Pacific RR. below.—V. 83, p. 156.

Northwestern Pacific RR.—*Consolidation.*—This company was incorporated on Dec. 31 under the laws of California with $35,000,000 capital stock and nine directors, five of whom are officials of the Southern Pacific and four officials of the Atchison Topeka & Santa Fe, to take over by consolidation or otherwise the following roads:

California Northwestern Ry. (V. 83, p. 271), San Francisco & North Pacific Ry. (V. 83, p. 1169), the North Shore RR. (V. 83, p. 156), the Eureka & Klamath River RR. Co., the Fort Bragg & Southeastern RR. and the San Francisco & Northwestern RR. Co. (V. 77, p. 512.)

The report of the Southern Pacific, which was published in the "Chronicle" Dec. 22 1906, shows (page 1539) that that company on June 30 1906 owned all or nearly all the capital stock of the foregong companies except the Fort Bragg & Southeastern and San Francisco & Northwestern, which were Atchison properties. Directors of new company:

E. E. Calvin, Vice-President and General Manager of the Southern Pacific; William F. Herrin, head of the law department of the Southern Pacific; N. T. Smith, Treasurer of the Southern Pacific, and Peter F. Dunne, Chief Counsel of the Southern Pacific; A. H. Payson, Assistant to the President of the Atchison; E. S. Pillsbury, Counsel for the Atchison; W. A. Bissell, Assistant Traffic Manager of the Atchison, and Edward Chambers, Assistant Freight Traffic Manager of the Atchison. All these men have their offices in San Francisco.

Overton County (Tenn.) RR.—*New Control.*—The Chicago interests that supplied the money for building the road, it is stated, have taken over the control of the company. George L. Wilkins of Chicago has been elected President, vice H. E. Overstreet, who resigned as President, having severed his connection with the enterprise. The other officers, including Vice-President and General Manager, H. E. Speyer of Chicago; Treasurer, Secretary and General Counsel, E. C. Knight of Livingston, are unchanged.—V. 83, p. 626.

Pennsylvania RR.—*Listing.*—The New York Stock Exchange has authorized the listing from time to time prior to July 1 1907 of $1,694,400 additional capital stock on notification that it has been issued in exchange for the common, first preferred and second preferred stocks of the Cumberland Valley RR. Co., making total amount authorized to be listed $307,627,700.

Earnings for Year Ending June 30 1906

Gross earnings	$141,752,621	Total net income	$57,443,687
Net earnings	44,808,238	Charges	34,821,622
Other income	12,635,449	Dividends (6%)	18,242,069
Balance, surplus for year			$4,379,996

Offer of Exchange.—See Philadelphia & Erie RR. below.

New Securities.—The shareholders will vote at the annual meeting on March 12 on "an increase of the capital stock of the company, and an increase of the bonded indebtedness, such increase of either to be made from time to time when and as in the judgment of the directors it may be required by the corporate needs of the company." Referring to this announcement, an official statement given out Thursday evening, says:

Notice will appear in the newspapers to-morrow morning calling the annual meeting of the stockholders for March 12 1907, and stating that the management will then ask the shareholders to authorize an increase in the capitalization of the company. Although the exact amount has not yet been determined, it is likely that the proposed increase will be requested in the form of $100,000,000 in capital stock and $100,000,000 in bonds, to be issued in such amounts and at such times as the needs of the company require. The amount of capital stock already issued, with that reserved for the conversion of the outstanding convertible bonds, very nearly approaches the full sum now authorized. Therefore, while it may not be necessary to issue any part of the proposed new stock or bonds during the current year, yet the company desires to have authority from its shareholders to make such issue when circumstances so require. The laws of the State of Pennsylvania provide that capital increases shall first be authorized by a majority of the shareholders, and the most appropriate and convenient way for a company of the size of the Pennsylvania RR. Co., which has over 40,000 stockholders, to obtain such necessary authority is at the annual meeting, of which notice is given to the stockholders, and such has been the custom of the Pennsylvania RR. Co. in the past.

Last June, when announcing the French loan of $50,000,000, obtained on notes of the Pennsylvania *Company*, President Cassatt stated that the proceeds were to be used to pay for 33,000 steel cars and 313 locomotives, which were being constructed at a cost of $42,000,000, and to complete a water-supply system. At the same time, speaking of future requirements, Mr. Cassatt said (V. 82, p. 1439):

The improvements now authorized and under contract include all the heavy work at present contemplated, with the exception of the additional relief lines referred to in the last annual report, and it will not be necessary to proceed with these for several years, except to secure the right of way, which is now being done. The company will not, therefore, as far as can now be foreseen, have to meet any large capital requirements for some years beyond what will be necessary to pay off the $50,000,000 of notes maturing Nov. 1 1907, and to provide the money needed after the close of this year to complete the New York terminal. This expenditure, which will be spread over the years 1907 and 1908, is estimated at $40,000,000.

A representative of the Pennsylvania is quoted as saying that Mr. Cassatt could not have foreseen when he made this statement the recent great increase in the company's business, on account of which the company has recently been obliged to contract for 17,000 additional cars to cost about $19,000,000. It is thought by some that the stockholders will authorize a new issue of convertible bonds, the additional stock to be held to provide for the convertible feature.

Mr. Frick's Holding.—"A close friend" of H. C. Frick is quoted as saying that Mr. Frick owns 168,000 shares (par value $8,400,000) of the company's stock, not 60,000 shares (par $3,000,000) as recently reported.—V. 84, p. 52.

Peoria & Pekin Terminal Co.—*Foreclosure.*—Judge Humphrey, in the United States Circuit Court at Springfield, Ill., on Jan. 3 ordered the sale of the road in foreclosure. The company will have ten days in which to pay the amount due after the date of the sale has been fixed. The upset price was fixed at $600,000.—V. 83, p. 1291, 1171.

Philadelphia & Erie RR.—*Offer for Minority Stock.*—The Pennsylvania RR., it is said, contemplates offering its own stock, dollar for dollar, for the minority common stock. On Dec. 31 1905 the Pennsylvania owned $3,499,800 of the

$7,985,000 common stock and all of the special 7% stock.—V. 82, p. 925.

Railroad Securities Co.—*Sale of Stock.*—See Union Pacific RR. below.—V. 83, p. 1037.

Rock Island Southern RR.—*Bonds Offered.*—The $400,000 first mortgage 5% gold bonds offered at 98 and interest by Mason, Lewis & Co., Chicago, Philadelphia and Boston (V. 84, p. 52), are the outstanding portion of an issue limited to $2,500,000, dated Jan. 1 1907 and due Jan. 1 1947, but optional after five years at 105 and interest. "The trust deed provides that additional bonds may be issued only for 60% of the cost of the property during construction and 25%, or a total of 85%, when the net earnings from operation equal one and one-half times the interest charges on the bonds issued and to be issued." Capital stock authorized, $3,000,000; issued, $500,000.

Abstract of Letter from President M. A. Walsh, Monmouth, Ill., Dec. 1 1906,

The line has been practically completed from Monmouth to Galesburg, and in operation since the first of June for passengers and will be ready for freight before Jan. 1 1907, putting Santa Fe freight into Monmouth and the Iowa Central freight in and out of Galesburg. The surveys are practically completed to Rock Island and contracts for construction will be let the first of the year; the road, well equipped for steam and electric power, to be completed and in operation during 1907. We now operate 18½ miles of main track, of which 2½ miles are leased, and in addition we own 9,500 feet of siding and spurs connecting with other railroads. The extension to Rock Island will add about 60 miles. Between Monmouth and Galesburg the company owns its own private right of way, 66 feet in width. At Monmouth the company has the only franchise for electric street railway. This franchise is for 20 years, and very liberal, permitting transportation of freight; with the exception of about ¾ mile, the track is now laid and in operation. At Galesburg the passengers, express and baggage are carried into the city, 2½ miles, by virtue of a 25-year contract with the People's Traction Co. at 2½ cents per passenger, including baggage, and 2% of the gross collected for express. The People's Company's power is included in compensation. The freight terminals in both Monmouth and Galesburg will be operated by steam power and upon private right of way.

The line is laid with 75-lb. steel rails upon white oak ties, 2,640 to the mile; ballasting with gravel nearing completion; maximum grade, ½%. The power house is situated at Cameron and contains two 400 K. W. General Electric Co. generators, each with a capacity of 600 H. P. Both passenger and freight cars are equipped with four 60 H. P. Westinghouse motors, geared to fifty miles; the present steam equipment consists of one locomotive and five freight cars. Population served: Galesburg, 31,000; Monmouth, 10,500; Cameron, 500; interurban population, 1,750; total, 43,750.

The extension to Rock Island will traverse one of the finest farming districts in the State, connecting with the towns of Norwood, Viola, Boden, Pre-Emption, Reynolds and Milan to Rock Island and passing through an extensive coal field. This line can be built with a gradient not to exceed ½%, and construction will be of the very best steam railroad construction and will be built for both steam and electricity, laid with 80-pound steel rails. I estimate the gross earnings of this extension will reach $1,000,000 for the first year after completion and can be operated for from 50% to 60%, leaving a net income over operating expenses of from $400,000 to $500,000, against which there will be an interest charge of about $100,000.

For the five months ending Oct. 31 1906 the gross receipts from passenger traffic only were $32,325; net, $18,841.—V. 84, p. 52.

Rockville Broad Brook & East Windsor Street Ry.—*Guaranteed Bonds Offered.*—James H. Parish & Co., New Haven, recently offered for sale a block of this company's $200,000 1st mortgage 5% 20-year gold bonds of $1,000 each, due April 2 1926, but subject to call at 110 and interest. Interest payable April and Oct. Trustee of mortgage, State Treasurer of Connecticut. Principal and interest unconditionally guaranteed by the Hartford & Springfield Street Ry. Co. (V. 83, p. 213) and so endorsed on each bond. A circular says:

The railway has been merged into the Hartford & Springfield system as the Rockville division. It runs through Rockville, Ellington, Melrose, Broad Brook and Warehouse Point, opposite Windsor Locks (13.6 miles), serving a population of over 22,000. Bonded for only 50% of cost of construction, or $14,700 per mile. The annual interest charge is only $10,000, and the road is showing net earnings of two and one-half times its interest charges, and also producing very profitable new business for the other divisions. All franchise rights are perpetual. The Hartford & Springfield St. Ry. owns and operates the lines on both sides of the Connecticut River, forming the only connecting link between the Consolidated Railway Co. properties and those of the New England Security & Investment Co., both of which are virtually under one control. The Hartford & Springfield Street Ry. Co. pays 6% dividends on its preferred stock.

St. Louis & Suburban Ry.—*Bonds to be Guaranteed.*—Notice is given by advertisement to the holders of 5% general mortgage gold bonds issued under date of April 1 1903 that under the deed of conveyance by the company to the United Railways Co. of St. Louis, the holder of any of said bonds is entitled to present the same at the offices of the President or Vice-President of the United Railways Co. of St. Louis in St. Louis, and have indorsed thereon the guaranty of payment of both principal and interest thereof by the said United Railways Co. of St. Louis. Presentation may be made on all week days between 10 and 12 a. m. at the offices aforesaid, except Fridays, when presentation may be made between 1 and 2 p. m. at the offices of the Altheimer & Rawlings Investment Co., No. 207 North Broadway, St. Louis. Compare V. 84, p. 52.

San Francisco & North Pacific Ry.—*Merger.*—See Northwestern Pacific RR. above.—V. 83, p. 1169, 273.

Seaboard Air Line Ry.—*Acquisition.*—See Macon Dublin & Savannah RR. above.—V. 83, p. 1412.

Underground Electric Railways of London.—*New Subway in Operation.*—On Dec. 15 this company's subsidiary, the Great Northern, Piccadilly & Brompton Ry., put in operation its new underground electric railway from Hammersmith to Finsbury Park via Piccadilly and King's Cross. See statement by Sir Edgar Speyer on page 7 of the "New York Times" for Jan. 6, and compare "Chronicle," V. 83, p. 1588.

Financial.—At the annual meeting on Dec. 21 Sir Edgar Speyer, Chairman of the company, said in substance:

Within about six months the Underground Company will be out of the construction period, and will have completed its system of tube railways, and, there is reason to believe, the cost will not have exceeded the estimates framed. Unfortunately this satisfactory result has been counteracted by the continuance of unfavorable money markets. The rate of interest for loans has been constantly advancing, and the prices of securities have been adversely affected generally.

Under the circumstances, the company considered it best to make a call in August last of £2 10s. per share, and if these unfavorable money conditions continue, it will probably be necessary to call up the entire capital. The company is well provided with means to raise the money necessary to finish the works still in hand, and it will have over £1,000,000 of debentures, and a large amount of stocks of the various companies in its treasury. It has, further, a valuable asset in the Chelsea power house, the surplus power from which can be disposed of to outside concerns. A beginning has been made by supplying the London County Council Embankment tramways with electric current.

Before the new lines have been running for at least twelve months as a unit, it is impossible to express any opinion as to the earning capacity of the system, but the board has every confidence that the traffic and revenue will steadily increase. Our policy will be to encourage consolidation and co-operation not only amongst the component parts of their system, but co-operation also with other companies and municipal authorities who aim to improve the traffic facilities of London.—V. 83, p. 1588.

Union Pacific RR.—*Interest in Consolidated Company.*—See Northwestern Pacific RR. above.

Stock Acquisitions.—With reference to the purchases of stock noted in our last issue, the following facts appear from the minutes of the directors' meeting as read before the Inter-State RR. Commission:

The Illinois Central stock ($28,123,100) owned by the Union Pacific, was acquired through the purchase at $175 a share as of Aug. 1 1906 (*i. e.*, ex-dividend) of $10,500,000 (par value) from Kuhn, Loeb & Co. and $3,000,000 each from E. H. Harriman, H. H. Rogers and James Stillman, in all, $19,500,000. At the same time the company acquired from Mr. Harriman (on the same basis of value for Illinois Central) his majority interest in the stock of the Railroad Securities Co., "which owns (as it, only asset other than cash) 95,000 shares of Illinois Central RR. stocks subject to the pledge of 80,000 shares to secure $8,000,000 par value of 4% certificates redeemable at 105 and interest." On Oct. 25 1906 the Union Pacific directors ratified the purchase, through Mr. Harriman, from Stuyvesant Fish of all the remaining stock of the Securities Co., namely, $662,500 preferred stock and $1,192,500 common, there being given in payment $876,900 stock of Illinois Central owned by the Union Pacific and $1,557,020 cash. The $9,500,000 Illinois Central stock owned by the Securities Co., added to the $19,500,000 purchased outright, makes after deducting the $876,900 turned over to Mr. Fish as part payment for his holdings in the Securities Co., the aforesaid total of $28,123,100.

At the hearing last week it was stated that the Oregon Short Line had purchased $10,000,000 preferred stock of the Atchison Topeka & Santa Fe Ry. President Ripley of the Atchison at Chicago on Jan. 8 testified that two years ago E. H. Harriman and his associates got $30,000,000 of the Santa Fe stock, or about one-seventh of the total, and had caused the election of two directors to represent them, H. C. Frick and H. H. Rogers.

There has been considerable speculation as to the manner in which the company financed the purchase of the various blocks of stock shown in our last issue. The "New York Times" of Jan. 7, for instance, says:

The total cost of the $103,000,000 of stocks acquired by the Union Pacific since last June is estimated to have amounted in round numbers to about $120,000,000, as most of the stocks bought commanded considerable premiums over par. Admittedly, part of this money was borrowed; how much has not yet been brought out. It appears, however, from the last annual report that the Union Pacific had at its immediate command enough to pay for the bulk of this stock. On June 30 last the road had $21,000,000 in cash, $34,000,000 in demand loans, and, in round numbers, $75,000,000 worth of Great Northern and Northern Pacific stocks, a total of $130,000,000. The demand loans were, of course, the practical equivalent of cash, and admittedly a large part of the Union Pacific's holdings of the Hill stocks have since the close of the fiscal year been converted into cash. Deducting possibly $10,000,000 cash kept in the Union Pacific treasury, and, say, $15,000,000 worth of the Hill stocks not yet sold, the Union Pacific would have had at its command for investment purposes since last June upward of $100,000,000.

The "Railroad Gazette" of this city in its issue of Jan. 11 gives extended extracts from the testimony taken at last week's hearing before the Inter-State Commerce Commission.—V. 84, p. 52.

United Railroads of San Francisco.—See United Railways Investment Co. below and California Street Cable RR. above.—V. 83, p. 563.

United Railways Investment Co.—*Recovery of San Francisco Street Railway Business.*—President Thalmann says:

The rapid resumption of business in San Francisco is reflected in the earnings of the United Railroads of that city. The gross passenger receipts for December were $556,000 in spite of the delays and losses occasioned by the fire and strike. The gross receipts for 1906 were $5,941,000—a loss of only about $1,116,000, compared with the year 1905. The officers and directors of the United Railroads are confident that the rebuilding of San Francisco will go forward with continued vigor. They report that the labor situation is steadily improving and that the company now has no difficulty in obtaining all the labor necessary for the reconstruction of its old cable lines, and several of these have been completed, and the entire work of reconstruction will be finished by spring. The delivery of the 250 new cars begins this week, and when they are placed in service the United Railroads should be as well equipped as any street railroad in America. The new construction has been of the highest order, the weight of the rails varying from 109 to 141 pounds. It is confidently believed that the earnings for 1907 will exceed those of 1905.—V. 83, p. 1472.

United Railways of St. Louis.—*Bonds Guaranteed.*—See St. Louis & Suburban Ry. above.—V. 84, p. 52.

INDUSTRIAL, GAS AND MISCELLANEOUS.

Adventure Consolidated Copper Co., Michigan.—*Assessment Called.*—The second installment of 50 cents on account of the $1 per share called in Jan. 1906, which was originally payable July 16 last but deferred, is, it is announced, payable Feb. 5 at the Old Colony Trust Co., Boston. Compare V. 82, p. 162.

Alabama Consolidated Coal & Iron Co.—*Report.*—The results for the year ending Oct. 31 were:

Year—	Gross.	Net.	Charges.	Pf. Div. (7%).	Bal., sur.
1905-06	$3,794,863	$492,367	$157,521	$87,500	$247,346
1904-05	3,555,644	559,461	147,984	87,500	323,977

—V. 84, p. 52.

American De Forest Wireless Telegraph Co.—*Holding Company.*—See United Wireless Telegraph Co. below.—V. 83, p. 211.

American Malt Corporation.—*Listed.*—The New York Stock Exchange has listed $5,746,100 cumulative preferred

stock and $3,118,100 common stock and has authorized the listing from time to time prior to July 1 1907 of $3,206,760 additional preferred and $2,778,900 additional common stock, on official notification that they have been issued in exchange for the stock of the American Malting Co.; also $47,200 additional preferred stock and $103,000 additional common stock, on official notification that they have been sold, making total amount authorized to be listed $9,000,000 preferred and $6,000,000 common. Under the terms of the plan there have been exchanged for the stock of the new corporation $13,473,100 of the $14,440,000 of the preferred stock of the old American Malting Co. and $11,925,600 of the $13,400,000 of the common stock.—V. 83, p. 1172, 491.

American Smelting & Refining Co.—*Favorable Tax Decision.*—The United States Supreme Court on Jan. 7, by a vote of 5 to 4, handed down a decision holding invalid the so-called "flat tax" law under which the State of Colorado sought to impose upon foreign corporations doing business in the State an annual tax of four cents per $1,000 capital stock. The decision reversed the ruling of the State courts. Chief Justice Fuller and Justices Harlan, Holmes and Moody dissented, but did not file any opinion.

Under the earlier laws, foreign corporations paid a fee to entitle them to do business during their corporate existence with the same privileges and restrictions as domestic corporations. The Court held this arrangement was in the nature of a contract, which was impaired by the new law, as the latter did not treat foreign corporations in the same way as those incorporated under the laws of the State.—V. 83, p. 1172.

American Strawboard Co.—*Terms of Purchase of Uncas Paper Co., &c.*—See United Box Board Co. below.—V. 84, p. 52.

American Telephone & Telegraph Co.—*Sale of Notes.*—J. P. Morgan & Co., Kuhn, Loeb & Co. and Kidder, Peabody & Co., of Boston, in conjunction with Baring Bros. & Co. and J. S. Morgan & Co. of London, the bankers who last year were associated in the purchase of this company's $100,000,000 convertible bonds, have purchased its issue of $25,000,000 3-year 5% coupon notes, dated Jan. 1 1907 and due Jan. 1 1910; denomination $5,000, $10,000 and $25,000; interest payable July 1 and Jan. 1. The entire issue has been resold. The proceeds will reimburse the company for the cost of new construction and the purchase of additional stock in the subsidiary companies. The notes are subject to call at 102 and interest on any interest day. They are not secured by collateral.

Fourth Installment Called on Convertible Bonds.—The fourth installment of 10% on account of the subscriptions to the $100,000,000 convertible bonds of 1906 has been called, leaving 60% due and payable by January 1908. (Compare V. 83, p. 438.)—V. 83, p. 1413, 1292.

American Sugar Refining Co.—*Annual Meeting.*—At the annual meeting on Wednesday, President H. O. Havemeyer said in substance:

The attention of stockholders was undoubtedly drawn to the rebate litigation against the company. With all respect to the Court, its decision failed to convince the board or its counsel of its correctness. The Court, however, having ruled as it did, the board felt that it was in the interest of the stockholders to settle on the basis of pleas of guilty and penalties of the total amount of $150,000 additional to $18,000 imposed by the Court in the case that was tried. We have 13,063 stockholders, and it can readily be seen that the interest of no individual is large. It is the stockholders who are hurt by such proceedings. The officers will continue to do what they can to prevent in the future any claim that the company does not comply with the Inter-State Commerce Act.

A receiver of the Pennsylvania Sugar Refining Co., one of the schemes of Adolph Segal (see that company below), threatens proceedings against the company in which he claims large sums of money for alleged violations of the law. I am advised that there is no legal foundation for any such proceedings.

Of the 901,000 shares outstanding of preferred and common stock, the holders of 547,600 shares have sent proxies for the business of this meeting. The board accepts this as evidence of confidence by the stockholders in the administration.—V. 83, p. 1038.

American Tobacco Co.—*Merger Sustained.*—Vice-Chancellor Pitney at Newark has dismissed the bill filed by George A. Beling of Bayonne, who owned 100 shares of the preferred stock of the old American Tobacco Co., and also one filed by Richard T. Dana of New York, praying that the merger of the various companies in 1904 be set aside and their original securities be restored to them.

The decision is based chiefly on the delay of the complainants in bringing the action, the injury which would be done to numerous innocent stockholders consenting to the merger, and the "well-nigh impossible task of reverifying the old companies whose existence was ended by the merger agreement." The Court says that $13,808,500 of the $14,000,000 preferred stock of the original American Tobacco Co. has been exchanged for the new securities and that all other securities of the old companies involved in the plan have been exchanged in similar proportions; also "that the new bonds and new preferred stock of the merged company have been put upon the general security markets and dealt in to a large extent, all before any notice to the defendants or public of the claim now made."—V. 83, p. 1172, 271.

Bennington (Vt.) Gas Co.—*Application for Receiver.*—An application was made for the appointment of a receiver on Jan. 4 to Judge A. A. Hall of the County Court at Bennington by J. C. Colgate of New York, who holds a note for $15,000 on which payment has not been met. A. K. Richie, Treasurer of the company, it was thought, would be named.

The company, it is reported, was incorporated about two years ago, its capital stock being $175,000 and bonded debt $10,000. Floating debt is stated to be about $175,000. E. K. Dunbar of Boston being the largest stockholder.

Cananea Central Copper Co.—*Second Call on Stock.*—The final installment of $5 a share has been called, payable Feb. 1 1907 on the 100,000 shares of outstanding stock which are not full paid. Par $10.

The proceeds, it is understood, will be used to pay the remainder due on the purchase of the property. The authorized share capital is $10,000,000, of which the $6,000,000 outstanding will now be full paid. $2,000,000 of full paid shares having been turned over, at organization, to the Greene Consolidated Copper Co. and since sold by it for $1,000,000 to a syndicate said to include Thos. F. Cole, John D. Ryan, C. H. Dodge and others.—Compare V. 83, p. 1526, 325.

Central Leather Co.—*Suit.*—James C. Colgate and other holders of the preferred stock of the United States Leather Co., to an aggregate amount of $2,300,000, who have not exchanged their stock for that of the securities of the Central Leather Co. under the plan (V. 79, p. 2751), have filed suit in the Chancery Court at Trenton to enjoin the proposed merger of the two companies. Vice-Chancellor Emery issued an order to show cause, returnable Jan. 14, why a permanent injunction should not be issued. The complaint recites that $4,764,300 of the $62,282,300 preferred stock and $1,399,500 of the $62,882,300 common stock of the United States Leather Co. have not consented to the plan and remain outstanding in the hands of individual holders. Another suit for the same purpose has been brought by Robert A. Johnston and Jesse Tallmadge, the latter of Wisconsin, who together own $211,400 of United States Leather preferred stock.—V. 83, p. 1592.

City of Chicago Brewing & Malting Co.—*Report.*—This English corporation has received no dividends from its American subsidiary since the year 1903 and has made no distributions to the English shareholders, its income account showing a deficit for the year 1905-06 of £2,656, as against £2,335 in 1904-05. The income account of the American company for the fiscal years ending Sept. 30 1906 and 1905 follow:

Fiscal year—	*Gross profits.*	*Depreciation, salaries, &c.*	*Int. on bonds.*	*Sink'g fund.*	*Balance, sur. or def.*
1905-06	$462,284	$237,234	$149,954	$63,320	sur $11,776
1904-05	439,643	232,076	150,935	63,320	def 6,688

The net quick assets of the American company on Sept. 30 1906 aggregated $1,169,388, against $1,112,207 Sept. 30 1905. Sales of beer in 1905-06 aggregated 372,573 barrels, against 364,373 in 1904-05.—V. 82, p. 103.

Claflin (H. B.) Co.—*Report.*—The results for the half-year and year ending Dec. 31 were:

6 months.	*Net Earnings.*	*Preferred Dividends.*	*Common Dividends.*	*Balance, Surplus.*
1906	$409,118	$142,126	$153,163	$113,829
1905	503,493	142,126	153,164	208,204
Year—				
1906	$761,376	$284,252	$306,328	$170,796
1905	821,427	284,252	306,328	230,847

—V. 83, p. 99.

Computing Scale Co of American Jersey City.—*Reduction of Capital Stock.*—This company announces by advertisement the reduction of its stock from $3,500,000, consisting of $1,500,000 preferred and $2,000,000 common, to $1,500,000, all of one class; par of shares (unchanged), $100.

For each share of preferred stock there is given $86 of the new stock and for each share of common stock $15 of the new stock. Of the shares voted in favor of the decrease, 9,741¼ shares of preferred and 11,994¼ shares of common were cast by Wendell P. Rice, S. M. Hastings, Edward Canby and Edward Cornell as voting trustees. Edward Canby is President and O. O. Ozias is Secretary.—V. 77, p. 453.

Cumberland (Bell) Telephone & Telegraph Co.—*New Stock.*—The shareholders of record January 15 will be permitted to subscribe at par for $3,300,000 additional capital stock in amounts equal to 20% of their respective holdings, the subscription to be payable in four installments on Feb. 1, April 1, July 1 and Oct. 1.—V. 82, p. 1376.

Denver (Colo.) Gas & Electric Co.—*Bonds Offered—Earnings.*—E. H. Rollins & Sons, Chicago, Boston, Denver and San Francisco, who are offering $100,000 general mortgage 5s at 95 and interest, report:

Earnings for Years Ending Oct. 1.

Year—	*Gross.*	*Net.*	*Charges.*	*Surplus.*
1905-06	$1,661,014	$670,415	$363,475	$306,940
1904-05	1,432,355	583,129	361,782	221,347

—V. 83, p. 1526, 1414.

Greene-Cananea Copper Co.—See Cananea Central Copper Co. above.—V. 84, p. 53.

Harrison Bros. & Co., Philadelphia.—*Report.*—The results for fiscal years ending Oct. 31 1906 and 1905 compare:

Year—	*Gross.*	*Net.*	*Interest.*	*Bal., Sur.*
1905-06	$458,054	$100,858	$65,000	$35,858
1904-05	498,697	124,014	65,000	59,014

—V. 82, p. 221.

Herkimer County (N. Y.) Light & Power Co.—*Sale.*—See Utica Gas & Electric Co. below.—V. 73, p. 724; V. 71, p. 1272; V. 66, p. 1189, 810.

Indianapolis, Ind., Light & Heat Co.—*Called Bonds.*—Eight first mortgage bonds, dated 1892, of the constituent Indianapolis Light & Power Co., viz., Nos. 31, 136, 196, 212, 211, 263, 309, 315, have been called for payment at 104 and interest on Jan. 19 at the American Loan & Trust Co. of Boston.—V. 80, p. 475.

Inland Steel Co., Chicago.—*Bond Offering.—Further Particulars.*—As recently announced, Sidney C. Love & Co., New York and Chicago, are placing this company's $2,500,000 first mortgage 5% gold bonds (interest payable Oct. 1 and April 1) at 97½ and interest. Compare V. 83, p. 1526.

Letter from Chairman Alexis W. Thompson, Chicago, Ill., Nov. 2 1906.

Referring to your purchase of $2,500,000 first mortgage 5% bonds, I beg to advise as follows: The bonds are dated Oct. 1 1906 due Oct. 1 1926. The total authorized issue is $2,500,000, secured by mortgage on all ore properties, plants, equipments, &c., now owned or hereafter acquired. The mortgage provides that the net cash and quick assets of the company, over and above liabilities, other than the bonds outstanding, shall not be less than $1,500,000, until the issue is reduced to $1,500,000, and thereafter never less than the amount of the issue outstanding. The mortgage provides that on Oct. 1 1907, and annually thereafter, the company will turn over to the trustee $100,000 in cash or bonds of this issue for cancellation, which shall constitute a sinking fund for the redemption of the bonds. On Oct. 1 1907 and on any interest day thereafter, the bonds are redeemable for sinking fund purposes at 105 and interest, and on Oct. 1 1911 and on any interest day thereafter may all be redeemed at option of company at same price.

The mortgage provides that the proceeds of $2,000,000 par value of these bonds shall be expended only to pay for permanent improvements and additions the construction of which was begun about June 15 1906.

The value of the principal properties by which these bonds are secured, I estimate as follows: Indiana Harbor and Chicago Heights plants, $2,000,000; ore and coal, $2,500,000; additions at Indiana Harbor, consisting of blast furnace, ore dock, &c., $2,000,000; total, $7,400,000. The quick assets Oct. 31 1906 are as follows: Cash, $337,742; bills receivable, $10,805; accounts receivable, $865,169; inventory at cost, $628,518; advanced for new construction, reimbursement for which is to be made out of the proceeds of this bond issue, $338,524; total, $2,180,758; Deduct: Bills and accounts payable, $558,016; net quick assets, $1,622,742.

For the year ending June 30 1906 the net profits were $860,766. The net earnings since July 1 1906 are at the rate of over $1,000,000 per annum. These earnings are the result of the operations of the Indiana Harbor and Chicago Heights plants, as no benefits have as yet been derived from the ore property, which was only recently acquired. From the advantages the company will secure by mining its own ore and producing its requirement of pig iron, combined with the benefits to be derived from the additional permanent improvements that are being made, the earnings should be increased.—V. 83, p. 1526, 1593.

International Harvester Co.—*Classification of Stock.*—This company has filed in New Jersey a certificate classifying its capital stock of $120,000,000 into $60,000,000 7% cumulative preferred and $60,000,000 common. Stockholders will be entitled to receive one share of new preferred stock and one share of new common for every two shares of old stock, under terms of a circular shortly to be issued.—V. 83, p. 1232.

Lehigh Coal & Navigation Co.—*Listed in Philadelphia.*—The Philadelphia Stock Exchange has listed $682,000 additional funding and improvement mortgage 4% bonds, making the total amount listed $4,246,000.—V. 83, p. 1527.

Manistee (Mich.) Gas & Electric Co.—*Successor.*—See North Western Michigan Light & Power Co. below.

Marconi Wireless Telegraph Co. of America.—*Offer of Exchange.*—See United Wireless Telegraph Co. below.—V. 83, p. 211.

Marconi Wireless Telegraph Co. of Canada.—*Offer to Stockholders.*—See United Wireless Telegraph Co. below.—V. 81, p. 562.

Massachusetts Gas Companies, Boston, Mass.—*Sale of Real Estate by Subsidiary—Payment of Floating Debt.*—The "Boston News Bureau" of Jan. 4 said:

The Boston Consolidated Gas Co., through the receipt of about $1,000,000 from the New York New Haven & Hartford this week, cleans up its large floating debt, which has been created by extensive improvements made to its property in the past 18 months. From the sales of land in the past few months the Boston Consolidated has received about $1,053,069. The decision of the New York New Haven & Hartford RR. to use the property purchased by it for a steamship terminal has added considerably to the value of the North End property. The Boston Consolidated Gas Co. has other very valuable parcels of land which will shortly be placed on the market.—V. 83, p. 1293, 967.

Monongahela River Consolidated Coal & Coke Co.—*Annual Dividend.*—The directors have declared a dividend of $2 25 a share (4.5%) on the $10,000,000 preferred stock, payable Jan. 25 to stockholders of record Jan. 19 out of the earnings of the fiscal year ending Oct. 31 1906. These earnings, it is reported, are slightly more than $450,000 required to pay the dividend, against $194,476 in 1904-05. Last year 1.94% was paid and in the year preceding 1.54%, dividends having previously been paid at the rate of 7% per annum from July 1900 to Jan. 1904 inclusive. The Pittsburgh Coal Co. owns $2,500,000 of the preferred shares.—V. 82, p. 158, 164.

National Steel & Wire Co.—*Receivership.*—This Maine corporation was last week placed in the hands of Gifford G. McLaugflin of Maine and Homer Wise as temporary receivres by the Maine courts. Mr. Wise and Harold Nathan have since been appointed ancillary receivers in New York State. An attachment against the company for $6,135,000 on an assigned claim last summer for freight charges was served Dec. 27 on a bank in this city. On Jan. 7 Frederick B. Farnsworth and H. Stuart Hotchkiss, both of New Haven, were appointed receivers for the National Steel Foundry Co., one of the subsidiary corporations. The National Wire Corporation, another of the subsidiaries, was placed in the hands of the same men as receivers on Dec. 19, and their appointment has since been made permanent. The receiverships, it is expected, will be followed by a general reorganization and possibly also consolidation, in accordance with the plan which was promulgated a few weeks ago.

Among the creditors of the Nat. Wire Corp. are said to be the Federal Trust Co., Boston, $470,000; Manhattan Company, New York, $250;000; Henry Hastings, agent for steamship lines in Boston, $250,000; Pennsylvania Steel Co., $75,000; National Steel & Wire Co., $1,900,000, and Knickerbocker Trust Co., New York, $150,000. Compare V. 83, p. 1346, 1350.

North Western Michigan Light & Power Co., Manistee, Mich.—*Bonds Offered.*—E. H. Gay & Co., Boston, New York, Philadelphia and Montreal, are offering at 95 and interest $100,000 first mortgage 5% gold bonds dated July 2 1906 and due July 1 1926. Authorized issue $500,000, outstanding, $150,000; remaining bonds issuable only at a rate not exceeding at par 80% of the certified cost of extensions, additions and improvements. The company is successor to the Manistee Gas & Electric Co. and is under the management of Edward M. Deane & Co. of Grand Rapids, Mich. Further facts another week.

Metropolitan Sugar Refining Co.—*Bond Sale.*—At auction in Philadelphia on Dec. 19 a $1,000 5% bond, due in 1934, was sold at 55%. The company was promoted by Adolph Segal, of Philadelphia. See Pennsylvania Sugar Refining Co. below and V. 83, p. 821, 497; V. 78, p. 991, 1226.

Michigan Lake Superior Power Co.—*Interest Deferred.*—By an agreement with the bondholders as of Oct. 1 1905 the payment of all outstanding coupons, until and including the coupon of Nov. 1 1907, has been deferred until the net income of the company is sufficient for the purpose, after the payment of coupon of May 1 1908.—V. 83, p. 1102, 382.

Oregon Securities Co.—*Receivership.*—Judge Wolverton in the United States District Court at Portland, Ore., on Jan. 3 appointed General Manager A. B. Wood receiver of the company in the suit of the Trust Company of America of New York, as trustee, to foreclose a mortgage for $400,000.

Panama Canal.—*Purchase from French Company Held Valid.*—The United States Supreme Court on Monday, Judge Brewer writing the opinion, in the action brought by Warren B. Wilson of Chicago, sustained the act of Secretary of the Treasury Shaw in paying the New Panama Canal Co. of France for the canal rights, as directed by the Act of Congress of 1902. The Court says the Government has dominion and control over the Canal Zone and Congress therefore had authority to appropriate money to build the canal. Compare V. 78, p. 1553.—V. 83, p. 41.

Pennsylvania Sugar Refining Co., Philadelphia.—*Suits.*—Geo. H. Earle Jr., who was appointed receiver of this company last October in connection with the reorganization of the Real Estate Trust Co. of Philadelphia, has brought a suit to foreclose the mortgage of $3,000,000, and has obtained permission from the Court to bring suit for damages against the American Sugar Refining Co., on the ground that it obtained control of the enterprise and prevented the operation of the plant for the purpose of forestalling competition.

The capital stock, $5,000,000, was placed in a five-year voting trust in 1903 with Frank K. Hipple as a voting trustee. Subsequently, it is alleged, Adolph Segal, in order to obtain a loan, placed 51% of the voting trust certificates and $500,000 of the bonds in the hands of Gustav E. Kissel of New York, who, it is claimed, acting in the interest of the American Sugar Refining Co., caused himself and associates to be elected to the board of the Pennsylvania Company, of which they formed a majority, and thereupon voted to keep the refinery closed, so that, though fully equipped, it has never been opened.—V. 83, p. 821, 497.

Philadelphia Company of Pittsburgh.—*Listed in Philadelphia.*—The Philadelphia Stock Exchange has listed $510,000 additional common stock, making the total amount listed $33,240,000.—V. 83, p. 752.

Pittsburgh (Pa.) Plate Glass Co.—*Merger.*—A circular sent to the shareholders says:

The Chatham Manufacturing Co. was organized in 1903 at the instance of your directors to be available for consolidation, whenever it should be deemed desirable to enlarge the chartered rights of the Pittsburgh Plate Glass Co. Your board has unanimously authorized the consolidation and now recommend its ratification by the stockholders. All benefits of the consolidation will inure solely to the Pittsburgh Plate Glass Co.—V. 83, p. 269.

Revere Rubber Co., Boston.—*New Stock to Capitalize Surplus.*—The shareholders at the annual meeting on Jan. 16 will act on a proposition to increase the capital stock from $1,500,000 to $2,000,000 by the capitalization of $500,000 of the surplus.

Sears, Roebuck & Co., Chicago.—*Sales.*—For calendar years:

	1906.	1905.	Increase	
Jan. 1 to June 30	$24,525,197	$17,309,628	$7,215,569	41.68%
July 1 to Dec. 31	27,341,677	21,398,900	5,942,777	27.76%
Total, year	$51,866,874	$38,708,528	$13,158,346	33.99%

—V. 83, p. 1475.

South Bend & Mishawaka Gas Co.—*Change in Control.*—Practically the entire $1,000,000 stock was recently purchased by the United Gas Improvement Co., which now operates the plant.

Bonds Offered.—Cramp, Mitchell & Shober, 314 Chestnut Street, Philadelphia, are offering at a price to return about 5.1% per annum, a block of the consolidated mortgage gold 5s due Jan. 1 1926, subject to redemption at 102½ and interest on or after Jan. 1 1908. Outstanding, $640,000; reserved to retire first mortgage bonds due 1920, $500,000; reserved for future construction, $860,000. Total authorized issue, $2,000,000. A circular says:

Net earnings for 12 months ended Oct. 31 1906, $95,726; interest on $500,000 first mortgage, $25,000; interest on $640,000 consols, $32,000; surplus for stock, $38,726. The gas plant has recently been enlarged and improved. The company, however, did not have the benefit of these improvements excepting for the last 6 months of the period of earnings reported above. For this reason, and because the company is now owned and operated by the United Gas Improvement Co., we expect that the earnings will show large increases in the future. See further facts in V. 83, p. 498.

Southern Steel Co.—*Description of Plant.*—The "Iron Trade Review" of Cleveland in its issue of Jan. 3 contains an illustrated article regarding this company's Cleveland furnace.—V. 83, p. 973, 564.

Standard Cordage Co.—*Annual Meeting—New Directors.*—At the annual meeting on Tuesday D. S. Ramsay and James G. Hurty were elected directors to succeed E. P. Genung and L. A. DeKerney. No financial statement was submitted.—V. 83, p. 442, 42.

Standard Screw Co.—*Earnings.*—The net profits applicable to dividends on the preferred and common stock for the seven (*not* eight) months ending Oct. 31 were $348,229, comparing with $407,201 for the year ending March 31 last. From this, $67,000 was expended in extensions and improvements, and on Jan. 1 1907 the regular semi-annual dividends were paid, namely, 3% on the $2,000,000 preferred and 2½% on the $2,500,000 common stock.—V. 80, p. 1486.

Sunday Creek Company.—*Offering of Coal Bonds of Ally o Hocking Valley Ry.*—F. J. Lisman & Co., 30 Broad St., New York, with branch offices at Chicago, Philadelphia and Hartford, are offering by advertisement on another page a block of the 5% collateral trust sinking fund bonds of this

company "all of whose stock is supposed to be owned by or in the interest of the Hocking Valley Ry.," which in turn is controlled by the Pennsylvania, New York Central, Erie and the Chesapeake & Ohio. The bonds are 5%, due July 1 1944 and are drawn annually at par and interest for the sinking fund. The company, whose property securities and financial status was fully set forth in the statement of the New York Stock Exchange, which was published in the "Chronicle" last summer (V. 83, p. 160), upon the listing of this issue of bonds, took over on July 1 1905 all the assets of the Sunday Creek Coal Co. and at the same time acquired substantially all the stock of the Kanawha & Hocking Coal & Coke Co. and of the Continental Coal Co. This stock, aggregating $6,500,000, is pledged as security for the mortgage and was paid for at the rate of 60% in these 5% sinking fund bonds—issue limited to $3,900,000. The company also leases the property of the Buckeye Coal & Railway Co. and the Ohio Land & Railway Co., controlled by the Hocking Valley Ry. The bonds are, on an estimated average maturity of 25½ years, offered on a basis to yield the investor 7%.

Statement of Assets July 1 1905 made by President John H. Winder Oct. 20 '06.

	Surface Fee Owned.	Coal Rights (In Fee).	Coal Lands Leased.	Personal Property.	Total Value.

Note.—Surface land is here taken at $15 per acre. Coal owned at 8 cents per ton and coal leased at 2½ cents per ton. The personal property is the inventory of July 1 1905. The totals, other than that of valuations, have been supplied in the above table, since not appearing in the bankers' circular.—Ed.

a Includes personal property on Ohio Land & Ry. *b* Includes Connors Point dock. *c* Includes Athens Amerville & Chauncey Ry. *d* Includes Kelly's Creek Ry.

The underlying bonds of the company aggregate $5,488,000, viz., Sunday Creek Coal Co. $318,000 1st 6s, 1912, $2,300,000 Continental Coal 1st 5s, 1951 and $2,870,000 Kanawha & Hocking Coal & Coke 1st 5s, 1951.—V. 83, p. 160, 162.

Swift & Co., Packers, Chicago.—*Report.*—See "Annual Reports" on a preceding page.

New Directors.—At the annual meeting, Charles H. Swift and D. M. Anthony were elected directors to succeed the late E. C. Swift and M. E. Hollis.—V. 84, p. 54.

United Box Board & Paper Co.—*Time Extended.*—The time in which stockholders may subscribe to the stock of the American Box Board Co., per terms in V. 83, p. 1540, has been extended until and including Jan. 22, and the time for making the first payment upon subscriptions will be extended until Jan. 25. Subscriptions should be addressed to the American Box Board Co., 15 Exchange Place, Jersey City.

Official Circular.—"In view of erroneous and imperfect statements made by a so-called 'protective committee of stockholders,'" the board of directors, in a circular dated Jan. 5, say in substance:

Your company is confronted with the necessity of meeting its floating indebtedness of some $850,000, which for a long time past has been carried on the personal credit of certain of its directors, but cannot thus be permanently carried. To meet that indebtedness, the directors decided upon the sale to the American Box Board Co. of certain assets for $850,000; besides the assumption by the purchaser of the collateral trust bonds, as explained, in the circular of Dec. 20 1906 (V. 83, p. 1540). Should your company desire to re-purchase the property sold, the privilege of so doing within one year is reserved to it. The parties who have underwritten the stock of the American Box Board Co. are not paid any commission. They simply agree to take such stock as you do not take, and at the same price. The prior right to subscribe is yours.

The Uncas Paper Co. was bought originally by the United Box Board & Paper Co. for $345,650. It earned in 1903 $65,356; in 1904, $77,585; in 1905, $36,341. The stock was conveyed to the American Sratwboard Co. for an adequate consideration, paid in cash, at a time when the United Company was sorely in need and had hypothecated every other available asset to meet the sinking fund charges of $350,000 per annum under its then existing general mortgage, which your present directors found outstanding when they assumed the management, but which they have since succeeded in retiring.

The circular of Dec. 20 offers the entire $2,500,000 stock of the American Box Board Co. for subscription among you, at par, for cash, the payments to be made in such manner that 34%, equal to $850,000, the exact purchase price of the assets to be sold, will be called for in cash at intervals during the year, and the remaining 66% will be held in reserve to meet, if necessary, the $1,302,300 collateral trust bonds for which the American Strawboard stock is now pledged, and payment of which the American Box Board Co. assumes; $317,600 not being intended to be called for at all unless necessary, and forming a reserve to fall back upon to meet interest and sinking fund charges in case of need, as it is most improbable that the earnings of the American Strawboard Co. will continue at the same rate as during the past year.

There will be left in the United Box Board & Paper Co. some of the best earners in the box board also of the straw board business. The reason that the company's net earnings only show $80,000 is that its properties are encumbered with underlying liens amounting to $1,150,000; first mortgage bonds outstanding, $792,500; collateral trust 6% bonds amounting to $1,302,100, and floating debt of $850,000; while the American Straw Board Co. has a bonded debt of only $268,000, with other indebtedness of $31,487, and the Uncas Company has a bonded debt of $150,000, which was assumed by the American Straw Board Co.; besides which the American Straw Board Co. paid for the Uncas Co. $250,000, a total of $100,000. (Compare financial statements, V. 83, p. 1540.) The United Box Board & Paper Co. paid for the property $345,650, exclusive of a mortgage debt of $100,000, but before the sale to the American Straw Board Co. took from the Uncas $110,000 in dividends.

At the time of the issue of the collateral trust bonds, viz., December 1905, the earnings of the American Straw Board Co. for the year amounted to only $139,000, and the parties who were asked to give up the American Straw Board stock and accept the collateral trust bonds in its stead refused to do so unless all dividends in excess of 2% per annum upon the American Straw Board stock should be devoted to the retirement of collateral trust bonds.

When the present management assumed office, the company was practically at the end of its resources. Your directors have labored earnestly in your interest, the debt of your company has been largely reduced, its earnings have been increased and the physical condition of its properties has been improved. They now ask you to join in paying off the floating debt.—V. 84, p. 54.

United Copper Co., New York.—*Change in Dividend.*—The directors on Jan. 9, having set aside the entire amount necessary for the payment of the regular dividends on the preferred stock during the year 1907 (viz., $300,000), declared from the profits of the company a regular quarterly dividend of 1½% and an extra dividend of ¼% on the common stock (viz., $787,500), payable Jan. 30 1907 to stockholders of record at the close of business Jan. 16 1907. In 1906 dividends of 1¼% and ½% extra were paid quarterly on the common stock, the aggregate amount of the dividend just declared being, therefore, the same as in the four preceding quarters, the only difference being that the rate of the dividend distribution has been increased.—V. 82, p. 1501.

United Gas Improvement Co., Philadelphia.—*Purchase.*—See South Bend & Mishawaka Gas Co. above.—V. 83, p. 1541.

United States Leather Co.—*Suit to Prevent Merger.*—See Central Leather Co. above.—V. 83, p. 1597.

United States Smelting, Refining & Mining Co.—*Common Stock on 7% Basis.*—The directors on Jan. 5 decided that dividends on the $17,523,650 common stock should be "at a regular rate of 7% per annum, and as several of the directors will be absent at the date of the next regular meeting, it was unanimously voted to declare at the present time both the April preferred dividend and also a common stock dividend at the rate of 7% per annum, payable April 15 1907 to stockholders of record at the close of business March 15 1907.

President W. G. Sharp in a circular says:

The Treasurer submitted a preliminary report, showing that the probable net earnings of the company and its sub-companies for the year ending Dec. 31 1906 would be approximately $3,500,000; that the quick assets, including cash, accounts receivable, bullion and supplies on hand of this and its sub-companies exceeds $10,000,000; that preferred dividends will require $1,643,344 50 per annum; and that the surplus earnings and depreciation fund, together with the surplus on the books of subsidiary companies at the time they were acquired, will exceed $3,000,000.

The probable future position of the companies, if changes at the Utah smelters are required by the order of the courts, and if the values of metals should return to the former normal values for copper, silver and lead, were fully considered. Mr. Holden assured the directors that the net ore tonnage in the several mines had been fully maintained, both in amount and value; that the Real del Monte mines and the Richmond-Eureka mines might be expected to become profitable producers during the current year, and that the additions to the smelters would also undoubtedly be in active operation during the latter part of this year.—V. 83, p. 1360, 912.

United Wireless Telegraph Co.—*Scope of New Project.*—As setting forth the avowed purposes of this new company, organized during November 1906 in Maine (compare V. 83, p. 1298), with $20,000,000 of authorized capital stock, in shares of $10 each, of which $10,000,000 is 7% participating preferred), we cite a circular letter sent out under date of Dec. 19 by Reall & Co., Land Title Building, Philadelphia, which says in substance:

We will accept American Marconi stock (Marconi Wireless Telegraph Co. of America, V. 83, p. 211; V. 80, p. 1115; V. 76, p. 863) on the basis of our late selling price, $115 per share (par $100) and $35 cash—$150—for 20 shares of United preferred and $7 50 each; total par value, $200. For each 20 deposit certificates (V. 76, p. 869) of Marconi of America, par $5 each, and $35 in cash, 20 shares of United preferred at $7 50—$150—par value, $200. For each 5 shares (par $5 each) of Marconi of Canada (V. 81, p. 562; V. 76, p. 1358) and $7 50 cash five shares of United preferred at $7 50 — $37 50 (par value $50) and in these proportions. Or you can subscribe for what you want of the United preferred, payable in cash at $7 50 per share, or on deferred payments. This offer is for immediate acceptance.

The plan of the company will be to acquire the stock of existing operating companies and by the purchase of their treasury shares furnish them the capital for extending their business on land and sea. The company has secured a controlling interest in the American De Forest Wireless Telegraph Co. (V. 83, p. 211), capital stock $15,000,000, which controls the Atlantic Wireless Co., the Occidental & Oriental Wireless Co. and the Great Lakes Wireless Co., and will acquire stock of the Marconi companies (V. 83, p. 211).

It is estimated that Marconi Wireless can earn $332,000 net from one trans-Atlantic station alone, and that is about to be established. Under date of Dec. 12 the company says: "Work on the station in Ireland for trans-oceanic work is now being pressed forward night and day, and it is confidently expected that this station will be completed and in operation early in the year 1907. Receipts generally show encouraging improvement this year, being double those of the previous year."

The De Forest Company has established inland stations at Portland, Boston, Springfield, New Haven, New York, and throughout the country, and has sent and received messages 800 to 1,000 miles distant, proven inland communication practicable, secured the interest of the United States Government, contracts with its navy, and equipped over sixty steamships. (Compare V. 83, p. 211). On Dec. 31 the price will be advanced to $8 per share.

It is said that a considerable amount of Marconi stock has been acquired, though as yet less than a majority.—V. 83, p. 1298.

Utica (N. Y.) Gas & Electric Co.—*Acquisitions—Merger.*—The controlling interests in this company have purchased and propose merger with the following properties:

Herkimer County Light & Power Co. (V. 73, p. 724; V. 69, p. 1180), the Glens Falls Gas & Electric Co. (V. 83, p. 1593), the Consolidated Light & Power Co. of Whitehall and the United Gas, Electric Light, Heat & Fuel Co. of Sandy Hill, Fort Edward and South Glens Falls. Compare V. 78, p. 46, V. 79, p. 2476.

Warwick Iron & Steel Co., Philadelphia.—*Official Circular.*—President Edgar S. Cook on Jan. 9 issued a circular replying to the criticism that an excessive amount had been expended out of earnings for improvements, as claimed in a circular issued under date of Dec. 31 by a minority shareholders' committee consisting of Charles K. Smith, Chairman; George N. Mills, Secretary; John G. Schmidt, George E. Schlegelmilch, James B. Anderson, John C. Sayre, H. F. Gillingham, Louis Eisenlohr and Charles Beck.

Mr. Cook says in substance:

The product of Nos. 1 and 2 furnaces at Pottstown for 1906 was 218,416 tons, as compared with 173,115 tons in 1903. In 1878 the company's product was 17,000 tons. The management does not contemplate further large expenditures, so that, excepting reversals in business conditions which cannot be foreseen, the outlook for shareholders seems bright, and reasonably well assured. The following statement will show in advance of the annual report the appropriations during 1906 for necessary equipment and improvements, etc.: Schuylkill River bridge, completed, cost, $37,221; new steam crane for handling extra ore, &c., $5,475; patented boiler appliance, $4,913; new trestles, $4,186; Gayley dry-air plant, estimated cost, $230,000; No. 3 furnace, estimated repairs, $75,000; total, $356,796, of which $25,000, on account of furnace No. 3, will be paid by the Glasgow Iron Co., in monthly installments. In addition there has been disbursed for 4% dividend paid (V. 83, p. 1040), $55,261, and for bonds paid and canceled, $15,000. Grand total, $431,060. Any change in the board that would not support me in a safe policy would compel me to discontinue my connection with the company.—V. 83, p. 1040.

Wheeling Mould & Foundry Co.—*Extra Dividend.*—A press report announces the declaration of a quarterly dividend of 2% and an extra dividend of 1%, payable Feb. 1 on stock of record Jan. 15.—V. 82, p. 575, 285.

Youngstown Sheet & Tube Co.—*New Stock.*—Stockholders voted Jan. 10 to increase the capital stock from $4,000,000 to $6,000,000 and to build two blast furnaces of 400 to 450 tons each.—V. 83, p. 443.

—The banking house of Wm. A. Read & Co. is offering for investment $1,000,000 Philippine Government City of Manila sewer and water-works construction 4% registered gold bonds. The bonds are dated Jan. 2 1907, due Jan. 2 1937, and are redeemable at the option of the Philippine Government at 100 and interest after ten years from date. These bonds were issued under authority of Acts of the United States Congress, which gives all the advantages of Government bonds and makes them exempt from taxation throughout the United States. A special circular containing a full description of the bonds will be mailed upon request.

—The 107th semi-annual statement of the Home Insurance Co. shows its assets as follows: Cash on deposit, $1,074,430; cash in hands of agents and in course of collection, $1,150,431; real estate, $1,543,892; loans, $105,300; bonds and stocks, market value, $20,839,174. The liabilities are: Cash capital, $3,000,000; reserve premium fund, $8,497,951; reserve for losses, $1,035,375 81; reserve for re-insurance and other claims, $897,492 13. Surplus over contingencies and liabilities, $7,408,355; surplus as regards policyholders, $10,408,355.

—The new Commercial National Bank Building in Chicago, besides housing some of the largest financial corporations in the city, promises to be headquarters for a number of prominent stock and bond brokers. Shearson, Hammill & Company have leased extensive quarters on the ground floor, fronting on both Clark and Adams streets. Marshall, Spader & Company, Chas. W. Gillett and A. O. Brown & Co. will occupy rooms in the interior opening from the rotunda. It is expected these firms will move about May 1.

—Lincoln & Co., 18 Wall Street, have prepared for the use of investors a convenient little pamphlet containing a printed list of bonds and notes maturing in the next seven years. The pamphlet also includes a table showing the decrease in values that takes place from year to year in the case of 5%, 6% and 7% bonds, while yielding the same rate to the investor.

—"New Bedford, Mass., Statistics Relating to Its Cotton and Other Manufacturing Corporations, National Banks, Savings Banks, &c., for the Year 1906," is the title of an interesting circular compiled by Sanford & Kelley, bankers and stock brokers of New Bedford and members of the Boston Stock Exchange.

—Fred. L. Harris has become associated with the Chicago bond house of F. B. Sherman & Co. as Secretary of the corporation. Mr. Harris was for nearly ten years office attorney for the Trowbridge & Niver Company, Chicago. Attention is called to the advertisement of Sherman & Co. on another page.

—Ashwell & Co., members of the New York Stock Exchange, 30 Broad Street, will send their pamphlet, No. 55, on "Short-Term Investments," free to all who apply. The firm recommends for investment a railroad stock yielding 4.56% which they believe will double in value in a few years.

—Dennison & Farnsworth, Boston and Cleveland, announce the opening of an office in Philadelphia at 774-776 Drexel Building, under the management of Melville H. Smart. The firm intends to make a special matter of buying and selling tax-exempt Pennsylvania municipal bonds.

—E. D. Shepherd & Co. are offering $1,000,000 Hartford, Conn., 3½% bonds due 1954 and 1955 and $250,000 Springfield, Mass., 3½% bonds due 1925. Both of these issues are for sale to investors at attractive prices.

—The fifty-sixth annual statement of the Manhattan Life Insurance Co. will be found on another page. The receipts for the year were $3,665,061, payments $2,738,937, balance, $926,124.

—Geo. D. Cook & Co., 25 Broad Street, have prepared a useful little pamphlet giving information regarding Mexican Government and State bonds. Copies may be had on application.

—Pfaelzer & Co. have issued a January circular covering a large number of investment issues, both railroad and industrials, netting from three to six per cent.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, Jan. 11 1907.

There is no sign of an ebb in the exceptionally active business of the country and prices of the great staples remain firm. While legitimate trade is at its maximum, speculation is at its minimum. The great manufacturing industries are well employed and in some cases sold far ahead; collections good at the West if a trifle slow in some other sections; and outlook for 1907 is considered favorable.

LARD on the spot has moved within narrow limits with trade quiet. In the main the tone of the market has been steady, owing to the continued strength of the market for futures at Chicago. Small sales of City have been made at 9c. and of Western at 9.30@9.40c. Refined lard has been irregular, Continent being easier and other grades stronger. A small export business has been done but trade on the whole has been dull. Refined Continent 9.90c., South America 10.65c. and Brazil in kegs 11.65c. The market for futures at the West has shown some irregularity at times, owing to liquidation, but the tone has ruled firm, influenced by continued moderate receipts of live hogs, buying by packers and commission houses and covering of shorts.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
January delivery	9.20	9.20	9.05	9.12½	9.22½	9.22½
May delivery	9.42½	9.42½	9.27½	9.37½	9.50	9.45
July delivery	9.47½	9.47½	9.35	9.40	9.52½	9.47½

PORK on the spot has ruled steady to firm with the rest of the provision list. Trade has been quiet and of a jobbing character. Mess is quoted at $17 50@$18, clear $18@$19 and family $18 50@$19. Cut meats have been steady with a small jobbing trade. Pickled shoulders 8c., pickled hams 12@12½c. and pickled bellies, 14@10 lbs., 10¼@10¾c. Tallow has been dull but stronger on small offerings and supplies; City 6⅜@6½c. Stearines have been dull and easier; oleo 11¾c. and lard 10c. Butter has been fairly active and easier; Creamery extras 32c. Cheese has been in moderate demand and steady; State factory 14½c. Eggs have been firm and more active; Western firsts 27c.

OIL.—Cottonseed has been dull but in the main steady, owing to light offerings. Prime summer yellow 43@44c. Linseed has been quiet and steady; the views of both buyers and crushers remain unchanged. City, raw, American seed, 42@43c.; boiled 43@44c.; Calcutta, raw, 70c. Lard has been dull but firm on light supplies; prime 77@79c. Olive has been quiet but firm with an upward tendency; yellow 65@70c. and green 59@60c. Cocoanut has been quiet and steady; Cochin 9¾@10c. and Ceylon 9¼@9½c. Peanut has been quiet and steady; yellow 50@60c. Cod has been moderately active and steady; domestic 36@37c. and Newfoundland 38@40c.

COFFEE on the spot has been dull and easier. Rio No. 7, 6⅞c, and Santos No. 4, 7¾c. West India growths have been in moderate demand and steady; fair to good Cucuta 8½@9⅛c. The market for future contracts has continued to decline, owing to weak cables from Havre and Hamburg, free selling at times for foreign account, local and Wall Street liquidation and a lack of aggressive support. The receipts are still large and this fact, together with the dulness of the spot trade, encourages the bears to attack the market from time to time. Outside interest in the speculation is still absent. Closing prices were as follows:

January	5.30c.	May	5.50c.	September	5.80c.
February	5.35c.	June	5.55c.	October	5.85c.
March	5.40c.	July	5.65c.	November	5.90c.
April	5.45c.	August	5.70c.	December	5.95c.

SUGAR.—Raw has declined with trade dull. Centrifugal, 96-degrees test, 3 15-32c., muscovado, 89-degrees test, 3 1-32c., and molasses, 89-degrees test, 2 25-32c. Trade in refined has been of a hand-to-mouth character, buyers still holding aloof for concessions. The Federal refinery has reduced refined to 4.55c. but other refiners continue to quote 4.70c. Withdrawals on old contracts have been small.

PETROLEUM has ruled firm. There is considerable difficulty in securing some grades of refined. Refined barrels 7.50c., bulk 4.40c. and cases 10c. At Cleveland, Ohio, the Standard Oil Co. has advanced 86-test gasoline from 22½to 23½c. Naphtha has been fairly active and steady; 75@76 degrees 18c. in 100-gallon drums. Gasoline in moderate demand and steady; 89 degrees 21c. in 100-gallon drums.

TOBACCO.—The market for domestic leaf has ruled firm Packers generally report trade quiet with supplies light. Havana has been quiet and firm. A recent decision of the United States Supreme Court in the matter of assessing imports according to weight at the time of arrivals has aroused considerable discussion in the trade. It is contended that from the time of importation to the time of withdrawal from bonded warehouses there is a considerable decrease in the weight of the tobacco and a movement was started to secure taxation from the time of withdrawal from warehouse. The practice of the Treasury Department, however, will continue as heretofore.

COPPER has been firm and more active; lake 24¾@25c. and electrolytic 24¼@24½c. Lead has been dull but firmer at 6¼c. Spelter has been quiet and easier at 6¾c. Tin has been dull and easy; Straits 41.30c. Iron has been fairly active and steady; No. 1 Northern $24@$26; No. 2 Southern $22@$25 50.

COTTON.

Friday Night, January 11 1907.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 312,936 bales, against 311,945 bales last week and 298,196 bales the previous week, making the total receipts since the 1st of September 1906, 6,382,924 bales, against 5,360,956 bales for the same period of 1905-06 showing an increase since Sept. 1 1906 of 1,021,968 bales.

Speculation in cotton for future delivery has been far from active and between such conflicting influences as big receipts on the one hand and a big demand for the actual cotton on the other, the net changes for the week are comparatively slight. Prices have fallen one day under the influence of large receipts and liquidation only to rise the next by reason of exceptional activity and strength in the Liverpool market, strong prices at the South and covering of shorts here, together with more or less buying for long account and bull support. The ginners' report, which was issued on the 9th inst., was the cause of a certain amount of irregularity of prices before it appeared, there being considerable uncertainty as to what its tenor might be. But its actual appearance was the signal for a considerable display of strength, as the total was on the whole smaller than many had expected. Up to January 1, according to the Census Bureau, the quantity ginned amounted to 11,750,944 bales, against 9,725,426 during the same time last season. This meant 651,943 bales since December 13, the date of the previous report, against 426,117 for the same period in the previous year. The report was variously interpreted as pointing to a crop of anywhere from 12,500,000 to 13,000,000 bales, and as these figures coincide with the ideas of many of the bulls as to the size of the world's consumption of American cotton, and as the short interest had apparently become somewhat extended, prices on the day the report was issued advanced. On the following day, however, came a setback, owing to large receipts and liquidation on both sides of the water, which overbalanced the effect of continued activity in the spot trade at Liverpool, where the daily sales of actual cotton have ranged from 12,000 to 15,000 bales. It was in the face, too, of continued firmness of the spot markets at the South and a feeling among many that although the "into sight" movement for the week was likely to considerably exceed the estimates earlier in the week, the weekly spinners' takings would again reach very generous proportions. The speculation, however, has suffered from the continued indifference of the outside public and possibly in a measure from the agitation which has latterly arisen in regard to the New York contract and the schedule of differences between grades ruling here. It has now been recommended by a special committee of the Exchange to strike off eleven of the lower grades hitherto tenderable on contracts and also to make revisions of differences three times a year. January 21 has been appointed by the Board of Managers as the date for a general discussion of the committee's report, and the Managers will then set a date for a ballot by the members of the Exchange on these questions. To-day prices fluctuated within small limits, ultimately advancing, however, owing to a belief that spinners' takings during the week have been large. This offset the large receipts and rather free local and Southern selling. The net changes for the week show a small advance in the later months and one of 13 points on January, reflecting in some degree the firmness of the spot situation. Cotton on the spot has been dull. Middling closed at 10.80c., an advance for the week of 5 points.

The rates on and off middling, as established Nov. 21 1906 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Fair c.	2.00 on	Strict low mid. c.	0.14 off
Strict mid. fair	1.75 on	Fully low mid	0.32 off
Middling fair	1.50 on	Low middling	0.50 off
Barely mid. fair	1.25 on	Barely low mid	0.70 off
Strict good mid	1.00 on	Strict good ord	0.90 off
Fully good mid	0.88 on	Fully good ord	1.07 off
Good middling	0.76 on	Good ordinary	1.25 off
Barely good mid	0.57 on	Strict g'd mid. tgd.	0.30 on
Strict middling	0.38 on	Good mid. tinged	Even
Middling	Basis	Strict mid. tinged	0.06 off

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

January 11—	1907.	1906.	1905.	1904.
Stock at Liverpool ....bales.	745,000	1,137,000	929,000	615,000
Stock at London	11,000	15,000	12,000	12,000
Stock at Manchester	52,000	51,000	42,000	73,000

Continental imports past week have been 124,000 bales.

The above figures for 1907 show an increase over last week of 164,987 bales, a loss of 42,424 bales from 1906, an excess of 736,904 bales over 1905 and a gain of 1,357,942 bales over 1904.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

Towns.	*Movement to January 11 1907.*				*Movement to January 12 1906.*

Houston,	113,572	2,015,729	123,259	88,794	35,523	1,558,341	42,523	97,198
Paris,	704	82,470	611	3,851	564	47,642	685	1,776
Total, 33 towns	244,181	4,974,520	262,121	695,864	101,941	4,027,097	120,043	728,749

The above totals show that the interior stocks have *de*creased during the week 17,940 bales, and are to-night 32,885 bales less than at the same period last year. The receipts at all the towns have been 142,240 bales more than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

	——1906-07——		——1905-06——	
January 11—		*Since*		*Since*
Shipped—	*Week.*	*Sept.* 1.	*Week.*	*Sept.* 1.
Via St. Louis	37,972	408,402	11,418	242,672
Via Cairo	8,164	120,933	5,986	113,690
Via Rock Island	3,290	29,340	1,480	26,714
Via Louisville	1,649	41,927	3,278	48,963
Via Cincinnati	4,061	28,498	2,381	32,534
Via other routes, &c.	21,498	196,395	11,243	132,736
Total gross overland	76,634	825,495	35,786	600,309
Deduct shipments—				
Overland to N. Y., Boston, &c.	9,776	72,734	6,740	93,967
Between interior towns	1,768	27,642	247	9,605
Inland, &c., from South	1,174	22,162	681	18,837
Total to be deducted	12,718	122,538	7,668	122,409
Leaving total net overland *a*	63,916	702,957	28,118	477,900

a Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 63,916 bales, against 28,118 bales for the week last year, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 225,057 bales.

	——1906-07——		——1905-06——

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices from the South this evening denote that the weather has been favorable on the whole during the week. Where rain has fallen the precipitation has been very light as a rule and temperature has been higher. The crop is moving on a free scale and in West and Northwest Texas picking is still in progress.

Galveston, Texas.—Picking still continues in west and northwest Texas. We have had light rain on one day during the week, the rainfall reaching two hundredths of an inch. The thermometer has averaged 64, ranging from 58 to 70.

Abilene, Texas.—We have had rain on three days during the week, to the extent of one inch and five hundredths. The thermometer has ranged from 36 to 74, averaging 55.

Corpus Christi, Texas.—It has rained on one day of the week, the rainfall being one hundredth of an inch. Average thermometer 64, highest 74, lowest 54.

Fort Worth, Texas.—We have had only a trace of rain on three days during the week. The thermometer has averaged 68, the highest being 76 and the lowest 44.

Palestine, Texas.—We have had no rain the past week. The thermometer has averaged 58, ranging from 40 to 76.

San Antonio, Texas.—We have had rain on two days during the week, the rainfall being twenty-six hundredths of an inch. The thermometer has ranged from 54 to 78, averaging 66.

Taylor, Texas.—We have had rain on one day of the week, the rainfall being two hundredths of an inch. Average thermometer 61, highest 78 and lowest 44.

New Orleans, Louisiana.—We have had rain on one day of the week, the precipitation being nineteen hundredths of an inch. The thermometer has averaged 68.

Shreveport, Louisiana.—We have had rain on one day of the week, to the extent of nine hundredths of an inch. The thermometer has averaged 55, ranging from 34 to 76.

Vicksburg, Mississippi.—We have had only a trace of rain during the week. The thermometer has averaged 62, the highest being 77 and the lowest 43.

Helena, Arkansas.—There has been light rain on three days the past week, the rainfall reaching thirty-seven hundredths of an inch. The thermometer has averaged 51.5, ranging from 33 to 73.

Memphis, Tennessee.—We have had rain on two days during the past week, the rainfall being thirty-eight hundredths of an inch. Average thermometer 53.7, highest 72.1, lowest 33.3.

Nashville, Tenn.—There is a good demand for best class of all grades, but offerings are light. We have had rain during the week, the rainfall being thirty-five hundredths of an inch. The thermometer has averaged 51, the highest being 71 and the lowest 31.

Mobile, Alabama.—Fair weather with occasional showers in the interior. Cotton movement continues liberal. We have had rain on three days of the week, to the extent of three hundredths of an inch. The thermometer has averaged 64, ranging from 55 to 74.

Montgomery, Alabama.—There has been rain on two days of the week, the rainfall being six hundredths of an inch, The thermometer has averaged 62, the highest being 75 and the lowest 48.

Selma, Alabama.—We have had no rain the past week. The thermometer has averaged 56, ranging from 36 to 69.

Madison, Florida.—We have had no rain during the week. The thermometer has ranged from 49 to 89, averaging 66.

Augusta, Georgia.—Cotton being sold here rapidly. Demand is heavy. There has been rain on one day of the week, the precipitation reaching thirteen hundredths of an inch. Average thermometer 60, highest 75 and lowest 37.

Savannah, Georgia.—There has been no rain during the week. The thermometer has averaged 65, the highest being 79 and the lowest 53.

Stateburg, South Carolina.—There has been light rain on one day of the past week, the rainfall reaching seven hundredths of an inch. Colder and very cloudy now with more rain threatened. The thermometer has averaged 63, ranging from 43 to 76.

Greenwood, South Carolina.—There has been rain on one day of the past week, and the rainfall has been four hundredths of an inch. The thermometer has ranged from 46 to 67, averaging 56.

Charlotte, North Carolina.—We have had rain on one day during the week, to the extent of three hundredths of an inch. The thermometer has ranged from 37 to 74, averaging 55.

The following statement we have also received by telegraph, showing the height of rivers at the ports named at 8 a. m. of the dates given:

		Jan. 11 1907. Feet.	Jan. 12 1906 Feet.
New Orleans	Above zero of gauge.	15.1	11.1
Memphis	Above zero of gauge.	32.1	23.1
Nashville	Above zero of gauge.	16.3	16.6
Shreveport	Above zero of gauge.	16.5	19.0
Vicksburg	Above zero of gauge.	38.6	28.6

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts of cotton at Bombay and the shipments from all India ports for the week and for the season from Sept. 1 for three years have been as follows:

	1905	2,061	456,339		1905	121	14,476

"The statistics for this report include 255,592 round bales for 1906 and 263,581 for 1905. The number of Sea Island bales included is 54,168 for 1906 and 98,942 for 1905. The Sea Island cotton for 1906, distributed by States, is: Florida, 23,144; Georgia, 23,596; South Carolina, 7,428. There were ginned 11,113,589 bales to December 13 1906.

NEW YORK COTTON EXCHANGE.—*Death of Emanuel Lehman.*—Mr. Emanuel Lehman, senior member of the firm of Lehman Bros., cotton commission merchants, died on Thursday in his eightieth year, at his home, 16 East 46th St. Mr. Lehman came to the United States in 1848 and started in business at Montgomery, Ala., with his brother Mayer. After the war they came to New York and organized the firm of Lehman Bros., which for some years has been one of the most prominent houses in the cotton trade. Mr. Lehman's outside interests were large, his name being included in the directorate of many financial and industrial corporations.

DEATH OF THE HONORABLE SAMUEL SMITH.—Messrs. Henry Hentz & Co. received a cablegram on Dec. 31 from Messrs. Smith, Edwards & Co. of Liverpool, reporting the death of their senior partner, Right Honorable Samuel Smith, who died very suddenly on the night of the 28th inst. at Calcutta. Mr. Smith served more than twenty years in Parliament and retired a few years ago on account of ill health. It was not expected that he would be able to take up his active public work again. A critical surgical operation was successfully performed, however, and his health was restored. He was recently appointed by King Edward a member of his Privy Council. Mr. Smith was a philanthropist in every sense of the word. His death will be greatly mourned throughout Great Britain, and India, too, as he was a warm friend of the latter country, striving always to better its condition, and his recent visit to India was for that purpose. He was the senior, but not active, member of the well-known cotton house of Messrs. Smith, Edwards & Co. of Liverpool. He gave very little attention to business after he became a member of Parliament. He established the house in 1862 or 1863, after his return from a visit to India, where he investigated the question of cotton culture. His various letters to the "Liverpool Post" on that subject, written in India and signed "Mercator," attracted world-wide attention in the cotton trade, and his monthly circulars regarding cotton up to the time when he was returned to Parliament were greatly in demand by the cotton trade, which looked upon him as an authority. Mr. Smith was born in the year 1836 in Kirkcudbright, Scotland. He survived his wife and children. His brother, Mr. James Smith, and the latter's son, with Mr. Herbert Bickersteth, are the remaining members of the firm of Smith, Edwards & Co.

JUTE BUTTS, BAGGING, ETC.—The market for jute bagging has been inactive during the week under review at the following prices: 8¾c. for 1¾ lbs. and 9⅛c. for 2 lbs., standard grades. Jute butts very dull at 3@4c. for bagging quality.

DOMESTIC EXPORTS OF COTTON MANUFACTURES.—We give below a statement showing the exports of domestic cotton manufactures for November and for the eleven months ended November 30 1906 and for purposes of comparison like figures for the corresponding periods of the previous year are also presented:

Quantities of Manufactures of Cotton (colored and uncolored) Exported to—	*Month ending Nov. 30.*		*11 mos. ending Nov. 30.*

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—Through arrangements made with Messrs. Choremi, Benachi & Co., of Liverpool and Alexandria, we receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

Alexandria, Egypt, January 9.	1906-07.	1905-06.	1904-05.
Receipts (cantars *a*)—			
This week	340,000	250,000	175,000
Since Sept. 1	5,183,881	4,072,250	3,793,145

Exports (bales)—	*This week.*	*Since Sept. 1.*	*This week.*	*Since Sept. 1.*	*This week.*	*Since Sept. 1.*
To Liverpool	5,250	132,186	5,250	119,546	4,500	116,557
To Manchester	9,000	111,660	6,250	80,943	5,250	67,763
To Continent	16,000	166,404	17,000	146,900	15,500	141,867
To America	5,250	51,278	3,000	36,742	6,000	31,629
Total exports	35,500	461,528	31,500	384,131	31,250	357,816

a A cantar is 98 lbs.

This statement shows that the receipts for the week were 340,000 cantars and the foreign shipments 35,500 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is firm for both yarns and shirtings. Demand for both India and China is good. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

BREADSTUFFS.

Friday, Jan. 11 1907.

Prices for wheat flour have ruled steady, with the trading limited in the main to jobbers. Small sales for shipment to the West Indies have been reported of late, but as a rule exporters are still out of the market. The local trade has fallen to such small proportions that city mills are supplying the bulk of the demand. Buyers show no disposition to advance bids, in spite of the recent rise in the price of wheat, and sellers remain as firm in their views as ever. Rye flour has been steady as a rule, with small jobbing sales. Corn meal has been easy with light sales, partly for export.

Wheat has shown a rising tendency, partly because of advancing foreign markets and partly because of light receipts and strong cash markets at the Northwest. Moreover, the weather at the West has not been altogether favorable. It has been exceptionally mild in the winter-wheat belt, where the crop for the most part lacks the protection of snow, while latterly the weather has been exceptionally cold at the Northwest, and the predictions have been for a cold wave in the winter-wheat belt, which, striking the unprotected wheat, might have done considerable harm. These predictions have not been fully verified, but the market is still unquestionably more or less sensitive to the question of temperatures in the winter-wheat belt. The Australian yield seems likely to turn out smaller than was at one time expected. On the other hand, from present appearances the Argentine crop will amount to 142,000,000 bushels, against 135,000,000 bushels last year and 151,000,000, the high record crop of 1904-05. But partly it appears, on account of car shortage, the crop in our Northwestern States is being marketed very slowly, and the increase of stocks in that section for the week is therefore small. The world's available supply increased last week 1,855,000 bushels, against a decrease in the previous week of 1,090,000 bushels and a decrease for the same week last year of 1,833,000 bushels. This had no great effect, though it brings the world's stock of all kinds of wheat up to 167,390,000 bushels, or, in round figures, 14,000,000 bushels more than a year ago. This includes 80,590,000 bushels of American, or, roughly, 9,000,000 bushels more than at the same time last year. One disappointing factor is the slowness of the export trade, although recently there have been some signs which seem to hold out hopes of an early awakening of foreign business. To-day prices declined a fraction early in the day, owing to disappointing cables, realizing and favorable weather, but later there was a rally on covering of shorts, light receipts and commission-house buying.

DAILY CLOSING PRICES OF WHEAT FUTURES IN NEW YORK.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
January delivery in elevator	71¼	71½	71⅜	71½	72	72
May delivery in elevator	75¾	75⅜	75⅛	75⅞	76¼	76¼
July delivery in elevator	75	75¼	75½	75¾	76⅛	76⅛

Indian corn futures have advanced with the trading more active. Stimulating factors have been the continued smallness of the crop movement and the absence of contract grade in the receipts at Chicago. The light movement is attributed by many to the car scarcity, but whatever the cause the fact that the receipts do not increase permanently tends to keep short selling down to a minimum. There has been buying by prominent commission houses of late and shorts have covered. At times, moreover, the exports have been larger, and it is believed by many that a good export trade is being done and not fully reported. To-day the market weakened early, owing to a decline in wheat and realizing, but later on covering of shorts and light receipts caused a recovery.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN IN NEW YORK.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
Cash corn	52½	52½	52½	52½	53	53
January delivery in elevator	51¼	51¼	52⅛	52	52½	52⅜
May delivery in elevator	50⅛	50⅛	50¼	50⅜	50⅝	50¾

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
January delivery in elevator	39	39 1/4	39 3/8	39 1/2	39 3/4	39 3/4
May delivery in elevator	43	43 1/4	43 3/4	43 5/8	43 7/8	43 3/4
July delivery in elevator	43 1/4	43 1/2	43 1/2	43 3/4	43 7/8	43 3/4

Oats for future delivery in the Western market have been firm in the main, owing to sympathy with corn. The trading, however, has been on a very small scale and has lacked interesting features. But the receipts have been small and shorts have covered at times. The cash demand has been fairly active at Chicago and prices there have shown an advancing tendency. To-day prices were slightly lower at first, owing to depression in corn and wheat and liquidation but rallied later on covering of shorts.

THE DRY GOODS TRADE.

New York, Friday Night, January 11 1907.

Only a moderate trade has been passing in the primary cotton goods market during the past week, but prices have held very firm and in several instances advances have a gain to be recorded. A number of the large buyers have not yet returned to this city after the holidays and are not expected back until about the middle of January, and those who are here find that there are few goods available for anything like early delivery. Re-ordering has commenced already to some extent, but, in view of the unsatisfactory deliveries being made by the mills, agents are disinclined to commit themselves to any great extent. For the same reason buyers eagerly pick up any slight accumulations that may occur and the market is consequently kept very bare of supplies. Jobbers have had an active week and have made particularly good sales of printed and wash goods. From a price-movement point of view the most important development of the week has been an advance of ½c. in lines of staple prints; this had been anticipated for some time and as it does not go into effect for another week or more, there has been active buying of prints in all directions. Export business with miscellaneous countries has been larger and a notable transaction has been the sale of some heavy drills to China. A fair trade has been transacted in the woolen and worsted goods market.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Jan. 5 were 2.327 packages, valued at $162,296, their destination being to the points specified in the tables below:

	1907		1906	
New York to Jan. 5.	*Week.*	*Since Jan. 1.*	*Week.*	*Since Jan. 1.*
Great Britain	65	65	8	8
Other European	2	2	25	25
China				
India	161	161	2,663	2,663
Arabia				
Africa	28	28	6	6
West Indies	426	426	653	653
Mexico	71	71	36	36
Central America	340	340	658	658
South America	650	650	2,667	2,667
Other Countries	584	584	449	449
Total	2,327	2,327	7,165	7,165

The value of these New York exports since Jan. 1 has been $162,296 in 1907, against $420,882 in 1906.

The sale to China of 1,500 bales of standard drills was the only actual business consummated with that country during the week, but there were numerous inquiries for other lines, and, generally, there are indications of an awakening of interest in this section of the market. The price obtained for the lot mentioned was slightly lower than the recently prevailing figure. The home demand for heavy brown drills and sheetings has been moderate and orders have been placed for shipment after March and April at full prices. In spite of this, however, the position of heavy goods is not so favorable as that of the finer grades and the prices realized are not so remunerative. Lighter-weight sheetings have been in good request and are very firmly held. Bleached goods continue strong with premiums easily obtainable for near-by deliveries; the principal demand for the moment is from cutters. Wide sheetings have been advanced and many of the more prominent lines are still held at value. Coarse colored cotton goods maintain their favorable position and the demand is sufficient to insure against any weakness for some time to come. Linings have been active. The expected opening of napped goods has not materialized and sellers seem to be in no hurry to show goods; there is a general feeling in the trade that the demand for fall is going to be heavy and that prices will be higher. The coming advance in prints induced some very heavy buying of these and the market has been active. Ginghams are in very small supply and are expected to be even scarcer later on. Print cloths have been moderately active, wide goods selling freely for April, May and June delivery.

WOOLEN GOODS.—Further lines of men's wear heavy-weight woolen and worsted goods have been opened during the week and a fair business has been transacted at prices slightly under the highest of last season. There has been nothing in the way of great enthusiasm in the market, however, and the volume of buying is not as large as it has been in the past. There is little change in the character of the demand, worsteds coming in for the lion's share of attention but woolens selling better, proportionately, than they have during the past two or three seasons. The mildness of the weather has had a good deal to do with the lack of animation and it is felt that a couple of weeks of seasonably cold weather would make a great deal of difference to the trade. Overcoatings have been very slow and are not expected to improve until the weather changes. There is not much doing in the dress goods market at the moment but sellers are very confident of a good heavy-weight season when lines begin to be shown freely. It is too early yet for duplicating to any extent but some rather unwelcome cancellations have been recently reported.

FOREIGN DRY GOODS.—Imported woolen and worsted dress goods are quiet. Silks and silk ribbons have again been advanced and are in good demand; the improvement in the former is being more than maintained. Linens are strong and burlaps very firm and scarce.

Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending January 5 1907 and since Jan. 1 1907, and for the corresponding periods of last year, are as follows:

STATE AND CITY DEPARTMENT.

INDEX TO CHRONICLE VOLUME.

With this issue of our paper we send to our subscribers a complete index to all the matter appearing in Volume 83 of the "Chronicle," covering the numbers from July 7 1906 to December 29 1906, both inclusive. The items appearing during that time in our "State and City Department" will be found fully indexed there for the whole of the six months referred to.

MUNICIPAL BOND SALES IN DECEMBER AND THE YEAR 1906.

The December output of municipal bonds exceeded any total for that month in previous years, with the exception of 1900. According to our records, $21,153,569 of such bonds were placed, not counting $19,302,986 of temporary loans, $448,624 of Canadian loans, $2,000,000 bonds of Manila and $1,050,000 of general fund bonds of New York City. The aggregate for December as well as for the twelve months for a series of years is shown in the following table:

	Month of December.	For the Twelve Mos.		Month of December.	For the Twelve Mos.
1906	$21,153,569	$201,984,565	1898	$7,306,343	$103,084,793
1905	8,254,593	183,080,023	1897	17,855,473	137,981,004
1904	9,035,785	250,751,946	1896	10,664,287	106,496,060
1903	13,491,797	152,281,050	1895	8,545,804	114,021,633
1902	11,567,812	152,846,335	1894	13,486,374	117,176,225
1901	15,456,958	149,498,689	1893	17,306,564	77,421,273
1900	22,160,751	145,733,062	1892	3,297,249	83,823,515
1899	4,981,225	118,113,005			

For the year 1906 the total exceeded that for 1905 by nearly 19 millions, and, with the exception of 1904, the aggregate is the largest ever recorded for any calendar year. The amount is $201,984,565, as against $183,080,023 in 1905, $250,751,946 in 1904, $152,281,050 in 1903, $152,846,335 in 1902, $149,498,689 in 1901 and $145,733,062 in 1900. It should be borne in mind that, for reasons so often explained, we do not incorporate in our compilations temporary loans, nor do we include sales made by places located outside of the United States. Thus we reported during the year $174,974,910 of temporary loans, $15,241,520 of Canadian loans, $4,750,000 of Manila, Philippine and Hawaiian loans and $11,750,000 of general fund bonds of New York City, all of which have been excluded. With all these incorporated the total would be increased to $408,700,995.

The following table shows the monthly output in each of the years 1906 and 1905:

	1906.	1905.		1906.	1905.
January	$8,397,582	$8,436,253	July	$25,244,919	$10,878,302
February	28,300,655	9,310,631	August	16,366,587	8,595,171
March	29,332,012	17,980,922	September	9,002,418	9,825,200
April	8,825,437	40,409,428	October	15,345,277	7,915,496
May	14,895,937	16,569,066	November	12,501,550	25,888,207
June	21,618,622	19,016,754	December	21,153,569	8,254,593
Total				$201,984,565	$183,080,023
Average per month				$16,832,047	$ 5,256,668

In the following table we give a list of December loans to the amount of $21,153,569 issued by 156 municipalities. In the case of each loan reference is made to the page in the "Chronicle" where an account of the sale is given.

All the above sales (except as indicated) are for November.

These additional November issues will make the total sales (not including temporary loans) for that month $12,501,550.

Bond Proposals and Negotiations this week have been as follows:

Alexandria, Rapides County, La.—*Bond Election.*—Reports state that the City Council proposes to call an election to be held the latter part of this month to vote on the question of issuing $25,000 water and electric-light-extension and $30,000 city-hall bonds.

Allegheny County (P. O. Pittsburgh), Pa.—*Bond Sale.*—On Jan. 10 the $500,000 4% 30-year coupon road and highway bonds dated Feb. 1 1907 and described in V. 83, p. 1604, were awarded to the Pittsburgh Trust Company of Pittsburgh at 101.50—a basis of about 3.91½%.

Allentown School District (P. O. Allentown), Lehigh County, Pa.—*Bond Offering.*—Proposals will be received until April 1 by the Treasurer of the Board of Education for the $121,500 3½% coupon refunding bonds mentioned in V. 83, p. 1487. Denomination $500. Date April 1 1907. Interest semi-annually in Allentown. Maturity part due every five years from 1912 to 1937 inclusive. Bonds are exempt from taxation.

Altoona, Pa.—*Bond Election.*—An election will be held in this city Feb. 19 to vote on the question of issuing $100,000 4% 15-30-year (optional) street-improvement bonds.

Altoona School District (P. O. Altoona), Blair County, Pa.—*Bond Sale.*—This district awarded $55,000 4% high-school bonds to Rudolph Kleybolte & Co. of Cincinnati on Nov. 19 1906 at 100.005. Denomination $1,000. Date Dec. 1 1906. Interest semi-annual. Maturity thirty years.

Amsterdam and Perth Common School District No. 5 (P. O. Hagaman), Montgomery County, N. Y.—*Bond Sale.*—On Dec. 31 1906 $11,000 school-building bonds were awarded to the Amsterdam Savings Bank at par for 4¼s. Denomination $550. Date January 1907. Interest annual. Maturity $550 yearly on Jan. 15 from 1908 to 1927 inclusive.

Anderson, Anderson County, S. C.—*Bond Election Proposed.*—There is talk of calling an election for the purpose of voting on the question of issuing $75,000 street-improvement bonds. We are informed, however, that no official action has yet been taken in this matter.

Arcadia, Valley County, Neb.—*Bond Sale.*—On Dec. 15 1906 this town awarded $10,000 5% 5-20-year (optional) water-works bonds dated Dec. 1 1906 to the National Construction Co. at par. Denomination $500. Interest annual.

Arlington, Mass.—*Temporary Loan.*—The Treasurer has borrowed $25,000 for four months from Loring, Tolman & Tupper of Boston at 5.86% discount.

Arlington, Calhoun County, Ga.—*Bond Offering.*—Proposals will be received until 8 p. m., Feb. 5, by L. L. Lyon, Mayor, and the Town Council for the $25,000 5% water-works and electric-light bonds voted on Aug. 15 1906. Certified check for $500 required. J. O. McNiel is Clerk of the Town Council.

Ashtabula School District (P. O. Ashtabula), Ashtabula County, Ohio.—*Bond Sale.*—On Jan. 8 the $40,000 4½% 11¼-year (average) coupon school-building bonds described in V. 83, p. 1426, were awarded to Seasongood & Mayer of Cincinnati at 105.388 and accrued interest—a basis of about 3.90%. Following are the bids:

Seasongood & Mayer, Cin	$42,155 50	Lamprecht Bros. & Co., Clev	$41,372 71
A. B. Leach & Co., Chic	42,070 00	Prov. Sav. Bk. & Tr. Co., Cin.	41,507 60
Hayden, Miller & Co., Clev.	41,977 50	MacDonald, McCoy & Co., Chicago	41,505 70
Rudolph Kleybolte & Co., Cincinnati	41,948 00	F. L. Fuller & Co., Clev.	41,465 50
Otis & Hough, Cleveland	41,825 00	Emery, Anderson & Co., Cle.	41,465 00
Weil, Roth & Co., Cincin.	41,825 00	W. J. Hayes & Sons, Clev.	41,398 60
Atlas Nat. Bank, Cincin	41,800 00	New First Nat. Bk., Columb.	41,350 00
Denison & Farnsworth, Cle.	41,725 50	E. H. Rollins & Sons, Chi.	41,220 00
W. R. Todd & Co., Cincin.	41,650 00	Un. Sav. Bk. & Tr. Co., Cin.	41,200 00

Atlantic City, N. J.—*Bonds Proposed.*—Local reports state that at a meeting of the Council on Dec. 24 an ordinance providing for the issuance of $300,000 reservoir bonds was passed to its first reading.

Aurora City, Hamilton County, Neb.—*Bonds Voted.*—On Dec. 22 the issuance of $15,000 railroad-aid bonds was authorized. These bonds will not be put out until the completion of the road, which will be at least one year.

Ballard School District No. 50, King County, Wash.—*Bond Sale.*—On Jan. 7 the $70,000 20-year gold coupon building bonds dated Feb. 1 1907 and described in V. 83, p. 1604, were awarded, it is stated, to the State of Washington at par for 3¾s.

Battle Lake, Ottertail County, Minn.—*Bonds Voted.*—By a vote of 61 to 28 the electors of this village on Dec. 26 1906 authorized the issuance of the $8,000 4% 20-year water and light bonds mentioned in V. 83, p. 1548. We are informed that it is the intention of the village to borrow the money from the State.

Bayou Catfish Drainage District (P. O. Grosse Tete), Iberville Parish, La.—*Bond Offering.*—Proposals will be received until Jan. 28 by Rev. F. Badeaux, Secretary, for $52,000 5% gold coupon bonds. Denomination $500. Date Feb. 1 1907. Interest annual. Maturity part yearly to 1931. Certified check for 10% of the amount bid required.

Bellefontaine (Ohio) School District.—*Bond Offering.*—Proposals will be received until 7 p. m. Feb. 1 by Luther B. Stough, Clerk Board of Education, for the following bonds:

$12,500 4% bonds maturing $500 yearly beginning Mch. 1 1916.
12,500 4% bonds maturing $500 yearly beginning Mch. 1 1916.
12,500 4% bonds maturing $500 yearly beginning Sept. 1 1916.
12,500 4% bonds maturing $500 yearly beginning Sept. 1 1916.
5,000 4% bonds maturing $500 yearly beginning Mch. 1 1931.
5,000 4% bonds maturing $500 yearly beginning Sept. 1 1931.

Denomination $500. Date Feb. 1 1907. Interest semi-annual. All unpaid bonds are subject to call after March 1 1917. Accrued interest to be paid by purchaser. Certified check for 5% of the bonds bid for, payable to the Treasurer of the Board of Education, is required.

Bethany, Harrison County, Mo.—*Description of Bonds.*—We are advised that the price paid for the $6,000 4% electric-light-extension bonds recently sold (see V. 84, p. 61), was par. Denomination $500. Date Jan. 1 1907. Interest annual. Maturity Jan. 1 1927, subject to call after Jan. 1 1917.

Boston, Mass.—*Sales for the Year 1906.*—During the year 1906 this city issued $5,195,350 bonds. All of these sales were recorded in the "Chronicle" with the exception of $300,000 3½% water bonds taken by the Sinking Fund in July. Temporary loans to the amount of $5,600,000 were also negotiated during the year as follows:

$500,000 4% loan due Nov. 1 1906. Awarded in February to the National Shawmut Bank.
1,000,000 4% loan due Nov. 2 1906. Awarded in March to sinking fund.
1,000,000 4% loan due Nov. 1 1906. Awarded in May to bearer.
250,000 4% loan due Nov. 2 1906. Awarded in May to First National Bank.
250,000 4% loan due Nov. 2 1906. Awarded in May to State National Bank.

300,000	4%	loan due Nov. 2 1906. Awarded in June to Second National Bank.
500,000	4%	loan due Nov. 2 1906. Awarded in June to National Shawmut Bank.
500,000	4%	loan due Nov. 2 1906. Awarded in June to Old Colony Trust Co.
250,000	4%	loan due Nov. 2 1906. Awarded in June to Boston Safe Deposit & Trust Co.
200,000	4%	loan due Nov. 2 1906. Awarded in June to State National Bank.
200,000	4%	loan due Nov. 2 1906. Awarded in June to First National Bank.
250,000	4%	loan due Nov. 5 1906. Awarded in July to Mercantile National Bank.
150,000	4%	loan due Nov. 5 1906. Awarded in July to National Bank of Republic.
50,000	4%	loan due Nov. 5 1906. Awarded in July to National Bank of Commerce.
200,000	3½%	loan due Nov. 5 1906. Awarded in August to Boston Safe Deposit & Trust Co.

Bryan, Williams County, Ohio.—*Bonds Defeated.*—The voters on Dec. 27 1906 defeated the proposition to issue the $40,000 electric-light and water-works bonds mentioned in V. 83, p. 1487. The vote was 282 "for" to 196 "against"—two-thirds necessary to authorize.

Bonds Authorized.—On Jan. 1 the Village Council passed an ordinance providing for the issuance of $10,000 5% coupon water-works and electric-light-plant extension bonds. Denomination $1,000. Date March 1 1907. Interest semi-annually at the Village Treasury. Maturity $1,000 "on or before March 1 1911," $3,000 "on or before March 1 1912" and $3,000 "on or before March 1 1913."

Buena Vista County (P. O. Storm Lake), Iowa.—*Bond Sale.*—On Dec. 18 1906 $23,000 of the $27,000 6% Drainage District No. 3 bonds offered but not sold on Oct. 4 (V. 83, p. 1055) were awarded to F. B. Sherman & Co. of Chicago at 104. Denomination $500. Date Jan. 1 1907. Interest semi-annual. Maturity one-twelfth yearly beginning in 1910.

Buffalo, N. Y.—*Bonds Authorized.*—The Finance Committee has authorized the Mayor and Comptroller to issue not exceeding $340,000 4% bonds to reimburse the tax-loan fund. Securities will be dated Feb. 1 1907. Interest semi-annual. Maturity one-tenth yearly.

Buncombe County (P. O. Asheville), N. C.—*Bonds Proposed.*—This county is considering the advisability of issuing from $250,000 to $300,000 coupon road-improvement bonds.

Burns, Harney County, Ore.—*Bond Sale.*—On Jan. 1 the $4,000 5% 10-year gold coupon refunding bonds described in V. 83, p. 1487, were awarded to I. L. Gault, Cashier First National Bank of Burns, at 100.625—a basis of about 4.92%. A bid of par less $150 for attorney's fees was also received from Morris Bros. of Portland, Ore.

Cambridge, Mass.—*Sales for the Year.*—During the year 1906 the city of Cambridge disposed of $759,000 bonds as follows:

25,000	4%	40-year park bonds dated Sept. 1 1906.	Awarded to Merrill Oldham & Co. at 103.05.
100,000	4%	40-year bridge bonds dated Aug. 1 1906.	Awarded to Merrill, Oldham & Co. at 106.42.
50,000	4%	40-year bridge bonds dated Aug. 1 1906.	Awarded to Merrill, Oldham & Co. at 103.05.
100,000	4%	20-year street bonds dated May 1 1906.	Awarded to Merrill Oldham & Co. at 105.50.
22,000	4%	20-year street bonds dated Aug. 1 1906.	Awarded to Merrill, Oldham & Co. at 101.39.
33,000	4%	20-year school bonds dated Aug. 1 1906.	Awarded to Merrill Oldham & Co. at 101.39.
8,000	4%	20-year school bonds dated Nov. 1 1906.	Awarded to the Cemetery Fund at par.
6,000	4%	20-year school bonds dated Nov. 1 1906.	Awarded to the Sinking Fund at par.
20,000	3½%	40-year bridge bonds dated Jan. 1 1906.	Awarded to Merrill, Oldham & Co. at 100.25.
5,000	4%	40-year bridge bonds dated Sept. 1 1906.	Awarded to Merrill, Oldham & Co. at 103.25.
35,000	4%	30-year sewer bonds dated May 1 1906.	Awarded to Merrill, Oldham & Co. at 107.25.
25,000	4%	30-year sewer bonds dated Sept. 1 1906.	Awarded to Merrill, Oldham & Co. at 102.66.
50,000	4%	40-year bridge bonds dated Aug. 1 1906.	Awarded to Merrill, Oldham & Co. at 103.06.
253,000	4%	30-year water bonds dated May 1 1906.	Awarded to Merrill, Oldham & Co. at 107.25.
22,000	4%	30-year water bonds dated May 1 1906.	Awarded to Merrill, Oldham & Co. at 102.66.
5,000	4%	30-year water bonds dated May 1 1906.	Awarded to Sinking Fund at par.

Canyon City, Fremont County, Colo.—*Bonds Defeated.*—The election held Dec. 31 1906 resulted in the defeat of the proposition to issue water-works bonds. The vote was 175 "for" to 178 "against."

Carney Independent School District (P. O. Carney), Haskell County, Texas.—*Bonds Registered.*—The State Comptroller on Jan. 4 registered $3,000 5% 20-year school-house bonds dated Oct. 1 1906.

Cass County (P. O. Fargo), N. D.—*Bond Sale.*—On Dec. 31 1906 the $91,039 (amount reduced from $106,090 by payment of assessments) coupon drainage assessment bonds were awarded to MacDonald, McCoy & Co. of Chicago at 100.10 and interest for 6s. See V. 83, p. 1605, for description of these bonds.

Cedar Rapids, Linn County, Iowa.—*Bond Election.*—This city, according to local reports, will hold an election Feb. 12 for the purpose of voting on a proposition to issue $125,000 city-hall-building bonds.

Cedarville, Ill.—*Bond Sale.*—This town has disposed of an issue of $3,000 bridge bonds.

Cheviot, Hamilton County, Ohio.—*Bond Sale.*—On Dec. 27 the $1,590 5% 1-10-year (serial) Harrison Avenue assessment bonds dated Oct. 29 1906 and described in V. 83, p. 1368, were awarded to the Cosmopolitan Bank & Savings Co. of Cincinnati at 101.21 and interest.

Chicago (Ill.) Sanitary District.—*Purchasers of Bonds.*—It is now understood that N. W. Halsey & Co., Chicago, secured $300,000 and two large investors $95,000 and $35,000, respectively, of the $500,000 4% coupon bonds awarded on Dec. 26 at public subscription. These subscriptions left only $70,000, or 14% of the issue, which was taken by small investors. See V. 84, p. 61.

Cincinnati, Ohio.—*Sales for the Year 1906.*—The City of Cincinnati put out during the calendar year 1906 $9,302,132 bonds. Of this aggregate the sales of $8,697,000 were recorded in these columns from time to time. The remaining $605,132 issues were practically all taken by the Sinking Fund at par. They are as follows:

$200,000 3½% hospital bonds dated Dec. 1 1905 and maturing Dec. 1 1935.
25,000 3.65% stable bonds dated July 9 1906 and maturing July 9 1926.
5,000 4% water bonds dated Sept. 1 1906 and maturing Sept. 1 1946; optional Sept. 1 1926.
100,000 4% water bonds dated Sept. 15 1906 and maturing Sept. 15 1916.
36,000 4% bridge bonds dated Oct. 1 1906 and maturing Oct. 1 1956.
5,312 sidewalk assessment bonds.
71,312 sewer assessment bonds.
162,408 street assessment bonds.

Bond Offering.—Proposals will be received until 12 m. Feb. 8 by Elmer G. Pryor, Clerk Board Trustees "Commissioners of Water Works," for the $1,000,000 4% coupon additional water-works bonds mentioned in V. 83, p. 1605. Denomination $500. Date Feb. 1 1907. Interest semi-annually at the American Exchange National Bank, New York City. Maturity Feb. 1 1917, subject to call after Feb. 1 1927. Certified check on a national bank for $20,000, payable to the Board of Trustees "Commissioners of Water-Works," required. Bidders must use printed form of proposals furnished by the Clerk. Bonds will be delivered Feb. 15.

Cloverdale School District (P. O. Cloverdale), Putnam County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. Jan. 19 by Stephen Lowe, Jr., Clerk Board of Education, for $8,000 6% school-building bonds. Authority Sections 3991 and 3992 of the Revised Statutes, election held Nov. 6 1906 and resolution passed Dec. 21 1906. Denomination $500. Date Jan. 19 1907. Interest semi-annual. Maturity $500 yearly on Jan. 19 from 1909 to 1924 inclusive. Certified check for $500, payable to the Board of Education, is required. Accrued interest to be paid by purchaser.

Coatesville, Chester County, Pa.—*Bond Election.*—Reports state that the question of issuing $100,000 water bonds will be submitted to a vote in February.

Crawford County (P. O. Denison), Iowa.—*Bonds Defeated.*—We have just been advised that the proposition to issue $20,000 poor-farm bonds, submitted to a vote on Nov. 6 1906, failed to carry.

Dayton, Ohio.—*Sales for the Year.*—The city of Dayton placed during the year 1906 $641,050 bonds, of which amount the report of the sales of $567,920 appeared in the "Chronicle" from time to time as they occurred. The remaining $73,130 bonds were all taken by the Sinking Fund at par and answer to the following descriptions:

$2,700 4% 1-year George Street extension bonds, dated Jan. 1 1906.
1,900 4% 1-year Coates Ave. extension bonds, dated Jan. 15 1906.
3,000 5% 8-10-year (serial) O'Bell Court paving bonds, dated Feb. 15 '06.
8,200 5% 3-10-year (serial) Sewer No. 4 bonds, dated March 1 1906.
16,000 5% 3-10-year (serial) Sewer No. 5 bonds, dated March 1 1906.
1,400 5% 1-year Alley opening bonds, dated April 1 1906.
2,000 4% 1-year River Improvement bonds, dated June 1 1906.
1,850 5% 1-year Holt Street opening bonds, dated June 15 1906.
2,600 5% 1-year Hospital bonds, dated June 15 1906.
5,100 4% 2-year water-works-improvement bonds, dated June 15 1906.
4,600 5% 1-year Central Court bonds, dated Sept. 1 1906.
23,780 6% 1-year bonds for various improvements.

Delaware County (P. O. Delaware), Ohio.—*Bond Offering.*—A. S. Conklin, County Auditor, will offer at public auction 1 p. m. Jan. 15 an issue of $102,000 4% coupon road-improvement bonds. Authority, Section 6 of an Act passed April 4 1900 and Section 22b of the Revised Statutes. Denomination $510. Date Sept. 1 1906. Interest semi-annually at the County Treasurer's office. Maturity $5,100 each six months from March 1 1907 to Sept. 1 1916 inclusive. Bonds are exempt from taxes. Certified check for $1,000, drawn on some bank in Delaware County, and made payable to the County Auditor, is required.

Denton County, (P. O. Denton), Texas.—*Bonds Registered.*—On Dec. 26 1906 $12,500 bridge refunding and $25,000 court-house refunding 4% 5-40-year (optional) bonds, dated Oct. 10 1906, were registered by the State Comptroller.

Douglas County (Wash.) School District No. 150.—*Bond Sale.*—On Dec. 28 1906 a $1,500 6% 5-year building bond dated Dec. 28 1906 was awarded to A. E. Case of Waterville at par. Interest annual. A bid of par was also received from Wm. D. Perkins & Co. of Seattle.

Eagle Pass School District (P. O. Eagle Pass), Maverick County, Tex.—*No Action Yet Taken.*—No action has yet been taken looking towards the issuance of the $30,000 5% 10-30-year (optional) school-building bonds voted on Nov. 15.

Edmonton, Alberta.—*Bids Rejected.*—All bids received on Dec. 18 1906 for the seventeen issues of 4½% and 5% debentures, aggregating $540,187 57, were rejected. See V. 83, p. 1427, for description of these securities.

Ellicott Union Free School District No. 6, Chautauqua County, N. Y.—*Bonds Not Yet Sold.*—No disposition has yet been made of the $34,200 4% coupon school-building bonds mentioned in V. 83, p. 1427.

$25,000
City of St. Paul, Minn.,
PARK BONDS.

City Comptrollers' Office,
St. Paul, Minn., January 2, 1907.

SEALED PROPOSALS will be received at the office of the City Comptroller by the Sinking Fund Committee until 12 o'clock, noon, on January 16, 1907, and opened at that time, for the purchase of Twenty-Five Thousand ($25,000 00) Dollars of bonds of the City of St. Paul, Minnesota, the proceeds of which are to be used for the purpose of adding to its funds available for the acquisition of land for park and parkway purposes by purchase or otherwise. These bonds are issued pursuant to Ordinance No. 2640, passed by the Common Council and approved December 7, 1906, authorized by Chapter 235 of the Laws of the State of Minnesota for the year 1903, approved April 17, 1903, as amended by Chapter 91 of the Laws of Minnesota for the year 1905, approved March 31, 1905. Bonds in denomination of five hundred or one thousand dollars each, as the purchaser may desire, with coupons attached and dated February 1, 1907, and mature January 31, 1937. They bear interest at the rate of four (4) per cent per annum, payable semi-annually, interest and principal payable at the financial agency of St. Paul in New York City, delivery of bonds to be made at the Comptroller's office, where payment must be made by the successful bidder. A certified check payable to the City Treasurer of the City of St. Paul for two (2) per cent of the par value of the bonds bid for must accompany each bid that will be considered. Bids will be received for all or any part of the lot. The Committee reserves the right to reject any and all bids.

Proposals to be marked "Bids for Park Bonds" and addressed to

LOUIS BETZ,
City Comptroller.

NEW LOANS.

$41,000
Town of Hartsville, So. Car.,
5% Coupon Bonds.

Sealed proposals will be received by the Board of Commissioners of Public Works of the Town of Hartsville, S. C., until 12 o'clock noon. FEBRUARY 1ST 1907, for the purchase of Forty-One Thousand Dollars ($41,000 00) five per cent coupon bonds to be dated January 1st, 1907, and payable forty years after date, with the privilege of redemption twenty years after date. Interest payable January 1st and July 1st of each year at Bank of Hartsville, Hartsville, S. C. The purpose of this issue of bonds is to meet the cost of constructing and operating a system of water works and plant for sewerage and lighting purposes, for the use and benefit of the said town.

The Town of Hartsville has no present bonded or other indebtedness. Certified check for $1,000 00, payable to the order of J. J. Lawton, Chairman, to accompany all bids and to be forfeited in case of failure of purchaser to comply with his bid. No bids for less than par and accrued interest will be considered. Right reserved to reject any or all bids. Address all bids to the Board of Commissioners of Public Works, Hartsville, S. C., and endorse plainly on the envelope the words, "Bid for Bonds."

For further information apply to the Chairman.

Bond Offering.—Proposals will be received until 7:30 p. m., Feb. 6, by R. G. Bacon, City Auditor, for $103,793 77 5% coupon Sewer No. 937 assessment bonds. Authority, ordinance passed by the City Council Dec. 17 1906. The city will pay for printing nine bonds of $11,000 each and one bond for $4,793 77; should the purchaser, however, desire a greater number of bonds of lesser denominations, he will be required to bear the additional expense. Date of bonds Aug. 14 1906. Interest March 14 and Sept. 14 at the City Treasurer's office. Maturity $4,793 77 March 14 1908 and $11,000 each six months from Sept. 14 1908 to Sept. 14 1912 inclusive. Certified check on a Toledo national bank for 5% of the bonds bid for, payable to the City Auditor, is required. Accrued interest to be paid by purchaser.

Turner County, Ga.—*Bond Sale.*—The $40,000 court house, the $19,000 road and the $11,000 jail 5% bonds voted on Nov. 17 1906 have been awarded to the Robinson-Humphrey Co. of Atlanta. Denomination $1,000. Date Dec. 1 1906. Interest June and December. Maturity from one to thirty years.

Van Buren, Crawford County, Ark.—*Bond Sale.*—On Jan. 1 $12,500 sewer bonds were awarded to E. E. Cooper of Van Buren. Denomination $500. Date "about Feb. 1 1907." Interest annual. Maturity ten years, subject to call $3,000 in three years and $3,000 in six years.

Vidalia, Toombs County, Ga.—*Bonds Voted.*—By a vote of 128 to 5 this town on Jan. 3 authorized the issuance of the $14,000 water-works bonds mentioned in V. 83, p. 1609.

Visalia, Cal.—*Bonds Defeated.*—By a vote of 111 to 227 this city on Dec. 11 defeated a proposition to issue $35,000 sewer bonds.

Wahoo Precinct, Saunders County, Neb.—*Bonds Defeated.*—An election held Dec. 22 1906 resulted in the defeat of a proposition to issue $5,000 railway-aid bonds.

Washington C. H., Fayette County, Ohio.—*Bond Offering.*—Further details are at hand relative to the offering on Feb. 2 of the $6,500 4% coupon city-hall bonds described in V. 83, p. 1610. Proposals for these securities will be received until 12 m. on that day by James J. Flynn, City Auditor. Authority Section 2835 of the Revised Statutes and ordinance passed by the City Council Dec. 3 1906. Denomination $500. Date Jan. 15 1907. Maturity $500 yearly on Jan. 15 from 1908 to 1920 inclusive. Bonds are exempt from all taxes. Certified check for $100, payable to J. A. Edge, City Treasurer, is required. Accrued interest to be paid by purchaser.

Watertown, Jefferson County, N. Y.—*Bonds Voted.*—The election held Jan. 8 resulted in a vote of 384 to 134 in favor of issuing the $40,000 4% engine-house bonds, mention of which was made in V. 84, p. 64. Maturity April 1 1937. Date of sale not yet determined upon.

Westfield, Union County, N. J.—*Bond Sale.*—On Dec. 31 1906 $30,000 4½% 1-10-year (serial) improvement bonds were awarded to the Elizabethport Banking Co. of Elizabeth at 101. Denomination $1,000. Interest June and December.

Woonsocket, S. D.—*Bond Sale.*—This city has awarded the $5,000 6% 3-20-year (optional) court-house-building-aid bonds dated Oct. 20 1906 described in V. 83, p. 1372, to local citizens at par.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, &c., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day have been $3,588,794,551, against $3,454,758,279 last week and $3,751,979,732 the corresponding week last year.

Clearings—Returns by Telegraph. Week ending January 19.	1907.	1906.	*Per Cent.*
New York	$1,828,621,307	$2,223,839,431	—17.8
Boston	199,656,201	165,780,490	+20.4
Philadelphia	124,457,769	135,429,309	—8.1
Baltimore	25,103,766	27,796,362	—9.7
Chicago	201,210,340	187,378,599	+7.4
St. Louis	59,410,667	57,621,055	+3.1
New Orleans	22,040,714	21,427,985	+2.9
Seven cities, 5 days	$2,560,500,764	$2,819,273,231	—9.2
Other cities, 5 days	432,018,971	376,018,947	+14.9
Total all cities, 5 days	$2,992,519,735	$3,195,292,178	—6.3
All cities, 1 day	596,274,816	556,687,554	+7.1
Total all cities for week	$3,588,794,551	$3,751,979,732	—4.4

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, January 12, and the results for the corresponding week in 1906, 1905 and 1904 are also given. Contrasted with the week of 1906 the total for the whole country shows a loss of 8.3%. Outside of New York the increase over 1906 is 5.0%.

CHICAGO STOCK EXCHANGE RECORD OF PRICES FOR 1906.

On page 138 to-day will be found a record of the range of prices on the Chicago Stock Exchange for each month of the calendar year 1906.

THE FINANCIAL SITUATION.

Decidedly easier money has not brought the relief looked for and expected. It has not brought with it a wholesome flow of capital into railroad securities. Indeed, at the moment greater caution is being observed against a resumption of that course in affairs than prevailed the past year. Such a country as the United States, immense in size, abounding in undeveloped resources, population not only large but increasing its millions with marvelous rapidity, can keep abreast of any progressive movement only by a constant development of its resources and a concurrent advance in the facilities for marketing the developed wealth. Old-time statesmen started out with correct methods. As growth began and a community produced more of its products than it could consume in its own immediate surroundings, the corduroy road gave way to the improved road to enable the ox-team or perhaps the mules or horses to make a wider circuit for the distribution of the neighborhood products; later the water-ways were enlarged; thereafter the canals were built on the credit of the States, and, finally, when that system was becoming effete, the railroads appeared and were pushed along into the interior as rapidly as capital could be procured or coaxed into the business of extending rails.

These two fundamental conditions must go hand in hand if a basis for a healthful progress is to be had in this resourceful country. In spite of our foolish policies we may still produce enormous crops, but we cannot, without antagonizing the distribution of our surpluses in excess of home wants, repel the capital seeking to keep up its freest flow into the work of facilitating the distribution. These two agencies are indivisible for best progress. But it so happened that the farming class, in its increased strength, instigated by astute politicians seeking to make this situation a power to carry forward their ambitions and purposes, took it upon themselves to instill into the agricultural classes the idea that they had the roads within their bailiwick and could force them to do their will. As it is in general a taking idea to get something for nothing, the old interdependence was disregarded and the war against capital got into full swing; both of the old parties became wedded to the unsound doctrine and it has for the time prevailed. But an insidious outcome was at work in its silent way. For years now very little track has been laid. Although in those years productive conditions called for addition to railroad mileage louder than ever before and were hardly if ever so much wanted, all the rails that were laid in 1906 in the whole United States was the paltry amount of less than 6,000 miles. Why was it that this almost complete stagnation in railroad construction was a circumstance at a period when the surpluses of production were so enormous and the need for enlarged railroad facilities so imperative? Mr. James J. Hill, President of the Great Northern Railroad, one of the most enterprising and experienced of men in railroad affairs, in his clear and forcible way, tells us. These are his words:

"It is not by accident that railroad building has declined to its lowest within a generation, at the very time when all other forms of activity have been growing most rapidly. The investor declines to put his money into enterprises under ban of unpopularity, and which are even threatened by individuals and political parties with confiscation or transfer to the State. This feeling must be removed and greater confidence be mutually established if any considerable portion of the vast sum necessary is to be available for the work."

The conclusion the foregoing quotation brings out so clearly has been criticized. The critic says "the facts upset it." No facts can upset the truth; nor does any fact stated by the critic weaken the above in the least. No assertion is made by Mr. Hill other than that railway building declined in 1906 to its lowest within a generation; a fact which cannot be upset or weakened. Besides, it is a fact of most serious import, well worth the consideration of every individual who wishes the best for his country. No such distrust in railroad securities and in property has been apparent since the silver agitation, which put in jeopardy the basis of all values. The threats of late years being made against that class of property are now no less antagonistic to the free use of capital in railroad expansion and no less destructive of the value of railroad securities than the silver crusade was.

The critic above referred to introduces a statement which we presume he thinks carries weight in this discussion. He asserts that during the past five years the railroads have raised "more than $2,500,000,000 *fresh* capital on their stocks and bonds," and calling that a fact, it is to him so luminous that he can discover no signs that investors are "declining to put their money into such enterprises." No part of the above contravenes in the least what Mr. Hill says, which was, we repeat, that "railroad building has declined in 1906 to its lowest within a generation." Even if the assertion as given was authorized, how could it weaken the force of the fact that the fresh capital spent in track laying in 1906 was less than 6,000 miles, which, say at $20,000 a mile, would only call for $120,000,000.

Of course the critic's figures are not what they assume to be. The intention apparently was to raise an inference that an average of one-fifth of the formidable sum mentioned (and not 20 million dollars) had been raised the current year for railroad building. Stating the case in that open way negatives it. But as the critic's big total may from its very size deceive some readers, suppose we whittle it down a trifle. First, there should certainly be deducted from it all "industrials"; again, every issue of bond and stock should be deducted which has not been negotiated in 1906 but has been held in reserve for meeting future company needs or deficiencies; again, any issues of securities made on the occasion of a lease or a purchase by another company on a reorganization when sometimes 2 or 2½ times have been added to capital for future improvements to bring the properties up to a certain level or equivalent for the exchange being made. Besides, it includes all the money that goes into real estate, into tunnels, depots, subways, &c., &c. We make these suggestions not because the aggregate ever could have any relevancy in this discussion even at its minimum, but only to show that it is not accurate,

and therefore has no statistical value in whatever relation it may be put.

The decline in the open market rate of discount at London on Wednesday to 4¾% foreshadowed the reduction in the official rate by the Bank of England which occurred on the following day, when 5% was recorded. Cable advices reported unofficial rates of discount at Berlin 5% and prospects that the Reichsbank's rate would soon fall to 6%. The exchanges at New York, at Paris and at Berlin on London were favorable to the British capital. Moreover, the Bank had no active competitor for the South African gold which was offered in the bullion market; hence, notwithstanding the requirements for gold for Brazil, on account of the coffee valorization fund, were, according to late mail advices, only partially satisfied, and those for Argentina were likely to be large, while not urgent, the Bank's governors decided, at their weekly court, that there was no longer need for the maintenance of the 6% rate of discount. Moreover, if not needful, its further maintenance made it clearly unwise to longer burden private banking interests in Great Britain with the higher rate.

At the moment, with open market discounts in London at 4¾%, and money here tending toward greater ease, there is some encouragement for investment operations in exchange, though profits will chiefly result from holding the bills until they mature. It seems likely that the lower discount rate in London and the increased offerings of capital at Paris will promote borrowing by our bankers, through the various forms of finance bills, and also provide a market for the collateral notes which are now being extensively drawn by railroad corporations because of their inability to negotiate loans for longer fixed periods through bonds. In this way the easier discount situation abroad will be beneficial in relieving American banking and railroad interests from the somewhat tense time-loan situation which has prevailed.

The Chicago & North Western Railway Co. is the latest one of the leading railroad systems in the North West to announce very considerable addition to its capital. The roads in that part of the country are certainly doing their share towards raising money to provide for new lines and additional facilities and take care of present and future growth of traffic for a considerable time to come. All these roads are fortunately situated in that their shares command a large premium in the market. By offering the new stock at par and thus giving subscribers the benefit of the premium, a very strong inducement is held out to take the new stock. Where a company is not so situated as to be able to avail of this device, and is therefore obliged to raise new capital on interest-bearing obligations, it is in an unenviable plight just now, since it is almost impossible to float new bonds—a state of things which has existed for over a year past. Chicago & North Western shares sell at 187 for the common and at 230 for the preferred, and both classes of shareholders are given the right to subscribe for $24,403,000 of new common stock (25% of their present holdings) at par.

The rights are selling at over $17 a share, from which it can be seen what an inducement there is to take the stock and what a leverage for raising new capital such a device affords. The proceeds of the new stock issue are to be used by the company "for the purpose of constructing, improving and equipping its railway", and it is understood that a large portion of the amount will go to pay for the cost of new terminals at Chicago. It is to be noted that the terms of the offer call for the payment of the whole amount within a very short time —on or before March 16 1907—showing that the money is to be immediately employed. This is different from the plan pursued in the case of the North West's neighbors, where payments are extended over a period of a year or two. It will be recalled that the Great Northern Railway in offering last month $60,000,000 of new stock provided that payment might be extended over sixteen months, beginning with January 1907 and terminating April 1908. Similarly the Northern Pacific Ry. offered $93,000,000 of new stock, payments also to be made in installments, the last not falling due until January 1909. In the case of the Chicago Milwaukee & St. Paul Ry., the final payment on the $100,000,000 of new stock which this company will issue for the purpose of building its Pacific Coast extension, &c., will not be due until March 1909. It will be observed that these four companies, through the issues proposed, have arranged for an addition of about 278 million dollars to their outstanding share capital—and the method is the same in each case, viz., an offer at par of stock which commands a premium.

In our issue of January 5 we referred to two decisions in the Federal Courts holding unconstitutional what is known as the "Employers' Liability Act" passed by Congress last year and which became a law June 11 1906. Since then we have received the full text of Judge McCall's opinion at Memphis in the Circuit Court of the United States for the Western District of Tennessee, and this reveals the course of reasoning by which the unconstitutionality of the statute is reached, and also brings out clearly the distinction between this statute and other statutes apparently analogous and which are considered valid. For instance, it was urged in the arguments that the law should be sustained on the same grounds as the Safety Appliance Act of Congress. But Judge McCall points out that there is a vast difference between the two enactments. In the Safety Appliance Act Congress lays down specific rules and regulations with which common carriers are required to comply. For a failure to observe such rules or perform such duties a penalty is prescribed which may be recovered by the United States Government, and in addition it is provided that any employee of such common carrier who may be injured by any locomotive, car or train, contrary to the provisions of the Act, shall not be deemed to have assumed the risk thereby occasioned, although continuing in the employ of such carrier after the unlawful use of such locomotive, car or train had been brought to his knowledge. Thus a carrier is made liable to the employee, not simply because he is injured, but rather because the road violates and sets at naught the rules for the government of its business prescribed by Congress, and because, as a result of such violation, the employee was injured. This liability in its nature and essence is a penalty. The power of Congress to prescribe a penalty for the infraction of a rule or regulation, which it is empowered to enact by the express terms of the Constitution, Judge McCall thinks is not open to question.

On the other hand, in the Act of June 11 1906, Congress does not undertake to prescribe a rule or regulation for the conduct or government of the business of a common carrier, for the infraction of which a penalty or liability is imposed, but the Act only declares that the carrier shall be liable for all damages to its employees the result of the negligence of its officers, agents, employees, &c. In other words, the Act abolishes the common law rule as to fellow servants, as heretofore applied in the United States Courts. Judge McCall says there is no express grant of power to Congress over the subject of the liability of common carriers, or other employers, to their employees for torts, nor, in his opinion, is there any grant from which such power can be necessarily or even reasonably implied. Had the 1906 Act prescribed some rule or rules for the safer and more expeditious transaction of the business of the carrier and which he was to observe, and fixed the liability for his failure to comply with the same, the Act would have possessed similarity with the Safety Appliance Act. In short, Judge McCall shows convincingly that the power of Congress to define the liability of common carriers, engaged in inter-State commerce, to their employees, and to create rights of action in favor of the same, can only be exercised when Congress in the first instance has prescribed rules of conduct governing common carriers, and it is only for the breach of these rules that Congress has the power to prescribe civil liability. Independent of such rules, Congress has no power to define the liability of a common carrier to its servants on account of torts committed by other servants of the common carrier. But Judge McCall holds the Employers' Liability Act unconstitutional on still another ground. It does not distinguish between inter-State commerce and commerce carried on within the State. He says the Act is plain on its face. It applies to all common carriers engaged in trade or commerce between the States, and imposes upon carriers whose lines lie wholly within a State, if such lines do any inter-State business, the same liability as upon a common carrier who handles only inter-State business. In enacting such a law, Congress has exceeded the powers delegated to it.

Judge McCall's conclusion, therefore, is that Congress is not authorized under the commerce laws of the Constitution to enact legislation of this kind, for the reason that the relation of inter-State carriers to their employees and their liability to them in damages is not commerce within the meaning of the Constitution. But if it were, the Act does not undertake to regulate that relation or liability; it simply announces by an Act of Congress a new law on torts limited to a special class of those engaged in inter-State commerce. Furthermore, the Act does not confine the liability which it seeks to impose upon common carriers engaged in inter-State trade and commerce to such common carriers, but imposes the same liability upon common carriers engaged in trade and commerce wholly within the State.

———

The Bank of England official rate of discount was reduced on Thursday to 5% from 6%, at which it had been maintained since the 19th of October 1906. With this exception there was no change in official rates of discount by any of the European banks this week. It is thought likely, however, that the Imperial Bank of Germany, which on December 18 advanced its official rate to 7%, will soon make a reduction; the Bank has evidently been unable, recently at least, to control the open market rate, and, as reported this week, the institution has increased its cash holdings since the last return by the important sum of £4,124,000. Unofficial rates of discount at the chief European centres were, compared with last week, ⅜ of 1% lower at London, ⅛ of 1% at Paris and ¼ of 1% at Berlin and Frankfort.

The most notable feature of the statement of the New York Associated Banks last week was an increase of $8,492,875 in surplus reserve to $8,640,700. This was the result of a gain of $10,578,900 in cash less an increase of $2,086,025 in reserve requirements. Loans were contracted by $858,800 and deposits were increased $8,344,100. The bank statement of this week should also show important gains in cash as the result of the disbursement by the Sub-Treasury of considerable sums in excess of receipts.

———

The above-noted favorable bank statement and the indications, as disclosed by the daily Sub-Treasury report of debit balances at the Clearing House, that Government payments were this week largely in excess of receipts, contributed to marked ease in monetary conditions. The demand for money on call was, however, somewhat restricted because of the tame speculation in stocks and the downward tendency of prices, and though offerings of funds for short fixed dates were liberal and at concessions, comparatively little business was reported.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 5% and at 2½%, averaging about 4%; banks and trust companies loaned at 2½% as the minimum. On Monday loans were at 5% and at 3½% with the bulk of the business at 4%. On Tuesday transactions were at 4½% and at 3% with the majority at 4%. On Wednesday loans were at 4% and at 2½% with the bulk of the business at 4%. On Thursday transactions were at 3½% and at 3¼% with the majority at 3½%. On Friday loans were at 3½% and at 2½% with the bulk of the business at 3¼%. Time loans on good mixed Stock Exchange collateral were quoted at 5½% for sixty and 5¾% for ninety days. For longer maturities up to six months, 6% is the rate. Commercial paper continues to be quoted nominally at 6@6½% for sixty to ninety-day endorsed bills receivable, 6@6½% for prime and 6½@7% for good four to six months' single names; brokers report some business at concessions but the transactions are in smallamounts.

———

The Bank of England reduced its rate of discount this week from 6%, at which it had stood since October 19, to 5%. The cable reports discounts of sixty to ninety-day bank bills in London at 4¾@4⅞%. The open market rate at Paris is 3@3¼% and at Berlin and Frankfort it is 5@5¼%. According to our special cable from London, the Bank of England gained £508,824 bullion during the week and held £32,162,824 at the close of the week. Our correspondent further advises us that the gain was due to large receipts from the interior of Great Britain, these and the imports greatly exceeding the export movement, which was particularly heavy to South America. The details of the movement into and out of the Bank were as follows: Imports, £481,000 (of which £41,000 United States coin and £440,000 bought in open

market); exports, £1,532,000 (of which £1,512,000 to South America and £20,000 to Singapore), and receipts of £1,560,000 *net* from the interior of Great Britain.

The foreign exchange market was only moderately active, though generally firm, this week, influenced by easy money in New York and lower discounts in London. The fact that there was no fast mail steamer until Thursday tended to restrict business early in the week, and the indications that the Bank of England would reduce its discount rate and the uncertainty as to the extent of such reduction contributed also to limit the volume of transactions. Long was in good request because of the easier tone for discounts in the open market at London and for this reason it was preferred to short for remittance. There was some buying of the latter for the payment of maturing finance bills and also to pay for American securities which had been returned from Europe. Though the London Stock Exchange's settlement occurred on Wednesday, there was no special demand for cables incident thereto, reflecting a small bull account in Americans. Easier rates for money in our market encouraged some buying of long sterling for investment early in the week, but this demand subsided when the indications clearly pointed to still lower discounts in London and to a fall in the Bank rate. As the market for short rose, in response to the demand, there was some speculative selling, apparently with the object of checking the advancing tendency. On Wednesday the market was quite active and strong, as the result of the demand for Thursday's mail; when this inquiry was satisfied, rates fell off, but there was a recovery and a firm tone on Thursday on the announcement of the reduction in the Bank rate. Commodity bills, and especially those against cotton, were in good supply during the week and they were promptly absorbed.

Nominal quotations for sterling exchange are 4 82@4 82½ for sixty day and 4 86@4 86½ for sight. The market was firm on Saturday of last week, and, compared with the previous day, long rose 25 points to 4 8075@4 8085 and cables 10 points to 4 8565@4 8575; short was unchanged. On Monday long fell 10 points to 4 8065@4 8075, short rose 40 points to 4 8520@4 8525 and cables 45 points to 4 8610@4 8615. On Tuesday long advanced 15 points to 4 8080@4 8090 and short fell 5 points to 4 8515@4 8520, while cables declined 15 points to 4 8595@4 86. On Wednesday long rose 25 points to 4 8105@4 8110, short 5 points to 4 8520@4 8525; cables fell 5 points to 4 8590@4 86. On Thursday long advanced 40 points to 4 8125@4 8150, short 15 points to 4 8530@4 8540, and cables 10 points, to 4 86@4 8610. The market was strong on Friday at an advance of 20 points for short and of 25 points for cables.

The following shows daily posted rates for sterling exchange by some of the leading drawers:

		Fri., Jan. 11	Mon., Jan. 14	Tues., Jan 15	Wed., Jan. 16	Thurs., Jan. 17	Fri., Jan. 18
Brown Bros & Co	60 days	4 81	81½	81½	82	82	82½
	Sight	4 85½	86	86	86	86	86½
Baring & Co	60 days	4 81	81½	81	81½	82	82
	Sight	4 85½	86	86	86	86	86
Bank British North America	60 day	4 81	81½	81½	81½	82	82
	Sight	4 85½	86	86	86	86	86
Bank of Montreal	60 days	4 81	81½	81½	81½	82	82
	Sight	4 85½	86	86	86	86	86
Canadian Bank of Commerce	60 days	4 81	81½	81½	81½	82	82
	Sight	4 85½	86	86	86	86	86
Heidelbach, Ickelheimer & Co	60 days	4 81	81½	81½	82	82	82½
	Sight	4 85½	86	86	86	86	86½
Lazard Freres	60 days	4 81	81½	81½	82	82	82½
	Sight	4 85½	86	86	86	86	86½
Merchants' Bank of Canada	60 days	4 81	81½	81½	81½	82	82
	Sight	4 85½	86	86	86	86	86

The market closed on Friday at 4 8125@4 8150 for long, 4 8550@4 8560 for short and 4 8625@4 8635 for cables. Commercial on banks 4 80¾@4 81 and documents for payment 4 80½@4 81½. Cotton for payment 4 80½@4 80¾, cotton for acceptance 4 80¾@4 81 and grain for payment 4 81¼@4 81½.

The following gives the week's movement of money to and from the interior by the New York banks:

Week ending January 18 1907.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	$12,536,000	$6,346,000	Gain $6,190,000
Gold	2,065,000	847,000	Gain 1,218,000
Total gold and legal tenders	$14,601,000	$7,193,000	Gain $7,408,000

With Sub-Treasury operations, the result is as follows:

Week ending January 18 1907.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movem't as above	$14,601,000	$7,193,000	Gain $7,408,000
Sub-Treasury operations	35,100,000	28,600,000	Gain 6,500,000
Total gold and legal tenders	$49,701,000	$35,793,000	Gain $13,908,000

The following table indicates the amount of bullion in the principal European banks:

Bank of	January 17 1907.			January 18 1906.		
	Gold.	Silver.	Total.	Gold.	Silver.	Total.
	£	£	£	£	£	£
England	32,162,824	----------	32,162,824	30,975,515	----------	30,975,515
France	105,965,560	39,633,560	145,599,120	114,522,824	42,493,650	157,016,474

Nat. Belg.a	3,276,667	1,638,333	4,915,000	3,154,667	1,577,333	4,732,000
Sweden	3,996,000	----------	3,996,000	3,791,000	----------	3,791,000
Tot. week	393,207,701	102,533,743	495,741,444	385,481,206	104,077,383	489,558,589
Prev. week	389,470,700	101,310,560	490,781,260	381,562,387	103,058,588	484,620,975

a The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

b The Austro-Hungarian Bank Statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Gulden to have the value of 80 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

HOW RAILROAD DEVELOPMENT IS HAMPERED—THE SOUTHERN RAILWAY.

The railroads of the United States just now are between the devil and the deep sea. On the one hand they have such a surfeit of traffic that their facilities, enormously though they have been increased in recent years, are unable to handle it with due economy and reasonable promptness. Every motive of self-interest on the part of the railroads and the public alike demands that this situation be relieved and relieved quickly. The carriers are ready and willing to do their part to furnish such relief. Government commissions and other public bodies have taken the subject up and are urging drastic measures to force the carrying interests to add to their facilities to the extent supposed to be necessary. But while on the one hand there is a concensus of opinion that the railroads must spend enormous further amounts of new capital, our legislators and Government officials are doing everything within their power calculated to make it difficult to raise the needed money. Through legislative enactments and by assaults on capital and wealth, confidence has been so deeply disturbed that for the last twelve to eighteen months the market for new bond issues has been almost completely gone.

During the period referred to, quite a number of bond syndicates formed for the purpose of floating new bond issues have been wound up with a large part of

the bonds still on their hands, the investing public having shown no disposition to purchase. At the same time, by Government action, railroad rates are being steadily reduced and the appetite of shippers is being whetted for further reductions. In like manner the taxes of the roads are being heavily increased. Then many of the States are imposing penalties for delays in the forwarding of freight within State borders, and our National Legislature is pondering on the advisability of subjecting the carriers to similar fines and penalties on inter-State shipments. In addition, and by no means least of all, the cost of labor, of materials and supplies, and of everything else needed by the roads in their operation, is steadily rising. The congestion of traffic still further complicates the situation, for the lines are so choked with freight that it is no longer possible to move the same in an economical manner. The result is that expenses are being so greatly added to that the augmentation in the expense account far exceeds the gains in gross earnings, large though these continue to be. The Southern Railway furnishes a capital illustration of the kind. For the five months of the fiscal year from July 1 to Nov. 30, gross earnings of the road show a gain of $1,428,440, but net earnings record a loss of $719,778, owing to the fact that expenses have risen for these five months in the sum of $2,148,218.

In this situation a letter of W. W. Finley, the new President of the Southern Railway Co., which has been issued the present week, is both timely and pertinent. It is this letter that has given rise to the report of a proposed issue of short-time notes, and certainly, as the company is in need of new capital, and bonds cannot be sold except at a sacrifice, there would be nothing very strange in a resort to such a device. It should be noted that President Finley's letter is addressed, not to the stockholders of the company but "to the public." Mr. Finley's desire is to acquaint the communities served by the lines of the system with the facts—to show the difficulties under which the system is laboring, and how comprehensive have been the plans of the managers for furnishing adequate transportation services, and to make it apparent that the interests of the railroads and of the public alike are certain to suffer unless the present public attitude, as expressed in legislative and governmental action, is changed so as to make the conditions less unfavorable to the railroads for carrying on the business of transportation, and for prosecuting to completion the extensive improvement and development work necessary to enable them to fulfill their public duties.

Mr. Finley begins by admitting that at present railroad service generally, including that of the Southern Railway, is far from satisfactory. He points out, however, that as far as the Southern itself is concerned, one exceedingly potent cause has been the extraordinary industrial development of the South, and he quotes from the late President Spencer's remarks to indicate the magnitude and extent of this developopment. He also gives statistics drawn from the Southern Railway's own traffic records to show how great the growth and expansion in the traffic work required of the system has been. In 1895 the number of tons of freight carried one mile by the Southern was 1,098,932,884; in 1906 the number was 4,488,915,839, giving an increase of over 300%, or, allowing for the additions to length of road operated in the interval, an increase of over 138%. No one, we think, will attempt to gainsay Mr. Finley's assertion that nowhere in the United States, save in the two States of the extreme North West, Washington and Oregon, has there been such industrial development as in the South. Nor will any one be inclined to dispute his claim that outside of the energies and efforts of the Southern people themselves, the Southern Railway has been one of the chief factors in the South's wonderful development.

Obviously, the vast increase of traffic incident to such a commercial awakening, required, as Mr. Finley states, a very striking increase in transportation facilities, and the management of the Southern Railway Co. throughout its existence, has not been unmindful of that fact. It did not wait for the coming of the development itself before attempting to increase to the utmost extent its transportation capacity. The company has been in existence not more than about twelve years, and inherited from the old Richmond & West Point Terminal Co., which had become bankrupt and unable to carry on its functions, a lot of mileage of light and faulty construction, poorly equipped and utterly unprepared to handle any considerable traffic.

Figures are presented to show what an extensive amount of money the company has spent in pursuance of its policy of betterment and development. For new equipment alone it has spent or contracted to spend $49,322,569; for new, improved and heavier rail, $10,880,000; for double-tracking, reducing grades and changing alignments, $13,687,400; for additions and improvements to yards, real estate, roadway and structures, etc., $8,229,605; adding various other similar items, the aggregate of expenditure for work done and contracted for, for the purpose of handling the traffic, is brought up to the large sum of $96,482,945. The number of locomotives has been increased from 623 to (received and contracted for) 1,544; the number of passenger-train cars from 487 to 1,008, and the number of freight-train cars from 18,924 to 58,491. In reality these figures do not indicate fully the extent of the additions to equipment, since the increased power of the locomotives and the increased tonnage capacity of the cars have added much more to the equipment capacity than the number of added units would appear to represent. For instance, the average capacity of the freight cars has increased 28.38%.

It is thus evident that the company has not overlooked its obligation to increase its facilities in anticipation of the growth of traffic. Nevertheless, the company has been and still is, Mr. Finley declares, hampered by two conditions. One is the large amount of fresh capital required and the other the difficulty of securing adequate and efficient labor, of promptly getting its construction work done, and of obtaining the rolling stock, rail and other material essential to improved facilities. As illustrating the delay in obtaining rolling stock, it is pointed out that on a contract for new equipment given Nov. 1 1905 and which was to be filled by March 1906, 177 cars still remain undelivered; on a contract given Feb. 1 1906 to be filled on or before October 1906, 17 locomotives and 2,218 freight cars still remain undelivered. Mr. Finley also gives illustrations of the delay experienced in getting double-track work done on various parts of the system, owing to the difficulty the contractors have

in obtaining the necessary labor or material, or both combined. He asserts that one of the greatest needs of the South is that its railroads should have additional track capacity. No matter how many locomotives and cars may be available, it is manifest that the number which can be moved is limited by the track capacity. The work of providing the necessary additional track will require a vast in-put of capital. How this capital is to be obtained, he states, is everywhere a matter of grave concern to railroad managers. It cannot be obtained from the current operations of the properties; hence it must be borrowed.

It was in anticipation of the need for constantly increased facilities that the Southern Railway last year created its new $200,000,000 mortgage. Of these bonds $20,000,000 were at once sold and the proceeds are being spent as rapidly as the work can be done in acquiring the added facilities. As bearing upon the ability of the roads to obtain the means to make the additions so imperatively required, some suggestive figures are given. The present situation is an immense increase in all expenses without any increase in rates—in fact with the proposition almost universally made to decrease rates by legislative enactment. Since 1898 bridge timber has advanced from $9 36 to $20 52 per thousand feet; crossties from 28 cents to 34.5 cents per tie; steel rails from $17 75 per ton to $28 00; locomotives from $11,392 to from $16,000 to $20;000; passenger coaches from $6,315 to $9,468; freight cars from $500 43 to $765 00; coal cars from $368 to $1,135. The cost of labor has increased per mile of road from $1,621 67 in 1895 to $2,513 64 in 1905 and $2,874 71 in 1906. The taxes of the company per mile of road have since 1895 increased 63.41%. To these enlarged outlays, it is stated, must be added the excessive verdicts of juries in personal injury cases. Furthermore, there is a marked tendency on the part of many of the States to regard any failure of service as wilful and to impose upon the carrier a heavy penalty therefor.

Mr. Finley well observes that the imposition of penalties will not build railroad tracks, supply equipment or enlarge and simplify terminals, nor would it benefit the transportation service as a whole, but on the contrary would tend to produce injustice and discrimination between persons and localities.

Under these circumstances—with greatly increased expenses for material, for labor, for taxes, for penalties and for damage claims, and with the demands of the public for better facilities and greater safety of operation—Mr. Finley thinks it must be apparent that a reduction of revenues must conflict with the interests of the public in its desire to obtain what is insisted upon. He feels it his duty to advise the public that, with decreased revenues, the railroads of the country will be utterly unable to pursue successfully their efforts to provide better facilities and greater safety of transportation. He goes a step further—and that is the kernel in the argument and the conclusion to which all these facts and figures lead; he declares the time is near where it may be absolutely necessary for the public to take the choice between better and safer facilities on the one hand and lower rates on the other. In the nature of things it is impossible to have both. We think Mr. Finley is to be commended for having set out the situation in such a candid way and the public should ponder well the results that must follow from adherence on its part to the present mistaken course of hampering and embarrassing the roads.

THE BANK OF ENGLAND RATE.

We called attention, at the time when the Bank of England directors, in October, advanced their discount rate to 6%, to the question frequently asked at that time on the money markets of the world, whether the Bank had or had not lost its old time power of controlling, by such an act, the course of the foreign exchanges. We showed that, so far as the immediate movement following the Bank's announcement was concerned, that power had undoubtedly been preserved unimpaired. The classic principle that, by fixing a higher bid for money on the London market, London capital could be called home from foreign markets, and, in certain cases, foreign capital attracted from those markets to London, still held good.

The movement of gold to the United States, which was in full swing at the time the Bank of England began its operations with the discount rate, ceased entirely and has not subsequently been resumed. It is true that a movement of gold to Egypt larger than had been anticipated occurred after the 6% London rate was fixed, and it is also true that Argentina took substantial amounts of gold. These were, however, seasonable demands, which had in a general way been reckoned in with all forecasts of the market, and, furthermore, the maintenance of its 6% rate by the Bank of England, and the more or less vague intimation of what rate might be fixed if severe pressure should continue, led directly to the granting of assistance by the Bank of France in the shape of releasing its own gold for Egypt. But the autumn strain on the money markets once completed, cash flowing back from the provinces, and arrivals of Transvaal gold in London being left to the undisputed control of the Bank of England, it followed that the bank's position should this month normally improve with great rapidity. A week ago, when its ratio of reserves to liabilities had advanced from the 35½% of Oct. 10, and the 33½% of Jan. 2, to 40%, or the normal minimum, it was rather generally predicted in London that the 6% rate would be reduced. There was the greater expectation of such a step from the fact that a 6% rate has never but once in the four past decades been maintained at the Bank of England, even in years of urgent stress, after the opening week of January. The Bank, however, took no such action on its rate last week, London's own explanation being that a moderate advance which had occurred in New York exchange on London stayed the hand of the Bank's directors. They apparently even then entertained some misgiving lest New York's demand for gold to sustain what London considered an unduly expanded speculative position would be resumed.

The events of the present week put an end to apprehension from this quarter. Not only did the New York money rate decline and the rate for sterling exchange rise well above the gold-import line, but liquidation of speculative accounts on the New York Stock Exchange occurred on an extensive scale. This meant not only that American exchange had ceased to move against London in such a way as to cause misgiving, but that the basis for expecting a movement of that sort had itself ceased to exist as it had before. At the same

time, the Bank gained gold again in substantial amount, bringing its gold stock to a figure $15,000,000 above that of three weeks ago, its banking reserve being increased $19,000,000 for the same period, and its ratio of reserve being raised to the comfortable figure of 45¼%—actually the highest for this date, except for 1905, in any of the ten past years. Few people, therefore, were greatly surprised when the London Bank rate last Thursday came down to 5%.

In at least some measure, the financial situation generally is cleared up by this action of the Bank. London is still the financial centre of the world, and movement of rates at its central institution is still an accurate index to the condition of capital and credit throughout the financial world at large. There are several points to observe, however, with regard even to the present rate. One is that, even with a 5% rate established, the Bank's charge for money is abnormally high for this time of year. Four or three per cent at this date is usually deemed high enough. Another consideration is that relaxation in money rates in the first few weeks of a new year is not always a safe criterion to the later movements of the season. It still remains for the market to test the extent to which the Bank of England's resources will again be pressed upon later in 1907 by demands for capital by other markets. That London, as the world's free gold market, must chiefly bear the strain of providing for such needs, and that automatic regulation of the foreign exchanges has become somewhat less easy since its large liquidation of foreign securities, chiefly American, during the past ten years, are facts which every one must admit. If capital is to be subject, this coming year, to a strain such as that of the past six months, we can hardly reckon confidently that we have seen the end of abnormal rates at the Bank of England.

We have observed, in some discussions of the matter, a disposition to assume that the 6% rate, so long maintained this season at the Bank, is a sign of financial weakness, or at least of financial vulnerability, on the part of London. That there are one or two respects in which that market is less advantageously placed to-day, in relation to other markets, than it was, say a dozen years ago, we have ourselves already pointed out. It must also be admitted that the course of the Bank's directors during September and October displayed just sufficient uncertainty of opinion and vacillation of purpose to give seeming color to the contention that they were startled by the position into which Lombard Street had drifted. For this the explanation doubtless is that the London banking community as a whole misread the signs of the times last spring and summer, predicted easy money for the autumn, and was therefore caught very much unawares when the real "squeeze" came.

But that the 6% rate itself was a sign of weakness, or of an altered position in any respect, financial history gives no ground for contending. It may in fact be said that a London Bank rate as high as this, or higher, has marked every past year when, as in 1906, a world-wide "boom" in trade, with exceptional demands on capital by merchants, bankers and speculators in every market, caused aggressive competition for international capital. It is not true that the 6% rate has in the past been exclusively or even primarily a sign of distress in England's own finance. Such it may be alleged to have been in 1890 and 1866, though even then the high Bank rate was fixed long before the money market strain converged, with unpleasant results, on London. But the 6% rate of 1882 and the 6 to 9% rates of 1872 and 1873 were as distinctly measures adopted to meet an abnormal drain of capital to other markets, excited by a world-wide industrial and financial "boom," as was the 6% rate of the present season. In neither of these two periods could it have properly been alleged that the high London Bank rate was a signal of loss of prestige by the London market.

It is too early to predict the probable action of the Bank these next six or eight months. That its action on the rate will continue, as in the past, to provide a trustworthy barometer to the real situation on the world's money markets as a whole, cannot be doubted.

THE DECREASE IN LAST YEAR'S ANTHRACITE COAL PRODUCTION.

It has often been observed that the anthracite coal trade does not always follow the course of general trade, but seems to pursue an independent path—showing, not infrequently, a decrease in production at a time of rising prosperity and great activity in industrial affairs, and vice versa. Some such reflection will undoubtedly occur to the reader when he sees the anthracite figures for 1906 and notes that they show a decrease in output as compared with the twelve months preceding of nearly 6,000,000 tons. However, the anthracite trade is governed now by totally different conditions from those which formerly prevailed. There was reason for erratic movements in the trade when chaos rather than order reigned—when, through cuts in prices, purchases and consumption of coal might for the time being be immensely stimulated, or when the managers, brought suddenly to their senses by impending bankruptcy, would seek to restore prices in part, only to find that the market for coal had, as it were, completely vanished—dealers and consumers having stocked up in advance to such an extent at the lower prices that they had no need for coal at the higher figures.

No such conditions prevail at this time. The anthracite trade is now managed in accordance with common sense rules, thanks to the community of interest existing among the various carrying and producing interests in the trade. Different reasons therefore must be sought for the 1906 falling off in production. And these reasons can be found in abundance. In the first place there were disagreements with the laborers or miners. There was suspension of mining through the whole of the Pennsylvania anthracite fields during April and the first ten days of May. The contract between the miners and operators, entered into after the great miners' strike in 1902, and which was based on the award made early in 1903 by the Anthracite Strike Commission appointed by President Roosevelt, expired April 1 1906, and the miners were unwilling to enter into a new contract on the same basis. Speaking through Mr. John Mitchell's organization, the United Mine Workers, the miners asked for decreased hours and increased pay, on top of the large increases they had obtained in 1903 and in previous years. The suspension of mining, which was complete, was a step taken by the miners pending the conclusion of the negotiations between them and the operators for a new contract more favorable to the men, as they

hoped, and was in the nature of a weapon to compel the operators to accede to the terms demanded. But eventually the miners were forced to give way. Popular opinion did not support them in their demands, as the consuming public saw very clearly that a further advance in wages meant a further advance in price of coal, and this consumers were unwilling to pay, especially as they felt the miners were already faring exceptionally well. Mr. John Mitchell, with great perspicacity, seemed to recognize this fact, and on May 7 the miners agreed to accept the terms originally proposed by the anthracite operators and continue the award made by the Strike Commission for another period of three years, to April 1 1909, with only some slight and insignificant modifications.

It seems to be correct to say that the miners in no essential particular gained anything by their course. In the meantime, however, coal mining was stopped, and the effect on the year's output can be judged when we say that in April the shipments to market were only 488,203 tons, as against 5,278,041 tons in April 1905 and 5,407,786 tons in April 1904. For May the shipments were 3,254,230 tons, against 6,005,158 tons in 1905 and 5,285,079 tons in 1904. The loss sustained at that time was never subsequently recovered. Indeed, no serious attempt seems to have been made to make it up. In the remaining seven months of the year, the monthly figures only in three instances showed larger totals than for the corresponding month of 1905. In the other four months there were decreases, as will be seen from the following comparative statement, showing the monthly shipments to market for each of the last six years.

Months.	1906.	1905.	1904.	1903.	1902.	1901.
January	5,058,084	4,408,578	4,134,245	5,964,950	4,538,138	5,192,200
February	4,712,099	3,922,601	4,326,269	5,070,608	3,741,253	4,123,594
March	5,797,167	5,258,567	4,375,033	5,211,450	3,818,767	5,002,315
April	488,203	5,278,041	5,407,786	5,044,998	4,924,829	3,715,295
May	3,254,230	6,005,158	5,285,079	5,156,449	1,708,892	4,693,562
June	5,676,018	5,844,052	5,728,795	5,436,497	92,203	4,792,443
July	4,081,448	4,546,743	1,623,227	5,377,495	239,079	3,699,628
August	5,100,511	5,041,838	4,325,731	5,169,402	321,774	4,711,517
September	1,527,885	5,082,232	3,967,600	4,654,444	455,883	4,379,143
October	5,384,768	5,205,694	5,131,512	3,925,642	1,276,257	4,938,033
November	5,182,153	5,421,584	5,124,068	4,091,147	4,984,384	4,697,329
December	4,836,028	5,395,113	5,063,144	4,259,749	5,099,431	3,623,453
Total tons	55,698,595	61,410,201	57,492,522	59,362,831	31,200,890	53,568,602

It appears from these figures that for the calendar year 1906 the anthracite shipments to market from the Pennsylvania fields were only 55,698,595 tons, against 61,410,201 tons in the calendar year 1905. It may seem strange that no determined effort should have been made in the later months to retrieve the losses of the earlier months. An explanation, however, is found in the fact that during all the latter part of 1905 a strike in 1906, with the expiration of the miners' contract, had been nearly everywhere looked forward to and preparations made in advance for the event. The "Engineering and Mining Journal" of this city, in its annual review, points out that the shipments of 1905 were swollen by large quantities of coal sent from the mines in November and December and stored at various points along the lines of the coal-carrying roads in anticipation of a possible strike. It thus happened that, though in May 1906, owing to the idleness at the mines, only a comparatively trifling amount of coal came to market, there was at no time any shortage in supplies at consuming points, the stored coal being sufficient to meet all demands until production was resumed.

There can be no doubt that this is an accurate statement of the situation of affairs. And yet in and by itself it does not seem entirely sufficient to account for the large decrease for the twelve months. If we combine the 55,698,595 tons shipments for 1906 with the 61,410,201 shipments for 1905 we get an average for the two years—and this seems a fair way of treating the matter—of 58,554,398 tons, which compares with 57,492,522 tons for 1904, showing a relatively small increase, and with 59,362,831 tons in 1903, in which last year, however, the shipments were of more than normal extent by reason of the strike of 1902. Other things being the same, this average for the last two years is smaller than one would expect it to be, except for the possible intervention of extraneous causes. One such extraneous circumstance will easily be recalled—and a very important one, too, as far as the anthracite trade is concerned. We refer to the mild winter which prevailed, especially during January and February, when the demand for coal for family use is ordinarily at its maximum. In this city the temperature at times in January 1906 rose to above 60 degrees and January 20 to January 23 a warm wave spread over the northern part of the country. Many different places in the North and West reported the warmest January in twenty to thirty years. In February the weather was almost equally mild. Bearing this fact in mind, together with the other circumstances already narrated, and the large decrease in anthracite production and consumption at a time of great trade prosperity, is no longer difficult to understand. It is well enough to note, too, that at the close of 1906 the total of the stocks of coal at tidewater was rather smaller than we are accustomed to see it at the end of the year. In other words, on Dec. 31 1906 these tidewater stocks were 583,125 tons, against 714,143 tons December 31 1905, 715,715 tons December 31 1904 and 714,276 December 31 1903. We show herewith the anthracite shipments for each year back to 1873. It should be understood that these shipments do not include coal used at the mines nor coal sold locally, nor yet the consumption by the anthracite carriers themselves. Probably, to get at the total output it would be necessary to add from 10 to 15% to the figures of shipments.

Year.	*Tons.*	*Year.*	*Tons.*
1906	55,698,595	1889	35,407,710
1905	61,410,201	1888	38,145,718
1904	57,492,522	1887	34,641,017
1903	59,362,831	1886	32,136,362
1902	31,200,890	1885	31,623,529
1901	53,568,604	1884	30,718,293
1900	45,107,486	1883	31,793,027
1899	47,665,203	1882	29,120,696
1898	41,899,751	1881	28,500,017
1897	41,637,866	1880	23,137,242
1896	43,177,483	1879	26,142,689
1895	46,511,477	1878	17,605 262
1894	41,391,200	1877	20,828,179
1893	43,089,536	1876	18,501,011
1892	41,893,320	1875	19,712,472
1891	40,448,336	1874	20,145,121
1890	35,855,174	1873	21,227 952

As to the amounts passing over the different roads, it is almost superfluous to say, in view of the large decrease in the total shipments in 1906, that no one of the leading coal-carrying roads transported as much coal to market in 1906 as in 1905. In the ratios, however, there have been larger or smaller fluctuations, and under the contraction in the total movement some roads have fared better than others. The Lehigh Valley's proportion was appreciably reduced; that of the Lackawanna was considerably increased, though in the case of that road such increase is simply a recovery of what the road had lost in the years preceding. For 1906 the Lackawanna's percentage of the total shipments was 16.52, as against 15.56 in 1905; but going back to 1902 we find that its proportion in that year was 16.51%, or almost precisely the same as for 1906. There is, of course, a thoroughly good understanding among the different coal-carrying

roads, but the fact that these percentages of the total shipments over the different routes varies more or less from year to year is evidence that no hard and fast rule exists for the division of the traffic among the lines. The table we now present shows the shipments over the leading roads in each of the last four years.

With reference to prices, the changes during 1906, as in the years immediately preceding, were limited to those made in accordance with pre-arranged plans. The practice in recent years has been, as is known, to have a fixed schedule of prices (on the basis of $5 a ton for egg, stove and chestnut and $4 75 for broken or lump coal), but to allow a rebate from these figures during the spring and summer months, beginning with the 1st of April. The rebate is 50 cents a ton the first month, then drops to 40 cents, 30 cents, 20 cents and 10 cents with each successive month thereafter, until in September the rebate disappears altogether and the full winter schedule goes into effect. During 1906 there was some deviation from this practice, occasioned by the cessation of work at the mines during April and part of May. That is to say, the discounts of 50 cents and 40 cents respectively in April and May were omitted, owing to the stoppage of mining. The discounts, however, of 30 cents, 20 cents and 10 cents for June, July and August, respectively, were given. As to the tidewater prices of the steam sizes, the "Engineering and Mining Journal" states that these were fairly uniform during 1906, closing at $2 80@$3 00 for pea, $2 25@$2 50 for buckwheat, $1 45@$1 50 for rice and $1 30@$1 35 for barley.

RAILROAD GROSS EARNINGS FOR DECEMBER.

Returns of railroad gross earnings appear to be growing less favorable. At all events, our compilation for December reveals quite a small improvement, both in amount and ratio. To be sure, as only a short time has elapsed since the close of the month, the statement is necessarily incomplete, comprising only the roads which make it a practice to furnish early preliminary returns. But these early returns usually afford a tolerably accurate guide to the general results, and hence it is significant that the gains are gradually dwindling in amount—that furthermore, in the case of some rather prominent roads, increases are being replaced with decreases. Of course, one reason for diminishing improvement is found in the circumstance that comparison is now with unusually large and full figures. For many successive years the roads have been adding to their earnings in a very striking way. As a consequence the totals have risen to such magnitude that present and future additions, even with a continuance of business activity, can hardly be expected to be on the same large scale as in the past.

There has, however, been another and a special cause in operation of late tending to restrict and limit the amount of gain—at least in the case of certain roads. This cause undoubtedly explains the large loss reported by the Great Northern Ry. for the month, amounting to no less than $462,986. Our allusion is to the scarcity of fuel which recently existed in the Northwest. Because of that fact the roads in that part of the country were obliged to give coal the preference over all other classes of freight, with the result of disarranging their entire freight schedules, and leaving them short of equipment to transport other classes of freight, thereby adding to the congestion of traffic which had developed even before this circumstance had come into play. In brief, the roads were unable to transport the amount of freight they would have moved had normal conditions prevailed. Of course, to the extent that this factor is responsible for the dwindling amount of improvement (treating the roads collectively) the influence must be regarded as purely transitory and temporary. Before long it ought to be possible to resume the running of freight trains in the manner which experience has demonstrated enables the roads to carry the largest volume of business with the facilities at command. It should also be remembered that the Great Northern and some other roads in the same section suffered to some extent from snow blockades in December.

Our statement comprises 65 roads, operating 95,936 miles of line. On this mileage there is a gain of $4,469,215, or 5.64%, as compared with the same month last year. The improvement follows $5,441,832 increase, or 9.54%, reported on 81,238 miles of road in Decemper 1905 over December 1904. As already stated, the gains in December have been cumulative for a great many years past. The following summary of the December totals furnishes testimony to the fact:

December.		*Mileage.*			*Gross Earnings.*		*Increase (+) or Decrease (—).*	
		Year Given.	*Year Preced.*	*Increase.*	*Year Given.*	*Year Preceding.*		
Year.	*Roads.*	*Miles.*	*Miles.*	%	$	$	$	%
1896	130	93,075	92,282	0.86	40,895,711	41,791,251	—895,540	2.14

1901	99	103,496	100,694	2.78	64,922,983	62,104,946	+2,818,037	4.53
1902	80	100,638	98,801	1.86	70,769,049	64,416,412	+6,352,657	9.85
1903	71	89,279	87,067	2.51	61,868,261	59,114,002	+2,754,259	4.66
1904	67	84,143	82,607	1.86	59,429,656	55,069,547	+4,360,109	7.91
1905	57	81,238	79,894	1.76	62,469,679	57,027,847	+5,441,832	9.54
1906	65	95,936	93,553	2.55	83,796,332	79,327,117	+4,469,215	5.64

Note.—Neither the earnings of the Mexican roads nor the mining operations of the anthracite coal roads are included in this table.

Perhaps in view of the conditions prevailing the improvement shown for 1906 is as large as could have been expected. For, aside from the dislocation of traffic occasioned by the fuel scarcity already referred to, many roads in the West and other parts of the country had to contend with a diminished grain movement. In part, the shrinkage in the grain traffic followed from the derangement of freight schedules occasioned by this very coal scarcity. The trouble was not that there was no grain to move, but that the roads involved in the coal disturbance were not in position to take and t ansport it, or at least not so much of it. It is a fact, however, that the grain movement fell off even where the fuel scarcity did not come in as an unsettling element. Taking the grain receipts for the four weeks ending December 29 at the Western primary markets, it is found that there was a falling off as compared with the corresponding period last year in the case of corn, of oats and of wheat, and that these losses were offset only to a small extent by increased receipts of barley and rye. In other words, combining the five cereals the receipts for the four weeks of 1906 aggregated 58,444,-

310 bushels, as against 67,127,732 bushels in 1905. The details of the grain movement in our usual form are set out in the following.

On the other hand, Southern roads and Southwestern roads were favored by an exceptionally heavy cotton movement—this being in addition to the activity and prosperity of general trade, which inured to the benefit of the roads everywhere throughout the country. The shipments overland aggregated 347,523 bales in December 1906 against only 237,951 bales in December 1905. The receipts at the Southern outports were no less than 1,566,258 bales, as compared with 1,040,865 bales in the month in 1905—from which it can be seen what an advantage to Southern roads the larger cotton movement must have been.

RECEIPTS OF COTTON AT SOUTHERN PORTS IN DECEMBER FOR SIX YEARS, 1901 TO 1906, INCLUSIVE.

Ports	December. 1906.	1905.	1904.	1903.	1902.	1901.
Galveston	531,046	327,323	339,367	454,106	262,803	384,479

Total	1,566,258	1,040,865	1,358,075	1,398,105	1,204,550	1,289,651

In view of the increased cotton traffic, it is not surprising to find that Southern and Southwestern roads are unusually prominent among those reporting enlarged earnings. The Missouri Kansas & Texas, for example, has $443,329 gain, the Louisville & Nashville $374,558 gain, the Texas & Pacific $327,884, &c., &c. Losses of large amount come mainly from roads like the Great Northern, the Minneapolis St Paul & Sault Ste. Marie, &c., though the Buffalo Rochester & Pittsburgh has also again fallen behind. In the following we show all changes for the separate roads for amounts in excess of $30,000, whether increases or decreases.

PRINCIPAL CHANGES IN GROSS EARNINGS IN DECEMBER.

Increases.		Decreases.	
Northern Pacific	$492,153	Ala N O & Tex Pac (3 rds)	$84,852
Missouri Kansas & Texas	443,329	Wabash	76,798

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

—The public sales of bank stocks this week aggregate 25 shares, of which 15 shares were sold at the Stock Exchange and 10 shares at auction. The transactions in trust company stocks reach a total of 92 shares. A lot of 30 shares of United States Mortgage & Trust Co. stock was sold at 475—an advance of 25 points over the price paid at the last previous public sale in June 1906.

x Sold at the Stock Exchange.

—A New York Stock Exchange membership was reported transferred this week for $83,000.

—At the annual meeting of the Philadelphia Clearing-House Association last week, it was decided to have but one clearance a day instead of two, this to be at 10 a. m. The new plan will be adopted February 1. On the same date the plan of permitting trust companies to clear through members of the Association will also go into effect, the clearing house having decided to accord the institutions that privilege under the provisions mentioned in our issue of November 24. Francis B. Reeves, President of the Girard National Bank, has been elected President of the Association, to succeed the late John H. Michener. John C. Boyd has been re-elected Secretary of the Association.

—The Minneapolis Clearing House Association has followed the course taken some months ago by the Chicago Clearing House and appointed a special Bank Examiner, whose duty it will be not only to examine the members of the Clearing House but also institutions enjoying its privilege. The Minneapolis association has chosen for the office P. M. Kerst, who will resign as State Public Bank Examiner on February 1 to take up his new work. Minneapolis, in point of volume of business through its Clearing House, ranks twelfth in the United States. Its banks, in point of stability, conservatism of methods, &c., stand in the front rank, and the present action of the Clearing House, with its attendant results, should tend further to increase the prestige of the institutions. Mr. Kerst is particularly adapted for the post to which he has been chosen. He has served for the past two years as public examiner, and previously was deputy under Examiner S. T. Johnson. Prior to entering the Examiner's office he was with the National German-American Bank of St. Paul.

—The appointment by Gov. Hughes of Charles Hallam Keep as New York State Superintendent of Banks was confirmed by the Senate on Thursday.

—The net earnings of the New York Trust Company, Otto T. Bannard, President, for 1906 were, according to a statement just published, $1,520,602, being over 50% on the company's capital stock of $3,000,000; $690,000 in dividends has been actually paid to the stockholders. The quarterly dividend was increased by the trustees from 5% to 8% in December, a 32% yearly basis. On Dec. 31 the institution reported surplus and undivided profits account at $10,941,-994 52, deposits at $40,427,993 02 and aggregate resources of $54,400,540 24. Joseph J. Slocum was this week elected a trustee.

—A. D. Bennett, formerly President of the Commercial National Bank of Port Huron, Mich., was recently chosen to head the pioneer Night & Day Bank of this city. The new executive of this unique institution is well known to out-of-town bankers, having taken an active interest in Michigan banking affairs. His selection for the new post is considered a good one. The Night & Day, which inaugurated the twenty-four-hour banking plan, was opened last May and has $2,500,000 deposits, divided among 2,100 personal depositors. Mr. Bennett, Carleton Bruce and John C. Tomlinson Jr. were elected directors.

—At the stockholders' meeting held this week of the Empire Trust Company of New York, Arthur P. Heinze and Charles M. Schwab were elected directors.

—Oscar L. Gubelman, Vice-President of the Guaranty Trust Company of New York, resigned this week to become a partner in the firm of Knauth, Nachod & Kuhne. George G. Henry, associated with the firm of Potter, Choate & Prentice, bankers of this city, has been elected as his successor.

—The Lincoln Safe Deposit Company, affiliated with the Lincoln National Bank, 32-42 East 42d Street, has acquired by purchase the entire business and plant of the American Safe Deposit Co., corner of Fifth Avenue and 42nd Street.

—Following the plan announced in this column last week for consolidating the Colonial Trust Co. with the Trust Company of America, the stockholders of the latter last Wednesday elected as board members: John E. Borne, Anson R. Flower, Stephen Peabody, Seth W. Milliken, Richard Delafield, Cord Meyer, Lowell M. Palmer and James W. Tappin, all directors of the Colonial Trust. William F. Sheehan, Morgan J. O'Brien, Randal Morgan and A. D. Bennett were also elected directors of the Trust Company of America. At the organization meeting of the board, Mr. Borne was chosen chairman of the Executive committee; Frank L. Hilton, Secretary, succeeding Raymond J. Chatry, resigned, and Carlton Bunce, First Assistant Secretary. Mr. Hilton has been associated with the present company and its predecessors for ten years. Oakleigh Thorne, President of the Trust Company of America, with William F. Sheehan and W. H. Chesebrough, were added to the directorate of the Colonial Trust Co. at the stockholders' meeting this week. John E. Borne, Perry Belmont, George Edward Ide and Henry N. Whitney, whose terms expired this year, were re-elected directors.

—John H. Scheidt has been elected Vice-President of the Williamsburg Trust Company of Brooklyn Borough to replace John W. Weber.

—Although Henry Dimse was recently elected Chairman of the executive committee of the Riverside Bank, 57th Street and Eighth Avenue, he continues as President of the Northern National Bank of this city. Interests identified with the Bank of Discount and those of the Northern National Bank acquired control of the Riverside Bank last week.

—At the annual meeting, the stockholders of the Commercial Trust Company, corner Broadway and 37th Street, added Edward A. Kerbs of the New York tobacco house of Kerbs, Wertheim & Shiffer, to the board of directors. On Jan. 1 the company reported $2,829,875 deposits, the results of the two months' business since November 8, when it was organized by R. R. Moore, President, and his associates.

—The stockholders of the Lincoln National Bank of this city, at their annual meeting on the 8th inst., ratified a proposition to increase the capital from $300,000 to $500,000. The 2,000 additional shares are offered ratably, at par, to the shareholders. For the purpose of enabling the shareholders to meet their subscriptions on the new stock, a dividend of 66 2-3% will be declared on the $300,000 capital, out of the surplus and profits, which amount to about $1,-

670,000, such dividend to be applied as payment for the new stock.

—The directors of the Union Exchange Bank of this city have elected William Ballin a Vice-President and director, to fill the vacancy due to the death of the late David Wile. In order to devote his attention entirely to the affairs of the Union Exchange, Mr. Ballin has resigned from the boards of several banks of which he was a member.

—Jacob Langeloth, President of the American Metal Company, was elected a director of the Corn Exchange Bank of this city on the 15th inst., the board thus being increased from seventeen to eighteen members.

—At the annual meeting of the stockholders of the Title Guarantee & Trust Company of this city, held on Tuesday last, Henry Roth of Brooklyn and James H. Manning of Albany, N. Y., were elected to the board. Mr. Roth is prominent in real estate circles while Mr. Manning is President of the National Savings Bank of Albany. In view of the fact that savings banks throughout the State are large purchasers of title guarantee policies, it was thought that the banks generally would welcome one of their men on the board. No change in the official staff occurred.

—On January 1, the Coal & Iron National Bank of the City of New York, at Liberty and West streets, paid its first quarterly dividend of 1½%, being at the rate of 6% per year. This institution, which only began business in April 1901, has now over $5,000,000 in deposits, while its resources are about $7,000,000. On its board of directors, which is composed of thirty members, are representatives of some of the largest railroad, banking and commercial interests in the country. The officers are John T. Sproull, President; A. A. Lisman and David Taylor, Vice-Presidents, and Addison H. Day, Cashier.

—Charles A. Conant, who became Treasurer of the Morton Trust Company of this city in February 1902 resigned the post on the 1st inst. The office remains unfilled.

—Joseph J. Slocum, an executor of the Russell Sage estate, was elected a director of the Metropolitan Trust Company of this city on Wednesday to succeed Henry C. Perkins.

—The stockholders of the Fulton Trust Company of this city have elected the following trustees for the term ending 1910: J. Roosevelt Roosevelt, Percy Chubb, Edwin A. Cruikshank, Henry K. Pomroy, Harrison E. Gawtry, Alfred E. Marling, Richard H. Williams and Archibald D. Russell.

—John D. Barrett has been chosen to replace William H. Moody on the directorate of the Columbia Trust Company of this city. Mr. Moody has become a Justice of the United States Supreme Court.

—John G. Hemerich, formerly Assistant Cashier of the New Amsterdam National Bank of this city, was appointed a Vice-President of the institution on the 12th inst.

—The Pacific Bank of this city has declared the regular quarterly dividend of 2% and an extra dividend of 2%, both payable February 1. The bank paid 8% per annum for many years.

—The directors of the Aetna National Bank of this city at a meeting on Tuesday the 15th inst. decided to increase the capital from $200,000 to $300,000. Their action is subject to the approval of the stockholders, who will soon be asked to ratify the proposition. The stock will be sold at $220 per share, thereby increasing the surplus $120,000, or to $280,000. The bank began business in October 1904. In its last statement to the Comptroller of the Currency, it had deposits of $2,056,224. The new directors elected last week are Frank D. Huyler, William S. Pitcairn, Henry Endemann and George Noakes.

—Frank H. Richardson, President of the Nassau Bank of this city, died on Wednesday. He was sixty-three years of age and had been President of the bank since 1898.

—At a meeting of the directors of the Manufacturers' National Bank of Brooklyn Borough, on the 15th inst., Alexander D. Seymour, formerly Vice-President, was elected President, and J. Henry Dick was elected a Vice-President. A. D. Baird is also a Vice-President and J. C. Nightengale is Cashier.

—John H. Emanuel Jr. has been elected a member of the board of trustees of the Long Island Loan & Trust Company of Brooklyn Borough.

—The Home Trust Company of New York (Brooklyn Borough) has added five new members to its board of directors. They are: Oswald G. Villard, Carl L. Schurz, A. E. Johnson, A. R. Pardington and Benjamin F. Knowles.

—William E. Harmon has been elected a director of the People's Trust Company of Brooklyn Borough to succeed the late Isidore M. Bon.

—Douglas Alexander, President of the Singer Manufacturing Company, has been elected a director of the Commercial Trust Company of New Jersey, at Jersey City.

—At a meeting of the directors of the Marine National Bank of Buffalo, N. Y., on the 12th inst., J. H. Lascelles, formerly Cashier, was elected a Vice-President, and Clifford Hubbell, formerly Assistant Cashier, was elected Cashier. The other officers continue as heretofore—Stephen M. Clement, President; J. J. Albright, Vice-President, and H. J. Auer, Assistant Cashier.

—The directors of the First National Bank of Utica, N. Y., at their annual meeting on the 9th inst., elected Henry R. Williams and Frank A. Bosworth as Vice-Presidents. They were respectively Cashier and Assistant Cashier, and Mr. Williams for the present in addition to his new office will continue to serve as Cashier. The office of Assistant Cashier is abandoned.

—Samuel P. Cook has been elected President of the Producers' National Bank of Woonsocket, R. I. Mr. Cook, previously Cashier of the institution, is Treasurer of the City of Woonsocket. Horace A. Cook succeeds to the cashiership of the bank.

—Galen L. Stone, of Hayden, Stone & Co., has been elected to the board of the City Trust Company of Boston, to succeed T. Jefferson Coolidge Jr., resigned.

—The merger of the Freeman's National Bank of Boston with the National Bank of the Republic, referred to last week, has already been accomplished. The quarters of the Freeman's Bank were vacated on the 12th inst., its business having been transferred to the National Bank of the Republic. Edward P. Hatch, President of the absorbed institution, has become a Vice-President of the continuing bank. The latter will increase its capital from $1,500,000 to $2,000,000 next month.

—The directors of the Merchants' National Bank of Philadelphia have elected William A. Law Vice-President, succeeding Hartman Baker, who declined re-election. Thomas W. Andrew has been chosen to fill the office of Cashier, which Mr. Law vacates. F. W. Ayer continues as President of the bank.

—The stockholders of the Frankford Real Estate, Trust & Safe Deposit Company of Philadelphia at their annual meeting on January 8 decided to make application to the State authorities for permission to change the company's title to the Frankford Trust Company. The company reports deposits on December 31 1906 of $1,831,714. It has a capital of $125,000, surplus and reserve fund of $125,000 and undivided profits of $11,825.

—At the recent meeting of the directors of the Pennsylvania National Bank of Pittsburgh, Col. A. S. M. Morgan, President of the institution since its organization in 1890, declined re-election. J. S. Seaman was elected President. R. M. Davis, formerly Cashier, was chosen Vice-President, and S. M. Bauersmith was elected Cashier.

—F. E. Mulkie, formerly State Bank Examiner, has been elected to succeed C. C. Davis, resigned, as Cashier of the Traders' & Mechanics' Bank of Pittsburgh, Pa. Controlling interest in the bank is held by President James E. Glass, of the Treasury Trust Company of Pittsburgh.

—On the 2d inst. L. M. Plumer was elected Vice-President of the Pittsburgh Bank for Savings at Pittsburgh, to succeed the late William Roseburg.

—At the annual meeting of the Maryland Trust Company of Baltimore, held on January 15, a dividend of 6% on the preferred stock was declared for the year 1906. The following directors were elected: Josiah L. Blackwell, G. Clymer Brooke, H. Carroll Brown, John W. Castles, Joseph R.

Foard, B. Howell Griswold Jr., A. Barton Hepburn, Grier Hersh, John T. Hill, Ernest Hoen Jr., George C. Jenkins, Joshua Levering, Oscar G. Murray, Henry F. Shoemaker, James Speyer and Douglas M. Wylie.

—The directors of the Maryland National Bank of Baltimore on Monday elected Thornton Rollins as temporary President, the office having been made vacant last month through the death of Edward H. Thomson. Cashier James C. Fenhagen was elected to succeed Mr. Thomson on the board at the meeting on the 8th inst. Herman S. Platt has been chosen acting Vice-President of the company.

—A spirited contest for control of the Third National Bank of Baltimore occurred at the annual meeting of the directors on the 8th inst. between President Robert M. Spedden and Cashier John F. Sippel. President Spedden was the successful contestant, and on the following day he was re-elected to the presidency. Robert H. Smith was at the same time re-elected Vice-President, but no action was taken by the directors in the matter of the cashiership. On the 11th inst. the resignation of Mr. Sippel was tendered, to take effect on the 16th inst. A. B. Crouch, formerly Assistant Cashier, was chosen this week as Mr. Sippel's successor.

—On the 10th inst. the directors of the Canton National Bank of Baltimore, Md., re-elected H. J. McGrath President; Charles B. Kendig was elected Vice-President and M. Roland Bramble was chosen Cashier, the last named succeeding John W. H. Geiger, resigned. It is understood that the elections of the President and Vice-President are only temporary, both having accepted the offices until suitable successors are selected. William H. White, Paying Teller in the institution, was sentenced to five years' imprisonment on the 3d inst., having pleaded guilty, it is said, to the charge of embezzling $5,800 of the bank's funds.

—Rev. Isaac M. Motter was chosen to the presidency of the First National Bank of Frederick, Md., on the 8th inst, the new official replacing ex-Senator Frank C. Norwood.

—The new People's State Bank of Detroit, Mich., representing a union of the State Savings and People's Savings banks, commenced business on the 8th inst. The consolidation was ratified last month by the stockholders of the two institutions. Neither of the consolidating banks is placed in liquidation. A charter for the new bank was taken out, and both institutions separately consolidated with it, their stockholers surrendering their holdings and receiving in exchange a like amount of stock in the new institution. The new bank starts with a capital of $1,500,000, surplus of $1,500,000 and total assets of $30,000,000. Its list of officers was given in our issue of December 22. For the present, and until the State Bank Building can be remodeled to accommodate the business of the enlarged institution, the former main offices of the two old banks will be maintained.

—It is considered likely that the well-known Chicago brokerage and bond house of Granger Farwell & Co. will soon organize a trust company to take over the bond, banking and general financing departments of the firm, but continuing the dealing in stocks under the present style and management. Mr. Farwell says he has for some time been canvassing such a plan, and has submitted it to many of his friends and associated capitalists, with the reciprocal assurance that they will gladly subscribe to as many shares of stock as may be allotted to them. There will hence be no difficulty in securing $500,000 or $1,000,000 capital, as may be desired. While the organization of this new financial institution in Chicago is not a certainty, yet there seems a strong probability it will take concrete form before the 1st of March. The name chosen will probably be the Farwell Trust Company, as Mr. Farwell will own the controlling interest. Mr. Farwell has been prominent in Chicago financial circles for many years. He served two terms as President of the Stock Exchange. He is now a director of that institution, as well as of the Diamond Match Company, the Pearson Lumber Company, the Pyle-National Headlight Company, the Utah Gas & Coke Company, University Club and the Western Trust & Savings Bank.

—Bert McBride, formerly Secretary of the Security Trust Company of Indianapolis, succeeded on the 1st inst. Gavin Payne, retired, as President of the company.

—The State Auditor of Illinois has issued a permit to Norman W. Harris and his associates in the banking and bond house of N. W. Harris & Company to organize the Harris Trust & Savings Bank. The capital of the new institution will be $1,250,000 and its surplus $250,000. As a result of the incorporation, the Chicago and Western business of the firm of N. W. Harris & Company will be taken over and will constitute an important feature of the new bank's business activities. N. W. Harris & Company will, however, continue their business in New York and Boston as heretofore, the Harris Trust & Savings Bank working in close relationship with the firm. Norman W. Harris will be President of the new corporation, and will have associated with him in its management an able corps of assistants. The board of directors has not yet been wholly decided upon, though it is said that several prominent banking, railway and business men of Chicago will be chosen in this capacity.

—At the annual meeting of the Western Trust & Savings Bank of Chicago, all the retiring directors were re-elected, and no change was made in the official roster. Fifty thousand dollars was added to the surplus account, increasing that item to $250,000. The remaining undivided profits are, in round numbers, $50,000. The new location of the Western Trust & Savings, in the Rookery, is proving advantageous, especially in the savings department. The bank is now fitting up handsomely the large corner offices on the second floor just vacated by John C. King & Co., to add to its already spacious quarters.

—At the annual meeting of the stockholders of the Hibernian Banking Association of Chicago, on the 14th inst., J. McKay, a member of the board during the bank's existence, since 1867, retired. He is succeeded by Julius Kessler. Other changes were the election as Assistant Cashiers of Jay A. Rigdon and John P. V. Murphy. The question of increasing the capital of the institution from $1,000,000 to $1,500,000, which has been under advisement, has been referred by the stockholders to the directors, who will determine the date and other details of the issuance of the new capital.

—The officers, so far as chosen to date, for the new National City Bank of Chicago are as follows: President, David R. Forgan; Cashier, H. E. Otte; Assistant Cashiers, L. H. Grimme and F. A. Crandall. Mr. Otte, the Cashier, is now President of the Lake View Trust & Savings Bank of Chicago. For thirteen years he was connected with the Union National Bank of Chicago, of which Mr. Forgan was President. As an executive officer of the new bank he again becomes a close associate with Mr. Forgan. Mr. Grimme, one of the Assistant Cashiers, is at present with the First National Bank, where he has been employed for nineteen years. Mr. Crandall comes from the Merchants' Loan & Trust Company. The control of the bank will be placed with a board of directors composed, thus far, of the following: Alfred L. Baker, of Alfred L. Baker & Co.; Edward F. Carry, District Manager for the American Car & Foundry Company; Ambrose Cramer, trustee of the estate of Henry J. Willing; A. B. Dick, President of the A. B. Dick Company; Stanley Field, Vice-President of Marshall Field & Co.; F. F. Peabody of Cluett, Peabody & Co.; Joseph Schaffner, of Hart, Schaffner & Marx; John E. Wilder of Wilder & Co., and David R. Forgan. The capital stock of the National City Bank is $1,500,000, besides a paid-in surplus of $300,000. Its doors will be thrown open for business the first week in February.

—At the annual meeting, Jan. 8, of the Wisconsin Trust Company of Milwaukee, Grant P. Stickney was made Treasurer of the company instead of Secretary, as formerly, Fred C. Best succeeding to the secretaryship, and R. L. Smith becoming Assistant Secretary. Oliver C. Fuller was re-elected President and Frederick Kasten was re-elected Vice-President.

—The stockholders of the Fidelity Trust Company of Milwaukee, Wis., ratified a proposition on the 8th inst. to increase the capital from $125,000 to $250,000. It was also decided to increase the board from seven to ten members. These will probably be elected next month.

—At the election of officers of the National Bank of Commerce of Minneapolis on the 8th inst., A. A. Crane was pro-

moted from the cashiership to the office of Second Vice-President. W. S. Harris was in turn elected Cashier, and W. F. McLane and S. S. Cook chosen Assistant Cashiers. S. A. Harris is President and F. E. Kenaston First Vice-President.

—H. A. Willoughby has been added to the list of officers of the First National Bank of Minneapolis, having been chosen as an Assistant Cashier at the recent annual meeting. The institution is shortly to take possession of its new home, which will prove an addition to the fine banking buildings lately constructed in that prosperous banking centre. The building will be occupied exclusively by the bank. It is of Corinthian type of architecture, built of grey Bedford stone. The interior of the large banking room proper, which is 100 by 150 feet, will be finished in Italian white marble and mahogany, with solid bronze counter rails and trimmings. The basement will contain lunch and reading rooms for the staff, &c. Massive new vaults of the latest model will also be added. The First National has a capital of $2,000,000, surplus of $1,750,000 and deposits of nearly fifteen millions. The re-elected officers are: F. M. Prince, President; C. T. Jaffray, Vice-President; George F. Orde, Cashier, and Ernest C. Brown and D. Mackerchar, Assistant Cashiers.

—The Swedish-American National Bank of Minneapolis recently increased its surplus account to $300,000 through the transfer to it of $50,000 from undivided profits. The bank has also raised its dividend rate from 6 to 8% yearly, having declared a semi-annual dividend of 4% on Dec. 28, against 3% previously paid. The bank has increased its rate of interest on deposits from 3% to 3½%. The institution has a capital of $500,000 and undivided profits of close to $50,000. Its officers are: N. O. Werner, President; C. S. Hulbert and J. A. Latta, Vice-Presidents; E. L. Mattson, Cashier, and A. V. Ostrom, Assistant Cashier.

—E. H. Bailey was elected President of the First National Bank of St. Paul, Minn., on the 8th inst., succeeding H. P. Upham, retired. The latter, who had held the presidency for twenty-seven years, has been elected Chairman of the board of directors. E. N. Saunders has been chosen to succeed Mr. Bailey as Vice-President.

—The stockholders of the Stock Yards National Bank of South St. Paul, Minn., on the 12th inst. voted in favor of increasing the capital from $50,000 to $100,000.

—The directors of the Nebraska National Bank of Omaha, Neb., on the 8th inst. promoted Lewis S. Reed from the cashiership to the vice-presidency, and elected W. E. Shepard, formerly Assistant Cashier, to the office of Cashier.

—The stockholders of the First National Bank of Lincoln, Neb., on the 8th inst. approved a proposition to increase the capital from $300,000 to $400,000. The enlarged capital, which is in the nature of a stock dividend, becomes effective at once and reduces the surplus from $200,000 to $100,000.

—The Bank of Richmond at Richmond, Va., will increase its capital from $800,000 to $1,000,000, the stockholders on the 8th inst. having voted unanimously to this effect. The new stock will be offered pro rata to present shareholders at $110 per share of $100. The bank's officers, re-elected for the ensuing year, are John Skelton Williams, President; Frederick E. Nolting, First Vice-President; T. K. Sands, Vice-President and Cashier; H. A. Williams, Assistant Cashier, and L. D. Crenshaw Jr., Trust Officer. John T. Wilson and Langbourne M. Williams are new directors on the board.

—The stockholders of the National Bank of Commerce, Norfolk, Va., at their annual meeting January 8, ratified the recommendation of the directors to increase the capital from $500,000 to $1,000,000.

—Arrangements have been entered into for the consolidation of the Bank of Wheeling and the National Bank of West Virginia, at Wheeling, W. Va. If the present plans are carried to completion, the Bank of Wheeling (capital $200,000) will surrender its charter and transfer its assets to the National Bank of West Virginia. The stockholders of the latter are to meet on Monday next, the 21st inst., to act on a proposition to increase the capital from $200,000 to $400,000. They will also consider amendments to the articles of association so as to permit an increase in the number of directors and to provide for the election of additional officers. It is understood that Earl G. Ogleby, President of the National Bank of W. Va., will be President of the consolidated institution, and A. J. Clarke, President of the Bank of Wheeling, will be Chairman of the board of directors.

—At the annual stockholders' meeting on the 8th inst. two new directors were elected to the board of the Third National Bank of Louisville, Ky., namely W. N. Cox, President of the Louisville Warehouse Company and Joshua D. Powers. The new members succeed J. W. Caulbert and Percival Moore. John J. McHenry has been elected Vice-President of the institution to fill a vacancy.

—Cushman Quarrier, formerly Comptroller of the Louisville & Nashville RR., has been elected a director of the American National Bank of Louisville, Ky., to succeed the late J. S. Bockee. The latter, who was also Vice-President of the bank, died on the 28th inst.

—The annual meeting of the stockholders and directors of the Exchange Bank of Macon, Ga., held on the 8th inst., resulted in the election of N. B. Corbin as Vice-President; W. H. Burdick as Cashier (advanced from Assistant Cashier and Charles P. Bannon and J. F. Minton as Assistant Cashiers. The new board chosen consists of J. W. Cabaniss, who was re-elected President; N. B. Corbin, E. S. Wilson, B. L. Jones, A. T. Small, W. R. Rogers, Sam Mayer, A. D. Schofield, George R. Turpin, E. A. Waxelbaum, A. L. Adams and H. J. Lamar.

—On January 8 the stockholders of the Third National Bank of Columbus, Ga., gave approbation to a proposal to increase the capital from $200,000 to $250,000. The additional stock will be disposed of at $175 per share (par $100) to present shareholders, the new capital becoming operative April 1. Besides re-electing the old officers, the board appointed W. H. Young an Assistant Cashier.

—In the Third National Bank of Atlanta, Ga., Joseph A. McCord, heretofore Cashier, has been made active Vice-President, while Thomas C. Erwin has advanced from the office of Assistant Cashier to that of Cashier. Mr. McCord, the new Vice-President, has been connected with the bank since its organization. He was elected to its board of directors a year ago. The bank has another Vice-President in H. M. Atkinson, who was re-elected at the meeting on the 10th inst. Frank Hawkins is President of the bank and Ralph W. Byers Assistant Cashier.

—J. W. Keyes, until recently a Vice-President of the Union & Planters' Bank & Trust Company of Memphis, Tenn., has been elected active Vice-President of the Bankers' Trust Company of that city. The other Vice-Presidents of the latter institution are R. E. L. Wilson and O. B. Polk. The President is R. T. Fant.

—The proposition to increase the capital of the Exchange National Bank of Spokane, Wash., from $250,000 to $750,000 was ratified by the stockholders January 8. The selling price of the new shares is $200, thus giving a surplus of $500,000. The enlarged capital and surplus become effective at once.

—An application to organize the Nevada First National Bank of Tonopah, Nevada, was approved by the Comptroller of the Currency on December 29. The capital, $100,000, we learn, has been oversubscribed. New York capital is interested in the movement, the applicants for a charter being Malcolm L. Macdonald, Donald B. Gillies, Frank A. Keith, C. C. Minzesheimer and Leo Speyer. Jacob A. Cantor, ex-Borough President, is counsel for the projectors. A modern steel office building, the first in Nevada, will be erected by the bank, which will cater especially to mining interests in the vicinity of Tonopah.

—It was unanimously voted by the stockholders of the First National Bank of San Francisco, at their annual meeting January 8, to increase the capital from $1,500,000 to $3,000,000. The subscriptions to the new stock are to be accompanied by a deposit of 25% of the amount subscribed for; payment of the balance is required by July 15 1907. The articles of association were amended so as to increase the board of directors from nine to fifteen members. The six additional directors elected are J. K. Moffett, Cashier; Walter S. Martin, J. H. Skinner, Assistant Cashier; Claus Spreckels, George Whittell and Clinton E. Worden.

CHICAGO STOCK EXCHANGE RECORD OF PRICES FOR 1906.

Continuing the practice begun by us two years ago, we furnish below a record of the highest and lowest prices for each month of 1906 for all the leading stocks and bonds dealt in at the Chicago Stock Exchange. In the compilation of the figures, which are based entirely on sale transactions, we have used the report of the dealings as given in the Chicago Stock Exchange official list each day.

CHICAGO	January. Low.	High.	February. Low.	High.	March. Low.	High.	April. Low.	High.	May. Low.	High.	June. Low.	High.	July. Low.	High.	August. Low.	High.	September. Low.	High.	October. Low.	High.	November. Low.	High.	December. Low.	High.

Monetary and Commercial English News

(From our own correspondent.)

London, Saturday, January 5 1907.

On Tuesday the Stock Exchange was closed, but on Wednesday business opened very cheerful, and there was more buying than for some time past. On Thursday there was somewhat of a setback, partly owing to realizations to secure profits, but largely owing to rumored difficulties in New York. It is not easy to ascertain how the rumors are set afloat, but some of them are manifestly absurd. Yet they have a momentary effect. Yesterday there was an improvement and the tendency continued good all day.

In Paris, likewise, there is a decidedly more hopeful feeling. Not only is it believed that external peace is assured during the new year, but the manner in which the clergy have submitted to the enforcement of the Separation Law has restored confidence and created a very much better feeling than has existed for a long time. There is, therefore, a very considerable amount of speculation in Paris, and not only has there been more French buying here this week than for some months, but also the French banks have increased the balances they are employing in London. At the monthly liquidation in Paris this week, the "bull" account was found to have been largely increased. Rates in consequence were higher than for a long time past—about 5½% in the official market and about 7% in the outside market. It is believed that the speculation is not a very strong one. But money is so plentiful that no ill-consequences are anticipated.

In Germany the pressure for money at the end of December was as great as had been anticipated. The note circulation of the Imperial Bank rose to over 88¾ millions sterling, while the total gold held was 33¼ millions sterling. The note circulation exceeded the legal maximum by nearly 28¾ millions sterling. In other words, the Bank had to pay the 5% duty on the latter amount. It is not feared that there will be a further advance in the Bank rate, but it is quite possible that the reduction of the rate may be postponed. The great increase in the circulation is due in no small degree to the fact that the Imperial Bank has to finance the Imperial Government. There is a large deficit which will have to be covered by loans. But the Government does not choose to bring out a public loan for the time being. It requires the Imperial Bank to finance it. In spite, however, of the great stringency shown by these figures, there has been exceedingly little decline in quotations upon the Bourse. The public clings to its holdings, believing that trade is so good that there must very soon be a marked rise.

Here at home the general feeling is hopeful; but there are doubts regarding the situation in New York. As far as can be ascertained here, there is no foundation for the rumored difficulties. Still people are afraid to engage in new risks until they are assured, firstly, that no gold will be withdrawn from London for New York, and, secondly, that money will soon begin to return from the interior in large amounts. If there is a return of ease in New York, and the market recovers, there will in all reasonable probability be an increase of activity here in London, for there is no question that both on the Stock Exchange and in commercial circles credit is perfectly sound here, and business is kept in check solely by the fear of large gold withdrawals.

Since the new year set in there has been a sharp decline in rates for money. Indeed, yesterday bills were taken in some cases under 5%. For the moment the supply of money in the open market is very large because the Bank of England has discounted bills on an immense scale, and because, furthermore, the Government has disbursed very large sums at the end of the year. On the other hand, the market owes to the Bank of England over 5 millions sterling and will have to repay the amount very soon. There is to be set off against that, however, the fact that the Bank on Monday will pay very large sums as interest on the National Debt. There is, therefore, a difference of opinion as to whether the repayments to the Bank or the disbursements on account of the Government will have the greater effect. It is possible that there will be ease for a week or two. But the collections of the revenue will now be on an enormous scale, and very soon so much money will be transferred from the open market to the Bank of England that the Bank will again have complete control, the more particularly as it holds a very considerable amount of bills falling due this month and next month. The general expectation is that the 6% rate will be reduced if ease returns in New York and the danger of gold shipments to New York ceases. But it is not expected that the rate will be reduced below 5%. Assuming that there are no gold shipments to New York, the general belief is that a 5% rate will suffice and that we shall be able to supply the demands of Brazil, Argentina and India. How much altogether will be required is not known. In December it was expected that the Brazilian Government would take £800,000. As a matter of fact, it took only half a million sterling. Up to the present it has taken none in the new year; nor is it expected that it will take much. At the outside it is believed that it will not take more than a million sterling. Nevertheless, it is quite possible that banks engaged in the Brazilian trade may send out gold if rates decline here, for in that case the operation would be profitable. It is impossible to estimate how much gold will be required by Argentina. The best opinion is that it will not be large. Nor is it possible to estimate how much will be required by India. The belief is that India will not "ear-mark" much more than a million sterling—at the outside not more than two millions sterling. If that be so, London is in a position to supply all these demands and the Bank of England even may be able to strengthen itself.

The India Council offered for tender on Wednesday 120 lacs of drafts, and the applications amounted to nearly 669 lacs, at prices ranging from 1s. 4 1/32d. to 1s. 4 3-16d. per rupee. Applicants for bills at 1s. 4 3-32d. and for telegraphic transfers at 1s. 4 5-32d. per rupee were allotted about 82% of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years:

Messrs. Pixley & Abell write as follows under date of January 3:

GOLD.—There was again no competition for gold in this market, and the Bank of England has been able to secure practically all the arrivals, amounting to over one million sterling. The Bank of England has bought £1,858,000, in which is included £993,000 in bars, £615,000 from France; while £1,060,000 is withdrawn, £1,000,000 of which is "earmarked" Indian gold. Next week we expect £270,000 from South Africa. Arrivals—Cape, £866,000; Australia, £125,000; Bombay, £1,000; total, £995,000. Shipments—Bombay, £26,200; Calcutta, £25,000; total, £51,200.

SILVER.—Holidays have interfered with general business, but in spite of this the tendency has remained good and we are 1-16d. better on the week at 32 7-16d. The Indian Bazaars quote Rs. 82⅝, without, however, sending any orders. Arrivals—New York, £205,000; China, £141,000; total, £346,000. Shipments—Bombay, £202,000; Calcutta, £100,000; total, £302,000.

MEXICAN DOLLARS.—There have again been a few transactions in dollars at their melting value. Arrivals—New York, £9,000. Shipments—Bombay, £36,200

The quotations for bullion are reported as follows:

GOLD. London Standard.	Jan. 3. s. d.	Dec. 27. s. d.	SILVER. London Standard.	Jan. 3. d.	Dec. 27. d.

By Messrs. Adrian H. Muller & Son:

Stocks.		Stocks.	
10 State Bank	325	15 Hackensack (N. J.) Tr. Co	303½
50 Lincoln Trust Co	395½	23 United Bank Note Corp. pf. and $16.67 scrip, $50 each	$52.75 per sh.
30 U. S. Mtge. & Tr. Co	475		
10 Joseph Dixon Crucible Co	409¼		
12 Lawyers' Title Ins. & Tr. Co.	275		

DIVIDENDS.

We have changed the method of making up our weekly list of dividends. Heretofore our record has included only the dividends announced each week, but for the convenience of our readers we now enlarge the scope of the compilation so as to show also dividends previously declared, but the date of payment of which has not yet arrived. In the new form the statement indicates all the dividends announced for the future by all large or important corporations.

Dividends announced this week are printed in italics.

Name of Company.	Per Cent.	When Payable.	Books Closed. Days Inclusive.

a Transfer books not closed. *b* Five per cent declared, payable in two installments. *d* Nine per cent declared for year, payable in quarterly installments.

Statement of New York City Clearing-House Banks. The following statement shows the condition of the New York City Clearing-House banks for the week ending Jan. 12. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

We omit two ciphers (00) in all cases.

Banks (000s omitted)	Capital.	Surplus	Loans.	Specie.	Legals	Deposits. a	Reserve.

Wall Street, Friday Night, Jan. 18 1907.

The Money Market and Financial Situation.—Decidedly easier money market conditions at home and abroad are the important developments of the week. Saturday's bank statement showed a surplus reserve of $8,640,000, as against practically nothing the week before, and it is a well-established fact that this amount has been increased this week. Further favorable reports have been made by the Bank of England, the Bank of France and Bank of Germany, and the former has reduced its minimum discount rate from 6 to 5%.

Notwithstanding these facts, the stock market has been decidedly weak, and prices for all classes of railway securities have shown a tendency to decline. Evidently the announcement of a new stock issue by the Chicago & North Western Company, the needs of the Southern Railway as set forth by its new President, rumors of impending issues by other corporations, or more obscure factors, have exerted a greater influence in investment circles than the easier money market conditions mentioned. From whatever cause the demand for securities which usually obtains soon after the opening of a new year, and which was supposed to have been held in abeyance by money market rates, has not made itself felt now that these rates are about normal.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2½ to 5%. To-day's rates on call were 2½@3½%. Prime commercial paper quoted at 6@6½% for endorsements and 6@6½% for best single names.

The Bank of England weekly statement on Thursday showed an increase in bullion of £508,824, and the percentage of reserve to liabilities was 45.30, against 39.97 last week.

The discount rate was reduced from 6 to 5%. The Bank of France shows a decrease of 8,250,000 francs in gold and an increase of 1,950,000 francs in silver.

NEW YORK CITY CLEARING-HOUSE BANKS.

	1907. Jan. 12.	Differences from previous week.	1906. Jan. 13.	1905. Jan. 14.

Surplus reserve	8,640,700	Inc. 8,492,875	12,708,650	24,459,275

a $16,510,300 United States deposits included, against $16,401,600 last week and $8,476,400 the corresponding week in 1906. With these United States deposits eliminated, the surplus reserve would be $12,768,275 on Jan. 12 and $4,248,225 on Jan. 5.

Note.—Returns of separate banks appear on the preceding page.

Foreign Exchange.—Though only moderately active, because of the absence of mail facilities, the market was firm this week and it promptly responded to the ease in the local money rate and to the decline in the Bank of England minimum to 5%; the tone was strong at the close.

To-day's (Friday's) nominal rates for sterling exchange were 4 82@4 82½ for sixty day and 4 86@4 86½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8125@4 8150 for long and 4 8550@4 8560 for short and 4 8625@4 8635 for cables. Commercial on banks 4 80¾@4 81 and documents for payment 4 80½@4 81½. Cotton for payment 4 80½@4 80¾, cotton for acceptance 4 80¾@4 81 and grain for payment 4 81¼@4 81½

To-day's (Friday's) actual rates for Paris bankers' francs were 5 21¼*a*@5 20⅝*a* for long and 5 18¾*a*@5 18¾ for short. Germany bankers' marks were 94@94 1-16 for long and 94¾@94 13-16 for short. Amsterdam bankers' guilders were 40 1-16*k*@40⅛*a* for short. Exchange at Paris on London to-day 25 f. 19 c. Week's range 25f. 23c. high and 25f. 19c. low.

The week's range for exchange rates follows:

	Long		Short		Cables	
Sterling, Actual—						
High	4 8125	@4 8150	4 8550	@4 8560	4 8625	@4 8635
Low	4 8065	@4 8075	4 8475	@4 8485	4 8565	@4 8575
Paris Bankers' Francs—

Amsterdam Bankers' Guilders—						
High	----------	----------	40 1-16*k*	@ 40¼*a*	----------	----------
Low	----------	----------	40	@ 40 1-16	----------	----------

Less: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus: *k* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah buying 50c. per $1,000 discount; selling 75c. per $1,000 premium. Charleston selling $1 per $1,000 premium. New Orleans bank 20c. per $1,000 premium; commercial 10c. per $1,000 discount. Chicago 5c. per $1,000 discount. St. Louis 20c. per $1,000 premium. San Francisco $1 50 per $1,000 premium.

State and Railroad Bonds.—No sales of State bonds have been reported at the Board this week.

If there has been any increase in the volume of business in railway and industrial bonds it is owing apparently to the movement of a few specific issues and not to a larger investment demand.

United States Bonds.—Sales of Government bonds at the Board include $20,000 3s, coup., 1908-18, at 103 to 103⅛, and $5,000 4s, coup., 1907, at 100⅞. The following are the daily closing quotations; *for yearly range see third page following.*

Railroad and Miscellaneous Stocks.—The stock market has been active and generally weak under liberal offerings. This was especially true on Wednesday, when more or less urgent liquidation of three or four issues increased the total transactions to nearly 1,300,000 shares. On Thursday liquidation was suspended and a substantial recovery was generally made, but to-day the selling pressure was renewed with increased force and quotations in many cases declined to the lowest figures recently recorded. St. Paul closed 8 points lower than last night, 6 of which it lost during the last hour. Reading is over 4 points lower and other prominent issues have declined from 2 to 4 points to-day.

North Western has declined throughout the week on the announcement of a new stock issue. It closes 14½ points lower than last week. Delaware & Hudson has also steadily lost, closing 8 points lower. Great North. and Nor. Pacific are (ex-div.) 10½ and nearly 10 points lower respectively.

Amalgamated Copper has lost a substantial part of its recent advance, being over 7 points down. Anaconda Mining has covered a range of 10½ points, closing at the lowest. General Electric is the only active stock that has advanced nearly 2 points during the week. Steel common is down 2¼ and the preferred 1⅝.

For daily volume of business see page 152.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Outside Market.—Weather conditions and the weakness which developed on the Exchange have combined to make the market for unlisted securities very dull. Prices up to to-day held fairly firm but at the close losses were general. Nipissing Mines advanced from 13½ to 14⅞ but sold down to-day to 13⅛. United Copper common moved up from 73½ to 75⅜, then dropped to 71½ ex-dividend. It recovered to 73½, but to-day ran off to 71¼. Utah Copper was strong and advanced from 37½ to 41⅞, the close to-day, however, showing a loss to 37. Tennessee Copper has dropped from 53¼ to 49¾. After advancing about 2 points to 32¾, Greene Consolidated Copper closes at 30½. Greene-Cananea went down from 22⅝ to 22, advanced to 23½, but reacted finally to 22½. Boston Consolidated Copper rose 2 points to 33⅛ but ran down finally to 30½. British Columbia Copper advanced fractionally to 14¼, lost steadily and ends the week at 11. Davis-Daly Estates rose 2 points to 19⅝ but is now down to 17¼. Trinity Copper fell off from 32⅞ to 30¾, then ran up to 40 and back again to 37¾. Manhattan Transit was a feature, advancing from 5⅜ to 6¾ and closing to-day at 6⅛ Mackay Companies common sold up from 73 to 74¼ and dropped back finally to 73¼. American Can preferred gained a point to 55; the close to-day was at only 51½. Western Ice, after losing about 3 points to 25¼, advanced steadily to 30¼, but dropped to-day to 27. Waterbury Company stock made its appearance this week and advanced from 37⅝ to 42¼.

Outside quotations will be found on page 152.

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

ROADS.	Latest Gross Earnings. Week or Month.	Current Year.	Previous Year.	July 1 to Latest Date. Current Year.	Previous Year.

a Figures for the month in both years include operations of the Scranton Ry., acquired Jan. 1 1906. c These figures are for consolidated company. d These are results for main line. h These are early preliminary returns; decrease due to earthquake, fire and strike among employees, Aug. 26 to Sept. 5 1906. k Decrease due to Lewis & Clark Exposition last year. l Beginning Oct. 1 1906, includes earnings of Canton-Akron Ry. in both years. n Figures are for all departments. p Includes earnings for Dec. 31 1906.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of Dec. 29 1906. The next will appear in the issue of Feb. 2 1907.

Balance for dividends	$2,091,500	$1,870,426	$2,378,836
Dividends on preferred (5%)	499,925	499,925	499,925
Dividends on common (4%)	1,511,775	1,328,950	1,119,612
Balance surplus	$79,800	$41,550	$759,299

—V. 83, p. 1290, 1228.

Boston Elevated Railway.

(Report for Fiscal Year ending Sept. 30 1906.)

President Bancroft, Dec. 31, writes in substance:

Taxes.—Besides its ordinary taxes, the company's contribution to the public during the last fiscal year amounted to at least $500,462, made up as follows: Compensation tax for the use of streets, $115,987; interest at 4% on $4,154,974, cost of paving laid by company, $166,199; cost of maintaining street paving, $150,659; subway rental devoted to sinking fund, $57,617; removal of snow from sidewalks and roofs (estimated), $10,000; total taxes assessed on real estate and capital stock, $1,418,489. Balance of the subway rental, which is nearly 12% of the gross revenue for the year, $1,611,849.

Stock.—Nearly 85% of the stock is held in Massachusetts.

Power.—The company has arranged to increase its power supply by the construction of two gas engine plants, supplying in the aggregate 1,675 kilowatts, and by the installation of a turbine generator rated at 2,000 kilowatts. The company has also purchased from the Edison Electric Illuminating Co. and from other sources about 3,600 kilowatts, making a total of upward of 7,275 kilowatts—an increase of about 20%.

Cars.—Forty-five "easy access" elevated cars, making altogether 219, and 150 "easy access" semi-convertible surface cars seating 52 persons each, have been bought, and a considerable number have already been delivered.

Renewals.—Unusual attention has been paid to the care of the company's surface tracks, $737,754 having been spent thereon in renewals and repairs, an increase of $114,505 over 1904-05 and of $283,684 over 1903-04. It is believed that the tracks were never before in such excellent condition. The additions include a new line to Belmont Centre, 9.4 miles.

Wages.—The compensation for learners ($31,383), guaranteed minimum wage for new or extra men ($14,032), increased compensation to long-service men ($64,705), pensions ($9,081), and "satisfactory service" money ($52,590), aggregated, under the provisions adopted three years ago, $171,391. Moreover, the company, beginning with the calendar year 1907 will increase the pay of its car service men and those connected immediately therewith, amounting in number to nearly 5,300, those in service more than two years 10 cents a day and the others 5 cents a day, the new or extra men being guaranteed a minimum increase of 25 cents a day.

Elevated Extensions.—Work upon the extension of the elevated structure to Forest Hills has been prosecuted. The foundation piers have been built to Forest Hills Square. The structure has been erected to within about one-half mile from its terminus.

New Tunnel.—Much progress has been made by the Boston Transit Commission in constructing the tunnel under Washington Street. It is expected that this tunnel will be in use in 1908.

Modification of Contract.—By Chapter 520 of the Acts of 1906, accepted by the board of directors June 29 1906, in effect a modification of our contract with the Commonwealth of Massachusetts in 1897, the company is released from its obligation to build an elevated road in Cambridge between the Cambridge bridge and Brattle Square, and is required instead to build a subway in Main Street and Massachusetts Avenue to Harvard and Brattle squares in Cambridge, and an elevated road from Lechmere Square to connect with its elevated structure on Causeway St. in Boston. The subway is to be built within four years after final approval of the original plan, and the elevated within 3½ years from the time that construction is authorized to begin. At any time after the expiration of 20 years from the opening for use of the Main Street subway, or earlier by agreement, the Act allows the City of Cambridge to purchase this subway, paying cost and interest at 7% per year from the time of opening for use, less dividends. The Act also enables the company to build, under the same terms, conditions and provisions, subways in River St., Webster Ave. and Cambridge St. in Cambridge, beginning within four years after the opening for use of the Main St. subway. Provision is also made for a connection by subway or tunnel to be built by the Boston Transit Commission, between the Boston end of the Cambridge bridge and either the Park street or the Scollay Square stations of the Boston subway. This subway or tunnel is to be leased to the company at an annual rental of 4½% for a term of not less than 20 years.

Traffic.—Total revenue passengers carried for the year, 262,267,240, an increase over previous year of 15,325,164, or 6.2%.

Monongahela River Consolidated Coal & Coke Co.

(Report for the Fiscal Year ending Oct. 31 1907.)

President Francis L. Robbins, Jan. 14 1907, writes:

Financial.—The balance sheet shows a marked improvement over the preceding year.

Decrease in first mortgage bonds, certificates of indebtedness, car trust notes and mortgages	$351,297
Decrease in accounts and bills payable	1,050,741
	$1,402,038
Less decrease in quick assets	450,007
Net reduction in indebtedness	$952,031

Condition of Property.—The physical condition of our properties, steamboats, barges, coal mines and mine improvements, miners' houses, coal harbors, coal elevators and depots, &c., has been well maintained, and is at this time better than at any time since the organization of the company.

Production.—Our production of coal for the year shows an increase of 1,578,674 tons, equal to 31%. A large proportion of the increased production was marketed through our rail department, notwithstanding the usual and apparently increasing shortage of railroad cars. Our individual cars were found very serviceable, and particularly so in shipping to the Lake trade.

Earnings.—The gross earnings increased 22.31% and the net earnings increased 132.73%.

Sale of Corona, Ala., Properties.—After an experiment of four years it was found that these properties, being far distant from Pittsburgh, could not be as advantageously operated in connection with our Pittsburgh properties as might be desired, and your directors therefore availed themselves of an opportunity to dispose of the stock of the Corona Company at an increase over its cost. (See Corona Coal & Iron Co., V. 72, p. 1190; V. 78, p. 1277—Ed.).

EARNINGS, &c., FOR YEARS ENDING OCT. 31.

	1906.	1905.	1904.
Coal mined (tons)	z6,509,737	4,962,750	4,158,544

(The) H. B. Claflin Company (New York.)

(Report for the Season Ending Dec. 31 1906.)

President John Claflin says:

Our net profits for the six months were $409,119, against $503,494 for the corresponding period in 1905. For the year 1906 net profits were $761,377, as against $821,428 for the year 1905. There was earned for common stock in the spring of 1906 5.49% and in the fall 6.97%; total for year 1906, 12.46%. The outlook for the spring of 1907 is excellent.

American Malt Corporation.

(Official Statement of Dec. 29 1906.)

The statement made to the New York Stock Exchange upon the listing of the company's shares (V. 84, p. 104) says in substance:

The corporation was organized under the laws of New Jersey on March 31 1906. with an authorized capital stock of $15,000,000 in shares of $100 each, all of which has been issued. Of said stock $9,000,000 is cumulative preferred stock, entitled to receive from the surplus or net profits arising from the business of the corporation dividends at the rate of, but not exceeding, 4% per annum, from April 1 1906 until Oct. 1 1906, and at the rate of, but not exceeding, 6% per annum from and after Oct. 1 1906, when declared by the board of directors. The holders of the $6,000,000 common stock are entitled to receive all moneys appropriated to dividends after the payment of dividends as aforesaid on the preferred stock. In case of liquidation the holders of the preferred stock are entitled to the par amount of their shares and the unpaid dividends accrued thereon, and the holders of the common stock to the remaining assets.

The corporation is a holding company, organized to acquire the stock of American Malting Co. pursuant to a plan, dated July 6 1905 (V. 81, p. 266, 1043). Stockholders of American Malting Co. depositing their stock under said plan received in exchange for each $100 of old preferred stock $62 new preferred stock, and in exchange for each $100 of old common stock $44 new common stock. At this date (Dec. 29 1906) there have been surrendered under said plan $13,473,100 of preferred stock and $11,925,600 of common stock of said American Malting Co., out of a total of $14,440,000 preferred stock and $13,400,000 common stock issued and outstanding.

Disposition of Stock of American Malt Corporation—$6,000,000 common, $9,000,000 preferred.

	Common.	Preferred.
Issued for stock American Malting Co.	$3,117,100	$5,746,100
Issued for stock American Malting Co., but still to be exchanged for deposit receipts	2,130,200	2,607,300
Trusteed, available for exchange for stock of American Malting Co., outstanding	648,700	599,400
Issued to incorporators for cash	1,000	-----
Issued to trustee and available for corporate purposes of corporation	103,000	47,200

The stock of American Malting Co. now outstanding will be received on the basis hereinbefore mentioned, or upon such terms as may be agreed "to Feb. 1 1907 unless further extended by order of this board."

American Malting Co. continues as heretofore to engage in the business of manufacturing and selling malt and its by-products in the States of New York, Pennsylvania, Illinois, Ohio, Michigan, Wisconsin, and generally throughout the United States.

Plants of American Malting Co., All Owned in Fee by It.

New York City—Entire block bounded by Ave. A, 63d St., East River and 64th St., and malt house thereon.
Buffalo—Malt house, corner William and Pratt streets, formerly owned by estate of Charles G. Curtiss, 333 ft. by 128½ ft.
Buffalo—Malt house and elevators just completed on Childs St. and Buffalo River, said property having about 450 ft. of frontage on Buffalo River and about 300 ft. on Childs St., containing approximately 3½ acres.
Syracuse, N. Y.—Malt house in First Ward and part of Marsh Lot 28 Onondaga Salt Springs Reservation, formerly owned by C. M. Warner Malting Co.
Sixteen malt houses and lots therewith, located severally as follows:
South Rondout, Ulster Co., N. Y., 300 ft. by 347½ ft (formerly owned by Neidlinger & Sons).
Cayuga, N. Y., formerly owned by Neidlinger & Sons
Erie, Pa., corner 16th St. and Parade St., formerly owned by estate of Jacob Wechsler.
Hamilton, Ohio, formerly owned by Sohngen Malting Co.
Detroit, on Grand River Ave., formerly owned by Howard-Northwood Malt Mfg. Co.
Chicago.—In Elston Addition, property formerly owned by John Carden, Jr.
In Cook and Anderson's Sub-division, formerly owned by Brand, Bullen & Gund & Co.
In Chicago Grain Company's Addition property formerly owned by Fred. F. Bullen Malting Co.
In Elston Addition, property formerly owned by Hales & Curtis Malting Co.
In Elston Addition, property formerly owned by David H. Carden.
On Larabee St., property formerly owned by W. H. Purcell Co.
Kensington Branch, formerly owned by W. H. Purcell Co.
Milwaukee—On South Water St., property formerly owned by Kraus-Merkel Malting Co.
In Fifth Ward, property formerly owned by Milwaukee Malt & Grain Co.
In Twelfth Ward, property formerly owned by Hansen Hop & Malt Co.
Watertown, Wis.—In First Ward, property formerly owned by William Buckheit Malting Co.

American Malting Co. has outstanding $3,714,000 first mortgage 6% gold bonds due Dec. 1 1914 out of a total issue of $5,000,000 authorized under mortgage dated November 20 1899, of which $286,000 have been redeemed by the sinking fund, and $1,000,000 have never been issued. (Compare V. 69, p. 956, 1013, 1195.) A sum equal to one-half of the aggregate amount of any dividend declared by the company upon its preferred stock and any sums received on the release of property from the mortgage shall be paid to the sinking fund for the redemption of these bonds by call at 105 and interest, if not purchasable at that price or less.

H. McFarland, John G. Jenkins, Louis L. Stanton President, Benjamin Treacy; Vice-President, Seymour Scott; Secretary, Edward C. Palmer; Treasurer, Frank Jenkins.—V. 84, p. 104.

Realty Associates, Brooklyn, N. Y.

(Report for Fiscal Year ending Oct. 31 1906.)

The report says in substance:

The company has bought during the year properties costing $1,513,588, comprising 81 dwellings, 15 flat buildings, 20 store and flat buildings, 7 stores, 1 stable, 8 unimproved plots; and has made sales of properties amounting to $2,335,196, namely, 148 dwellings, 31 flat buildings, 64 store and flat buildings, 9 stores, 6 unimproved plots. The company has not, however, materially reduced its total real estate holdings. The cash invested in real estate is about the same as the cash so invested one year ago. The properties purchased have been diversified in character and mainly in the older sections of Brooklyn, as heretofore. All the acreage heretofore purchased was developed and lots sold to such an extent that the success of the operations was assured, and the company has during the year made two additional investments in acreage aggregating about $250,000, the localities being near at hand and such as to warrant immediate development and occupation.

The holdings now consist of 471 dwellings, 79 flat buildings, 110 store and flat buildings, 37 stores, 7 stables, 27 unimproved plots. The company has invested during the year $330,000 in mortgages, and the total mortgage investments are now $607,447, exclusive of purchase money mortgages. Purchase money and other second mortgages are carried at 90% of their face value, 10% being carried in a fund to provide against possible losses. During the year $92,723 has been added to this reserve account, which represents deferred profits which we do not wish to count until realized

The company has taken advantage of the opportunity to co-operate with the Title Guaranty & Trust Co. in the making and selling of large mortgage loans on tracts of land or large building operations which seemed sound enough to justify it. The mortgages are made to the Title Guraanty & Trust Co. as trustee, and the Realty Associates buys the bonds and sells them, with payment guaranteed, at a lower rate of interest, making the difference without outlay of capital, success depending upon the credit of the company and the limiting of the operations to properties which have been investigated by the buying committee in the same careful manner as are the purchases of the company. Bonds of this character and mortgages aggregating $1,156,000 have been guaranteed by the company. The amount of such guarantles that the company may enter into has been limited by the directors to $5,000,000.

The net income from rents and interest for the fiscal year, after paying all expenses and taxes, together with the profits on sales, amounts to $653,655.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Bangor & Aroostook RR.—*Construction of Extension Indefinite.*—Referring to the authority recently obtained from the State Railroad Commission of Maine, to build a 145-mile extension from Seboeis northerly to the St. John River at or near Connors, President F. W. Cram writes:

It is expected that practically all of the open season of 1907 will be required for exploration, surveys and estimates. Nothing can now be said about financing. The route covered by the charter is all through timber without even a carriage road. It is, I think, to be assumed that construction progress will depend largely upon the aid of those whose lands are to be appreciated in value, and upon the assurances of manufacturing development upon advent of the road.

There are no alliances with any other railroad company or companies, and none have been even discussed.—V. 81, p. 50.

Bay of Quinte Railway.—*Called Bonds.*—Fifty bonds secured by mortgage dated Jan. 2 1902 have been called for redemption at 105 and interest on Feb. 20 at the Bank of Montreal in Toronto or at its agency in New York, at holders' option. See V. 74, p. 150.

Buffalo & Lake Erie Traction Co.—*Final Merger Completed.*—This new company, recently formed by consolidation of the Buffalo Dunkirk & Western RR., the Lake Erie Electric Traction Co. and the Dunkirk & Fredonia RR., on Dec. 24 consolidated with the Hamburg Ry. (V. 83, p. 1524), and on Dec. 29 again consolidated with the Erie Rapid Transit Company. By these transactions the capital stock was increased first from $1,070,000 to $4,420,000 and then to $6,750,000, $2,500,000 of this last amount being preferred. The consolidation has now been completed. The company will construct and operate a trolley line from Buffalo, N. Y., to Erie, Pa. Joseph B. Mayer of New York is President. Parker, Hatch & Sheehan of this city had charge of the consolidation.

Mortgage.—A "first and refunding mortgage" has been made to the New York Trust Co., as trustee, to secure $12,000,000 30-year 5% gold bonds dated Nov. 1 1906 and due Nov. 1 1936, but subject to call on the first day of any May or Nov. on or before Nov. 1 1911 at 105 and interest, and thereafter at 110. These bonds are issuable only as follows:

To be delivered upon the order of the President and Treasurer of the company to pay certain indebtedness incurred prior to the consolidation by the Lake Erie Electric Traction Co., Erie Rapid Transit Co. and Buffalo Dunkirk & Western RR., all of which has been assumed by the company; also for improving, extending and equipping the company's property	$4,500,000
Retained by the trustee to provide for future extensions, additions and improvements under restrictions in mortgage	2,500,000
Reserved for extensions or improvements, but issuable only under stringent provisions when the earnings of the property covered by the mortgage including the property for which the additional bonds are issued, have been at least $100,000 in excess of all operating expenses and fixed charges for the preceding twelve months, including the interest on the bonds then to be issued	2,900,000
Reserved to retire the following underlying bonds: Electric Motor Co. $148,000 1st mortgage 6s, $102,000 2nd mortgage 6s and $1,000,000 1st refunding mortgage 5s; Hamburg Railway $750,000 1st mortgage gold 4s dated Nov. 1 1906 (compare V. 83, p. 1524), of which $650,000 are outstanding and the remainder are to be issued; Dunkirk & Fredonia RR $40,000 1st mortgage 5s, $21,000 2nd mortgage 5s and $39,000 consolidated and refunding mortgage 5s	2,100,000

—V. 83, p. 1410.

Chicago & Alton RR.—*Notes Sold.*—Kuhn, Loeb & Co. have arranged to purchase an issue of $6,000,000 of 5-year 5% notes, to be secured by deposit of $8,000,000 of the 3% bonds of 1899. Of the issue, $5,250,000 will be reserved to retire the $5,000,000 notes due July 1907, the $7,000,000 of 3% notes to be released on payment of the latter to form part of the collateral for the new notes.—V. 83, p. 1523.

Chicago & North Western Ry.—*Option to Subscribe to New Stock.*—As announced by advertisement on another page, the board of directors on Jan. 15 voted to offer to shareholders of record Feb. 2 1907 the right to subscribe at par, in amounts equal to 25% of their respective holdings, to $24,403,000 of the new common stock authorized by the shareholders on Oct. 18 1906. The proceeds will be used by the company "for the purpose of constructing, improving and equipping its railway," including, it is supposed, at least a portion of the cost (about $20,000,000) of the new passenger terminals at Chicago. (V. 83, p. 1037, 890.)

The right to subscribe to the new stock will terminate with March 16 1907, on or before which last-mentioned day payments for all amounts subscribed shall be made. Certificates of stock for the amounts so paid will be issued and dated on March 18 1907, for all full shares, which stock shall be entitled to all dividends thereafter paid.

Payment of Maturing Bonds.—The $600,000 Des Moines & Minneapolis RR. first mortgage 7% bonds and the $436,000 Milwaukee Lake Shore & Western Ry. 20-year debentures maturing Feb. 1 1907 will be paid, when due, upon presentation at the office of the Treasurer of the Chicago & North Western Railway Co., 52 Wall St., New York.—V. 84, p. 50.

Chicago Rock Island & Pacific Railway Co.—*Application to List.*—The New York Stock Exchange has been requested to list $10,000,000 additional first refunding mortgage 4% bonds of 1934, making the total listed $54,342,000. See V. 84, p. 101.

Cleveland Electric Ry.—*Negotiations for Settlement.*—On Jan. 11 President Andrews and the Municipal Traction Co., with the approval of the City Council, agreed to an "operating armistice" to continue for 30 days.

During this time the Forest City Ry. is to do no further work in extending its system and is not to interfere with the operation of the Cleveland Electric lines east of the Public Square, or on Erie Street, Central Avenue and Quincy Street. See V. 84, p. 101. Meantime, also, the injunction granted by Judge Phillips preventing the Municipal Traction Co. from operating its cars over the Cleveland Electric tracks from Fulton Road to and around the Public Square is to be suspended. Compare V. 83, p. 1469. Both sides have united in a statement that it is hoped to reach "a general agreement which shall settle the entire street railway question on terms which shall be satisfactory to the public and all other interests." Mayor Johnson favors the lease of the Cleveland Electric lines by a holding company at a rental of 6% on the stock, the latter to be re-adjusted in accordance with an appraised valuation of the physical properties and the unexpired franchises, the fares to be fixed at 3 cents, with a proviso that in the event of default in the rental the Cleveland Electric Ry. is to be entitled to a renewal of the franchises sought by it without being committed to a 3-cent fare. The Municipal Traction Co. has made a formal offer to the City Council to operate the Cleveland Electric lines on substantially the lines stated by Mayor Johnson.—V. 84, p. 101.

Cleveland & Southwestern Traction Co.—*Report.*—For calendar year 1906:

Year—	*Gross.*	*Net.*	*Int. & Taxes.*	*Bal., Sur.*
1906	$645,850	$281,993	$179,252	$102,742
1905	543,227	228,973	152,693	76,280

—V. 83, p. 1228, 1037.

Columbus (O.) Railway & Light Co.—*Bonds of Subsidiary.*—At the annual meeting of the Columbus Ry. on Jan. 10, the stockholders, it is stated, authorized the mortgage trustee to turn over $165,000 bonds to the Columbus Railway & Light Co. as per terms of lease.—V. 84, p. 51.

Dallas (Tex.) Consolidated Electric Street Ry.—*Proposed Merger.*—This company announces by advertisement its intention to apply to the Thirtieth Legislature of Texas for a

special law authorizing it to consolidate with the Rapid Transit Railway Co. and the Metropolitan Street Ry. Co., and permitting it to purchase the properties, stocks, rights, privileges and franchises of said companies.—V. 75, p. 793.

Dallas (Tex.) Electric Corporation.—*Merger of Subsidiaries.*—See Dallas Consolidated Electric Street Ry. above.—V. 83, p. 323.

Delaware & Hudson Co.—*New Equipment.*—The technical papers announce that this company has within the past three or four weeks placed orders for a large number of steel underframe cars, viz., 1,500 box cars, 1,500 hopper cars. 1,000 flat cars, also for its new subsidiary, the Quebec Montreal & Southern, 1,400 box cars and 100 stock cars.—V. 84, p. 51.

Duluth Rainy Lake & Winnipeg Ry.—*Bonds Offered.*—Eversz & Co., Chicago, and 37 Pine St., New York, are offering $200,000 first mortgage 5% gold bonds, dated Jan. 1 1906, due Jan. 1 1916, but subject to call at 105 and interest on Jan. 1 1911 or any subsequent interest date prior to maturity. Interest payable Jan. 1 and July 1 at the Chase National Bank, New York, or at office of trustee, Illinois Trust & Savings Bank, Chicago. The above bonds are the unsold portion of a total authorized issue, now all outstanding, of $2,000,000, which are a first and only lien at $20,000 per mile of main line mileage, "against an actual cash cost of over $30,000 per mile." A circular says:

The company, upon the completion of its extension, shortly after Jan. 1 1907 will own and operate 100 miles of main line and 60 miles of branches, spurs and sidings, with ample terminals and equipment, forming with connections the shortest route between Duluth and Winnipeg—shorter than any now existing by nearly 80 miles. The road extends from Virginia, Minn., northwest to the Canadian boundary at Rainier, where it connects with the main line of the Canadian Northern Ry. At the southern terminus it connects with the Duluth Missabe & Northern and Duluth & Iron Range railroads.

The road runs through the largest body of standing white pine probably in existence in the United States, amounting to about 3,000,000,000 feet. This timber is being cut and manufactured into lumber on a large scale, requiring transportation. It is expected that there also will be a large movement of grain from Canada to Duluth over this road, for European export, and a considerable movement of coal and merchandise from Duluth to Winnipeg and the surrounding country. We believe that the property will earn many times the fixed charges.

The earnings for the eleven months ending Nov. 30 1906, with only 38 miles of main line in full operation, were as follows:

11 *mos.*	*Gross.*	*Net.*	*Bond int.*	*Bal., sur.*
1905-06	$310,111	$128,384	$55,000	$73,384
1904-05	183,880	72,493	41,250	31,243

For the sinking fund two-thirds of net earnings must be set aside annually after July 1 1909 for the purchase of bonds in the open market or their redemption at the call price, 105 and interest, after July 1 1911.

Interest on the bonds is guaranteed (and it is understood the entire capital stock is owned.—Ed.) by the Virginia & Rainy Lake Co., one of the largest and most profitable corporations in Minnesota. Paid-up capital, $3,000,000. Net assets over and above liabilities, nearly $10,000,000. —V. 83, p. 323.

Erie RR.—*Dissolution of Syndicate.*—The syndicate that underwrote the convertible bond issue of $12,000,000 (V. 81, p. 1100, 1610) has been dissolved, some three-fourths of the bonds, it is said, remaining on hand for distribution.

New Equipment.—This company is reported to have placed an order for 2,000 gondola cars with the Standard Steel Car Co. and 1,000 gondola cars with the Pressed Steel Car Co. This company has also just issued specifications for 3,000 box cars.

Notes Issued.—The amount of short-term notes recently placed by the company, it is understood, is about $5,000,000. Compare V. 84, p. 102.

Erie (Pa.) Rapid Transit Co.—*Merged.*—See Buffalo & Lake Erie Traction Co., above.—V. 83, p. 323, 37.

Evansville Princeton & Vincennes Interurban Ry.—*Merged.*—See Evansville & Southern Indiana Traction Co. below.—V. 83, p. 94.

Evansville & Southern Indiana Traction Co.—*Merger.*—This company, recently incorporated with $4,500,000 capital stock, has taken over the property of the Evansville Princeton & Vincennes Interurban Ry. (V. 83, p. 94), giving in consideration, it is said, $600,000 common stock and $400,000 bonds. The Evansville Electric Railway was also acquired. Those interested in the new company are said to include the following, some of whom are identified with the trolley operations of the United Gas Improvement Co. (compare Northern Indiana Ry. below):

Hugh J. McGowan, James and Charles Murdock and Henry Marshall, of Lafayette; H. B. Smith, Hartford City; L. G. Neely, Lima, O.; Former Governor W. T. Durbin, Robert I. Todd, Vice-President and General Manager of the Indianapolis Traction & Terminal Co.; T. S. Krutz and J. W. Van Dyke.

Evansville Elect. Ry.—*Merged.*—See Evansville & Southern Indiana Traction Co. above.—V. 83, p. 94.

Fitchburg RR.—*Sale of Bonds.*—The company has sold to Moffat & White of New York an issue of $2,000,000 of 4% 20-year bonds, dated April 1 1907, of which $1,500,000 to refund an equal amount of 4% bonds that mature on April 1 of this year, and the remaining $500,000 to reimburse the Boston & Maine for expenditures upon the property. The road is leased to the Boston & Maine RR. at a rental equal to 5% on its $17,360,000 preferred stock and 1% on the common stock.—V. 83, p. 751.

Forest City Ry., Cleveland.—*Probable Settlement.*—See Cleveland Electric Ry. above.—V. 84, p. 102.

Fort Dodge Des Moines & Southern Ry.—*Construction, &c.*—This company, which owns the street railways in Fort Dodge and Ames, Iowa, and is constructing an interurban electric line between Fort Dodge and Des Moines, with a branch to Ames, has recently secured trackage rights over the 40 miles of Newton & North Western between Gowrie and Kelley, and has electrified that part of the system. The new line, it is understood, has been completed from Fort Dodge Junction to Harcourt, Iowa, 2¾ miles, and from Des Moines Junction to Des Moines, 21 miles, and is being extended from Harcourt to Fort Dodge, 21 miles, and from Kelley to Ames, 7 miles. J. G. White & Co. have the entire contract for electrical equipment, including power-houses.

Mortgage.—The capital stock was increased last spring to $1,000,000 and a mortgage was made July 3 1906 (but for purposes of reference in the bonds dated April 2 1906) to the Old Colony Trust Co. of Boston, trustee, to secure an issue of first mortgage 4½% gold bonds of $1,000 each, dated April 2 1906.

These bonds will mature April 1 1931, but are subject to call as an entire issue on any interest date at 105 and interest. Interest payable Oct. 1 and April 1. The bonds are issuable as follows:

Immediately, or from time to time, upon receipt of certified resolutions of the board of directors calling for same	$2,150,000
From time to time for additional terminals upon similar order and under other restrictions	300,000
For coal lands or properties, or stock in corporations owning the same, under restrictions stated in the mortgage	750,000
For the acquisition or construction, equipment or improvement of extensions of or additions to the system, in accordance with the provisions of the mortgage, but to an amount not exceeding $25,000 per mile of such new line and extension	$25,000 per m.

The company acquired the Fort Dodge Street Ry. and the Ames & College Ry. from the Northwestern Construction Co., which in turn acquired the former from the Fort Dodge Light & Power Co. by deed dated Feb. 16 1906.

The President, Homer Loring, is also President of the Newton & North Western RR. Frederick A. Farrar of Boston, Vice-President and Treasurer of the last-named company, is a member of the firm of H. W. Poor & Co.

Frontier Electric Ry., Buffalo, N. Y.—*New Subsidiary for International Traction Co.*—This company, incorporated at Albany last August, was on Dec. 26 authorized by the State Railroad Commission to increase its capital stock from $300,000 to $1,500,000 and to make a mortgage to secure $2,000,000 bonds. The company is a subsidiary of the International Railway Co., which is controlled by the International Traction Co. of Buffalo.

Henry J. Pierce, Ellicott Square, President of International Ry. Co., was recently quoted as saying:

The Frontier Electric Railway Co. has been organized as a subsidiary company of the International Railway Co., which will own all of its stock. The new company will construct a modern high-speed, double-track electric railway, mainly on its own right-of-way, from Buffalo to the entrance of the new bridge, for which charters have already been obtained from the State of New York and the Dominion of Canada, and which will be built over the Niagara River, the American approach of which will be at the foot of Niagara St. in Niagara Falls, N. Y. It is proposed to double-track the existing line between Lockport and Tonawanda, not only to take care of the ever-increasing traffic from Lockport to Buffalo and Niagara Falls, but also to provide for the very large increase in traffic which will immediately follow the completion of the electric railway now being constructed between Rochester, Brockport, Medina, Albion, Middleport and Lockport.

The new railway company will also make connection at the new bridge at Niagara Falls with the fast electric railroad owned by the Mackenzie-Mann-Nicholls syndicate running from Toronto through Hamilton to Niagara Falls, the rights-of-way for which have been acquired and the contracts for the construction of which are now about to be let. Upon the completion of the new line between Buffalo and Niagara Falls, the International system will have the only four-track interurban electric railway in the world. It will only be a matter of months when passengers from Toronto and Hamilton and from Dunkirk and Erie will be brought without change of cars into the heart of the city of Buffalo.
